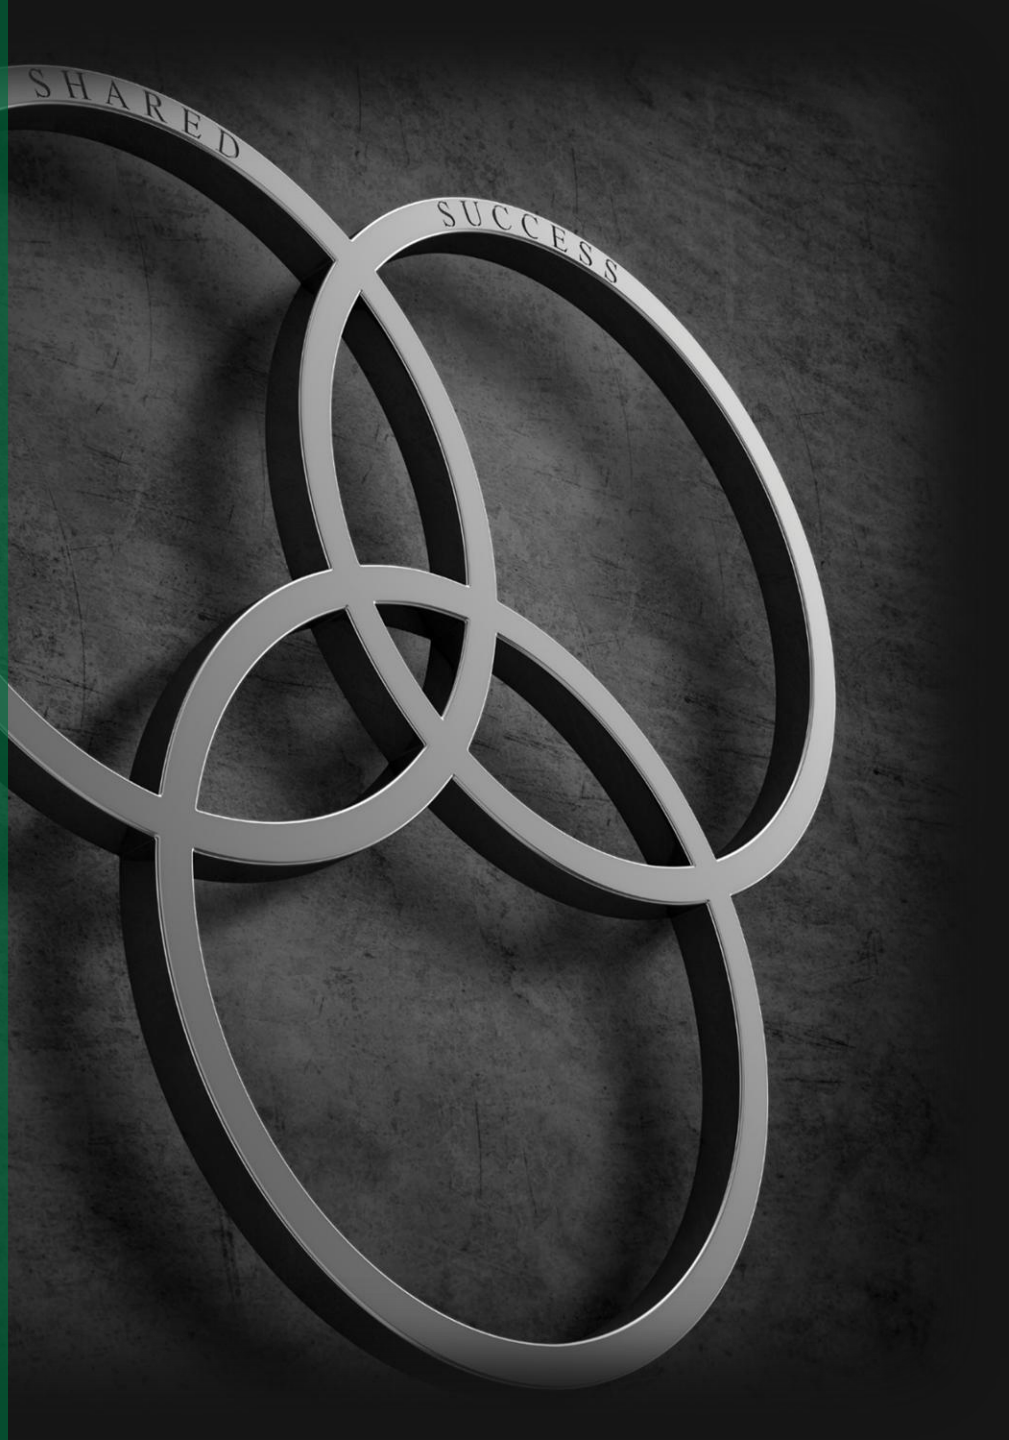
Investor Presentation
3Q 2026



Securities Legend

Forward Looking Statements "Safe Harbor" Statement Under the Private Securities Litigation Reform Act of 1995

