

Gym Topco Limited

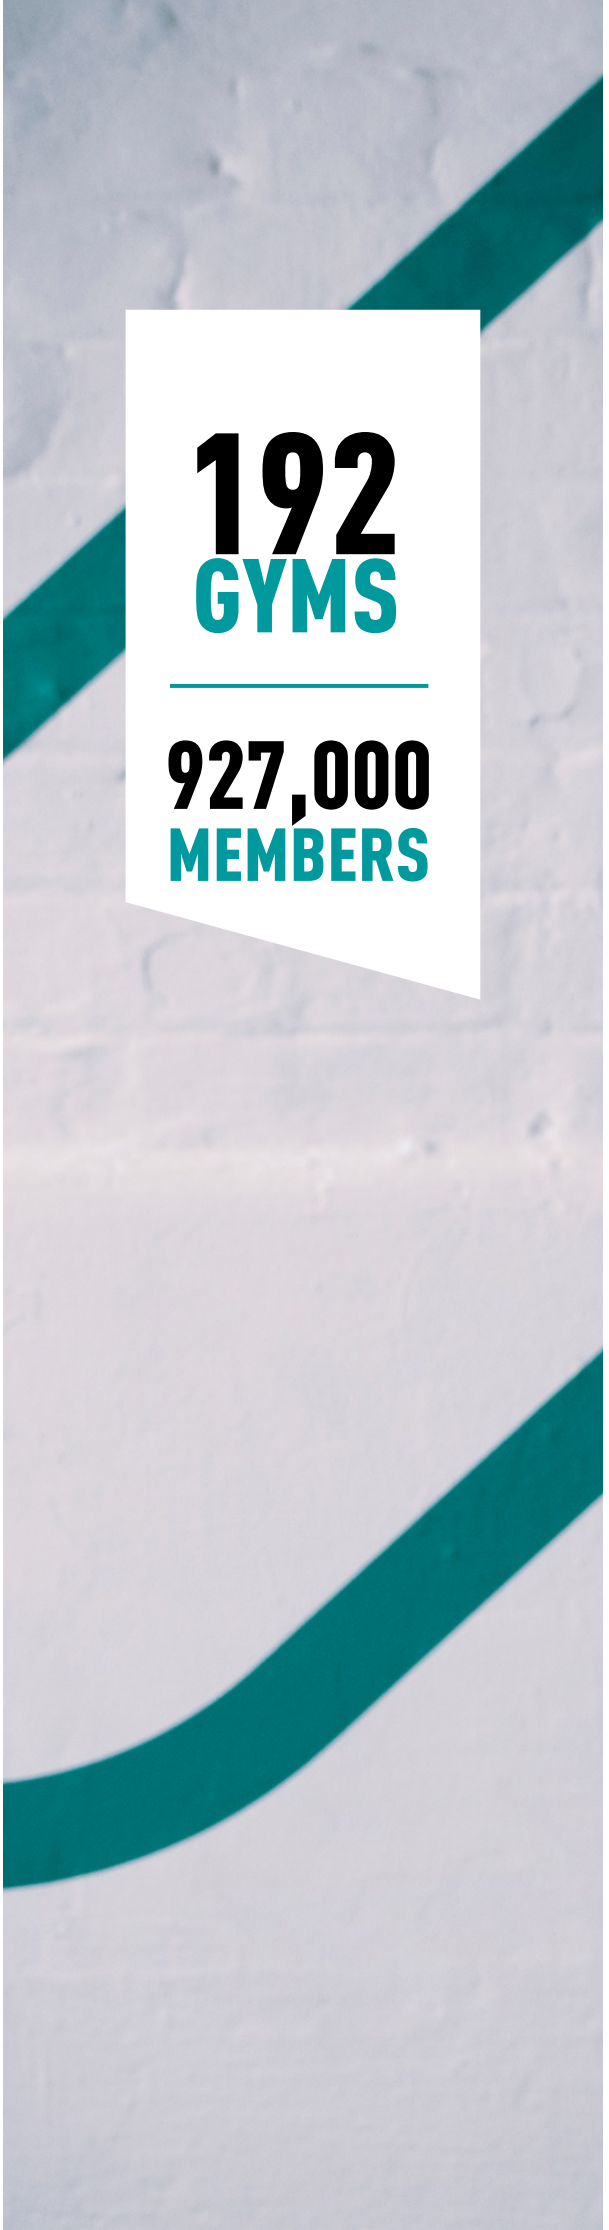

Full year report as of and for
the year ended 31 December 2017

Business overview and strategy

PureGym is the largest operator of gyms in the United Kingdom, both by number of gyms and members. As of 31 December 2017, we operated 192 gyms (2016: 172) across the UK and had 927,000 members (2016: 822,000).

PureGym has a powerful and highly disruptive customer proposition that is differentiated from traditional UK gym operators and appeals to a broad range of consumers. The key elements of the proposition include affordable membership fees, no fixed term contracts, and "24x7x365" access to high quality gyms. The proposition is underpinned by PureGym's differentiated low cost, capital efficient, and technology-enabled gym operating model, which enables our gyms to support high levels of membership, operate on low costs, and generate strong unit economics, cash flow conversion, and ROCE.

The group's strategy is to continue to roll out new gyms with high returns on capital, as well as driving the operational and financial performance of its existing gym estate.

Presentation of financial information

Unless otherwise indicated, the financial information presented in this report is the historical consolidated financial information of Gym Topco Limited and its subsidiaries (the "Group"). The report does not include any historical financial information relating to Pinnacle Bidco plc (the "Issuer") due to the limited amount of historical information available in relation to the Issuer, as it was incorporated on 30 October 2017.

We prepared our consolidated financial statements as of and for the year ended 31 December 2017 in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS").

Change in ownership of the group and funding

On 30 November 2017 Gym Topco Limited and subsidiaries were acquired by the group of companies known as Leonard Green & Partners LP ("LGP"). LGP restructured the group's finances such that as at 31 December 2017, the company was party to a £420 million financing facility with five international institutions (Barclays Bank PLC, Jefferies Finance LLC, Royal Bank of Canada, Credit Suisse AG and ING Bank N.V.), collectively "the Lenders" consisting of a £360 million bridging loan and a £60 million revolving credit facility agreement.

On 24 January 2018, the bridging loan was replaced with £360 million of 6.375% senior secured notes for which Gym Topco Limited and certain subsidiaries are guarantors.

The group's facilities provide additional headroom both for its working capital requirements and for the roll out of new gyms in line with its strategy.

2017 highlights

Financial highlights – Full year 2017

- Revenue increased by 23.8% to £198.0 million.
- Average number of members per gym increased by 2.7% to 5,070.
- Average revenue per member per month increased by 8.4% to £17.98.
- Adjusted EBITDA increased by 51.4% to £71.5 million.
- Adjusted EBITDA margin increased to 36.1% in 2017, compared to 29.5% in 2016.
- Average mature gym EBITDA increased by 5.4% to £489,000, with average mature gym ROCE increasing by 0.2% to 42.8%.
- Operating cashflow conversion increased to 97% of Adjusted EBITDA, compared to 78% in 2016.
- Pro-forma Total Net Leverage reduced to 4.4x and Pro-Forma Interest Cover increased to 3.5x, compared to 4.6x and 3.3x respectively at the end of Quarter 3 2017.

Financial highlights – Quarter 4 2017

- Revenue increased by 20.5% to £51.5 million.
- Average number of members per gym increased by 1.7% to 4,951.
- Average revenue per member per month increased by 11.2% to £18.82.
- Adjusted EBITDA increased by 38.9% to £18.6 million.
- Adjusted EBITDA margin increased to 36.1% in Q4 2017, compared to 31.3% in Q4 2016.
- Operating cashflow conversion increased to 96% of Adjusted EBITDA, compared to 76% in 2016.

Operational highlights

- Number of members increased by 12.8% to 927,000 as at 31 December 2017.
- 192 gyms trading at year end, an increase of 20 compared to 2016.
- 132 mature gyms trading at year end, an increase of 48 compared to 2016.
- Final two acquired LA Fitness gyms converted to PureGym format.
- Increased uptake of yield-enhancing Extra and Multi products.

Results of operations

Full Year 2017 compared with Full Year 2016

Revenue

Revenue increased by 23.8% to £198.0 million, from £159.9 million in 2016. An analysis of revenue by product line is as follows:

£m	Full year 2017	Full year 2016	% change
Member income	**183.5**	147.5	+24.4
Vending income	**5.5**	4.6	+19.5
Other income	**9.0**	7.9	+14.0
Total	**198.0**	159.9	**+23.8**

Member income, comprising membership fees and joining fees, grew by 24.4% to £183.5 million in the year. This was primarily a result of the contribution from new gyms opened during the year, the higher proportion of mature gyms in the portfolio compared to 2016 and the increased average revenue per member resulting from Extra and Multi products, which are charged at a premium to members. The Multi product provides members with the ability to attend more than one gym, whilst Extra provides further additional benefits, such as the ability to book exercise classes earlier than standard members.

Vending income grew by 19.5%, ahead of the 12.8% growth in member numbers. Other income grew by 14.0% and comprises mainly income from sales of day passes, income from personal trainers and promotional income.

Administrative expenses before exceptional items

Administrative expenses before exceptional items increased 11.4% to £161.0 million in 2017 from £144.5 million in 2016. This increase was primarily a result of the increase in the number of trading gyms from 172 to 192 as well as investment in central support costs.

Exceptional items

Exceptional items were £13.8 million in 2017 (2016: £12.7 million). The costs in 2017 comprised £14.1 million related to the sale of the group to LGP, partially offset by a £0.4 million credit related to the aborted Initial Public Offering from 2016.

Net finance costs

Net finance costs increased by 23.7% to £37.8 million in 2017, compared to £30.5 million in 2016. The main reason for the increase was amortisation of capitalised finance costs which was £6.9 million in 2017 (2016: £1.2 million). Of the £6.9 million costs, £5.5 million was written off at the time of the LGP acquisition as it related to the financing facilities which were repaid at that point.

Tax charge

Our income tax expense for the year ended 31 December 2017 was £3.6 million, an increase of £11.6 million compared to £8.0 million of income tax credit in the year ended 31 December 2016. The current year charge includes a corporate tax expense of £0.8 million and was principally due to changes in tax legislation, which cap interest deductions available to be offset against the Group's taxable profits. It also includes a deferred tax charge of £2.8 million, which has increased compared to a credit of £8.0 million in the prior period, due to a combination of normalised capital expenditure in the year and increased capital allowance utilised.

Results of operations

Quarter 4 2017 compared with Quarter 4 2016

Revenue

Revenue increased by 20.5% to £51.5 million from £42.7 million in 2016. An analysis of revenue by product line is as follows:

£m	Q4 2017	Q4 2016	% change
Member income	**47.7**	39.6	+20.5
Vending income	**1.3**	1.1	+15.5
Other income	**2.4**	2.0	+23.3
Total	**51.5**	42.7	**+20.5**

Member income, comprising membership fees and joining fees, grew by 20.5% to £47.7 million in Q4. This was primarily a result of the contribution from new gyms opened during the quarter, the higher proportion of mature gyms in the portfolio compared to 2016 and the increased yield resulting from Extra and Multi products.

Vending income grew by 15.5% and other income grew by 23.3%, comprising mainly income from sales of day passes, income from personal trainers and promotional income.

Administrative expenses before exceptional items

Administrative expenses before exceptional items increased 15.8% to £42.0 million in Q4 2017 from £36.3 million in Q4 2016. This increase was primarily a result of the increase in the number of trading gyms from 172 to 192 as well as investment in central support costs.

Exceptional items

Exceptional items were £11.8 million in 2017, compared to £3.7 million in 2016. The costs in 2017 primarily related to the sale of the group to LGP.

Net finance costs

Net finance costs increased by 63.1% to £13.1 million in 2017 compared to £8.0 million in 2016. As previously noted, £5.5 million was written off at the time of the LGP acquisition as it related to the financing facilities which were repaid at that point.

Tax charge

Our income tax expense for the quarter ended 31 December 2017 was £1.2 million, an increase of £0.9 million compared to an expense of £0.3 million in the quarter ended 31 December 2016. The current period charge includes a corporate tax credit of £1.0 million arising upon assessment of the new Corporate Interest Restriction rules. It also includes a deferred tax charge of £2.2 million, which has increased compared to a charge of £0.3 million in the prior period, due to a combination of normalised capital expenditure in the year and increased capital allowance utilised.

Cashflow and Liquidity

Summary of cashflow statement £m	As of and for the year ended 31 December 2017	 2016	As of and for the quarter ended 31 December 2017	 2016
Net cash (used in)/generated from operating activities	(9.9)	19.6	(45.8)	9.5
Net cash used in investing activities	(38.4)	(52.0)	(14.9)	(6.6)
Net cash generated from financing activities	28.9	39.2	24.8	(0.2)
Net increase/(decrease) in cash and cash equivalents	(19.3)	6.8	(35.9)	2.8
Cash and cash equivalents on the first day of the period	14.5	7.7	31.1	11.7
Cash and cash equivalents at end of period	**(4.8)**	14.5	**(4.8)**	14.5

Net cash outflow from operating activities

Net cash used in operating activities was £9.9 million in 2017, compared to £19.6 million cash generated from operating activities in 2016. As a result of the acquisition by LGP in November 2017, the group repaid the interest due on shareholder loan notes of £44.7 million. On an underlying basis, excluding the loan note interest repayment, the group would have generated net cash of £34.9 million in 2017. The underlying improvement versus 2016 relates to the increase in EBITDA and positive working capital inflows of £4.8 million. The Group's working capital cash flow is typically positive, largely because membership fees are paid by members one month in advance whilst suppliers are typically paid in arrears.

Net cash outflow from investing activities

Net cash outflow from investing activities reduced by 26.2% to £38.4 million in 2017, compared to £52.0 million in 2016. This was primarily due to the reduction in the number of acquired LA Fitness gyms which were converted, being 2 in 2017 compared to 18 in 2016. The number of organic gym openings was 20 in both years.

Net cash generated from financing

Net cash generated from financing was £28.9 million in 2017 compared to £39.2 million in 2016. As a result of the acquisition by LGP, bank borrowings of £215.0 million and shareholder loans of £91.0 million were repaid. Intragroup borrowings of £331.1 million were put in place to fund these payments.

