Sector-leading Diversity – Tenant, Industry & Geography

STORE has a deep base of high-quality generalist and real estate dedicated stockholders

"In founding STORE, our idea was to deliver investors superior risk-adjusted rates of return through the creation of investment-grade net lease contracts with non-rated tenants through contract seniority, a consistent investment approach and extensive portfolio diversification."

Christopher Volk, CEO

STORE: A Class of Our Own

STORE (stör): Single Tenant Operational Real Estate, or profit-center properties, is a real estate investment asset class distinguished by three payment sources which, combined with “table stakes”, enable net lease contract superiority to the underlying credit quality profile of the tenant.

The Power of Profit Center Real Estate

Single Tenant Operational Real Estate
(An Important Third Payment Source)

Unit-Level Profitability
Unique to STORE

Corporate Credit & Property Value
All real estate investors have this

The “Table Stakes”

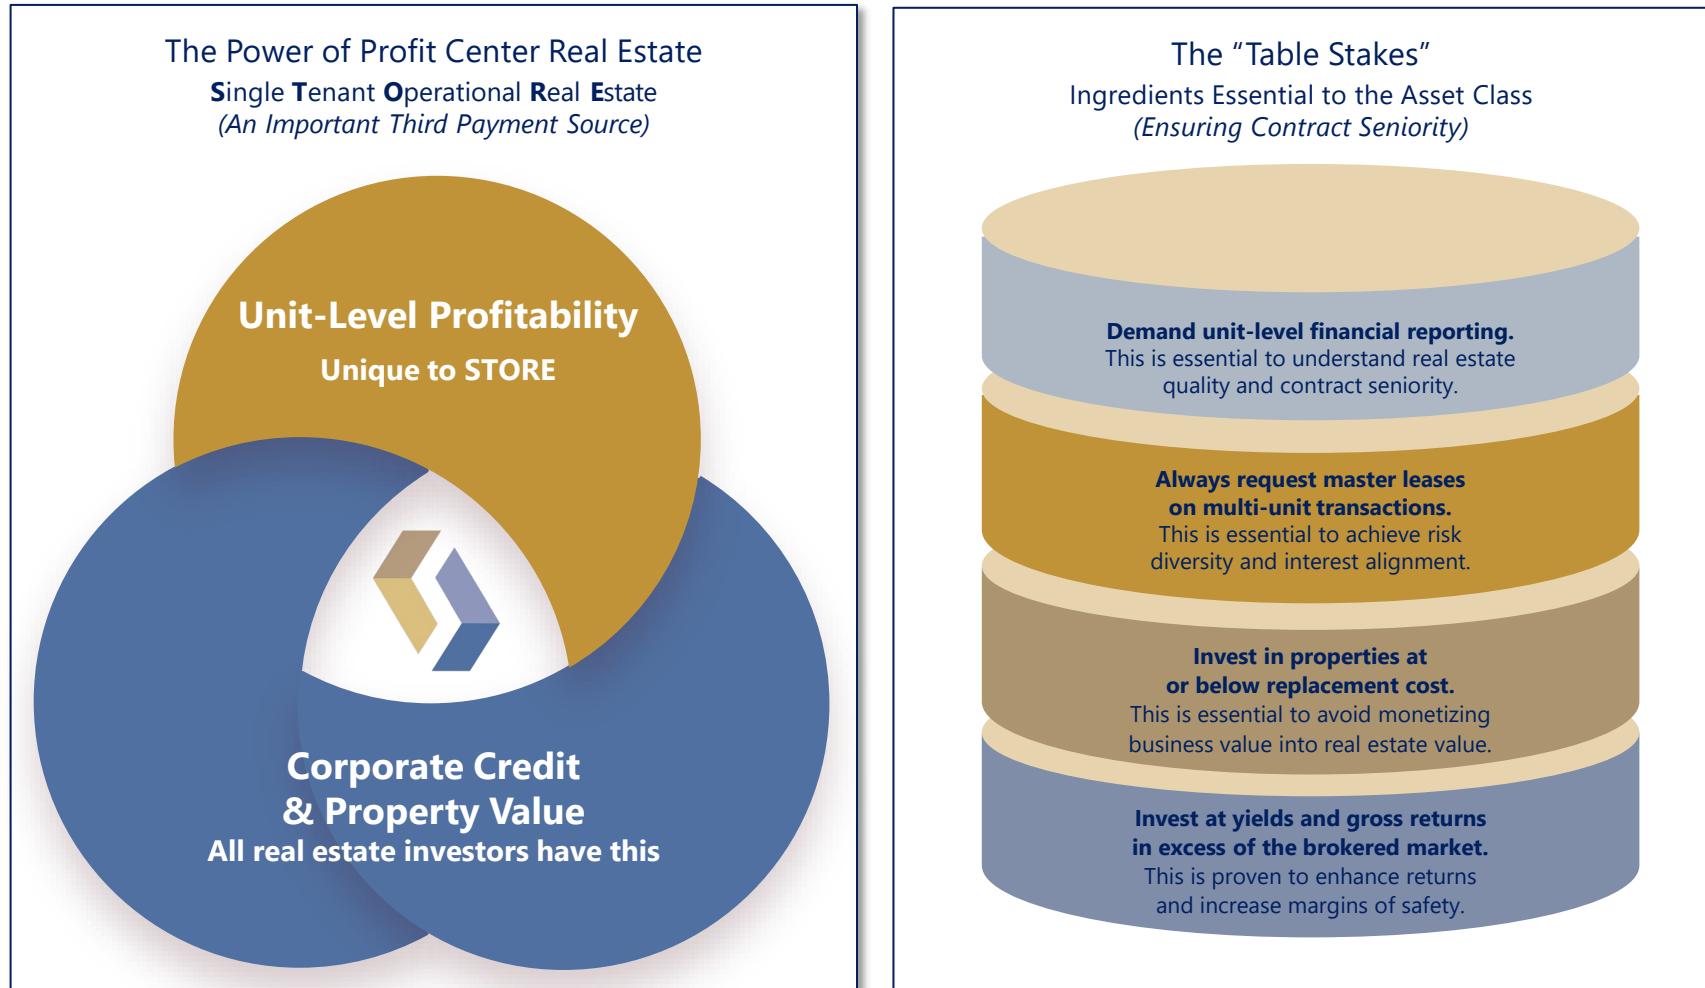

Ingredients Essential to the Asset Class
(Ensuring Contract Seniority)

Demand unit-level financial reporting.
This is essential to understand real estate quality and contract seniority.

