Q2 2022 FINANCIAL RESULTS
AUGUST 11, 2022

SAFE HARBOR STATEMENT

This presentation and the related earnings press release contains “forward-looking statements” within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain words such as “guidance,” “believe,” “anticipate,” “expect,” “estimate,” “intend,” “project,” “plan,” “seek,” “pursue,” or words or phrases with similar meaning. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved, if at all. Forward-looking statements contained in this presentation and the related earnings press release relate to, among other things, statements regarding our anticipated growth, distribution, velocity and net sales guidance. Forward-looking statements are based on current expectations, forecasts and assumptions that involve risks and uncertainties, including, but not limited to, the ability to develop and maintain our brand, change in consumer preferences, pricing factors, the impact of inflation on our sales growth and cost structure such as increased commodity, packaging, transportation and freight, warehouse, labor and other input costs and other economic, competitive and governmental factors outside of our control that may cause our business, strategy or actual results to differ materially from the forward-looking statements. We do not intend and undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by applicable law. Investors are referred to our filings with the U.S. Securities and Exchange Commission (“SEC”), including our Form 10-Q , for additional information regarding the risks and uncertainties that may cause actual results to differ materially from those expressed in any forward-looking statement. The Company’s SEC filings are available at no charge at www.sec.gov and at the Company’s website at https://investors.zevia.com/.

Non-GAAP Financial Information

We use Adjusted EBITDA, a financial measure in this presentation and the related earnings press release that is not calculated in accordance with U.S. generally accepted accounting principles (“GAAP”). The Company’s management believes that Adjusted EBITDA can assist investors in evaluating the Company’s operational trends, financial performance, and cash generating capacity. Management believes this non-GAAP financial measure allows investors to evaluate the Company’s financial performance using some of the same measures as management. We calculate Adjusted EBITDA as net income (loss), the most comparable GAAP measurement, adjusted to exclude: (1) other income (expense), net, which includes interest (income) expense, foreign currency (gains) losses, and (gains) losses on disposal of fixed assets, (2) provision (benefit) for income taxes (3) depreciation and amortization and (4) equity-based compensation. Adjusted EBITDA may in the future also be adjusted for amounts impacting net income related to the Tax Receivable Agreement liability and other infrequent and unusual transactions. We believe that the use of Adjusted EBITDA is helpful to our investors as it is a measure used by management in assessing the health of our business, determining incentive compensation and evaluating our operating performance, as well as for internal planning and forecasting purposes. This non-GAAP financial measure is designed to supplement, and not substitute the Company’s financial information presented in accordance with GAAP. The non-GAAP financial measure as defined by the Company may not be comparable to similar non-GAAP financial measures presented by other companies. Reconciliations of the Company’s non-GAAP financial measures to the most directly comparable GAAP financial metrics are available in the Company’s related earnings press release and on the Company’s website at https://investors.zevia.com/.

WE

ARE

an ESG company addressing global health and sustainability by providing a platform of great-tasting, naturally sweetened, zero-sugar beverages, without selling a single plastic bottle.

WE

BELIEVE

in supporting the health of individuals, of the communities in which we live, and in becoming 1% better every day.