Capital expenditure

The following table shows our capital expenditures for the periods indicated

£m	As of and for the year ended 31 December 2017	 2016	As of and for the quarter ended 31 December 2017	 2016
Expansionary Capital Expenditure	32.0	45.5	12.1	5.5
Maintenance and Corporate Capital Expenditure	7.1	9.5	2.9	1.8
Total Capital Expenditure	39.1	55.0	15.0	7.3

Estate summary

We opened 6 new gyms in Q4 2017 and 20 in Full Year 2017, compared to 3 new gyms in Q4 2016 and 20 in Full Year 2016.

We converted the remaining 2 acquired LA Fitness gyms in 2017 compared to the 18 which were converted in 2016, in neither year did any of these conversions take place in Q4. All 31 of the acquired LA Fitness gyms had been converted to the PureGym format by the end of Q3 2017.

We did not close or relocate any gyms during 2017 and we had 192 trading gyms operating as at 31 December 2017.

Key performance indicators

£m	As of and for the year ended 31 December 2017	2016	As of and for the quarter ended 31 December 2017	2016

Further information for noteholders

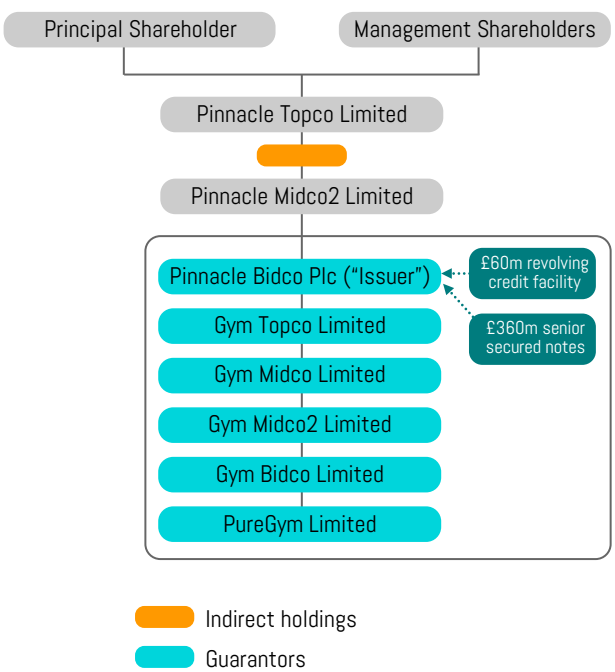

This report was prepared in accordance with the indenture dated 24 January 2018 among Pinnacle Bidco plc, as issuer, the guarantors named therein, Deutsche Trustee Company Limited, as trustee, Deutsche Bank AG, London Branch, as paying agent and security agent and Deutsche Bank Luxembourg SA as transfer agent and registrar.

This full year report may include forward-looking statements. All statements other than statements of historical facts included in this full year report, including those regarding the Group's financial position, business and acquisition strategy, plans and objectives of management for future operations are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Group, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Group's present and future business strategies and the environment in which the Group will operate in the future. Many factors could cause the Group's actual results, performance or achievements to differ materially from those in the forward-looking statements. Forward-looking statements should, therefore, be construed in light of such risk factors and undue reliance should not be placed on forward-looking statements. These forward-looking statements speak only as of the date of this full year report. The Group expressly disclaims any obligations or undertaking, except as required by applicable law and applicable regulations to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in the Group's expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based.

Use of non-IFRS financial information

Certain parts of this report contain non-IFRS measures and ratios. We believe that these measures are useful indicators of our ability to incur and service our indebtedness and can assist certain investors, security analysts and other interested parties in evaluating us. Because all companies do not calculate these measures on a consistent basis, our presentation of these measures may not be comparable to measures under the same or similar names used by other companies. Accordingly, undue reliance should not be placed on these measures in this full year report. In particular, Adjusted EBITDA and Run Rate Adjusted EBITDA are not measures of our financial performance or liquidity under IFRS and should not be considered as an alternative to (a) net income/(loss) for the period as a measure of our operating performance, (b) cash flows from operating, investing and financing activities as a measure of our ability to meet our cash needs or (c) any other measures of performance under IFRS. We define our non-IFRS measures as set forth on page 19.

Group Structure

Appendix

Risks

The success of our business depends on our ability to attract and retain gym members, while maintaining sustainable and profitable membership fees.

Our success is dependent on our ability to attract and retain members to our gyms. We generate almost all of our revenue from member income (representing 93% of our revenue for the year ended 31 December 2017). As a result, we must continually engage existing members and attract new members in order to maintain or increase our gym membership levels. In addition, as our members do not enter into any fixed-term contracts, they can terminate their membership at any time without notice or penalty. If we are unable to attract and retain gym members, it could have a material adverse effect on our business, financial condition, results of operations and prospects.

One of the most significant factors affecting our ability to attract and retain members is the membership and joining fees we charge. However, we are also dependent on our ability to charge membership and joining fees at a level that both attracts members and generates an appropriate fee yield relative to our costs. While we have certain flexibility on a gym by gym basis to vary the membership fees we charge existing members and the membership and joining fees we can charge to prospective members, our ability to increase such fees to offset potential cost increases while maintaining or increasing membership levels may be limited. Furthermore, we may even need to decrease membership fees or joining fees over time to maintain or increase membership levels. If we are unable to maintain or increase such fees as necessary or are forced to decrease such fees, it could have a material adverse effect on our business, financial condition, results of operations and prospects.

Additional factors that could lead to a decline in membership levels, prevent us from increasing membership levels, or negatively affect the fees we can charge members include:

- direct local competition from value and other health and fitness club operators;
- saturation of local health and fitness club markets;
- harm to our reputation or brand;
- a decline in our ability to deliver a high-quality service to our members;
- changes in consumer preference away from the value gym offering to gym offerings with more amenities or that offer specialised or trend-driven exercises;
- increasing popularity of home fitness equipment, fitness apps and other online exercise programs;
- increasing popularity of studio gyms and outdoor fitness activities;
- a decline in the public's interest in health and fitness;
- a decline in time available for consumers to pursue leisure activities;
- changes in discretionary consumer spending habits due to deterioration of general economic conditions in the UK or demographic shifts; and
- changes in the level of positive referrals from current and former members, due to a decline in our ability to deliver high-quality services or from harm to our reputation or brand or other reasons.

A decline in membership levels, membership and joining fees and profitability as a result of any of the above factors, individually or in aggregate, could have a material adverse effect on our business, financial condition, results of operations and prospects.

If we are unable to identify and secure sites on favorable terms for new gyms that meet our selection criteria, we may not be able to implement our growth strategy.

An important part of our growth strategy is the opening of new gyms. As we lease all of our gym sites, we are dependent upon finding and securing new leasehold sites at which to open new gyms. We employ an extensive site selection strategy that incorporates a number of selection criteria such as site size, location, configuration, local population density, demographic characteristics of the local catchment, proximity of transportation networks, availability of car parks and local competitive dynamics, amongst other criteria. Our ability to identify and negotiate financially acceptable lease terms for new sites may be adversely affected by the availability of suitable sites that meet our selection criteria, fluctuations in the property rental market or significant competition for suitable sites from competitors, other commercial enterprises such as retailers, leisure and office space operators and residential operators. As a result, we may be unable to identify suitable sites and secure them at rental prices or on terms acceptable to us, or in a timely manner. If we are unable to secure sufficient sites that meet our selection criteria at acceptable rental prices within the planned roll out timeframe, we may not be able to implement our growth plan.

Any inability to identify or secure sites on favorable terms for new gyms, including for any of the above reasons, could have a material adverse effect on our business, financial condition, results of operations and prospects.

We cannot assure you that the locations of our gyms will continue to be economically viable.

The locations of our gyms have significant influence on their results of operations. We cannot assure you that current locations will continue to be economically viable. As demographic and economic patterns change, current locations may not continue to be attractive and profitable. Decrease in the population of neighborhoods where our gyms are located or adverse economic conditions in these areas and those surrounding those neighborhoods could result in reduced revenue in those locations. Furthermore, we may relocate or open gyms in new areas in anticipation of future development, which ultimately may not materialise.

Businesses in the UK are required to pay a tax for occupying a property, namely "business rates". The UK government adjusts the value of business rates to reflect changes in the property market approximately every five years. The most recent revaluation came into effect on April 1, 2017. The adjustments of the business rates could result in increased estate costs and consequently could have an adverse effect on the economic viability of certain gyms.

Our gyms may not achieve expected or minimum financial performance levels or ROCEs, which may negatively impact our financial performance.

We generally target a minimum Mature Gym return on capital employed ("ROCE") of 30% per organically opened gym. If our gyms do not achieve expected membership levels or membership fees, which has occurred in a percentage of the Mature Gym estate, then the financial performance of the gyms may be negatively impacted, resulting in a lower ROCE. The financial performance and ROCEs of gyms can also be negatively impacted by higher than expected operating, maintenance and property costs, or if such gyms experience higher than expected Initial Capital Investment costs, refurbishment costs and Pre-Opening Costs. We may not be able to recover the capital investment required to develop and operate our gyms.

Our expectations for the financial performance and Mature Gym ROCEs of our gyms, including future gyms to be opened, can be influenced by a wide variety of factors such as incorrect analyses of the suitability of sites, future changes in competitive dynamics or higher levels of future cost inflation, amongst numerous others. See "—The success of our business depends on our ability to attract and retain gym members, while maintaining sustainable and profitable membership fees," "—Our low-cost operating structure is one of our primary competitive advantages, but many factors could affect our ability to control costs" and "—Our lease costs may increase, which may negatively impact our profitability". As a result, our New Gyms, which have been open for less than 24 months, or future gyms to be opened may take longer than expected to reach minimum or targeted levels of financial performance or ROCE, or may never reach such minimums or targets. Additionally, ROCE of our Mature Gyms, which have been open for 24 months or more, may decline as a result of similar factors. We might decide to close our gyms that are underperforming and may incur unrecoverable costs due to terminating leases and employment agreements. If our gyms do not achieve minimum or targeted levels of financial performance or ROCE due to lower than expected membership levels and/or membership and joining fees, or higher than expected property, maintenance and operating costs, or higher than expected fit-out, refurbishment or Pre-Opening Costs, this could have a material adverse effect on our business, financial condition, results of operations and prospects.

Our lease costs may increase, which may negatively impact our profitability.

Property leases constitute a large component of our site operating cost base (a total of £33.6 million for the year ended 31 December 2017, representing 17% of our revenue). The leases for our gyms generally have upwards-only rent adjustments every five years that are typically in line with the retail prices index (the "RPI") subject to a 0–2% per annum collar and 3–4% per annum cap. However, some of our leases (mainly those acquired from the LA Fitness Group) have differing terms which include open market rent reviews and fixed rent uplifts. If we are unable to increase our revenue by increasing membership levels and/or membership or joining fees or reduce other costs in response to potential future increases in rents on our sites, then such increasing lease costs could have a material adverse effect on our business, results of operations, financial condition and prospects.

If we are unable to renew our existing leases on favorable terms or at all, we may have to close sites.

We lease all of our gym sites. Our ability to renegotiate financially acceptable lease terms for our sites with expiring leases may be adversely affected by fluctuations in the property rental market, such as increases in market rents or competition for sites from other health and fitness operators, commercial enterprises such as retailers and office space operators and residential operators. Although the majority of our leases benefit from the Landlord and Tenant Act of 1954, which provides security of tenure at the expiration of the lease term, there can be no assurance that we will be able to renew our existing leases on commercially acceptable terms or at all.

If leases are not renewed, we may be required to find alternative sites to operate such gyms. We could incur significant additional costs in identifying and securing suitable alternative sites or may be forced to close gyms in desirable locations if alternative sites cannot be secured. If gyms are closed, we may be unable to attract members from those gyms to other PureGym locations in significant numbers. Such members may cancel their memberships due to, among other reasons, our inability to deliver the services they require in a convenient location for them. If we are unable to renew our leases as they expire, renew them on commercially acceptable terms or secure other favorable sites on acceptable terms, or if a significant number of our existing lease agreements are terminated for any reason, our business, financial condition, results of operations and prospects could be materially adversely affected.

We are generally unable to terminate our property leases for a period of ten years from the start of the lease, and may be obliged to pay rent and pay losses if we close a location.

We are generally unable to terminate our property leases before we can exercise our tenant-only break rights, which can be found in the majority of our leases. These rights are generally exercisable at the end of the tenth year of the lease term, although, in some leases, these rights are not exercisable until the end of the fifteenth year of the lease term and in some leases, there are no rights at all to terminate before the end of the lease term. In circumstances where we are unable to terminate our property leases, we may not be able to sublet or assign our leases on commercially acceptable terms or at all. Accordingly, if we close a gym prior to being able to exercise our tenant-only break right, or prior to the end of the lease term in cases where we do not have a tenant-only break right, we may be obligated to continue to pay rent and incur operating losses at the relevant site, which could adversely affect our business, financial condition, results of operations and prospects.

Disruptions and failures involving our information technology systems could adversely affect member enrollment, member services and financial and administrative functions.

Our ability to enroll members, engage and market to our existing members, target former members to rejoin, process payments, control gym access, monitor security and engage in other critical business tasks is dependent on the efficient and uninterrupted performance of our information technology systems. In particular, disruptions or failures that affect our website, gym access, marketing, billing and other administrative functions could have an adverse effect on our financial performance. While we fully back up all of our membership and business information using third-party locations and have a full business continuity plan in place, any delay or failure on the part of the data back-up provider or in executing our business continuity plan may hinder our ability to resolve information technology system disruptions or failures in a timely and effective manner. Any disruption or failure involving our information technology systems could have a material adverse effect on our business, results of operations, financial condition and prospects.

Any issues, viruses, data inconsistencies, outages, interruptions or security breaches in connection with our information technology systems could cause significant disruption to us, and our members may become dissatisfied if such disruption or failure interrupts our ability to provide our members with access to our gyms or to other services.

contd.

Member dissatisfaction may cause members to stop using our services, cancel their membership or otherwise generate negative publicity, which could result in a material adverse effect on our business, results of operations, financial condition and prospects.