This presentation contains statements that constitute "forward-looking statements" within the meaning, and subject to the protections of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact are forward-looking statements. Such statements include, but are not limited to, statements related to expected fourth quarter 2026 and full year 2027 earnings and profitability, realization of merger-related cost savings, growth in customer relationship, and other statements that may not be historical facts. You can identify these forward-looking statements through the use of words such as "anticipate," "believe," "assume," "aim," "can," "conclude," "continue," "could," "estimate," "expect," "foresee," "goal," "intend," "may," "might," "outlook," "possible," "plan," "predict," "project," "potential," "seek," "should," "target," "will," "will likely," "would," or the negative of these terms or other comparable terminology, as well as similar expressions of the future or otherwise regarding the outlook for Nicolet's future businesses and financial performance and/or the performance of the banking industry and economy in general.

Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and express only management's beliefs regarding future results or events, many of which, by their nature, are inherently uncertain and outside of management's control or ability to predict. A number of factors could cause actual results and outcomes to differ materially from those contemplated by these forward-looking statements. These factors include, but are not limited to: (1) post-conversion integration risks affecting customer or employee retention, and (2) continued non-core items affecting fourth quarter results.

All forward-looking statements included in this presentation are made as of the date hereof and are based on information available to management at that time. Except as required by law, Nicolet does not assume any obligation to update any forward-looking statement to reflect events or circumstances that occur after the date the forward-looking statements were made.

2026 3rd Quarter Highlights

Nicolet BANKSHARES, INC.

- Quarterly reported net income of $63.7 million, diluted EPS of $2.96, ROAA of 1.66%, and ROATCE of 20.78%
- Adjusted* earnings of $67.8 million, diluted EPS of $3.15, ROAA of 1.76%, and ROATCE of 22.01%
- Core deposit growth of 7.4% (annualized), and a reduction of brokered funding (<3% of deposits)
- Net interest margin increased by 5bps during the quarter, led by flat funding costs, as well as higher loan yields
- Wealth revenues (trust and brokerage) grew by more than 10% over the prior quarter again, driven by organic account growth and a continued strong market
- Underlying asset quality remains fundamentally strong with NPAs/Assets at 0.52%. Net charge-offs remain low at only 0.03% of loans during the quarter
- Reported tangible common equity to tangible assets increased remained stable over the prior quarter at 9.04%, however was negatively impacted by the sharp increase in AOCI due to higher interest rates ($91.1 million as of 9/30 versus $67.0 million three months prior)
- Successfully completed the core conversion of MidWestOne's systems into Nicolet's in mid-August. Also, completed the sale and converted the systems of the two Denver locations in late July

* Adjusted earnings, diluted EPS, ROAA, and ROATCE are non-GAAP calculations. A reconciliation of reported versus adjusted non-GAAP financial measures can be found in the Appendix

Quarterly Cost and Yield Analysis

Combination of core deposit gatherer with a commercial loan generator

- After bottoming out in the 1Q'2023, NIM has steadily increased each quarter since as a result of balance sheet repositioning in the securities portfolio during that quarter, as well as general repricing of the fixed loan portfolio
- While the trajectory of the NIM remains subject to several factors (especially Fed policy), the fact the loan portfolio is over 50% fixed means a period of "higher for longer" could benefit loan yields each quarter going forward.
- Beginning in the 1Q'26, yields and margins are impacted by the MOFG acquisition by approximately 20-25bps due to scheduled purchase accounting accretion

Asset Quality Metrics

Conservative Credit Culture + Aggressive Asset Resolution = Strong Asset Quality

- Nicolet's consistent credit culture has maintained NPAs well below peers. Periodic spikes in NPAs have largely been due to acquisition activity.
- The dairy/ag portfolio has historically carried higher grading risk, and less risk of loss due to FSA guarantees, conservative advance rates, and the Chapter 12 farm bankruptcy process. Total aggregate lifetime losses in the legacy ICB and current Nicolet dairy portfolio totaled less than $6.0 million (over 27+ years)
- Net charge-offs have remained at near historical lows due to strong fundamentals among core customer base despite economic uncertainty stemming from the current inflationary pressures, and the fluctuations in interest rates

