Disclaimers

Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of Section 21E of the Exchange Act, including but not limited to statements related to our outlook for Q4 and full year 2026, and other financial and business goals. Forward-looking statements are based on our expectations as of the date of this presentation and are subject to a number of risks, uncertainties and assumptions, many of which involve factors or circumstances that are beyond our control. Actual results could materially differ because of such factors or circumstances, which include those described in our third quarter 2026 earnings release. You should carefully consider these factors as well as the risks and uncertainties outlined in greater detail in the Risk Factors sections of our 2025 Form 10-K and our other SEC filings before making any investment decision with respect to our common stock. These factors, individually or in the aggregate, may cause our actual results to differ materially from our expected and historical results. We undertake no obligation to revise or update publicly any forward-looking statement for any reason, except as otherwise required by law.

Industry Data

This presentation contains statistical data, estimates, and forecasts that are based on independent industry publications or other publicly available information, as well as other information based on our internal sources. While we believe the industry and market data included in this presentation are reliable and are based on reasonable assumptions, these data involve many assumptions and limitations, and you are cautioned not to give undue weight to these estimates. We have not independently verified the accuracy or completeness of the data contained in these industry publications and other publicly available information.

Non-GAAP Financial Measures

This presentation includes certain non-GAAP measures not based on generally accepted accounting principles. For more information and for reconciliations between GAAP and these non-GAAP measures, see the appendix to this presentation.

Financial & Business Highlights

©2026 InterDigital, Inc. All Rights Reserved.

Q3 Financial Highlights

- ✓ Revenue up 17% YoY to $193M, Adj. EBITDA[1] up 25% YoY to $131 million and Non-GAAP EPS[1] up 22% YoY to $3.11, all far exceeding top end of guidance range
- ✓ Annualized Recurring Revenue[2] (ARR) at all-time high of $629 million
- ✓ CE, IoT/Auto revenue up 97% YoY to $56 million
- ✓ Adj. EBITDA margin[1] of 68%
- ✓ Free cash flow[1] of $136 million
- ✓ Return of capital of $121 million, including $83 million reduction in debt and $38 million of share repurchases and dividends declared
- ✓ Increased quarterly dividend from $0.70 to $0.75

1 Non-GAAP Measure / Please see appendix for GAAP to Non-GAAP reconciliations
2 Please see appendix for a description of this metric and how it is calculated

©2026 InterDigital, Inc. All Rights Reserved.

Recent Business Highlights

- ✓ Reached agreement via binding arbitration with a top PC manufacturer; 4 of the top 5 PC vendors now licensed
- ✓ Signed IoT license with EV charging company KEBA
- ✓ Awarded two new injunctions against Disney by Europe's Unified Patent Court; in total eight injunctions won against Disney out of eight patent cases decided to date
- ✓ Received a Best in Show award with research partner NHK for our demonstration of VVC Multilayer Coding at IBC 2026
- ✓ Demonstrated our expertise in shaping 6G with docu-film, "Built on Innovation: InterDigital and the Future of Connectivity"
- ✓ Recognized as one of America's Greatest Companies by Newsweek and one of America's Growth Leaders by Time

InterDigital Pioneering Wireless, Video and AI Research

HIGHLIGHTS

World-class team
Led by seasoned industry veterans

Driving foundational research in wireless, video & AI since 1972

Industry-leading patents Evergreen patent portfolio of ~40,000 assets

Long-term customers
Subscription-like revenue, $5B+ in TCV[1] added since the start of 2021

Enabling ecosystem
~9B wireless connections with $7.6T economic value annually

2025 Financial Results

$834M	$15.31	71%	~$1.2B
Revenue	Non-GAAP EPS[2]	Adj. EBITDA Margin[2]	Cash

KEY CUSTOMERS INCLUDE:

1 TCV = total contract value
2 Non-GAAP financial measure. Refer to non-GAAP reconciliation in appendix, and our Q3 2026 10-Q for a sensitivity table showing the dilutive impact of our convertible notes.