Some of our information technology systems, such as our membership management and billing systems, are outsourced to third-party providers, which in this instance is Exerp. In addition, we periodically update or change our information technology systems. Any disruptions to our information technology systems as a result of a failure by one of our third-party providers, or termination of our relationship with Exerp for any reason, could have a material adverse effect on our business, results of operations, financial condition and prospects.

Given we are a technologically enabled company and hold a large amount of sensitive and potentially valuable member information, we may be subject to cyberattack. Such an attack could take a variety of forms, for example, a denial of service/mass attack, penetration of network access in one of our sites and hacking into our network in our offices in London, Leeds or Southampton. Successful penetration of our defenses against cyberattack could lead to the loss of member data and the direct costs associated with this as well as broader reputational damage. We commissioned a detailed cybersecurity review of our IT infrastructure, software, processes and culture by a cybersecurity consultant, which identified a number of areas of potential vulnerability from a technical point of view. Management and leadership of the technology function were fully engaged in this process and have moved swiftly to address the lone critical technical risk identified, which has now been fully addressed. All of the high and medium risks identified were also addressed by the end of 2017. While we believe that the actions being taken have and will continue to reduce our cybersecurity risk, there can be no assurance that our business, results of operations, financial condition and prospects will not be adversely impacted by a breach of our cybersecurity systems.

Our success is dependent on our brand and reputation.

We rely on positive brand recognition, among other factors, to attract and retain members. Brand value or reputation can be severely damaged even by isolated incidents, particularly if the incidents receive considerable negative publicity or result in litigation. Some of these incidents may relate to our growth strategies, our development efforts or the ordinary course of our business, such as:

- unsatisfactory customer service, which impact may be magnified by negative commentary on social media;
- poor condition of a gym, including age of equipment, cleanliness or overcrowding;
- reductions in amenities after the conversion or refurbishment of an existing gym, for example, when swimming pools or other amenities are removed from gyms that previously offered such facilities;
- gym access or other issues resulting from a failure of our information technology systems; or
- breach or allegations of breach of legal and regulatory obligations, including health and safety requirements.

Other incidents that may disrupt the gym experience of our members or generate negative publicity or harm our brand or reputation may arise from events that are or may be beyond our control, such as:

- data security breaches or fraudulent activities associated with our customer records or electronic payment systems;
- incidents related to member safety, such as physical or verbal harassment or abuse;
- inappropriate member behavior;
- litigation and legal claims;
- third-party misappropriation, dilution or infringement of our intellectual property;
- the occurrence of a major incident at one of the gyms such as a flooding, major fire or a terrorist attack; or
- illegal activity targeted at Pure Gym or others (for example, illegal use of gyms by non-members).

Failure to address, or appearing to fail to address, these and other issues could erode consumer confidence in our gyms or our brand and may significantly reduce consumer demand for our gyms, which may result in fewer memberships sold or renewed and diminish our ability to attract and retain quality staff. Furthermore, negative commentary about PureGym may be posted on social media or similar platforms at any time and may harm our reputation or business. Consumers value readily available information about gyms and often act on such information without further investigation and without regard to its accuracy. The harm may be immediate without affording us an opportunity for redress or correction. Restoring the brand and reputation of PureGym may be costly and difficult to achieve.

If our efforts to maintain our brand and reputation are unsuccessful, or if PureGym's brand or reputation are harmed due to the above factors or otherwise, our business, results of operations, financial condition and prospects could be materially adversely affected.

We may be unable to obtain the requisite planning permission to open new gyms and could face delays in opening new gyms.

When opening new gyms, we may require planning consents from local authorities if a potential gym site does not already have the requisite use or planning permission. Additionally, the majority of PureGyms are open 24/7, which often requires various specific consents from local authorities. Any inability or delays in receiving such consents could restrict or delay our roll out plans or increase our roll out costs.

We may also experience other unanticipated roll out costs or delays in opening new gyms for a variety of reasons, such as shortages of materials or skilled labour, labour disputes and modifications in design. Any delays in new gym openings or the failure to achieve any required consents, including for any of the above reasons, could have a material adverse effect on our business, financial condition, results of operations and prospects.

The opening of new gyms near our existing locations may negatively impact our membership levels and fees at our existing gyms and accordingly, the profitability of such sites.

We intend to continue opening new PureGyms near certain of our existing gyms as part of our growth strategy. The opening of new gyms in the catchment areas of our existing gyms may attract some members away from our existing gyms for a number of potential reasons, such as the new gyms' closer proximities to such members' places of work or residence. This may result in lower revenue and profitability at our existing gyms, which could have a material adverse effect on our business, financial condition, results of operations and prospects.

We may not be able to successfully execute our growth strategy or effectively manage our growth.

Our growth strategy contemplates a significant expansion in the number of gyms we operate. Successful implementation of our growth strategy will require significant expenditures before any substantial associated revenue is generated. We cannot assure you that our recently opened or future gyms will generate revenue and cash flow comparable with those generated by our existing mature gyms. Furthermore, we cannot assure you that our new gyms, on average, will continue to mature at the same rate as our existing gyms, especially if economic conditions deteriorate.

Our growth could place strains on our management, employees, information systems and internal controls, which may adversely impact our business.

Growing the number of gyms that we operate will place significant demands on our management resources. We will be required to identify attractive gym locations, negotiate rental terms and open new gyms on a timely and cost-effective basis while maintaining a high level of quality, efficiency and performance at both mature and newly opened gyms. Moreover, we plan to diversify our offering in certain ways, such as opening small box format gyms, and we could encounter unanticipated problems, cost overruns or delays in opening or growing revenue from these gyms or in the market acceptance for our gyms. We will also need to recruit and retain new employees and maintain close coordination among our executive, accounting, finance, marketing, sales and operations functions.

These processes are time-consuming and expensive and may divert management's attention. We may not be able to effectively manage our growing number of gyms, and any failure to do so could have a material adverse effect on our rate of growth, business, financial condition and results of operations.

If we cannot retain senior management, and retain and attract other key managers, we may not be able to manage our operations successfully and pursue our strategic objectives.

The successful implementation of our strategy is dependent on our ability to recruit, retain and motivate high-quality senior management and other personnel with extensive experience and knowledge of the fitness industry, including gym managers and regional managers who play an important role in the operation of our gyms. Availability of such personnel is limited and competition for such personnel is strong. If we are unable to effectively recruit such employees and manage our employee turnover rate, there could be a material adverse effect on our business. Our ability to meet our labour needs is subject to many external factors, including competition for and availability of qualified personnel in a given market, unemployment levels within those markets, wage rates, health and other insurance costs, pension costs and changes in employment, labour or other workplace regulations. Increased competition for qualified employees could lead to salary cost inflation. The departure of senior management personnel or a failure to attract and retain other managers or qualified employees while simultaneously controlling labour costs could delay or prevent the achievement of our strategic objectives and could have a material adverse effect on our business, financial condition, results of operations and prospects.

We may be adversely affected by a change in the employment status of personal trainers operating at our gyms.

All of our personal trainers are independent contractors who pay an annual license fee and are permitted to train their clients at our gyms. In exchange for accessing our gyms and marketing their sessions to members, under our "hours" agreement, a proportion of our personal trainers, in addition to paying us the annual licensing fee, also provide gym services to us for a set number of hours per week, such as teaching group exercise classes and monitoring the gym floors. As an alternative to providing these gym services, they can elect to pay us a monthly fee (known as "rent" in the gym industry) rather than provide these gym services. Personal trainers in a small number of our gyms are engaged as employees on a part-time basis for a set number of hours to provide gym services and are separately engaged as independent contractors to pay a monthly rent in order to access our gyms and market their services to members. As independent contractors, the personal trainers are responsible for their own tax and National Insurance contributions. The vast majority of our personal trainers are engaged on either a "rent agreement" or an "hours agreement", with approximately 27% being party to a rent agreement. Although we believe that these arrangements are in accordance with industry practice, there is a risk that personal trainers could be reclassified either due to a change in law or by the UK tax authorities and/or an employment tribunal as either "employees" or "workers" (a quasi-employment status) rather than independent contractors. In relation to its correspondence with respect to other gym operators in the United Kingdom, the U.K. Work and Pensions Committee sent an inquiry to the Group in December 2017 stating that certain aspects of our personal training contract would seem to be incompatible with self-employment and requesting an explanation with respect to the inclusion of certain of these contract provisions. If we were to reclassify our personal trainers as employees or were required to amend our contracts significantly in response to regulatory requirements, our net expense related to personal trainers could increase as a result of modifying the applicable arrangements, including in respect of increased tax and wage costs, and any such increase may be significant.

In addition, if a personal trainer was reclassified by the UK tax authorities as an employee or a worker, we could be subject to back payment of taxes and National Insurance contributions. If an employment tribunal found that a personal trainer was an employee or a worker, we could be subject to claims regarding back-payment of minimum wage, holiday pay, and potentially pensions auto- enrolment

contd.

in connection with such reclassification. Aside from the monetary expense of participating in any legal or regulatory proceedings on this issue and any damages, penalties or settlements resulting from such proceedings, which may be significant, involvement with such proceedings could negatively affect our brand and require management attention. Any of the above could have a material adverse effect on our business, financial condition, results of operations and prospects.

We may not be able to attract, train and retain a sufficient number of qualified personal trainers

We engage approximately 10 to 15 personal trainers per gym. Personal trainers interact with members within the gyms and form a core part of our value proposition to members. Availability of suitable personal trainers is limited and competition for them is strong. Although we believe that our personal trainers wish to retain their independent status, any transition or lack of transition in their employment status may negatively affect our ability to attract and retain personal trainers. If we are unable to attract or retain qualified and suitable personal trainers to our gyms, the customer proposition could be diluted and staff costs could increase, as we would be required to hire additional staff. If we fail to attract, train and retain a sufficient number of qualified and suitable personal trainers, there could be a material adverse effect on our business, financial condition, results of operations and prospects. See *"—We may be adversely affected by a change in the employment status of personal trainers operating at our gyms"*.

Our corporate culture has contributed to our success, and if we cannot maintain this culture as we grow, we could lose the innovation, creativity and collaboration fostered by this culture.

We believe that a critical contributor to our success has been our corporate culture, which we believe fosters collaboration, innovation and entrepreneurship. As we grow, employees and independent contractors (including personal trainers) will become more dispersed and we may find it increasingly difficult to maintain the beneficial aspects of our corporate culture. If we are unable to maintain our corporate culture, we may find it difficult to attract and retain motivated employees, continue to perform at current levels or execute on our business strategy, which could have a material adverse effect on our business, financial condition, results of operations and prospects.

Due to the capital-intensive nature of our business, we may incur additional indebtedness in the medium term if our cash flow or current facilities cannot support our capital requirements and, if we are not able to access additional financing or capital as and if necessary, our ability to operate successfully or expand our business may be impaired and our results of operations could be adversely affected.

Opening new gyms and maintaining existing gyms is capital intensive, and we require significant capital to finance such activities, as well as to fund ongoing investments in our business and to meet our debt obligations. We are pursuing a roll out strategy and, although we believe that we have sufficient working capital for the next 12 months to achieve our strategy, there can be no assurance that we may not need to incur additional indebtedness or substantially reduce our growth plans to meet our capital requirements in the medium term. Raising new debt securities could increase our finance costs or be available only on terms that restrict our business.

Any inability or delay in raising additional capital when and if required may affect our ability to execute on our growth strategy or cause us to lose future opportunities or hinder our ability to respond to competitive pressures, all of which could have a material adverse effect on our business, financial condition, results of operations and prospects

Our intellectual property rights, including trademarks and trade names, may be infringed, misappropriated or challenged by others.

We believe our brand "PUREGYM" and related intellectual property are important to our continued success. We seek to protect our trademarks, trade names, copyrights and other intellectual property by exercising our rights under applicable laws. We may also from time to time be required to initiate litigation or other enforcement action to enforce our trademarks, trade names and other intellectual property. Third parties may also assert that we have infringed, misappropriated or otherwise violated their intellectual property rights, which could lead to litigation or other enforcement action against us. Litigation whether pending, threatened or actual, is inherently uncertain and could divert the attention of management, result in substantial costs and diversion of resources, and could negatively affect our membership sales and profitability regardless of whether we are able to enforce or defend our rights successfully. If we fail to successfully protect our intellectual property rights for any reason, or if any third party misappropriates, dilutes or infringes our intellectual property, the value of our brand may be harmed, which could have an adverse effect on our business, financial condition, results of operations and prospects.

Our dependence on third-party contractors and suppliers for site fit out, equipment provision, equipment maintenance and certain other products and services could result in disruptions to our business.

We rely on third-party contractors and suppliers for various services and products, such as site fit out, gym equipment supply, gym equipment maintenance services, cleaning services, certain marketing functions and certain security and first-aid monitoring and response services, amongst others. Although we believe that adequate substitutes are currently available, we depend on these third-party contractors and suppliers to consistently and efficiently operate its day-to-day business. The ability of these third-party contractors and suppliers to successfully provide reliable and high-quality services is subject to technical and operational risks that are largely beyond our control. Any disruption to the operations of our contractors and suppliers could impact our ability to service our existing gyms, maintain the quality of our product offering and open new gyms on time or at all.

If we lose such contractors and suppliers or such contractors and suppliers encounter financial hardships unrelated to demand from us, we may not be able to identify or enter into agreements with alternative contractors and suppliers on a timely basis on acceptable terms, if at all. Transitioning to new contractors and suppliers may be time consuming and expensive and may result in interruptions to our operations. For example, substantially all of our gym equipment is provided and serviced by a single supplier, Matrix, and, if such relationship were terminated or if Matrix was unable to honor its commitments for any reason, we would need to find suitable alternative suppliers on short notice and may be unable to negotiate equally favorable terms. Any significant increase in the price of gym equipment or difficulties in securing the quantity of equipment we require to open new and maintain or upgrade existing gyms could adversely impact our financial condition and results of operation.

If we encounter delays or difficulties in securing the products or services provided by our third- party contractors and suppliers or there is a deficiency, lack of or poor quality of such products or services provided, our ability to serve our members and grow our brand and gym footprint would be interrupted. Any of these events could have a material adverse effect on our business, financial condition, results of operations and prospects.

We may be unable to maintain the required level of insurance cover on acceptable terms or at an acceptable cost.