Always request master leases on multi-unit transactions.
This is essential to achieve risk diversity and interest alignment.

Invest in properties at or below replacement cost.
This is essential to avoid monetizing business value into real estate value.

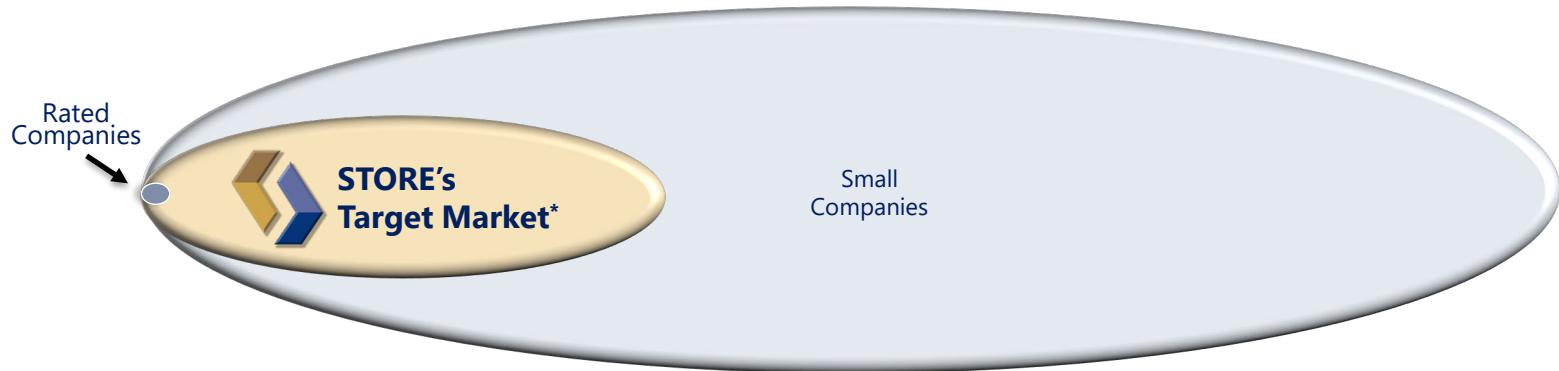

Invest at yields and gross returns in excess of the brokered market.
This is proven to enhance returns and increase margins of safety.

Broad-Based Market Need

Creating stakeholder value begins with meeting broad-based needs and adding value to our customers.

Nearly 200,000 Companies in STORE's Target Market¹ with ~26,000 Contacts in Proprietary Prospecting Database

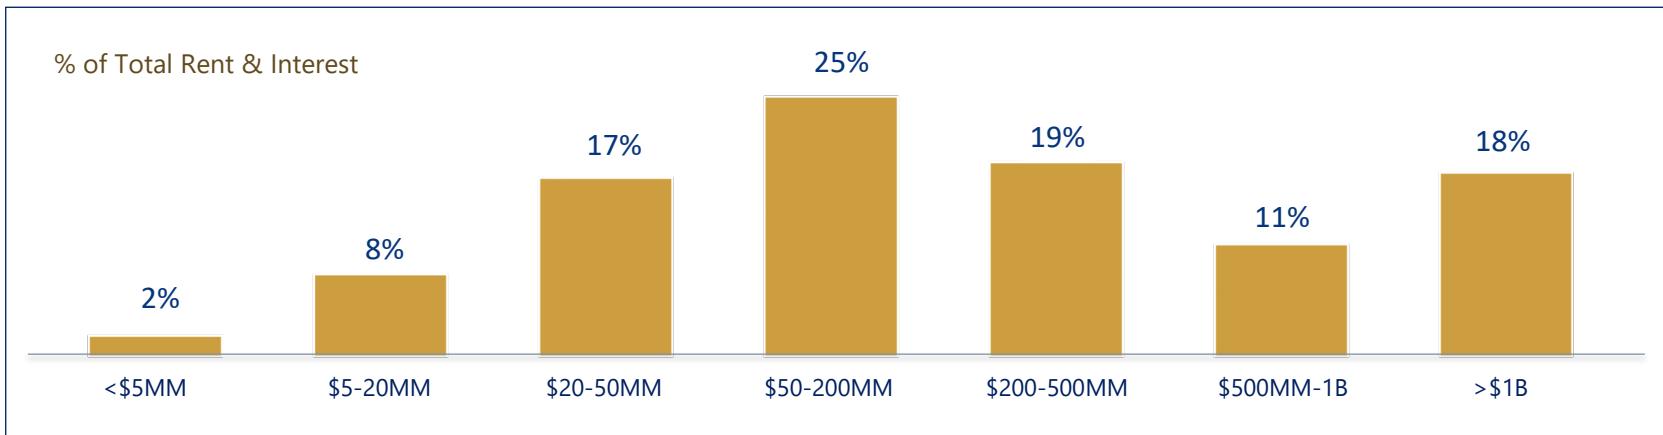

*Companies with over \$10MM in annual revenue.