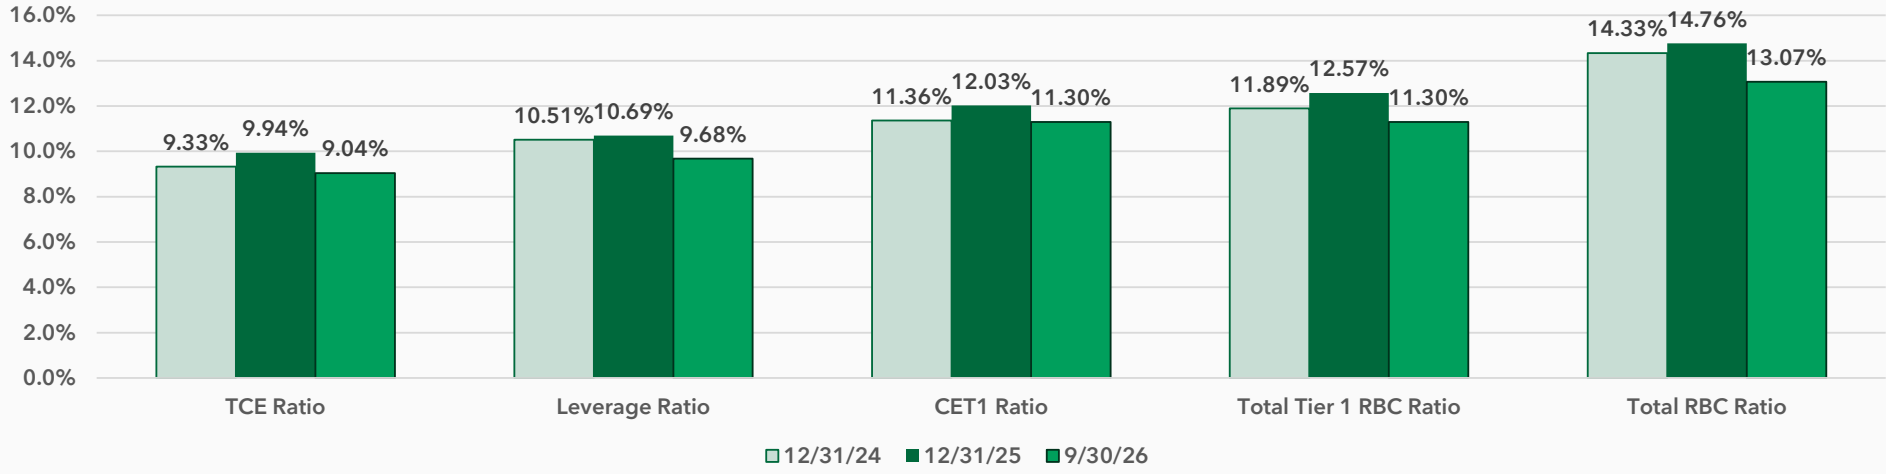
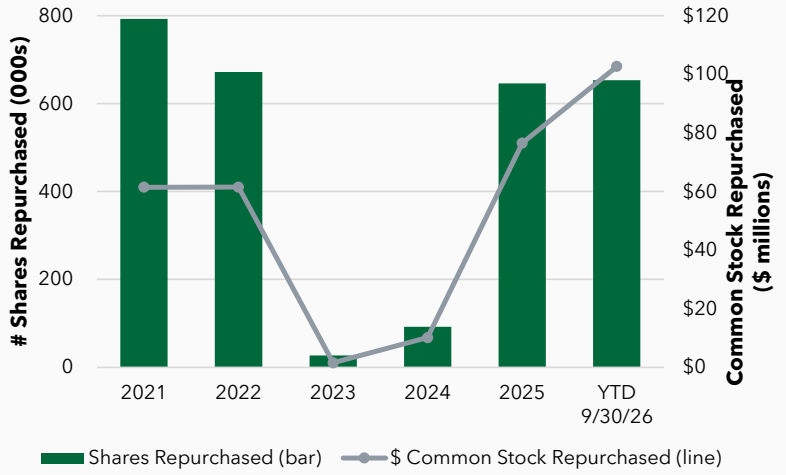
Strong and Growing Capital Base

Key Consolidated Capital Ratios



Common Shares Repurchased



Strong Regulatory Capital Base

- Completed 10 capital accretive M&A transactions in the last 14 years – continue to look for strategic opportunities, although have become highly selective given our current size
- Redeemed $92.9 million (par value) of trust preferred securities (at a weighted average cost of 5.81%) in the 2Q'26 as they no longer qualify for Tier 1 Capital treatment
- Long term strategy of capital deployment through share repurchases, quarterly dividends (increased in June 2026), and accretive M&A
- 2026 capital priorities include a combination of funding organic loan growth, share repurchases, and cash dividends. Future bank M&A unlikely until 2027 or beyond.

Investment Considerations

Nicolet
BANKSHARES, INC.

Real People. Real Conversations.

Investment Considerations

Nicolet BANKSHARES, INC.

- The Upper Midwest's predominant community banking franchise
- Since inception, proven ability to grow both organically and through M&A
- Experienced consolidator that has successfully announced, closed, and integrated almost all types of M&A transactions – The buyer of choice in the Upper Midwest
- Transparent Balance Sheet: Minimal credit risk in investment portfolio (no HTM securities), core funded, loan portfolio almost entirely in market with very few participations
- Conservative credit culture led to long history of below-peer NPAs and charge-offs through the credit cycle
- Core return ratios (ROAA and ROATCE) consistently among the top quartile, if not top decile of publicly traded banks
- ~12% compound annual growth rate of tangible book value per share since 2016
- Wisconsin's #1 banking dairy lender
- With strong insider ownership (~10%, including past directors), our "Owner/Manager" philosophy drives capital management decisions
- Our Three Circle philosophy has a 25-year track record of sustained value creation for *customers, employees,* and *shareholders*