We might not be able to maintain general liability insurance on acceptable terms in the future or maintain a level of insurance that would provide adequate coverage against potential health and safety claims. An increase in the number of claims against health and fitness gym operators generally may result in the cost of insurance for the industry as a whole to rise and comprehensive insurance coverage may become more difficult to attain. Any increase in the cost of insurance in the market is likely to impact our business, financial condition, results of operations and prospects.

We may be forced to close gyms temporarily or other adverse consequences could result due to unforeseen circumstances.

We may be forced to temporarily close gyms in the future or other adverse consequences such as property damage or personal injury due to any number of unforeseen circumstances, including as a result of fire, flood, technical difficulties, loss of power, health and safety incident, terrorist incident or natural disaster. Political crises, such as riots, terrorist attacks, war and other political instability could also disrupt our operations. In the past, we have had to close a small number of gyms temporarily, primarily due to flooding. Any prolonged closures may adversely affect our results of operations and may also result in longer term reductions in revenue and profitability for a number of reasons, such as termination of memberships by members of the affected gyms. Any losses may be in excess of, or outside the scope of, our insurance. Failure to properly manage any temporary closures could have an adverse effect on our business, financial condition, results of operations and prospects.

We may identify and pursue the acquisitions of other health and fitness businesses or existing gyms and may fail to successfully integrate such businesses or gyms, may have liabilities that we are not aware of or may not be as profitable as we expected them to be.

As opportunities arise, we will continue to assess possible acquisitions of other health and fitness operators, as well as select gyms from other health and fitness operators, to complement our organic site roll out strategy. Our ability to make such acquisitions could be affected by a number of factors, including legal and regulatory changes, competition regulations, general macroeconomic, social and political conditions and available capital.

contd.

Even if we are successful in acquiring target businesses, we may experience difficulties in integrating targets into our business, may incur higher than expected costs or fail to realise the anticipated benefits. Acquiring new businesses can place significant demands on management, employees, suppliers, systems and resources and can expose us to new or unidentified liabilities. An acquired business also may not perform in line with our expectations at the time of the acquisition. Furthermore, we may not achieve the desired level of revenue or cost synergy benefits on integration of new businesses or gyms and the cost of achieving those benefits may be higher than anticipated. Failure to integrate acquisitions successfully or the manifestation of unexpected liabilities or costs associated with such acquisitions could have a material adverse effect on our business, financial condition, results of operations and prospects.

Additionally, we may be exposed to unexpected costs or liabilities resulting from acquisitions which may not be covered by contractual representations and indemnities. Although we typically conduct due diligence investigations prior to each acquisition, we can provide no assurance that we will discover all deficiencies, facts or material liabilities of an acquired business for which we may be responsible as a successor owner or operator, and actual developments may differ significantly from our expectations. Additionally, acquisitions may require the approval of governmental or regulatory authorities which can block, impose conditions on, or delay the process, resulting in a failure on our part to proceed with announced transactions on a timely basis or at all, thus hampering our opportunities for growth.

Any acquisition or other strategic transaction we may undertake in the future could result in the incurrence of debt and contingent liabilities, an increase in interest expenses and amortisation expenses related to goodwill or other intangible assets or in the use by us of available cash on hand to finance any such acquisitions.

In identifying acquisition targets, we may incorrectly assess the market position, growth prospects of the target business, or whether the business' geographic location, equipment or other assets fit within our existing operations. We may incorrectly assess the success of the location of the target business, as well as the potential to enhance these locations following the acquisition, upon which the price paid for acquisitions is primarily based. Unanticipated events or liabilities relating to these businesses could have a material adverse effect on our results of operations, financial condition and cash flow. Such failures to achieve our acquisition target performance goals and could in turn have material adverse effects on our revenue, results of operations, financial condition and cash flow.

We may invest in new business lines, which may not achieve expected results.

As part of our business strategy, we may diversify into new formats of gym, such as small box format, and new lines of business within the health and fitness market in which we have not previously directly participated. New business lines would require the investment of additional capital and the involvement of our senior management, which would divert management time away from other matters, such as our core operations. We may be unable to develop new business lines and they may not perform in line with expectations, which could have a material adverse effect on our business, financial condition, results of operations and prospects.

We may expand into new international markets, which may have different market conditions and consumer preferences than the UK and expose us to other potential risks.

We may consider potential expansion into new international markets either through the acquisition of existing gym portfolios or through organic roll out. Such international markets may have different competitive conditions, market conditions, value gym penetration rates, consumer culture and preferences and discretionary consumer spending habits than the UK, which may cause gyms in these markets to perform differently than our gyms in the UK and thus fail to deliver the expected financial performance and ROCEs. In addition, any such future expansion would result in our operations being subject to new laws and regulations and could increase costs associated with complying with existing laws, regulations or licensing and authorisation regimes. Expansion into new international markets could also subject us to risks related to adverse fluctuations in currency exchange rates. Any of the above factors could have a material adverse effect on our business, financial condition, results of operations and prospects.

Certain non-IFRS measures such as Group Run-Rate Adjusted EBITDA incorporate forward- looking estimates that may differ from actual results.

Certain expected or estimated non-IFRS measures, such as Group Run-Rate Adjusted EBITDA, incorporate forward-looking estimates and assumptions made by our management. Run Rate Adjustment replaces the Adjusted EBITDA earned by our gyms that are less than three years old at the end of a certain reporting period with the projected Adjusted EBITDA for their third year of operation. Although we believe that Group Run-Rate Adjusted EBITDA is a useful metric to describe the Group Adjusted EBITDA before Pre-Opening Costs that our existing business may generate as it matures, we cannot assure you that we will be successful in achieving forecast levels of Gym Site Adjusted EBITDA within the timelines anticipated or at all. The assumptions we have made with respect to the Group Run-Rate Adjusted EBITDA and other non-IFRS Financial Measures that we represent in this report are based on our current estimates and they involve risks, uncertainties, assumptions and other factors that may cause actual results, performance or achievements to be materially different from any anticipated future results, performance or achievements expressed or implied by such adjusted financial information.

Other companies, research agencies or market reporters may include other items or factors in their calculation of similar metrics and may use certain estimates and assumptions that we do not use when calculating these metrics. These factors may cause the calculations by others of similar metrics to differ substantially from our calculations. None of the calculations of these measures should be considered in isolation or as an alternative measure of performance under International Financial Reporting Standards.

The unaudited financial information presented herein has been prepared by management. The independent auditors of Topco have not audited, reviewed, compiled or performed any procedures with respect to such unaudited financial information for the purpose of its inclusion herein and accordingly, they have not expressed an opinion or provided any form of assurance with respect thereto for the purpose of this document. Furthermore, the unaudited financial information does not take into account any circumstances or events occurring after the period to which it refers. You should therefore not place undue reliance on the information presented above.

The UK health and fitness industry is highly competitive and we may fail to compete effectively.

The UK health and fitness industry is highly competitive. Competition for provision of health and fitness services is highly localised, and we compete with all local public and private health and fitness operators, gyms and leisure centers offering exercise facilities, including boutique exercise studios. Our competitors have opened and may open further gyms or exercise facilities in the catchment areas of our existing or planned gyms.

Competitors, which may be new or existing operators, including companies that have greater resources or greater name recognition than us, may compete to attract members in our current or prospective markets. Non-profit organisations and local authorities in our markets may be able to obtain land and construct gyms at a lower cost and may be able to collect membership fees without paying taxes or receive preferential VAT treatment, thereby allowing them to potentially charge lower prices. Due to the increasing number of value gyms in the UK, we may face increased direct competition in the value segment of the market, especially if the operators of such value gyms charge lower membership prices than us or gain access to significant amounts of capital to enable them to rapidly build new sites. In addition, because we do not have exclusive rights to many of the elements that comprise our in-gym experience and service offering, competitors may attempt to copy or improve on our business model, or portions thereof, which could erode our competitive position, market share and brand recognition and adversely affect our prospects. There is also a risk that traditional mid-market and premium health and fitness club operators may change their models and lower prices or create lower price brand alternatives to more effectively compete with us.

In addition, individuals wishing to exercise have a wide variety of options available to them other than using purpose-built health and fitness facilities. These include engaging in outdoor activities such as cycling, running and group exercise programs, participating in other sports (including team sports) or using exercise machines or weights, fitness apps or other online programs at home.

Increased competition in the health and fitness industry could result from new market entrants or existing operators expanding their operations or lowering their prices, including operators who have traditionally participated in the mid-market and premium segment, particularly large multi-facility operators that are able to compete for attractive property opportunities. Some competitors may have lower fixed or variable costs, or have lower ROCE expectations than us, which means that they may be able to offer lower membership fees for equivalent services. We also face competition from operators offering comparable or higher pricing in conjunction with higher levels of service and other amenities. In response to competition, our business may from time to time make certain pricing, service, sales and marketing or capital decisions that could have an adverse effect on our results of operations and financial condition. If we cannot compete adequately, our growth strategy as well as our business, financial condition, results of operations and prospects could be materially adversely affected.

contd.

Our success is dependent on the continuing popularity of health and fitness in the UK, and the popularity of value gyms in particular.

Our success is dependent on the continuing popularity of value gyms in the UK. Alternative forms of fitness or venues for fitness may become popular and trends in the type of gyms that consumers wish to join may change in the future. Changes in consumer preferences that could affect us include, for example, a preference for in-home exercise, team sports, outdoor fitness activities or studio-based group exercises.

There may also be a change in the public's perception of the general benefits of exercise, which could lead to less demand for gyms. In addition, the development of pharmaceutical drugs that lead to weight loss may impact overall demand for our product. If we are unable to anticipate and adapt to consumer preferences or industry changes, or if we are unable to adapt our services on a timely basis, we may lose members, which may have a material adverse effect on our business, financial condition, results of operations and prospects.

We may be adversely affected by licensing regimes, tariffs or taxes.

Any significant increase in the rates, taxes and other costs and tariffs levied by local municipalities where our gyms are located or by the UK government could have a material adverse effect on our profitability and financial condition if we are unable to control costs in other areas. We have no control over the amounts levied and could experience increases in the future. Compliance with and future changes to relevant planning laws and building regulations, or the requirement to pay increased regulatory rates and taxes, could restrict or delay our expansion plans or increase our costs. In addition, when modernising, refurbishing or expanding existing gyms or opening new gyms, we may require change of use or planning consents from local authorities. Any inability or delays in receiving such consents could delay or inhibit our refurbishment, extension or new gym opening plans or increase costs associated with these plans. Any of the foregoing could have a material adverse effect on our business, financial condition, results of operations and prospects.

We could be subject to material fines and claims related to health and safety risks at our gyms.

Physical exercise and the use of our gym services and facilities, including exercise equipment, poses potential health and safety risks, including serious injury or death, to members, employees and third party contractors. For example, water hygiene problems could develop in our changing facilities that may cause a potential health risk to members and employees, or an accident on the gym floor involving fitness equipment could result in injury or death. We may be subject to material claims asserted against us for any injury or death suffered by someone using our facilities or services. We might not be able to successfully defend such claims and we may be liable for fines, damages and costs in excess of, or outside the scope of, our insurance coverage. Even with adequate insurance, such claims may cause significant damage to our reputation and may have a material impact on our ability to attract or retain members. Any such fines or claims may have a material adverse effect on our business, financial condition, results of operations and prospects.

Our operations and gyms are subject to various laws, regulations and planning and licensing regimes, including in-person marketing, licensing, signage planning, advertising standards and noise abatement requirements. Some environmental laws and regulations impose liability and responsibility on present and former owners, operators or users, including tenants, of sites for the clean-up of contamination at, or arising from, such sites, without regard to causation or knowledge of contamination. For example, we have historically incurred costs for remedial actions when asbestos was discovered at a number of gyms. Although we are not aware of any material actual or pending liabilities, claims or actions relating to contamination of any of our current sites, future investigations may lead to discoveries of contamination that we are required to remedy or damage that may subject us to claims or regulatory proceedings. A breach of environmental regulations, standards relating to health and safety or marketing and advertising or other applicable standards could potentially lead to the mandatory closure of a gym or multiple gyms for a period of time. We may also be subject to claims by members and other visitors alleging exposure to potentially harmful substances that may be present within our gym sites. We may not be able to successfully defend against such claims or regulatory proceedings or our insurance coverage may be insufficient to cover the costs of such claims. Any such actions may also lead to negative publicity for us and adversely affect our ability to attract new and retain existing members, which could have a material adverse effect on our business, financial condition, results of operations and prospects.

contd.

New laws, regulations and licensing regimes or changes in existing laws and regulations, particularly those relating to environmental protection, health and safety, labour and employment, tax, competition, consumer protection, marketing and advertising practices, privacy and information security, may require extensive system and/or operating changes that may be difficult to implement and could increase our operating expenses or subject us to additional costs, fines or other penalties. For example, a change in the VAT or other tax regimes applicable, or the application thereof, to our business may result in uncertainty, disruption to operations and implementation costs, which we may not be able to pass on to our customers. Compliance with, or any violation of, current and future laws, regulations or licensing regimes could require material expenditures by us, expose us to government enforcement action and claims by members or otherwise materially adversely affect our business, financial condition, results of operations and prospects.

We operate in the consumer sector and our business may be significantly adversely affected by economic conditions and other factors in the UK affecting levels of disposable income and consumer confidence.

We currently operate exclusively in the UK, which exposes us to potentially adverse developments related to changes in consumer preferences, general deterioration in economic conditions and demographic changes in the UK market. On 23 June 2016, a majority of voters in the UK opted to withdraw from the EU in a national referendum and on 29 March 2017, the Government formally initiated the withdrawal process ("Brexit"). The terms of withdrawal are subject to a negotiation period that could last at least two years. The result of the UK general election on 8 June 2017 has added to the uncertainty around the terms of the UK's withdrawal from the European Union. Depending on the final terms of Brexit, the UK could lose access to the single European Union market, which could result, among other things, in the disruption of the free movement of goods, services and people between the UK and the European Union, undermine bilateral cooperation in key geographic areas and significantly disrupt trade between the UK and the European Union or other nations as the UK pursues independent trade relations. This could have an impact on the general and economic conditions in the UK, which will directly adversely affect the financial condition of our members.

