NEWS RELEASE

TE Connectivity Opens High-Tech Sensor Design and Manufacturing Center in Minnesota

2014-12-11

Strengthens TE's Innovation Leadership in the Large Sensors Market
New Facility Offers Custom Design and Manufacturing
Employment Opportunities for Engineers and Others

SCHAFFHAUSEN, Switzerland, Dec. 11, 2014 /PRNewswire/ -- TE Connectivity Ltd. (NYSE: TEL), a world leader in connectivity, officially opens today its new facility to design and manufacture highly engineered, innovative temperature sensors in Andover, Minnesota.

With its **acquisition of Measurement Specialties** TE is one of the largest connectivity and sensor companies in the world, engineering innovative sensor solutions that help customers transform their concepts into smart, connected creations. TE's unmatched portfolio of intelligent, efficient and high-performing connectivity and sensor solutions features temperature sensors, and includes sensor solutions that can cover a temperature range from -200C to +1000C degrees.

The new 51,350 square foot facility will be one of TE's largest sensor innovation centers, with a temperature technology center of expertise. The facility will serve customers across several industries and sectors, from industrial solutions to HVAC, medical devices, food preparation, aerospace and defense and beyond. TE's on-site and global network of engineers will offer custom solutions to meet customers' exacting requirements. Fast-paced product development timelines will be met with rapid prototyping as TE co-creates solutions with its customers.

TE's local employee base has grown 40 percent over the last year and the company expects to continue hiring into 2015 across its engineering and general employee population. Current employees of TE's Ham Lake, Minnesota, location will move to the new Andover facility, five miles to the southwest. The new Andover facility has the capability to expand to over 80,000 square feet.

David Coughlan, president of Sensor Solutions, TE Connectivity, said, "The opening of this new facility represents a milestone for TE and its commitment to delivering cutting-edge sensor solutions for customers, as well as to developing on-the-ground engineering talent."

ABOUT TE CONNECTIVITY

TE Connectivity (NYSE: TEL) is a $14 billion global technology leader. Our connectivity and sensor solutions are essential in today's increasingly connected world. We collaborate with engineers to transform their concepts into creations – redefining what's possible using intelligent, efficient and high-performing TE products and solutions proven in harsh environments. Our 80,000 people, including 7,500 design engineers, partner with customers in over 150 countries across a wide range of industries. We believe EVERY CONNECTION COUNTS – **www.TE.com**.