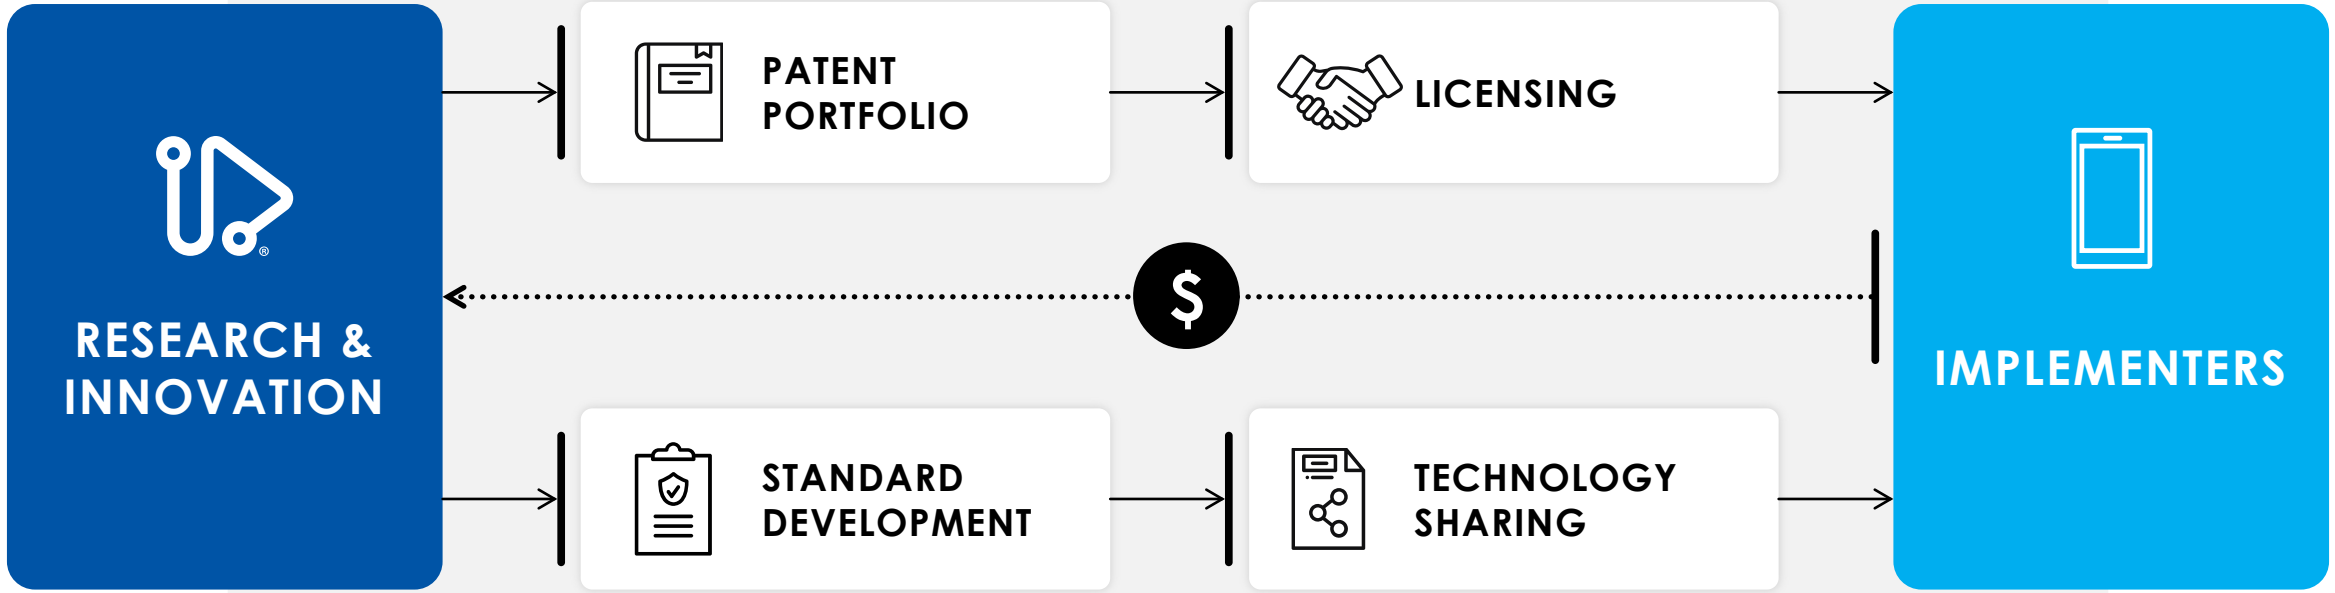
Subscription-Based Licensing Model
A Virtuous Cycle of Innovation

We are a foundational R&D company. We share our innovation through the standards process and monetize our technology through IP licensing.



©2026 InterDigital, Inc. All Rights Reserved.

We Focus on Foundational Technologies

We solve the most complex problems in the system.
The technology we created is broadly applicable to many industries