These developments, as well as any other adverse developments in macroeconomic conditions in the UK, or the perception that any of them could occur, may result in the lower availability of credit, higher interest rates and tax rates, increased unemployment, higher consumer debt levels, lower consumer confidence, lower wage and salary levels, inflation or the public perception that any of these conditions may occur, could adversely impact demand for gym memberships in the UK. Membership of a gym may be

contd.

viewed as a non-essential item and, in times of economic uncertainty or recession, members of gyms may terminate or suspend their membership. Macroeconomic conditions and uncertainties may also impact our suppliers in ways that would adversely affect our business and results of operations, including supplier closures or increases in the costs of products or services they supply. Lower levels of future economic growth, or any deterioration in the economy or any of the factors mentioned above could have a material adverse effect on our business, financial condition, results of operations and prospects.

Failure to comply with data protection legislation or a security breach or system failure in our technical or information technology infrastructure could result in significant harm to us.

In the ordinary course of business, we collect, transmit and store member and employee data, including dates of birth, bank account details and other highly sensitive personally identifiable information (including information about their physical health), in information systems that we maintain. We have a large membership database made up of prospective, current and former members. This data could be an attractive target for cyber-attack by malicious third parties with a wide range of motives and expertise, including organised criminal groups, hackers, disgruntled current or former employees and others. The protection of such member and employee data is critical to us.

Furthermore, our use of this information is subject to numerous laws, regulations and standards designed to protect sensitive or confidential client and employee data, including, among others, the UK Data Protection Act 1998 (the "DPA") and the UK Payment Card Industry Data Security Standard ("PCI DSS"), which impose significant compliance obligations. The new EU-wide General Data Protection Regulation (the "GDPR") will become applicable on 25 May 2018. It will be substantively transposed into UK law by a Data Protection Act, replacing the current DPA. The GDPR will implement more stringent operational requirements for controllers and processors of personal data, including, for example, expanded disclosures about how personal information is to be used. Regulators will also have the ability to impose larger fines of up to €20 million or up to 4% of the total worldwide annual turnover of the preceding financial year, whichever is higher. The GDPR provides that EU member states may make their own further laws and regulations limiting the processing of certain types of data (e.g. health data), which could further limit our ability to use and share personal data.

We use a third party based in the US for marketing purposes, which may involve the processing of our member data, and thus, we are also subject to the evolving EU laws on data export. We rely on a mixture of mechanisms for the

contd.

transfer of data to and from our EU business to the United States, and could be impacted by changes in law as a result of the current challenges to these mechanisms in the European courts, for example in 2015, the Court of Justice of the European Union invalidated the US EU Safe Harbor framework regarding the transfer of personal data from the EU to the US. Although the US and EU negotiators agreed to a new framework in February 2016, there is currently litigation against this new framework as well as other challenges to EU mechanisms for data transfers, and there can be no assurance that the outcome of the litigation and new agreements will not impact our business or results of operations.

We also use cookies and similar technology for online behavioral advertising. In the UK, informed consent is required for the placement of a cookie on a user's device. The current EU laws that cover the use of cookies and similar technology and direct marketing are under reform. Regulation of cookies and web beacons may lead to broader restrictions on our research activities, including efforts to understand users' Internet usage and attract prospective users. Such regulations may increase the costs for collecting or using online usage information, increase regulatory scrutiny and increase the potential for civil liability under consumer protection laws. Similarly, changes to direct marketing rules may also have a significant effect on how we market to prospective and current members.

Compliance with evolving privacy and security laws, requirements and regulations may result in cost increases due to necessary systems changes, new limitations or constraints on our business models and the development of new administrative processes. Although we monitor the changes in law in this regard closely and make an effort to ensure compliance, there can be no assurance that we will be in compliance at all times, and this could lead to governmental enforcement actions, litigation, fines and penalties or adverse publicity, which could have an adverse effect on our reputation and business.

Despite the security measures we have in place to comply with applicable laws, regulations and standards, our facilities and systems, and those of our third-party providers, may be vulnerable to security breaches, acts of cyber terrorism or sabotage, vandalism or theft, computer viruses, misplaced or lost data, cyber fraud, programming and human errors or other similar events. A breach of data protection legislation involving the unlawful processing, misappropriation, loss or other unauthorised disclosure of sensitive or confidential member information, including the use of such information for direct marketing purposes, whether by us, one of our sub-contractors or service providers or an unrelated party, could result in regulatory action, compensation claims, fines of up to €20 million or up to 4% of the total worldwide annual turnover of the preceding financial year, whichever is higher, potential loss of business and adverse publicity. Any of the foregoing could have a material adverse effect on our business, financial condition, results of operations and prospects.

Glossary

"Average Revenue per Member per Month"
revenue for that period divided by the number of months in that period and further divided by the average number of members during that period. The average number of members during that period is calculated as the average of the number of members as of the beginning of the first month and the end of every month in that period. Unless stated otherwise, LAF Disposals are excluded from the Average Revenue per Member per Month figures shown for 2016.

"Expansionary Capital Expenditure"
the Initial Capital Investment and the capital costs of expanding gym sites incurred in that period.

"Adjusted EBITDA"
the Group's profit or loss for a certain period before income tax expense, net finance cost, depreciation of property, plant and equipment, amortisation of intangible fixed assets, profit/loss on disposal of property, plant and equipment, exceptional administrative expenses, and other extraordinary items, after adding back Pre-Opening Costs and the Non-Cash Rent Adjustment.

"Adjusted EBITDA margin"
Adjusted EBITDA for that period divided by revenue for that period.

"Operating Cash Flow"
Group Adjusted EBITDA plus Working Capital Cash Flow and less Maintenance and Corporate Capital Expenditures for that period.

"Operating Cash Flow Conversion":
Group Operating Cash Flow for that period divided by Group Adjusted EBITDA for that period.

"Run-Rate Adjusted EBITDA":
Group Adjusted EBITDA including Run-Rate Adjustments.

"Gym Site Adjusted EBITDA":
Adjusted EBITDA for that period, excluding Head Office Costs.

"Head Office Costs":
all non-gym specific costs, other than depreciation and amortisation, related to the operation of head office functions in a given period.

"Initial Capital Investment":
the capital cost of bringing a new gym into operation, including expenditures on site fit out, fixtures, fittings and equipment.

"Maintenance and Corporate Capital Expenditures":
the total capital expenditure incurred in a period less Expansionary Capital Expenditure incurred in that period.

"Mature Gym EBITDA":
profit for a certain period before income tax expense, net finance cost, depreciation of property, plant and equipment, amortisation of intangible fixed assets, profit/loss on disposal of property, plant and equipment, exceptional administrative expenses and Head Office Costs for Mature Gyms. Mature Gym EBITDA does not include the Non-Cash Rent Adjustment or adjustments for Pre-Opening Costs or other extraordinary items that were added back to Group Adjusted EBITDA and Gym Site Adjusted EBITDA.

"Mature gyms":
the Group's gyms that have been open as PureGyms for 24 months or more as of the end of the relevant reporting period.

"Net Debt":
as total senior indebtedness of the Group less cash and cash equivalents.

"New gyms":
the Group's gyms that have been open as Pure Gyms for less than 24 months as of the end of the relevant reporting period.

"Non-Cash Rent Adjustment":
adding back the non-cash rent expense charged to the income statement in the period (less amounts added back as part of Pre-Opening Costs), as management believes that this is a better reflection of our actual earnings. This is because we typically receive a rent-free period of one year or more as an incentive from developers or property owners to lease space in their buildings. Under IFRS, the benefit of this rent-free period is spread out over the life of the lease (as a deduction in the rent payable over the entire lease period), even though on a cash basis, we have no cash outlay for the rent-free period.

"Number of gyms":
the total number of gyms that are open and trading under both the PureGym and the LA Fitness Group brands as well as the total number of LA Fitness gyms that are closed and in the process of being converted to PureGyms, as of the specified date or the end date of the relevant period.

"Number of members":
the total number of active members, including the total number of members who have suspended ("freeze" or "frozen") their memberships, of PureGym and (for the period subsequent to our acquisition of LA Fitness and prior to our completing the conversion or disposition of all LA Fitness branded gyms) LA Fitness branded gyms, but excluding the total number of members who have cancelled their memberships and the total number of pre-opening members of organic gyms that have yet to open, as of a specified date or the end date of the relevant period.

"Pre-Opening Costs":
the total of all gym site operating costs incurred during the pre-opening periods of gyms in that period. Pre-Opening Costs primarily consist of staff, marketing and rent expenses.

"Pro forma net interest expense":
represents the net of interest payable/receivable for the twelve months ended 31 December 2017 after giving pro forma effect to the recent refinancing and the application of the proceeds therefrom as if the refinancing occurred on 1 January 2017.

"PureGyms":
the combined New Gym and Mature Gym portfolios.

"ROCE":
EBITDA divided by Initial Capital Investment and refers to return on capital employed.

"Run-Rate Adjustment":
the adjustment made to those gyms which are less than three years old at the end of the reporting period. These adjustments replace the Adjusted EBITDA earned by these sites in the last twelve month period with the projected Adjusted EBITDA for their third year of operation.

"Working Capital Cash Flow":
cash movements in working capital less the Non-Cash Rent Adjustment.

Strategic report
for the year ended 31 December 2017

The directors present their strategic report for the year ended 31 December 2017.

Business Review

The group operates high quality, affordable gym facilities under the Pure Gym brand, the majority of which are open 24 hours a day, 7 days a week. Pure Gym is the UK market leader in the gym sector by number of members and number of sites, with 927,000 members (2016: 822,000) at year end, representing volume growth of 12.8%. The group had 192 gyms trading at year end (2016: 172).

During the year the group further consolidated its market leading position, opening 20 new organic gyms, in addition to converting the 2 remaining LA Fitness gyms to the Pure Gym format. Pure Gym's pipeline of sites remains very strong and the group expects to continue its organic roll-out plan at a similar pace in 2018 and beyond.

Results

The consolidated statement of comprehensive income on page 12 shows our performance for the year ended 31 December 2017. We are very pleased to report significant growth in our underlying internal key performance indicators, as shown below.

	2017 £'000	2016 £'000	Increase £'000	Increase %
Members	**927,000**	822,000	105,000	12.8%
Gyms	**192**	172	20	11.6%
Revenue	**198,032**	159,937	38,095	23.8%
Group EBITDA [1]	**64,405**	39,524	24,881	63.0%
Pre-Opening Costs [2]	***3,562***	*4,377*		
Non-Cash Rent [3]	***1,719***	*3,033*		
Other Extraordinary Items [4]	***1,780***	*333*		
Adjusted Group EBITDA [5]	**71,466**	47,267	24,199	51.2%

[1] Group EBITDA is defined as earnings before net finance cost, taxation, depreciation, amortisation, profit/loss on sale of property, plant & equipment and exceptional items. See note 5 of the financial statements for reconciliation of Operating Profit to Group EBITDA.

[2] Pre-Opening Costs represent the total of all gym site operating costs incurred prior to the opening of a new gym and primarily consist of staff cost, marketing and rent expense.

[3] Under IFRS, the total lease cost (net of any rent free period) is spread evenly over the life of the lease, resulting in a mismatch between rent expensed and cash paid in the accounting period. The Non-Cash Rent adjustment removes the non-cash rent charged to the income statement in the period (less amounts already added back as part of Pre-Opening Costs adjustment).

[4] Other Extraordinary Items refers to the net impact of various one-off items not included in Exceptional Items. These are items that do not meet the IFRS definition of "exceptional" due to their size, but nonetheless are not representative of underlying business performance.

[5] Adjusted Group EBITDA is defined as earnings before net finance cost, taxation, depreciation, amortisation, profit/loss on sale of property, plant & equipment, exceptional items, Pre-Opening Expenses, Non-Cash Rent and Other Extraordinary Items.

Change in ownership of the group and funding

On 30 November 2017 Gym Topco Limited and subsidiaries were acquired by the group of companies known as Leonard Green & Partners LP (the "Leonard Green group") and in doing so restructured the group's finances such that as at 31 December 2017, the company was party to a £420 million financing facility with five international institutions (Barclays Bank PLC, Royal Bank of Canada, Credit Suisse AG, ING Bank N.V. and Jefferies Finance LLC), collectively "the Lenders" consisting of a £360 million bridging loan and a £60 million revolving credit facility agreement.

On 24 January 2018, the bridging loan was replaced with £360 million of 6.375% senior secured notes for which Gym Topco Limited and certain subsidiaries are guarantors.

The group's facilities provide additional headroom both for its working capital requirements and for the roll out of new gyms in line with its strategy.

Principal risks and uncertainties

The group is subject to a number of risks and uncertainties. Its business model is based on it being able to generate revenue from selling memberships to its customers, therefore the group is dependent to some extent on the general economic environment and consumer confidence levels. The Directors believe that our low price customer proposition mitigates this risk to a certain degree.

As 31 December 2017 the group was party to a bridging facility as detailed in note 16 to the financial statements with a residual interest rate cap in place to hedge against exposure to interest rate fluctuations on £100,000,000, which is equivalent to 28% of its drawn bank debt as at 31 December 2017 (2016: 47%). At the date of signing the financial statements, the group has significantly reduced its exposure to interest rate risk with the exchange of its bridging facility for an issue of senior secured notes at a fixed rate of 6.375%.

The group regularly monitors its cash flow requirements, through the use of short and long term cash flow forecasting.

Employees and diversity

At 31 December 2017 the group had 833 employees, compared to 682 at 31 December 2016 and these are analysed as follows:

	31 December 2017			31 December 2016		
	Male	**Female**	**Total**	Male	Female	Total
Company Directors	**2**	**-**	**2**	5	-	5
Senior Managers	**5**	**4**	**9**	5	3	8
Other employees	**524**	**298**	**822**	403	266	669
Total	**531**	**302**	**833**	413	269	682

I would like to extend our thanks to all our employees, both at the gyms and at the support centre, they continue to play a critical role in the success of the group.

On behalf of the Board

A Bellamy
Director
23 March 2018

Directors' report

for the year ended 31 December 2017

The directors present their annual report and audited, consolidated financial statements of Gym Topco Limited and subsidiaries (together "the Group") for the year ended 31 December 2017.

Principal activities

Gym Topco Limited is an intermediate holding company within the Leonard Green group and is expected to remain as such for the foreseeable future.

The activities of the Group are discussed in the strategic report on page 4. The Group made a loss for the year of £18,050,000 (2016: £19,765,000) and the directors are not able to recommend payment of a dividend.