Lease Form	Ours

STORE Tenant Profile

STORE's Customer Revenue Distribution¹

Market-Leading National and Regional Companies

STORE's Tenant Metrics

- ~73% of customers have revenues ~\$50 million
- Weighted average tenant revenues ~\$800 million
- 2019 Tenant revenue growth of >12%²
- Employ ~2.5m workers³
- Operate ~36,000 locations in 50 states⁴
- Repeat customers about one-third of new business
- Wtd. Avg. Tolerable Sales Fall-off: ~40%⁵

STORE Delivers a Leading Net Lease Business Model

STORE's investor returns are foremost delivered by a strong corporate business model resulting in consistent and predictable performance.

The Seven Net Lease Business Model Variables	STORE's Historical Rank
1. Beginning Lease Yield	Highest
2. Contractual Lease Escalations	Top Quartile
3. Operating Profit Margin	Second Quartile
4. Spread Between Lease Yield and Borrowing Cost	Highest
5. Spread Between Investment AFFO Multiple and Traded AFFO Multiple	Top Quartile
6. Ability to Accretively Recycle Asset Sales Proceeds	Top Quartile
7. Low Dividend Payout Ratio	Top Quartile

"STORE seeks to buy assets that our shareholders are unlikely to see, at prices they would be unlikely to find, with lease yields, escalations and documentation they are unlikely to get, financed more efficiently than they would be able to do for themselves, all backed by the unparalleled portfolio servicing and management skills that we can deliver."

-- Christopher Volk, CEO

STORE Stands Apart with a Fortress Balance Sheet

"We have always believed in the power of the right-side of our balance sheet to lower our cost of capital and manage interest rate and investment risk. Uniquely having two means of term investment-grade borrowing is key to our balance sheet leadership." – Catherine Long, CFO

Baa2/BBB/BBB Unsecured Term Borrowings

Rated by Moody's, S&P and Fitch Ratings

Select Ratios	A-/BBB+ Net Lease Avg ¹	STORE's Unencumbered Assets ²
Debt/EBITDA	~5x	3.5x
Unencumbered assets/unsecured debt	~3x	4.1x
Debt service coverage	~5x	6.9x

~63% of assets @ 25% leverage (vs cost)

About half the leverage of AAA-rated Master Funding notes, STORE has among the lowest unencumbered asset ratio of any REIT.

AAA & A+ STORE Master Funding

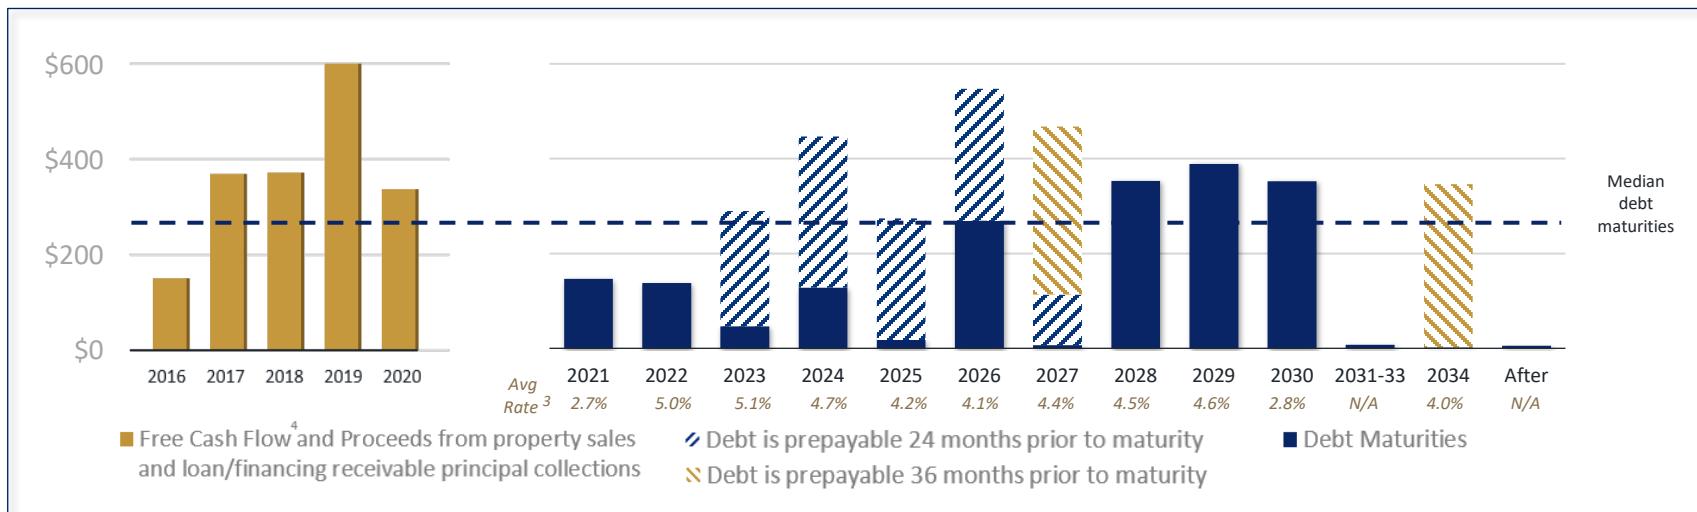

Dedicated Asset-Backed Securities Conduit

- Able to maintain constant leverage enabling superior unsecured debt ratios
- Complete portfolio management flexibility
- Provides borrowing diversity & prepayment flexibility
- Non-recourse with minimal covenants