WIRELESS

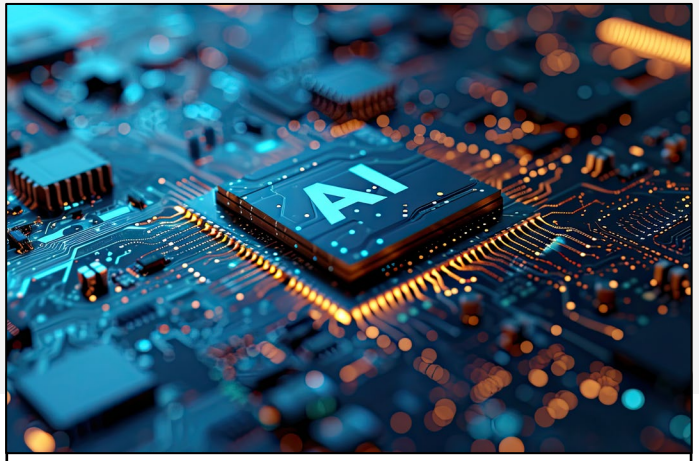
Cellular wireless - 4G/5G/6G

WiFi and wireless local area networks

VIDEO

Video compression, transport and enhancement

Immersive media compression, transport and enhancement



AI

AI/ML research to deliver next gen wireless and video technologies and services

AI/ML innovation to boost performance, save energy, and enable new use cases

Our research and patents in these areas underpin our business

The Power of the Global Standards System

CONSUMERS

A global system of standards helps ensure interoperability

IMPLEMENTERS

Standards like 5G lower barriers to entry for new entrants into a market like smartphones and benefit from economies of scale

OPERATORS AND SERVICE PROVIDERS

Standards increase system capacity and lower the total cost of ownership

©2026 InterDigital, Inc. All Rights Reserved.

InterDigital Drives Standard Development

UNITING PRINCIPLES

Strong belief in global standards

Focus on technology merits and neutral on product implementation decisions

STRONG LEADERSHIP

Participate in 100+ standard development organizations (SDO)

Hold more than 100 leadership positions in these SDOs

BROAD COLLABORATIONS

Collaborate with many industry partners and leading universities

Our technologies benefit the whole eco-system: billions of devices and many cloud-based services each year

Capital Allocation Priorities

Organic investment in business

Prioritize investment into research and IP portfolio

Inorganic investment

Opportunistic and strategic

Maintain **fortress balance sheet**

Financial strength is a strategic asset

Return **Excess cash** to shareholders

> $600M in share repurchases last 5 yrs

More than doubled dividend last 4 yrs

Strong cash flow funds organic investment in research, fortifies the balance sheet and enables significant share reduction

Supplemental Metrics

Annualized recurring revenue ("ARR") for any quarter is defined as total revenue for the quarter less catch-up revenue for the quarter, multiplied by four. Management believes ARR provides useful information about our financial performance, and our progress toward our 2030 targets. ARR is not a projection or forecast, and actual recurring revenue for any 12-month period will depend on a number of factors beyond our ability to predict or control, including those risks and uncertainties listed above. Additionally, ARR may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies.

Adjusted EBITDA and Adjusted EBITDA margin are supplemental non-GAAP financial measures that InterDigital believes provide investors with important insight into the Company's ongoing business performance. InterDigital defines Adjusted EBITDA as net income attributable to InterDigital Inc. plus net loss attributable to non-controlling interest, income tax benefit (provision), other income, net & interest expense, depreciation and amortization, share-based compensation, and other items. Other items include restructuring costs, impairment charges and other non-recurring items. Adjusted EBITDA margin is Adjusted EBITDA over total revenue. These non-GAAP financial measures used by the company may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies. The presentation of these financial measures, which are not prepared under any comprehensive set of accounting rules or principles, is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. A reconciliation of Adjusted EBITDA to the most directly comparable GAAP financial measure is provided below.

Non-GAAP net income, Non-GAAP earnings per share (“EPS”), and Non-GAAP weighted-average diluted shares are supplemental non-GAAP financial measures that InterDigital believes provide investors with important insight into the Company's ongoing business performance. InterDigital defines Non-GAAP net income as net income attributable to InterDigital, Inc. plus share-based compensation, acquisition related amortization, restructuring costs, impairment charges and one-time adjustments, losses on extinguishments of long-term debt, the related income tax effect of the preceding items, and adjustments to income taxes. Non-GAAP EPS is defined as Non-GAAP net income divided by Non-GAAP weighted-average diluted shares, which adjusts the weighted-average number of common shares outstanding for the dilutive effect of the Company's convertible notes, offset by our hedging arrangements. InterDigital’s computation of these non-GAAP financial measures might not be comparable to similarly named measures reported by other companies. The presentation of these financial measures, which are not prepared under any comprehensive set of accounting rules or principles, is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. A reconciliation of each of these metrics to its most directly comparable GAAP financial measure is provided below.

Free cash flow is a supplemental non-GAAP financial measure that InterDigital believes is helpful in evaluating the company’s ability to invest in its business, make strategic acquisitions and fund share repurchases, among other things. A limitation of the utility of free cash flow as a measure of financial performance is that it does not represent the total increase or decrease in the company’s cash balance for the period. InterDigital defines free cash flow as net cash provided by (used in) operating activities less capital expenditures and capitalized patent costs. InterDigital’s computation of free cash flow might not be comparable to free cash flow reported by other companies. The presentation of free cash flow, which is not prepared under any comprehensive set of accounting rules or principles, is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. A reconciliation of free cash flow to net cash provided by (used in) operating activities, the most directly comparable GAAP financial measure, is provided below.