Principal risks and uncertainties

Principal risks and uncertainties are discussed within the Strategic Report on page 5 and in note 18 to the financial statements.

Directors

The directors who served the group during the year and up to signing the financial statements were as follows:

H Cobbold
A Bellamy
P Roberts (resigned 30 November 2017)
J de Bruin (resigned 30 November 2017)
T Walker (resigned 30 November 2017)
R Zannino (resigned 30 November 2017)
T Ball (resigned 12 April 2017)
P McGrath (resigned 30 November 2017)

Going Concern

The group meets its day to day working capital requirements through its cash reserves and borrowing facilities (as detailed in notes 16 and 25). The group's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the group should be able to operate within its existing facilities. The Directors have a reasonable expectation that the group has adequate resources to continue to remain a going concern for the foreseeable future and therefore continues to adopt the going concern basis in preparing its financial statements.

Employees

Management policies seek to ensure that both the recruitment and career development of employees are determined solely on merit and aptitude regardless of age, sex, ethnic origin, religious belief or disability. The company endeavours to ensure that all employees benefit from its training and career development programmes.

Applications for employment by persons with disabilities are always fully considered, bearing in mind the respective aptitudes and abilities of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the company continues and the appropriate training is arranged. It is the policy of the company that the training, career development and promotion of a person with a disability should, as far as possible, be identical to that of a person who does not suffer from a disability.

Consultation with employees or their representatives has continued at all levels, with the aim of ensuring that their views are taken into account when decisions are made that are likely to affect their interests and that all employees are aware of the financial and economic performance of the company as a whole. Communication with all employees continues through company meetings, briefing groups and electronic communications.

Statement of directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the group financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union and company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and company and of the profit or loss of the group and company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable IFRSs as adopted by the European Union have been followed for the group financial statements and United Kingdom Accounting Standards, comprising FRS 101, have been followed for the company financial statements, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group and company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group and company's transactions and disclose with reasonable accuracy at any time the financial position of the group and company and enable them to ensure that the financial statements comply with the Companies Act 2006 and, as regards the group financial statements, Article 4 of the IAS Regulation.

The directors are also responsible for safeguarding the assets of the group and company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Directors' report (continued)

for the year ended 31 December 2017

Disclosure of information to auditors

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- each director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Independent auditors

In the absence of any notice proposing to terminate their appointment, PricewaterhouseCoopers LLP will be deemed to be reappointed for the next financial year. PricewaterhouseCoopers LLP have indicated their willingness to continue in office.

On behalf of the Board

A Bellamy
Director
23 March 2018

Independent auditors' report to the members of Gym Topco Limited

Report on the group financial statements

Opinion

In our opinion, Gym Topco Limited's group financial statements (the "financial statements"):

- give a true and fair view of the state of the group's affairs as at 31 December 2017 and of its loss and cash flows for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual report and financial statements (the "Annual Report"), which comprise: the consolidated statement of financial position as at 31 December 2017; the consolidated statement of comprehensive income, the consolidated cash flow statement, and the consolidated statement of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the group's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the group's ability to continue as a going concern.

Independent auditors' report to the members of Gym Topco Limited (continued)

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 December 2017 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the group and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of the Directors' Responsibilities set out on page 7, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or to cease operations, or have no realistic alternative but to do so.

Independent auditors' report to the members of Gym Topco Limited (continued)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- certain disclosures of directors' remuneration specified by law are not made.

We have no exceptions to report arising from this responsibility.

Other matter

We have reported separately on the company financial statements of Gym Topco Limited for the year ended 31 December 2017.

Notes to the consolidated financial statements

1 General information

The principal activity of the group during the year was the provision of facilities for physical fitness and is expected to remain so for the foreseeable future. The group and its subsidiaries are private companies limited by shares and are incorporated and domiciled in the UK. The address of the Group's registered office is Town Centre House, Merrion Centre, Leeds, West Yorkshire, LS2 8LY.

2 Summary of significant accounting policies

Basis of accounting

The Group financial statements have been prepared on the going concern basis and in accordance with International Financial Reporting Standards ('IFRS') and IFRS Interpretations Committee ('IFRS IC') interpretations, as adopted by the European Union and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The Group financial statements have been prepared under the historical cost convention, as modified for the revaluation of financial assets and financial liabilities at fair value through profit and loss. The Group financial statements are presented in thousands of pounds sterling ("£'000") except when otherwise indicated. Accounting policies have been consistently applied to all financial years presented.

The preparation of the Group financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenue and expenses during the reporting period. Although these estimates are based on management's reasonable knowledge of the amount, event or actions, actual results may differ from those estimates.

Basis of consolidation

The Group financial statements consolidate the financial statements of the company and its subsidiary undertakings drawn up to 31 December 2017. The results of subsidiaries acquired are consolidated for the period from the date on which control passed. Acquisitions are accounted for using the acquisition method. Uniform accounting policies are applied throughout the Group, unless otherwise stated.

Segmental reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision maker is identified to be the Executive Management Team of the Gym Topco group of companies. The Executive Management Team have identified one reporting segment as the Group operates a single class of business. The Group's activities consist solely of the provision of high quality health and fitness facilities within the United Kingdom. It is managed as one entity and management have consequently determined that there is a single class of business and one operating segment.

Going Concern

The group meets its day to day working capital requirements through its cash reserves and borrowing facilities (as detailed in notes 16 and 25). The group's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the group should be able to operate within its existing facilities. The Directors have a reasonable expectation that the group has adequate resources to continue to remain a going concern for the foreseeable future and therefore continues to adopt the going concern basis in preparing its financial statements.

2 Summary of significant accounting policies (continued)

Revenue

Revenue primarily represents sales of services provided in the period and non-refundable joining fees received during the period, exclusive of value added tax. Member income includes membership subscriptions and joining fee income. Membership subscriptions are received in advance of the period to which they relate are held in deferred income and joining fee income is recognised immediately as revenue. Revenue from vending income is recognised at the point of sale. Other income includes various ancillary revenue streams, which are recognised in the period to which they relate. All turnover relates to sales in the United Kingdom.

Intangible assets

(a) Goodwill

Goodwill arises on the acquisition of subsidiaries and represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured at fair value is less than the fair value of the net assets of the subsidiary acquired, in the case of a bargain purchase, the difference is recognised directly in the consolidated statement of comprehensive income.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the CGUs, or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Each gym is considered to be a CGU and goodwill is assessed at the group of CGUs level, i.e. across all gyms together.

Goodwill is not amortised, instead impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

The non-amortisation of goodwill is a departure from the Companies Act 2006 requirements, however this is considered a true and fair override due to the indefinite life of the goodwill. This is an alignment with the requirements of IAS 38 for the non-amortisation of goodwill

(b) Intangibles acquired in business combinations

The Group recognises intangible assets acquired as part of business combinations at fair value at the date of acquisition. The determination of these fair values is based upon management's judgement utilising valuation expertise and includes assumptions on the timing and amount of future incremental cash flows generated by the assets and the selection of an appropriate cost of capital. Furthermore, management must estimate the expected useful life of intangible assets and charge amortisation on these assets accordingly, the value of which is shown within administrative expenses. The useful life estimated for customer lists is 2 years and for brands it is 1 to 5 years.

Inventories

Inventories primarily relate to goods for resale and are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items. Inventories are valued on a first in, first out basis. No inventories have been written off in the year.

2 Summary of significant accounting policies (continued)

Property, plant and equipment

All property, plant and equipment is initially recorded at cost, including those costs that were directly attributable to bringing the assets into working condition. Any capital contribution by a landlord towards leasehold fitting out works is treated as a lease incentive to be spread over the lease term.

Depreciation is calculated so as to write off the cost of an asset (less residual value) over the useful economic life of that asset as follows:

Leasehold costs	Straight line over the life of the lease
Leasehold improvements	Straight line over 3-15 years
Fixtures and fittings	Straight line over 6 years
IT equipment	Straight line over 3 years
Motor vehicles	Straight line over 3 years

Leases

(a) Finance lease agreements

Where the company enters into a lease which entails taking substantially all the risks and rewards of ownership of an asset, the lease is treated as a finance lease. The asset is recorded in the balance sheet as a tangible fixed asset and is depreciated in accordance with the above depreciation policies. Future instalments under such leases, net of finance charges, are included within borrowings. Rentals payable are apportioned between the finance element, which is charged to the consolidated statement of comprehensive income on a straight line basis and the capital element which reduces the outstanding obligation for future instalments.

(b) Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to the consolidated statement of comprehensive income on a straight line basis over the period of the lease. The notional value of any rent free period and any other lease incentive provided by the landlord is spread on a straight line basis over the period of the lease.

Financial instruments

Financial liabilities

The company initially recognises financial liabilities at fair value where applicable (net of any transaction costs) and subsequently they are measured at amortised cost using the effective interest method. Transaction costs are amortised using the effective interest method over the life of the loan.

Derivative financial instruments

The Group sometimes uses derivative financial instruments such as interest rate swaps and caps to hedge risks associated with interest rate movements. The Group initially recognises such instruments at fair value where applicable and subsequently remeasures at each balance sheet date. The Group had no separable derivatives at the balance sheet date.

2 Summary of significant accounting policies (continued)

Financial assets

The Group classifies its financial assets as loans and receivables. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the end of the reporting date which are classified as non-current assets. The Company's loans and receivables comprise 'trade and other receivables' and cash and cash equivalents in the balance sheet.

Impairment of financial assets

The group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that a loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

For the loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the consolidated statement of comprehensive income.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the reversal of the previously recognised impairment loss is recognised in the consolidated statement of comprehensive income.

Impairment of non-financial assets

Intangible assets that have an indefinite useful life or intangible assets not ready to use are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash-generating units). Prior impairments of non-financial assets (other than goodwill) are reviewed for possible reversal at each reporting date.

Cash and cash equivalents

In the consolidated cash flow statement, cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. In the consolidated statement of financial position, bank overdrafts are shown within borrowings in current liabilities.

2 Summary of significant accounting policies (continued)

Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities. Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Taxation

Deferred income tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill; deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax is measured at the tax rates that are expected to apply in the years in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Capital management

The group's objectives when managing capital are to safeguard the group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Exceptional items

Exceptional items are disclosed separately in the financial statements where it is necessary to do so to provide further understanding of the financial performance of the group. They are non-recurring material items of income or expense that have been shown separately due to the significance of their nature or amount.

2 Summary of significant accounting policies (continued)

Future accounting standards

At the date of authorisation of these financial statements the following standards and interpretations were in issue but not yet effective and therefore have not been applied in these financial statements:

- Amendments to IFRS 2 'Share based payments' on clarifying how to account for certain types of share-based payment transactions;
- Amendments to IFRS 4 'Insurance contracts' regarding the implementation of IFRS 9;
- Amendments to IFRS 9 'Prepayment features with negative compensation' regarding termination rights in order to allow measurement at amortised cost even in the case of negative compensation payments.
- Amendments to IAS 28 ' Long-term interests in associates and joint ventures' on clarifying that an entity applies IFRS 9 Financial Instruments to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture but to which the equity method is not applied.
- Amendment to IAS 40 'Investment property' relating to transfers of investment property;
- IFRIC 22 'Foreign currency transactions and advance consideration';
- IFRIC 23 'Uncertainty over income tax treatments'
- IFRS 9 'Financial instruments';
- IFRS 15 'Revenue from contracts with customers';
- IFRS 16 'Leases'; and
- IFRS 17 'Insurance contracts'

Other than in respect of IFRS 16, the directors anticipate that the adoption of these standards and interpretations in future periods will have no material impact on the financial statements. IFRS 16 will require most operating leases to be brought onto the balance sheet. The directors are currently assessing the impact that the application of this standard will have on the Group financial statements. The standard is effective for accounting periods beginning on or after 1 January 2019.

3 Critical accounting estimates and assumptions

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) Impairment of non-financial assets

The Group is required to test, on an annual basis, whether goodwill has suffered any impairment based on the recoverable amount of its cash-generating units ('CGUs'). The recoverable amount is determined based on value in use calculations. The use of this method requires the estimation of future cash flows and the determination of a pre-tax discount rate in order to calculate the present value of the cash flows. More information including carrying values is included in note 12.

(b) Useful economic lives of property, plant and equipment

The annual deprecation charge for property, plant and equipment is sensitive to changes in the estimates useful economic lives and residual values of the assets. The assessment of useful economic lives and residual values is determined to be a critical accounting judgement and is re-assessed annually. They are amended when necessary to reflect current estimates, based on technological advancement, future investments, economic utilisation and the physical condition of the assets. See note 11 for the carrying amount of the property plant and equipment and note 2 for the useful economic lives for each class of assets.

(c) Recoverability of deferred tax assets

The Group recognises deferred tax assets only if it can be regarded as more likely than not that there will be taxable profits from which the future reversal of the underlying temporary differences can be deducted.

The calculation of the deferred tax asset is based on an estimation of the likely taxes due which requires significant judgement as to the ultimate determination of certain items. Where the actual tax position differs from these estimates, such differences will have an impact on the income tax and the deferred tax asset in the period when such determination is made. Detail of the tax charge and deferred tax asset are set out in note 10.

4 Revenue

Revenue relates wholly to sales in the United Kingdom and is analysed by service or product as follows:

	2017 £'000	2016 £'000
Member income	183,549	147,451
Vending income	5,520	4,621
Other income	8,963	7,865
	198,032	159,937

5 Operating profit

	2017 £'000	2016 £'000
Operating profit is stated after charging/(crediting)		
Employee costs (note 8)	25,245	21,555
Amortisation of intangibles	229	1,093
Depreciation of property, plant & equipment		
- owned assets	25,797	23,215
- assets held under finance lease contracts	585	467
Operating lease rentals		
- land and buildings	33,975	29,685
Loss/(profit) on disposal of property, plant & equipment	732	(690)
Exceptional costs (note 6)	13,802	12,712

A reconciliation from operating profit to Group and Gym EBITDA is as follows:

	2017 £'000	2016 £'000
Operating profit	23,260	2,727
Depreciation	26,382	23,682
Amortisation	229	1,093
Loss/(profit) on disposal of property, plant and equipment	732	(690)
Exceptional costs	13,802	12,712
Group EBITDA	64,405	39,524

6 Exceptional items

Items that are material either because of their size or their nature, and that are non-recurring are considered as exceptional items and are presented within the line items to which they best relate. These items are analysed further below:

	2017 £'000	2016 £'000
Costs relating to the sale of the group	14,144	-
Costs relating to acquisition of the LA Fitness Group	-	361
Integration and transition costs	20	2,315
Impairment of tangible fixed assets	-	3,260
Costs relating to the aborted Initial Public Offering	(362)	6,776
	13,802	12,712

On 30 November 2017 Gym Topco Limited and subsidiaries was sold to the Leonard Green group and in doing so the group recognised exceptional transaction fees of £14,144,000 (2016: £nil).

In 2015 the Group purchased the LA Fitness Group and in doing so incurred residual transaction costs of £361,000 in the prior year. Residual costs associated with the transition and integration of LA Fitness into the Pure Gym model of £20,000 were incurred in the year (2016: £2,315,000). Exceptional impairment charges of £3,260,000 were also recognised in the prior year against certain items of property, plant and equipment to reflect their expected on-going value in use.

During the year ended 31 December 2016 the group made plans to proceed with an initial public offering ("IPO") of Pure Gym onto the London Stock Exchange. Subsequently the group decided that executing an IPO in volatile market conditions would not be in the long-term interests of the group and its stakeholders and decided not to proceed. Exceptional costs incurred in connection with this totalled £6,776,000 in the year ended 31 December 2016 and following confirmation of previously estimated fees, a credit of £362,000 arose in the current year upon release of surplus accruals.

7 Auditors' remuneration

The remuneration of the auditors are analysed as follows:

	2017 £'000	2016 £'000
Audit of the parent company and group financial statements	8	7
Audit of subsidiary financial statements	97	95
Other assurance services	686	992
	791	1,094

Other assurance services in the current and prior year relate to exceptional costs incurred in connection with the sale of the Group to the Leonard Green group and the aborted IPO respectively (note 6).

8 Employees and directors

	2017 £'000	2016 £'000
Wages and salaries	**22,699**	19,387
Social security costs	**2,242**	1,906
Other pension costs	**304**	262
	25,245	21,555

The group operates a defined contribution pension scheme for all employees using a master trust (occupational trust-based) pension scheme. The total cost expensed in the year was £304,000 (2016: £262,000) and outstanding pension contributions at the year-end totalled £43,000 (2016: £38,000).

On 30 November 2017 the Directors and certain employees subscribed for 630,000 Ordinary A1 and A2 shares in Pinnacle Topco Limited. These shares have service and vesting conditions attached and are therefore in the scope of IFRS 2 'Share based payments'. The directors have applied a Black-Scholes model to calculate a grant date fair value of these shares for IFRS 2 purposes as £2.39 per share, concluding that the total charge and charge in any given period will not be material. Consequently, no share based payment charge has been recorded in these financial statements.

The average monthly number of persons (including directors) employed by the group during the year was made up as follows:

	2017 No.	2016 No.
Central support	**243**	211
Operations	**520**	465
	763	676

Total emoluments relating to Directors are as follows:

	2017 £'000	2016 £'000
Aggregate emoluments	**1,459**	1,112
Contributions to defined contribution schemes	**6**	5
	1,465	1,117

Two directors were members of the defined contribution scheme as at 31 December 2017 (2016: two).

The amounts set out above include remuneration in respect of the highest paid director as follows:

	2017 £'000	2016 £'000
Emoluments	**820**	575

The key management of the group are deemed to be the same as the directors of the group, therefore no additional disclosure of key management compensation has been provided.

9 Finance costs

	2017 £'000	2016 £'000
Interest on bank loans and overdrafts	13,783	15,377
Finance lease interest	501	115
Commitment fees	439	251
Amortisation of capitalised finance costs	6,928	1,199
Preference share interest	2,951	2,553
Loan note interest	10,708	10,825
Interest payable to parent undertakings	2,266	-
Other	251	251
	37,827	30,571

10 Income tax

	2017 £'000	2016 £'000
Current tax:		
- UK corporation tax on profits for the year	753	-
Total current tax charge	753	-
Deferred tax:		
- Origination and reversal of timing differences	2,846	(6,362)
- Adjustments in respect of prior periods	(46)	(1,673)
Total deferred tax charge/(credit)	2,800	(8,035)
Total tax charge/(credit) in the consolidated statement of comprehensive income	3,553	(8,035)

10 Income tax (continued)

The tax charge/(credit) for the period is higher (2016: higher) than the standard rate of corporation tax in the UK for the year ended 31 December 2017 of 19.25% (2016: 20%). The differences are explained below:

	2017 £'000	2016 £'000
Loss on ordinary activities before tax	(14,497)	(27,800)
Tax on loss on ordinary activities at standard UK corporation tax rate of 19.25% (2016: 20%)	(2,791)	(5,560)
Effects of:		
- Fixed asset differences	1,645	(215)
- Income not deductible for tax purposes	(39)	-
- Expenses not deductible for tax purposes	5,532	2,282
- Impact of rate changes	(458)	2,222
- Unrelieved tax losses and other deductions	(30)	(57)
- Other short term timing differences	-	65
- Adjustments in respect of prior periods	(46)	(1,673)
- Deferred tax not recognised	(260)	(38)
- Deferred tax previously unrecognised	-	(5,061)
Total tax charge/(credit) for the year	3,553	(8,035)

The standard rate of corporation tax in the UK changed from 20% to 19% on 1 April 2017 and accordingly the company's profits for this period are taxed at an effective rate of 19.25% (2016: 20%). Deferred tax has been measured at 17% in these financial statements as that is the rate at which the timing differences are expected to reverse.

Factors that may affect future tax charges

Legislation to reduce the standard rate of corporation tax from 19% to 17% from 1 April 2020 was announced in the budget on 16 March 2016 and was substantively enacted on 6 September 2016. Accordingly deferred tax has been provided at the rate at which the temporary difference is expected to reverse.

10 Income tax (continued)

Deferred tax

The gross movement in deferred tax balances is as follows:

	2017 £'000	2016 £'000
At 1 January	10,960	2,925
Income statement (charge)/credit	(2,800)	8,035
At 31 December	8,160	10,960

The provision for deferred tax consists of the following deferred tax assets/(liabilities):

	2017 £'000	2016 £'000
Due within 12 months		
Deferred tax assets	1,650	1,597
Deferred tax liabilities	-	(39)
Total deferred tax assets/(liability) realisable/(due) within 12 months	1,650	1,558
Due after more than 12 months		
Deferred tax assets	6,510	9,402
Total deferred tax asset due after more than 12 months	6,510	9,402
Total deferred tax asset	8,160	10,960

10 Income tax (continued)

The movement in deferred income tax assets and liabilities during the year, without taking into consideration the offsetting of balances within the same tax jurisdiction, is as follows:

	Accelerated capital allowances £'000	Other £'000	Total £'000
Deferred tax assets			
At 1 January 2016	3,188	1	3,189
Credited/(charged) to the income statement	7,811	(1)	7,810
At 31 December 2016	**10,999**	**-**	**10,999**
Charged to the income statement	(2,839)	-	(2,839)
At 31 December 2017	**8,160**	**-**	**8,160**

Deferred tax assets have been recognised on the basis there will be sufficient and suitable taxable profit in the future against which these can be offset.

	Intangibles £'000
Deferred tax liabilities	
At 1 January 2016	**(264)**
Credited to the income statement	225
At 31 December 2016	**(39)**
Credited to the income statement	39
At 31 December 2017	**-**

Deferred tax liabilities principally related to the Group's intangible fixed asset categories of brands and customer relationships.

11 Property, plant and equipment

	Leasehold costs £'000	Leasehold improvem'ts £'000	Fixtures & Fittings £'000	IT equip't £'000	Motor Vehicles £'000	Total £'000
Cost

Brands and customer lists were capitalised at fair value in connection with the acquisition of the LA Fitness Group in May 2015. Amortisation of intangible assets is recorded in administrative expenses in the consolidated statement of comprehensive income and the useful economic life over which amortisation is charged is disclosed in note 2. At 31 December 2017 the net book value attributable to the LA Fitness and LAX brands was £nil. Amortisation of £229,000 is included in administrative expenses (2016: £1,093,000).

Goodwill is not amortised, but instead reviewed at least annually for impairment with reference to the group of cash generating units (CGUs) to which it relates. The recoverable amount of a cash generating unit (CGU) is determined based on value-in-use calculations which require the use of assumptions. The calculations use cash flow projections based on financial budgets approved by management covering a four-year period.

EBITDA projections reflect the maturity profile of the existing estate and the key assumptions are: average annual capital expenditure of £17.4m on existing sites (2016: £13.7m), pre-tax discount rate of 10% (2016: 10%) and a long term growth rate of 2% (2016: 2%). There is sufficient headroom such that any reasonable sensitivity performed does not reduce the recoverable amount to lower than carrying value.

13 Inventories

	2017 £'000	2016 £'000
Finished goods and goods for resale	**1,160**	1,115

Inventories recognised as an expense during the year ended 31 December 2017 amounted to £3,110,000 (2016: £2,898,000). These were included in administrative expenses.

14 Trade and other receivables

	2017 £'000	2016 £'000
Trade receivables	**609**	222
Less provision for impairment of trade receivables	**-**	(29)
Trade receivables – net	**609**	193
Prepayments and accrued income	**11,951**	10,560
Other debtors	**2,917**	1,977
	15,477	12,730

The average credit period taken for trade receivables is 36 days (2016: 54 days). As of 31 December 2017, trade receivables of £nil (2016: £nil) were past due but not impaired.

As of 31 December 2017, trade receivables of £nil (2016: £35,000) were impaired. The amount of the provision was £nil as of 31 December 2017 (2016: £29,000). The ageing of the receivables to which the provision relates is as follows:

	2017 £'000	2016 £'000
1 to 3 months	**-**	20
4 to 6 months	**-**	5
7 to 12 months	**-**	-
Over 12 months	**-**	10
	-	35

14 Trade and other receivables (continued)

Movements on the Group provision for impairment of trade receivables are as follows:

	2017 £'000	2016 £'000
1 January	29	430
Provided in the year	-	32
Receivables written off during the year as uncollectible	(29)	(433)
31 December	-	29

The creation and release of provision for impaired receivables has been included in administrative expenses in the consolidated statement of comprehensive income.

All of the Group's receivables are denominated in Sterling.

The other classes within trade and other receivables do not contain assets which are considered to be impaired. The maximum exposure to credit risk at the reporting date is the carrying value of each class of receivable mentioned above. The Group does not hold any collateral as security.

15 Trade and other payables

	2017 £'000	2016 £'000
Trade creditors	14,458	11,475
Other taxation and social security	1,636	466
Other liabilities	1,377	766
Accruals	15,482	20,654
Deferred income	10,416	8,176
Deferred rent accrual	26,075	22,522
VAT payable	947	1,426
	70,391	65,485

The deferred rent accrual relates to accumulated difference between cash rentals paid and rental charges from operating leases in the income statement and is outside the scope of IAS 39 (financial instruments).

16 Borrowings

Current

	2017 £'000	2016 £'000

Between 2 and 5 years	**2,601**	340,672
After 5 years	**333,313**	-
	342,797	387,194

Intercompany balances have a right of offset and can be settled net within the group. Amounts owed to group undertakings accrue interest at 8% and are repayable on 30 November 2027.

Bank loans and overdrafts

On 30 November 2017 the Gym Topco group restructured its financing and in doing so repaid its bank loans in full and became party to a £420 million group bridging facility with five international institutions (Barclays Bank PLC, Royal Bank of Canada, Credit Suisse AG, ING Bank N.V. and Jefferies Finance LLC, collectively "the Lenders"), consisting of a

£360 million bridging loan repayable in full on 30 November 2018 and a £60 million revolving credit facility agreement repayable on 30 November 2024.

16 Borrowings (continued)

Bank loans and overdrafts (continued)

The new facilities are held by parent company, Pinnacle Bidco plc and are secured by fixed and floating charges over the assets and undertakings of certain subsidiaries of the Gym Topco group. The £60 million revolving facility is subject to quarterly covenant testing of its leverage ratio.

Prior to the refinancing, the group was party to a £240 million committed financing facility with four international banks (Ares Management, Barclays Bank, Goldman Sachs and Haymarket Financial, collectively "the Lenders"). This facility consisted of a £150 million term loan, a £75 million capex facility and a £15 million overdraft facility and was subject to quarterly covenant testing of the following ratios: fixed charge cover, adjusted leverage and maximum levels of capital expenditure. All outstanding amounts under this facility were repaid in full on 30 November 2017.

The group has been in compliance with all covenants during the current and prior financial years.

Finance leases

Finance leases are secured against the assets to which they relate.

Loan notes

During the year the group had £90,969,506 unsecured, non-convertible loan notes in issue accruing interest at a fixed rate of 9.4% (2016: £90,969,506), with principal and interest repayable in full on 23 May 2021, or earlier on sale of the business. On completion of the sale of the Group to the Leonard Green group on 30 November 2017, the loan notes and related interest were repaid in full.

Preference shares

The Preferred A Ordinary shares accrued fixed interest at 9.4% of the issue price On completion of the sale of the group to the Leonard Green group on 30 November 2017, the preference shares were converted to ordinary share capital (note 19) and the cumulative accrued interest of £14,822,505 was converted to an amount payable to the new parent company (Pinnacle Bidco plc) and then subsequently waived, creating a capital contribution reserve.

17 Financial instruments

The Group entered into an interest rate cap to restrict the LIBOR element of interest payable on £100 million of its drawn borrowings at a rate not higher than 1.75%. In accordance with IAS 39, the cap is considered to be closely related to the debt instrument and has therefore not been recognised separately as an embedded derivative. The premium payable to acquire the cap is amortised to the consolidated statement of comprehensive income over the term of the debt. The Group does not enter into derivative contracts for speculative purposes.

All of the group's financial instruments are classified as loans and receivables. Set out below is a comparison by category of carrying amounts and fair values of all of the financial instruments as carried in the financial statements. The fair value of financial derivatives and borrowings are calculated by discounting the future cash flows at prevailing market interest rates, categorised as a Level 2 valuation, as detailed below:

Fair value hierarchy

IFRS 7 requires fair value measurements to be recognised using a fair value hierarchy that reflects the significance of the inputs used in the value measurements:

- Level 1: inputs are quoted prices in active markets
- Level 2: a valuation that uses observable inputs for the asset or liability other than quoted prices in active markets; and
- Level 3: a valuation using unobservable inputs i.e. a valuation technique.

There were no transfers between levels throughout the periods under review.

The fair values of the other financial instruments approximates closely with their carrying values.

	Carrying Value		Fair Value	
	2017 £'000	**2016 £'000**	**2017 £'000**	2016 £'000

Cumulative preference shares	**-**	45,853	**-**	38,374
Unsecured non-convertible loan notes	**-**	125,672	**-**	120,014

18 Financial risk management objectives and policies

The Group has exposure to the following risks from its use of financial instruments: market risk, interest rate risk, liquidity risk and credit risk.

This note presents information about the Group's exposure to each of the above risks and the Group's objectives, policies and procedures for measuring and managing risk. The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The key market risk affecting the group is interest rate risk. Financial instruments affected by market risk include borrowings, deposits and derivative financial instruments.

The sensitivity analysis in the following sections relate to the position as at 31 December 2017 and 2016. The analysis has been prepared on the basis that the amount of net debt and the ratio of fixed to floating interest rates of the debt and derivatives are all constant.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. During the year, the Group's exposure to the risk of changes in market interest rates related primarily to the Group's bank borrowings with floating interest rates.

As at 31 December 2017 the Group had a temporary bridging facility in place and therefore only 1% of its borrowings were in fixed rate instruments by way of finance leases (2016: 44% by way of shareholder loans and finance leases with exposure on the remaining bank borrowings managed by entering into interest rate derivatives, in which it agreed to cap rates or exchange, at specified intervals, the difference between fixed and variable rate interest rate amounts calculated by reference to an agreed-upon notional principal amount). At 31 December 2017 (after taking into account the effect of interest rate caps and finance leases), 29% of the group's borrowings were at fixed rates of interest (2016: 70%, taking account of interest rate caps, shareholder loans and finance leases).

On 24 January 2018, the temporary bridging facility was exchanged for £360 million of senior notes at a fixed rate of 6.375% (see note 25) thereby limiting the Group's exposure to interest rate risk going forwards to that on the £60 million revolving credit facility only. As a result, the annual impact of a notional 0.5% interest rate movement on its drawn debt as at 31 December 2017 is limited to its overdraft and equates to £25,000 (2016: £1,075,000 relating to £215 million of drawn bank debt).

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. Ultimate responsibility for liquidity risk management rests with the Board of Directors. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows, matching the maturity profiles of financial assets and operational liabilities and by maintaining adequate cash reserves. The table below summaries the maturity profile of the Group's financial liabilities:

18 Financial risk management objectives and policies (continued)

	2017				
	Within 1 year £'000	Between 1-2 years £'000	Between 2-5 years £'000	More than 5 years £'000	Total £'000
Trade and other payables	31,317	-	-	-	**31,317**
Borrowings	6,348	1,207	2,720	333,313	**343,588**
Total financial liabilities	**37,665**	**1,207**	**2,720**	**333,313**	**374,905**

	2016				
	Within 1 year £'000	Between 1-2 years £'000	Between 2-5 years £'000	More than 5 years £'000	Total £'000
Trade and other payables	32,872	-	-	-	32,872
Borrowings	17,295	16,532	503,598	-	537,425
Total financial liabilities	50,167	16,532	503,598	-	570,297

Credit risk

The group's principal financial assets are bank balances and cash, trade and other receivables and investments. The group's credit risk is low as it has limited trade receivables. The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies. The group has no significant concentration of credit risk, with exposure spread over a large number of counterparties and customers.

19 Share capital and premium

	2017 £'000	2017 No	2016 £'000	2016 No
Allotted				
Ordinary shares of £0.0001	**16**	**156,311,177**	-	-

	483,118	445,597

23 Controlling party

The immediate parent company of Gym Topco Limited is Pinnacle Bidco PLC, a company incorporated in the UK.

The ultimate controlling party is Leonard Green & Partners LP, 11111 Santa Monica Boulevard, Suite 2000, Los Angeles, California 90025, United States of America.

24 Related party transactions

P W D Roberts is a partner in Countrywide Leisure Management and during the year served as a director. During the year the partnership was paid management fees (including directors fees and office rental) of £146,000 (2016: £453,000) and project co-ordination fees of £nil (2016: £88,000). Expenses totalling £nil (2016: £10,000) were also reimbursed. No amounts were due to Countrywide Leisure Management as at 31 December 2017 (2016: £nil).

Directors' and shareholders' holdings of loan notes, preference shares and the associated and accrued interest are as follows:

	Loan notes 2017 £'000	Loan notes 2016 £'000	**Preference shares 2017 £'000**	Preference shares 2016 £'000
P W D Roberts	-	3,891	-	1,409

Gym Bidco SARL	-	111,903	-	40,837
T Ball	-	886	-	329
H Cobbold	-	1,098	-	408

During the year the group paid monitoring fees of £60,000 (2016: £65,000) to CCMP Capital Advisors LP, the ultimate parent company and controlling party up to 30 November 2017 and reimbursed them for expenses incurred of £17,000 (2016: £44,000).

Yes Mail Interactive is a company under common control of CCMP Capital LP. During the year the company was paid £324,000 (2016: £203,000) for marketing services. At the year-end an amount of £32,000 was due to Yes Mail Interactive (2016: £44,000).

As at 31 December 2017, amounts owed to fellow group companies includes £333,313,000 owed to the immediate parent company, Pinnacle Bidco Plc (2016: £nil), repayable on 30 November 2027. Associated interest charged to the income statement totals £2,248,000 (2016: £nil).

25 Events after the reporting period

On 24 January 2018, the £360 million bridging loan held by parent company, Pinnacle Bidco plc, was repaid and replaced with a £360 million Senior Secured Notes issue for which Gym Topco Limited and certain of its subsidiaries are guarantors. The notes accrue interest at a rate of 6.375% payable half yearly in February and August, commencing August 2018, and are due to be repaid in full 24 January 2025.

COMPANY FINANCIAL STATEMENTS

Independent auditors' report to the members of Gym Topco Limited

Report on the company financial statements

Opinion

In our opinion, Gym Topco Limited's company financial statements (the "financial statements"):

- give a true and fair view of the state of the company's affairs as at 31 December 2017;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual report and financial statements (the "Annual Report"), which comprise: the statement of financial position as at 31 December 2017; the statement of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Independent auditors' report to the members of Gym Topco Limited (continued)

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 December 2017 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of the Directors' Responsibilities set out on page 7, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Independent auditors' report to the members of Gym Topco Limited (continued)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Other matter

We have reported separately on the group financial statements of Gym Topco Limited for the year ended 31 December 2017.

Notes to the company financial statements

1 General Information

Gym Topco Limited is an intermediate holding company within the Leonard Green & Partners LP group of companies (the "Leonard Green Group") and is expected to remain as such for the foreseeable future. The company is a private company limited by shares and is incorporated and domiciled in the UK. The address of its registered office is Town Centre House, Merrion Centre, Leeds, West Yorkshire, LS2 8LY.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

The financial statements are presented in sterling, rounded to the nearest thousand. They are prepared on a going concern basis and under the historical cost convention. The principal accounting policies applied in the preparation of these financial statements are set out below, and, unless otherwise stated, these policies have been consistently applied to all the periods presented.

These financial statements have been prepared in accordance with United Kingdom Accounting Standards, in particular, Financial Reporting Standard 101 "Reduced Disclosure Framework (FRS 101) and, the Companies Act 2006 (the Act). FRS 101 sets out a reduced disclosure framework for a "qualifying entity" as defined in the standard which addresses the financial reporting requirements and disclosure exemptions in the individual financial statements of qualifying entities that otherwise apply the recognition, measurement and disclosure requirements of EU-adopted IFRS.

In accordance with the exemption allowed by Section 408 of the Companies Act 2006, the company has not presented its own profit and loss account or statement of cash flows, however has made a loss for the financial year of £2,010,000 (2016: £2,554,000) after receiving a dividend of £940,000 (2016: £nil).

The principle disclosure exemptions adopted by the Company in accordance with FRS 101 are as follows:

- IFRS 7 financial instrument disclosures;
- IAS 1 information on management of capital;
- IAS 8 disclosures in respect of new standards and interpretations that have been issued but which are not yet effective;
- IAS 24 disclosure of key management personnel compensation;
- IAS 24 disclosures in respect of related party transactions entered into between fellow group companies;
- Roll-forward reconciliations in respect of share capital (IAS 1) and property, plant and equipment (IAS 16); and
- IAS 7 exemption from preparing a cash flow statement and related notes.

2 Summary of significant accounting policies (continued)

Investments

Investments in subsidiaries are held at cost, less provision for impairment. Gains and losses are recognised in the income statement as and when the investments are impaired.

Taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in years different from those in which they are recognised in the financial statements.

Deferred tax is measured at the average tax rates that are expected to apply in the years in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

3 Critical accounting estimates and assumptions

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) Impairment of investments

The company considers on an annual basis, whether investments have suffered any impairment based on the recoverable amount of its cash-generating units ('CGUs'). The recoverable amount is determined based on value in use calculations. The use of this method requires the estimation of future cash flows and the determination of a pre-tax discount rate in order to calculate the present value of the cash flows. More information, including carrying values of investments, is included in note 7.

Notes to the company financial statements (continued)

4 Auditors' remuneration

Fees payable to the company's auditors for the audit of the annual statutory financial statements were £8,000 (2016: £7,000), these are borne by Pure Gym Limited.

Fees payable to the company's auditors (and its associates) for non-audit services can be found in the consolidated financial statements.

5 Employees and directors

Employees

The company has no employees (2016: nil) and directors are remunerated for their services by fellow group undertakings.

Directors

No directors received any remuneration in respect of their services to the company (2016: nil). The key management of the group are deemed to be the same as the directors of the group, therefore no additional disclosure of key management compensation has been provided.

6 Finance costs

	2017 £'000	2016 £'000
Preference share interest	**(2,950)**	(2,554)

7 Investments

	2017 £'000	2016 £'000
At 1 January	**35,868**	35,868
Additions	**383**	-
At 31 December	**36,251**	35,868

During the year the company waived amounts due from its subsidiary, Gym Midco Limited, totalling £383,000 and in doing so recognised an increase in investment.

Fixed asset investments at 31 December 2017 relate to UK registered subsidiary undertakings and are stated at cost as shown below. The directors believe that the carrying value of the investments is supported by their underlying net assets. The below subsidiaries have the registered office address of Town Centre House, Merrion Centre, Leeds, West Yorkshire, LS2 8LY.

Company name	Principal activity	Proportion of ordinary shares held %

8 Borrowings

	2017 £'000	2016 £'000
Preference shares	-	45,853

The Preferred A Ordinary shares accrued fixed interest at 9.4% of the issue price. On completion of the sale of the group to the Leonard Green group on 30 November 2017, the preference shares were converted to ordinary share capital and the cumulative accrued interest of £14,822,505 was converted to an amount payable to the new parent company (Pinnacle Bidco plc) and then subsequently waived, creating a capital contribution reserve.

Notes to the company financial statements (continued)

9 Trade and other payables

	2017 £'000	2016 £'000
Amounts due to subsidiary undertakings	-	569

Amounts owed to group undertakings have a right of offset and can be settled net within the group, they are unsecured, interest free, have no fixed date of repayment and are repayable on demand. The Directors of the group undertakings have confirmed that the amounts owed will not be repayable within one year from the date of signing these financial statements.

10 Share capital and premium

	2017 £'000	2017 No.	2016 £'000	2016 No.
Allotted				
Ordinary shares of £0.0001	16	156,311,177	-	-
Ordinary B shares of £0.0001	-	-	9	865,214
Ordinary C shares of £0.0001	-	-	1	141,044
Ordinary D shares of £0.0001	-	-	2	6,830,927
	16	156,311,177	12	7,837,185

On 30 November 2017 the company reduced the nominal value of the ordinary B shares from £0.01 to £0.0001, reduced the nominal value of the ordinary C shares from £0.01 to £0.0001 and reduced the value of the ordinary D shares from £0.0003 to £0.0001. On the same day the company re-designated the preferred A, ordinary B, ordinary C and ordinary D shares to a new class of ordinary shares.

The movements in share capital and share premium in the year was as follows:

	Share Premium		Share Capital	
	2017 £'000	2016 £'000	2017 £'000	2016 £'000
Shares issued				
4,100 C Ordinary shares of £0.01	-	5	-	-
8,956 C Ordinary shares of £0.01	12	-	-	-
Preferred A shares redesignated				
34,296,996 Preferred A shares to Ordinary Shares	34,293	-	4	-
	34,305	5	4	-

Notes to the company financial statements (continued)

11 Related party transactions

Advantage has been taken of the exemption in IAS 24 not to disclose transactions between Gym Topco Limited and its subsidiaries.

12 Controlling party

The immediate parent company of Gym Topco Limited is Pinnacle Bidco PLC, a UK registered intermediate holding company within the Leonard Green group.

The ultimate controlling party is Leonard Green & Partners LP, 11111 Santa Monica Boulevard, Suite 2000, Los Angeles, California 90025, United States of America.

13 Commitments

On 30 November 2017 the company became party to a £420 million group bridging facility with five international institutions (Barclays Bank PLC, Royal Bank of Canada, Credit Suisse AG, ING Bank N.V. and Jefferies Finance LLC, collectively "the Lenders"), consisting of a £360 million bridging loan repayable in full on 30 November 2018 and a £60 million revolving credit facility agreement repayable on 30 November 2024.

The new facilities are held by parent company, Pinnacle Bidco plc and are secured by fixed and floating charges over the assets and undertakings of Gym Topco Limited and certain of its subsidiaries. The £60 million revolving facility is subject to quarterly covenant testing of its leverage ratio, which have been complied with during the period under review.

On 24 January 2018, the £360 million bridging loan was repaid and replaced with a £360 million Senior Secured Notes issue for which Gym Topco Limited and certain of its subsidiaries are guarantors. The notes accrue interest at a rate of 6.375% payable half yearly in February and August, commencing August 2018, and are due to be repaid in full 24 January 2025.