~33% of assets @ ~64% leverage

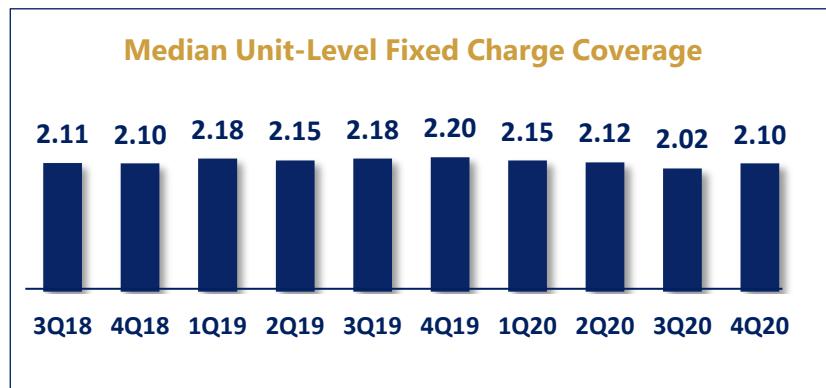

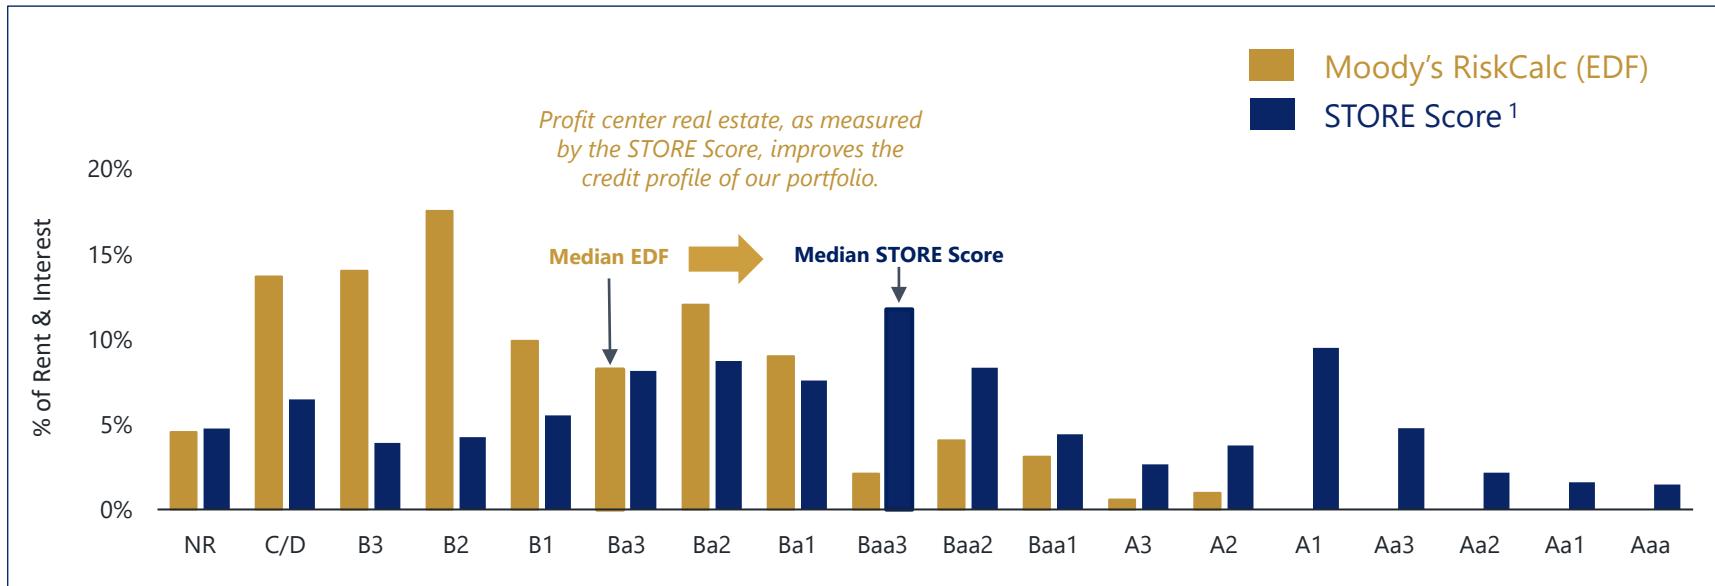

45% Leverage to AAA & 25% More Leverage to A+
Offers added credit support to unsecured noteholders.

Annual Cash Flows Compare Favorably to a Well-Laddered Debt Maturity Schedule

Creating Superior Contracts

Our asset class allows for the creation of an investment-grade portfolio.

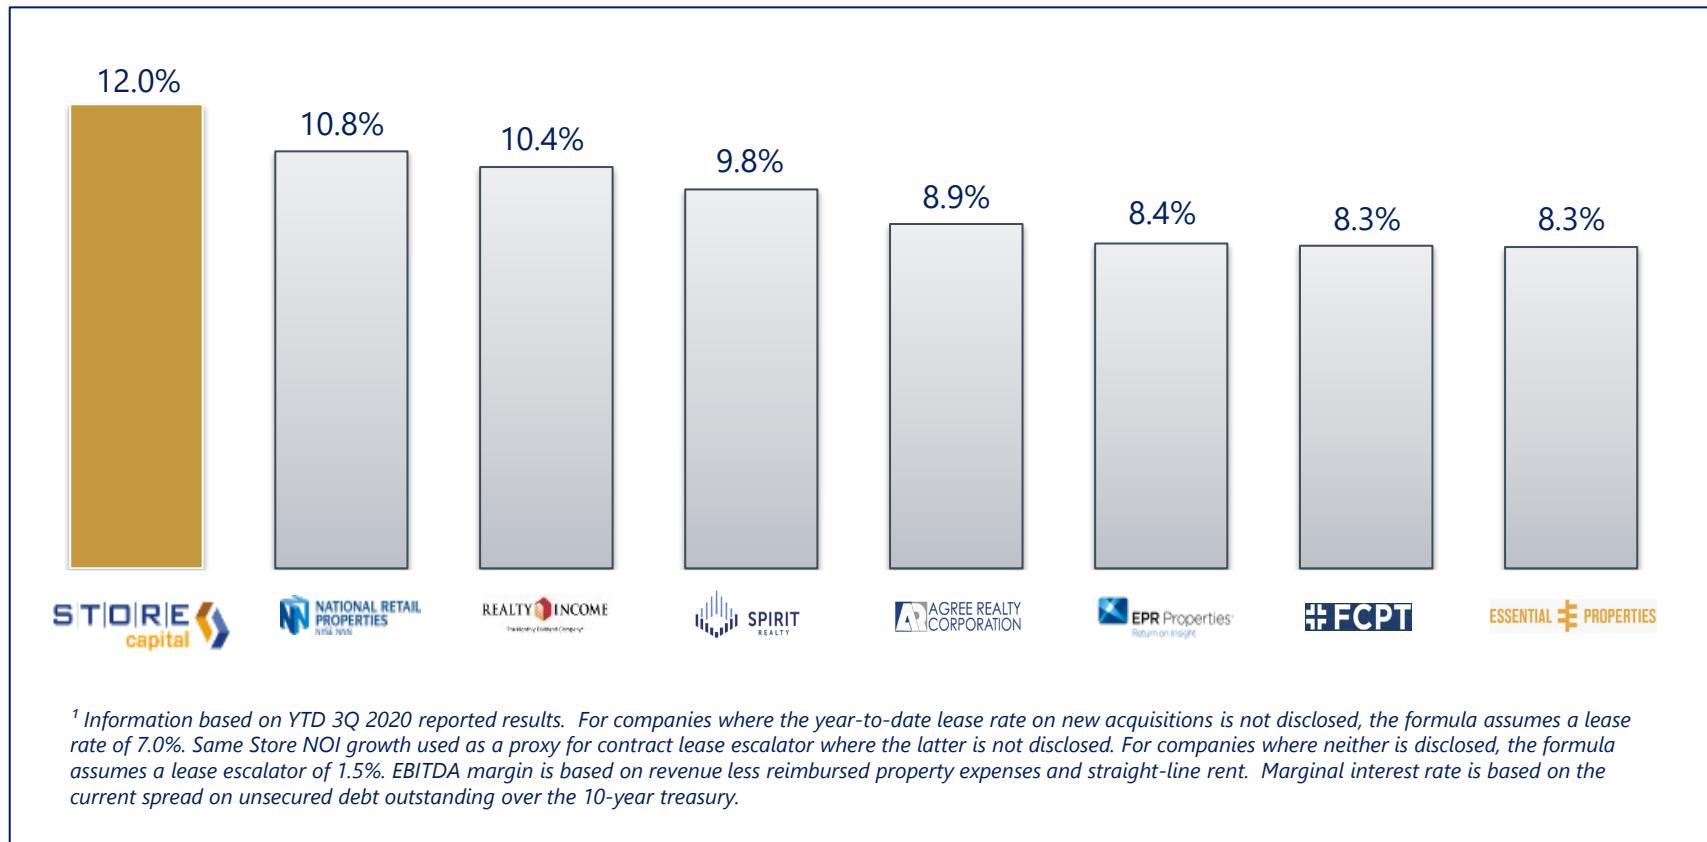

- STORE's contracts remain strong with Median EDF and Median STORE Score remaining consistent with Q3 at Ba3 and Baa3, respectively.
- STORE's focus on unit-level profitability has remained unchanged with median contract coverage consistently over 2.0x.
- The STORE Score is conservative, not accounting for qualitative credit enhancements or capital stack seniority.

Business Model Leadership: External Growth

Our business model delivers higher returns on equity with high margins of safety.

Marginal Equity Return¹

Business Model Leadership: Internal Growth

STORE leads in internal growth, from accretive property sales to contractual rent increases to low dividend payout ratios.

Estimated Gross Internal Growth¹

Annual Rent Growth	AFFO per Share Growth
1.0%	1.40%
1.3%	1.82%
1.5%	2.10%
1.8%	2.52%
2.0%	2.79%

AFFO Growth from Reinvested Free Cash Flow			
AFFO Dividend Payout Ratio			
65%	70%	75%	80%
3.49%	2.98%	2.46%	1.94%
AFFO Per Share Growth			

AFFO Growth from Reinvested Property Sale Proceeds					
Portion of Beginning Portfolio Sold					
Sale Cap Rate vs Reinvestment Cap Rate	1%	2%	3%	4%	5%
20bps	0.0%	0.1%	0.1%	0.2%	0.2%
40bps	0.1%	0.2%	0.3%	0.3%	0.4%
60bps	0.1%	0.3%	0.4%	0.5%	0.6%
70bps	0.2%	0.3%	0.5%	0.7%	0.8%

= >5%

Our leading focus on internal growth is designed to enable STORE to realize attractive and consistent AFFO per share growth no matter the size of our balance sheet.

Contract Stability and Risk-Adjusted Returns

With historic gross returns for STORE of ~10% versus ~7% for that of real estate leased to investment-grade tenants, STORE has a ~43% margin of safety.

STORE's Market	Investment-Grade Tenants
Lease Yield + Escalators = Gross Return	
~8% + 2% = ~10%	~6% + 1% = ~7%
Contract Quality: Stable	53%-73% Non-IG in 10-20 Years

Corporate Responsibility: Our Commitment to All Stakeholders

Our definition of success: making a positive difference for our stakeholders.

Environmental, Social, Governance (ESG) ratings reported by Institutional Shareholder Services (ISS) provide insight for investors on how companies perform in key areas of sustainability.

STORE Capital's ISS Quality Score ratings are some of the most favorable in the net lease sector reflecting our commitment to all our stakeholders.

*'1' represents the highest quality and lowest risk.

Stockholders	STORE seeks to deliver stable, predictable, investment-grade stockholder performance and superior Market Value Added.
Customers	STORE real estate capital solutions enable improved customer wealth creation and increased workforce and leadership opportunities.
Employees	STORE promotes employee opportunity, education, engagement and diversity.
Suppliers	STORE provides opportunities to professional, supplier and service vendors to prosper through fair business practices and dependable engagements.
Communities	STORE contributes to our community and many communities across the country through our multiple investments and associated career opportunities.
Environment	STORE works to promote and improve environmental conscientiousness through our attention to and promotion of environmental stewardship.

Corporate Responsibility at the Forefront in 2020

STORE's commitment to sustainability, community, social responsibility and governance was reinforced this past year.

Hosted Annual Two-Day Customer Event

New recognition for customers who developed exceptional environmental, sustainability, and social responsibility programs of their own. Acknowledged the efforts of customers who developed and instituted the use of biodegradable plastics and established innovative employee engagement practices.

Enhanced Corporate Governance

Added new independent director, Tawn Kelley, a seasoned executive in the real estate finance industry, to the board. Independent directors comprise 78% of the Board; women represent 33%.

Provided Customer Pandemic Resources

Created COVID-19 resource center to serve our middle market tenants, with online resources and a dedicated internal team to help them navigate the various lending programs.

Published first ever Corporate Responsibility Report

To view the report, visit https://www.storecapital.com/wp-content/uploads/STORE_Capital_2020_Corporate_Reponsibility_Report.pdf

Hosted 2020 Virtual Externship

A professional development program for students who were adversely impacted by the pandemic that are interested in finance and real estate.

Credit Facility and Unsecured Notes Covenants

Presented below is a summary of the key financial covenants as they relate to STORE's unsecured debt, which consists of:

- Unsecured Revolving Credit Facility (Credit Facility)
- Note Purchase Agreements (NPAs)
- Senior Unsecured Notes (Public Notes)

Such covenants are defined and calculated in accordance with the terms of the Credit Facility, the NPAs and the governing documents of the Public Notes. The NPAs contain financial covenants that are similar to those of the Credit Facility; therefore, the summary of key financial covenants is combined below, presenting the most restrictive covenant, if different.

Credit Facility/NPAs – Key Covenants	Required	December 31, 2020
Maximum leverage ratio	< 60%	38%
Maximum unsecured leverage ratio	< 60%	24%
Maximum secured indebtedness ratio	< 45%	22%
Minimum fixed charge coverage ratio	> 1.5x	3.2x
Minimum unencumbered interest ratio	> 2.0x	6.9x
Public Notes – Key Covenants	Required	December 31, 2020
Limitation on incurrence of total debt	< 60%	38%
Limitation on incurrence of secured debt	< 40%	22%
Debt service coverage ratio	> 1.5x	3.9x
Maintenance of total unencumbered assets	> 150%	410%

Supplemental Reporting Measures

Funds from Operations, or FFO, and Adjusted Funds from Operations, or AFFO

Our reported results are presented in accordance with U.S. generally accepted accounting principles, or GAAP. We also disclose Funds from Operations, or FFO, and Adjusted Funds from Operations, or AFFO, both of which are non-GAAP measures. We believe these two non-GAAP financial measures are useful to investors because they are widely accepted industry measures used by analysts and investors to compare the operating performance of REITs. FFO and AFFO do not represent cash generated from operating activities and are not necessarily indicative of cash available to fund cash requirements; accordingly, they should not be considered alternatives to net income as a performance measure or to cash flows from operations as reported on a statement of cash flows as a liquidity measure and should be considered in addition to, and not in lieu of, GAAP financial measures.

We compute FFO in accordance with the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts, or NAREIT. NAREIT defines FFO as GAAP net income, excluding gains (or losses) from extraordinary items and sales of depreciable property, real estate impairment losses, and depreciation and amortization expense from real estate assets, including the pro rata share of such adjustments of unconsolidated subsidiaries.

To derive AFFO, we modify the NAREIT computation of FFO to include other adjustments to GAAP net income related to certain revenues and expenses that have no impact on our long-term operating performance, such as straight-line rents, amortization of deferred financing costs and stock-based compensation. In addition, in deriving AFFO, we exclude certain other costs not related to our ongoing operations, such as the amortization of lease-related intangibles.

FFO is used by management, investors and analysts to facilitate meaningful comparisons of operating performance between periods and among our peers primarily because it excludes the effect of real estate depreciation and

amortization and net gains (or losses) on sales, which are based on historical costs and implicitly assume that the value of real estate diminishes predictably over time, rather than fluctuating based on existing market conditions.

Management believes that AFFO provides more useful information to investors and analysts because it modifies FFO to exclude certain additional revenues and expenses such as straight-line rents, including construction period rent deferrals, and the amortization of deferred financing costs, stock-based compensation and lease-related intangibles as such items have no impact on long-term operating performance. As a result, we believe AFFO to be a more meaningful measurement of ongoing performance that allows for greater performance comparability. Therefore, we disclose both FFO and AFFO and reconcile them to the most appropriate GAAP performance metric, which is net income. STORE Capital's FFO and AFFO may not be comparable to similarly titled measures employed by other companies.

Supplemental Reporting Measures

We believe that presenting supplemental reporting measures, or non-GAAP measures, such as EBITDA, EBITDAre and Adjusted EBITDAre, is useful to investors and analysts because it provides important supplemental information concerning our operating performance exclusive of certain non-cash and other costs. These non-GAAP measures have limitations as they do not include all items of income and expense that affect operations. Accordingly, they should not be considered alternatives to net income as a performance measure and should be considered in addition to, and not in lieu of, GAAP financial measures. Our presentation of such non-GAAP measures may not be comparable to similarly titled measures employed by other companies.

EBITDA, EBITDAre and Adjusted EBITDAre

EBITDA represents earnings (GAAP net income) plus interest expense, income tax expense, depreciation and amortization.

We compute *EBITDAre* in accordance with the definition adopted by NAREIT. NAREIT defines *EBITDAre* as *EBITDA* (as defined above) excluding gains (or losses) from the sales of depreciable property and real estate impairment losses.

To derive *Adjusted EBITDAre* we modify the NAREIT definition of *EBITDAre* to exclude other items included in GAAP net income, such as provisions for loan losses, as such items are not related to our ongoing performance.

*Note: The adjustments to derive *Adjusted EBITDAre* may not exist in every quarter, therefore *EBITDAre* and *Adjusted EBITDAre* may be equal.*

Annualized Adjusted EBITDAre and Adjusted Debt

Annualized Adjusted EBITDAre is calculated by multiplying *Adjusted EBITDAre* for the most recently completed fiscal quarter by four.

Annualized Adjusted EBITDAre – Current Estimated Run Rate is based on an estimated *Adjusted EBITDAre* calculated as if all leases and loans in place as of the last date of the most recently completed fiscal quarter had been in place as of the beginning of such quarter; then annualizing that estimated *Adjusted EBITDAre* for the quarter by multiplying it by four. You should not unduly rely on this metric as it is based on several assumptions and estimates that may

prove to be inaccurate. Our actual reported *Adjusted EBITDAre* for future periods may be significantly less than that implied by our reported *Annualized Adjusted EBITDAre – Current Estimated Run Rate* for a variety of reasons.

Adjusted Debt represents our outstanding debt obligations excluding unamortized deferred financing costs and net debt premium, further reduced for cash and cash equivalents and restricted cash deposits held for the benefit of lenders. We believe excluding unamortized deferred financing costs and net debt premium, cash and cash equivalents and restricted cash deposits held for the benefit of lenders provides an estimate of the net contractual amount of borrowed capital to be repaid, which we believe is a beneficial disclosure to investors and analysts.

Adjusted Debt to Annualized Adjusted EBITDAre

Adjusted Debt to Annualized Adjusted EBITDAre, or leverage, is a supplemental non-GAAP financial measure we use to evaluate the level of borrowed capital being used to increase the potential return of our real estate investments. We calculate leverage by dividing *Adjusted Debt* by *Annualized Adjusted EBITDAre*. Because our portfolio growth level is significant to the overall size of the Company, we believe that presenting this leverage metric on a run rate basis is more meaningful than presenting the metric for the historical quarterly period, and we refer to this metric as *Adjusted Debt to Annualized Adjusted EBITDAre – Current Estimated Run Rate*. Leverage should be considered as a supplemental measure of the level of risk to which stockholder value may be exposed. Our computation of leverage may differ from the methodology employed by other companies and, therefore, may not be comparable to other measures.

Note: NAREIT issued a white paper in 2017 recommending that companies that report EBITDA also report EBITDAre.

Footnotes

Page 6:

¹ Source: NAICS Association.

Page 7:

¹ Represents reported corporate revenues for financial statements received by STORE Capital through January 19, 2021. Excludes customers, representing approximately 4.6% of base rent and interest, that do not report corporate revenues.

² Represents the weighted average percentage change (by base rent and interest) in reported corporate revenues for the trailing 12-month (or nine-month if 12-month was not available) period as reported to STORE Capital for the period ended December 31, 2019 as compared to the same period ended December 31, 2018. Excludes customers representing 6.1% of base rent and interest because sufficient comparable data was not available.

³ Estimated based on total revenue per employee for all companies in the middle market (based on data reported by the National Center for the Middle Market for 2019) extrapolated to the aggregate total revenue of STORE's customers.

⁴ Represents the number of locations operated by STORE's customers as reported to STORE Capital through December 31, 2019.

⁵ Represents the tolerable fall-off in lease level sales so that EBITDAR after overhead will still cover the lease's fixed charges (which includes STORE's rent and interest) weighted by the lease's base rent and interest (based on currently available results for approximately 90% of eligible properties in our investment portfolio). If the variable profit coefficient for an individual lease was unavailable, we assumed the variable profit coefficient for its peer group in the calculation of the fall-off amount. Calculations are based on tenant statements (either December 25, 2019 or later) received by STORE Capital.

Page 9:

¹ Based on average of ratios of Realty Income and National Retail Properties as of September 30, 2020.

² Ratios as of December 31, 2020; Unencumbered EBITDA based on NOI from Unencumbered Assets less an allocation of G&A expenses based on assets.

³ Represents the weighted average interest rate on balloon payments due in the respective years.

⁴ Free Cash Flow approximates Cash Flow from Operations less dividends paid.

Page 10:

¹ We measure the credit quality of our portfolio on a contract-by-contract basis using the STORE Score, which is a proprietary risk measure reflective of both the credit risk of our tenants and the profitability of the operations at our properties. The STORE Score is a quantitative measurement of contract risk computed by multiplying tenant default probabilities (using Moody's RiskCalc) and estimated store closure probabilities (using a simple algorithm we developed that has closure probabilities ranging from 100% to 10%, depending on unit-level profitability). Qualitative features can also impact investment risk, such as low property investment amounts, favorable tenant debt capital stacks, the presence of third-party guarantors, or other factors. Such qualitative factors are not included in the STORE Score and may serve to mitigate investment risk even further.

Page 12:

¹ STORE defines internal growth as the combination of high average lease escalators and a low AFFO payout ratio, which allows us to reinvest a growing amount of free cash flow back into our business.

Page 14:

- Based on base rent and interest.

¹ The percentage of *investment portfolio subject to master leases* represents the percentage of the investment portfolio in multiple properties with a single customer subject to master leases. Approximately 87% of the investment portfolio involves multiple properties with a single customer, whether or not subject to a master lease.

² The *average investment amount/replacement cost (new)* represents the ratio of purchase price to replacement cost (new) at acquisition.

³ Of the 98% of our properties that are required to provide unit-level reporting, 93% have provided current obligated statements as of February 9, 2021.

⁴ Represents the percentage of lease contracts that were created by STORE or contain preferred contract terms such as unit-level financial reporting, triple-net lease provisions and, when applicable, master lease provisions.

⁵ *Weighted average annual lease escalation* represents the weighted average annual escalation rate of the entire portfolio as if all escalations occurred annually. For escalations based on a formula including CPI, assumes the stated fixed percentage in the contract or assumes 1.5% if no fixed percentage is in the contract. For contracts with no escalations remaining in the current lease term, assumes the escalation in the extension term. Calculation excludes contracts representing less than 0.1% of base rent and interest where there are no further escalations remaining in the current lease term and there are no extension options.

⁶ STORE defines occupancy as a property being subject to a lease or loan contract. As of December 31, 2020, nine of our properties were vacant and not subject to a contract.

⁷ Represents the percentage (based on the number of locations) of the Company's investment locations that have been closed by the tenant but remain subject to a lease.

⁸ Represents the percentage (based on the number of locations) of the Company's investment locations that are subject to a ground lease.

⁹ STORE calculates unit fixed charge coverage ratio generally as the ratio of (i) the unit's EBITDAR, less a standardized corporate overhead expense based on estimated industry standards, to (ii) the unit's total fixed charges, which are its lease expense, interest expense and scheduled principal payments on indebtedness (if applicable). The 4-Wall coverage ratio refers to a unit's FCCR before taking into account standardized corporate overhead expense. The weighted average unit FCCR and 4-Wall coverage ratios were 2.9x and 3.8x, respectively, as of December 31, 2020, 3.0x and 3.9x, respectively, as of December 31, 2019 and 3.0x and 3.9x, respectively, as of December 31, 2018.

¹⁰ The *proportion of investment contracts rated investment grade* represents the percentage of our contracts (based on base rent and interest) that have a STORE Score that is investment grade; amount disclosed represents the average since the inception of the Company. We measure the credit quality of our portfolio on a contract-by-contract basis using the STORE Score, which is a proprietary risk measure reflective of both the credit risk of our tenants and the profitability of the operations at the properties.

Footnotes

Pages 15 and 16:

¹Data as of December 31, 2020, 2019 and 2018, by percentage of base rent and interest (based on rates in effect on those dates, for all leases, loans and financing receivables in place as of those dates).

²Represents actual AFFO ratios obtained from SEC filings. For EPR, AFFO included a \$20 million prepayment fee in Q3'18 which was excluded from AFFO per share for this presentation. For SRC, AFFO included lawsuit settlement revenue in Q4'18 and termination fee revenue in Q3'19; for this presentation, AFFO per share for these two periods is based on disclosed amounts excluding these revenues.

Page 27:

¹Net proceeds from sales for STORE in 2019 and 2020 include \$4.1 million and \$0.6 million, respectively, of lease termination fees collected in connection with property sales. 2020 also includes \$24.8 million in proceeds from loan repayments in conjunction with sales. Data for peers gathered from latest publicly available financial information as of September 30, 2020.

Page 28:

Note: Data through December 31, 2020.

¹Growth from reinvested cash flow is equal to (i) the incremental cash flow added from reinvesting retained cash assuming a prior period payout ratio of 78%, leveraged at 39% with a borrowing cost of 2.78% and amortization of 45 years, reinvested at 8.09% less incremental operating costs of 0.45% divided by (ii) prior period rents assuming assets were acquired at 8.09%.

Page 32:

¹See page 39 for discussion regarding use of Funds From Operations and Adjusted Funds from Operations.

²FFO and AFFO for the three months and year ended December 31, 2020, include approximately \$5.8 million and \$57.1 million, respectively, of net revenue that is subject to the short-term deferral arrangements entered into in response to the COVID-19 pandemic; the Company accounts for these deferral arrangements as rental revenue and a corresponding increase in receivables. For the three months and year ended December 31, 2020, FFO and AFFO exclude \$8.0 million and \$9.4 million collected under these short-term deferral arrangements.

³Under the two-class method, earnings attributable to unvested restricted stock are deducted from earnings in the computation of per share amounts where applicable.

Page 33:

¹See page 39 for discussion regarding use of Funds From Operations and Adjusted Funds from Operations.

²For the years ended December 31, 2017 and 2018, includes \$5,000 and \$130,000, respectively, of income tax expense associated with gains recognized on the dispositions of certain properties.

³For the years ended December 31, 2017, 2018, 2019 and 2020 includes \$2.0 million, \$2.1 million, \$1.1 million and \$0.4 million respectively, of accelerated amortization of deferred financing costs primarily related to the prepayment of debt.

⁴For the year ended December 31, 2017, includes a \$4.6 million charge related to accelerated amortization of lease incentives associated with terminated lease contracts.

⁵FFO and AFFO for the year ended December 31, 2020, include approximately \$57.1 million of net revenue that is subject to the short-term deferral arrangements entered into in response to the COVID-19 pandemic; the Company accounts for these deferral arrangements as rental revenue and a corresponding increase in receivables. For the year ended December 31, 2020, FFO and AFFO exclude \$9.4 million collected under these short-term deferral arrangements.
