Jack in the Box Inc.
Unaudited quarterly pro forma financial information for the trailing four quarters As of the quarter ended April 17, 2022

## Introduction

On December 5, 2021, Jack in the Box Inc. (the "Company" or "Jack in the Box"), entered into an Agreement and Plan of Merger (the "Merger Agreement") with Del Taco Restaurants, Inc., a publicly traded Delaware corporation ("Del Taco"). On March 8, 2022 (the "Closing" or the "Closing Date"), Jack in the Box purchased all of the outstanding equity interest in Del Taco through the merger of a wholly owned subsidiary of the Company ("Merger Sub") with and into Del Taco (the "Merger"), with Del Taco surviving the Merger as a wholly owned subsidiary of Jack in the Box.

On May 24, 2022, the Company filed a Current Report on Form 8-K/A to illustrate the estimated effects of the Merger. The Form 8-K/A included unaudited pro forma condensed combined balance sheet as of January 23, 2022, unaudited pro forma condensed combined statement of earnings (loss) for the sixteen weeks ended January 23, 2022, and unaudited pro forma condensed combined statement of earnings (loss) for the year ended October 3, 2021.

In this presentation, the Company is providing unaudited pro forma consolidated financial information to assist investors in assessing the Company's historical performance as though Del Taco and the Company had been combined as of the beginning of fiscal year 2021. The following unaudited pro forma condensed financial information has been prepared in accordance with Accounting Standards Codification ("ASC") 805, Business Combinations, and presents the combined results as though Del Taco and the Company had been combined as of the beginning of fiscal year 2021. The unaudited pro forma financial information as presented below is for informational purposes only and is not necessarily indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of fiscal 2021 , nor is it necessarily an indication of trends in future results for a number of reasons, including, but not limited to, differences between the assumptions used to prepare the pro forma information, cost savings from operating efficiencies, potential synergies, and the impact of incremental costs incurred in integrating the businesses.

The unaudited pro forma financial information for all periods presented includes the business combination accounting effects resulting from this acquisition, mainly including adjustments to reflect additional amortization expense from acquired intangibles, incremental depreciation expense from the fair value property and equipment, adjusted rent expense reflecting the acquired right-of-use assets and liabilities to their estimated acquisition-date values based upon preliminary valuation of related lease intangibles and remaining payments, as well as the fair value adjustments made to leasehold improvements, and certain material non-recurring adjustments as though Del Taco was combined as of the beginning of fiscal 2021.

Jack in the Box has a fiscal year consisting of 52 or 53 weeks, ending on the Sunday closest to September 30. By contrast, the fiscal year for Del Taco historically ended on the Tuesday closest to December 31. Upon acquisition, Del Taco's fiscal year end now operates on a fiscal year ending the Tuesday closest to September 30. As such, Del Taco's historical results in the unaudited pro forma combined financial information were derived from the unaudited financial information which conform to its new fiscal year end. The fiscal quarter ending October 3, 2021 includes 13 weeks for Jack in the Box and 12 weeks for Del Taco's comparable fiscal quarter.

(1) Franchised restaurant sales represent sales at franchised restaurants and are revenues of our franchisees. System sales include company and franchised restaurant sales. We do not record franchised sales as revenues; however, our royalty revenues, marketing fees and percentage rent revenues are calculated based on a percentage of franchised sales. We believe franchised and system restaurant sales information is useful to investors as they have a direct effect on the Company's profitability.

The following table summarizes changes in same-store sales for company-operated, franchised, and system restaurants:
