Business Overview

The PureGym Group ("the Group", being Pinnacle Bidco plc and its subsidiaries) is the largest gym and fitness operator in the UK and the second largest in Europe with over 690 sites across its corporate owned and franchise operations. The Group provides high quality, low cost, flexible physical fitness facilities with market leading positions across its corporate owned corporate operated ("COCO") sites in the UK, Denmark and Switzerland. All of which operate under the PureGym brand. In 2024, the Group significantly increased its presence in the USA, with the strategic acquisition of 56 sites in New York and New Jersey, bringing the total number of gyms in the USA to 59. These 56 sites currently operate under the "Blink Fitness" brand, but all sites in the USA will be converted to the PureGym brand and core operating model over the next 6-12 months. By making this carefully judged acquisition, PureGym has established an excellent, well-scaled, high quality foothold in the largest fitness market in the world.

The business has had an excellent H1 with strong performance and EBITDA growth across all geographies. PureGym is in rude health, continues to progress well and offers exciting prospects for the future.

The Group has a robust capital and liquidity position with £94m of cash on the balance sheet at the end of the quarter which contributes towards £269m of available liquidity (including the Revolving Credit Facility of £175.5m), as well as a further £34m of cash held by the Group's parent, Pinnacle Topco Limited which is available for use by the Group if required (providing total liquidity of £303m). This, coupled with the strong support of its key shareholders, Leonard Green & Partners LP ("LGP") and Kohlberg Kravis Roberts & Co LP ("KKR"), puts the Group in a good position to fund expansion and investment in the existing estate, and to take advantage of any other market opportunities as they arise.

Strategy and business model

The core vision is to provide members with affordable access to the benefits that activity and exercise can offer. The business does this by focusing investment on what most people want and use in gyms and by using innovative technology that makes the process of being a member and the experience of activity as easy and straightforward as possible. This focus on affordable, flexible, and "value-for-money" membership has fundamentally changed the gym industry over the past few years and opened up increased access to activity, fitness and exercise for hundreds of thousands more people worldwide. We are proud of the environment we have created with our inclusive philosophy and the diversity of our membership across all our gyms.

United Kingdom

PureGym is the UK's largest private gym operator, both by number of gyms and members. As at 30 June 2025 the Group operated 433 UK gyms (Q2 2024: 387 gyms) with 1,680,000 members (Q2 2024: 1,510,000).

Denmark

PureGym is also the leading operator in Denmark, both by number of gyms and members. As at 30 June 2025, with a programme of estate optimisation under way, the Group operated 135 gyms in Denmark (Q2 2024: 161 gyms) with 342,000 members (Q2 2024: 348,000).

Switzerland

As at 30 June 2025, PureGym operated 43 gyms in Switzerland (Q2 2024: 45 gyms) with 88,000 members (Q2 2024: 87,000 members) and is one of the largest operators and the leading high value, low cost operator in the country.

United States of America

In 2024, the Group acquired the trade and assets of 56 gyms in New York and New Jersey, complementing the Group's existing 3 gyms in the Washington DC area. Whilst these gyms currently operate under a combination of Blink Fitness and PureFitness brands, plans are underway to rebrand all of the group's US Operations to PureGym over the next 6-12 months. As at 30 June 2025, the Group has a total of 59 gyms in the USA (Q2 2024: 3 gyms) with 310,000 members (Q2 2024: 12,000).

The Middle East

As at 30 June 2025, there are 23 franchised gyms in operation in the Middle East (Q2 2024: 20 gyms) with a total of 41,000 members (Q2 2024: 38,000). Franchised gyms currently operate under the PureGym brand in the Kingdom of Saudi Arabia & the UAE.

Business Overview continued

The Group has a powerful and highly disruptive customer proposition, which is differentiated from traditional gym operators and appeals to a broad range of consumers. The Group's strategy is to occupy market leading positions in the value segment, whilst delivering profitable growth for our stakeholders. Key elements of the proposition include low cost membership fees, no obligation to sign a 'locked in' contract, excellent standards of hygiene and cleanliness and "24x7" access to high quality, well maintained gyms.

The proposition is underpinned by the Group's differentiated capital efficient and technology-enabled gym operating model, which enables our gyms to support high levels of membership, operate on low costs, and generate strong unit economics, cash flow conversion, and average return on investment ("ROCE").

Whilst driving the operational and financial performance of our existing gym estate across all our geographies, we will continue to roll out new corporate-owned gyms in the UK and Switzerland in a measured and controlled way, where we can achieve our target return on capital, and will continue to progress our estate optimisation programme in Denmark, while exploring acquisition and expansion opportunities in untapped markets.

In the USA, the recent acquisition of 56 high quality sites provides a strong foothold in the New York and New Jersey areas and a meaningful platform to facilitate future growth in the world's largest fitness market.

The PureGym business and brand is now established consistently worldwide, giving a very robust base for further development.

Our ability to deliver on this strategy is underpinned by a strong business model:

- The world's population is more aware than ever of the importance of looking after physical and mental health, avoiding conditions such as obesity and ensuring a good immune system. We therefore believe that there will continue to be attractive and resilient fitness markets with significant growth opportunities in the value segment.
- The merit to consumers of having access to a fully-equipped, conveniently-located, always-open, well-maintained, safe and secure, shared use facility is very considerable and this merit is very hard for most consumers to replicate at home or in any other way.
- Clear benefits from being a diversified, scale operator with sites spread across countries and continents.
- Strong, differentiated customer proposition supported by technology which both improves the effectiveness from a consumer point of view and reduces operating costs.
- Low cost, capital efficient, technology-enabled operating model.
- A strong and experienced leadership team.
- Significant financial capacity to support ongoing expansion and estate rollout.

The fitness market

The Group operates in the value segment of the fitness market, which has grown quickly over the past several years. The expanding footprint of value gyms has increased the availability of fitness facilities to a larger proportion of the population.

The value gym market, and PureGym in particular, has a strong track record of performing well irrespective of macroeconomic conditions. During periods of economic decline, cost-conscious consumers may trade down from mid-market and premium competitors, whilst periods of growth will see new consumers taking up memberships. This makes the value segment a very attractive part of the market in which to operate.

Q2 2025 Financial Review

Presentation of financial information

The Group has prepared consolidated financial statements as of and for the 6 months ended 30 June 2025 in accordance with IAS 34 'Interim Financial Reporting', as issued by the International Accounting Standards Board.

Funding

The Group has £520 million of Senior Secured Notes ("the Sterling Notes") and €505 million of Senior Secured Notes ("the Euro Notes") in issue (together, "the Notes").

The Notes are listed on The International Stock Exchange, for which Pinnacle Bidco plc is the Issuer and certain subsidiaries of the Group are guarantors. Interest on the Sterling Notes accrues at a rate of 10.00% and interest on the Euro Notes accrues at a rate of 8.25%, both payable at half-yearly intervals. The Notes are due to be repaid in full on 11 October 2028.

In addition, the Group has a £175.5 million revolving credit facility (the "RCF") with five international institutions, repayable 11 July 2028.

The RCF bears interest at a floating rate derived from SONIA when drawn. Included within the total RCF is a £10 million overdraft facility. As at 30 June 2025, the facility was undrawn.

The RCF is subject to a quarterly financial covenant test whereby if the RCF is greater than 40% drawn, Senior Secured Net Debt cannot be greater than 8.8x Run-Rate Adjusted EBITDA.

The RCF provides substantial flexibility and headroom for unforeseen events and puts the Group in a differentiated position relative to many other operators.

Revenue

Revenue increased by 24% (£36 million) to £188 million for the three months ended 30 June 2025, as compared to £151 million for the three months ended 30 June 2024. £25 million of this is driven by the Blink Fitness sites acquired on 29 November 2024.

Revenue increased by 24% (£71 million) to £371 million for the six months ended 30 June 2025 as compared to £300 million for the six months ended 30 June 2024. Blink Fitness sites have contributed £50 million of this increase.

The remaining improvement is driven by an 8% growth in members and 2.8% increase in average revenue per member ("ARPM") in Q2. This ARPM improvement has been as a result of measured price increases in existing gyms and the maturation of new corporate owned gyms in the last 12 months.

Operating Expenses

(excl. separately disclosed items)

Operating expenses increased by 17% to £99 million for the three months ended 30 June 2025 as compared to £84 million for the three months ended 30 June 2024, and by 21% to £207 million for the six months ended 30 June 2025 as compared to £170 million for the six months ended 30 June 2024. These increases are primarily the result of the increase in the number of corporate owned gyms, including through the Blink acquisition, as well as modest inflationary uplifts in our operating base.

Depreciation and amortisation

Depreciation and amortisation increased by 19% to £47 million for the three months ended 30 June 2024, and 18% to £92 million for the six months ended 30 June 2024 as compared to £40 million for the three months ended 30 June 2024 and £78 million for the six months ended 30 June 2024. These increases were due to the acquisition of Blink and the development of a further 50[1] new corporate owned gyms in the period 1 July 2024 to 30 June 2025, as well as increased investment in the Danish estate.

Notes (1) The total site movement of 18 new corporate sites from 1 July 2024 to 30 June 2025 is net of 32 closures in the period, primarily as a result of the Danish estate optimisation.

Q2 2025 Financial Review (continued)

Net finance costs

Net finance costs increased to £60 million for the three months ended 30 June 2025, an increase of £18 million, or 42% as compared to £42 million for the three months ended 30 June 2024.

Net finance costs increased by 37% to £114 million for the six months ended 30 June 2025 as compared to £83 million for the six months ended 30 June 2024.

Interest on Senior Secured Notes was £22 million for the quarter and £44m for the half year, an increase of £3m and £7m respectively due to the issue of an additional £150 million equivalent Senior Secured Notes in September 2024 to fund the Blink acquisition and investment.

IFRS16 Interest on leased property was £16 million for the quarter and £31m for the half year, an increase of £3m and £6m respectively compared to the same periods of the year and driven by the increase in the number of new corporate gyms in the last twelve months.

The Group incurred a £9 million foreign exchange loss in the quarter (Q2 2024: £2 million gain), and £13 million loss in the six months ended 30 June 2025 (H1 2024: £3 million gain). These reflect non-cash changes in FX on the Euro Senior Secured Notes and non-GBP denominated intercompany loans.

Finally, interest accruing on the borrowings from the Group's ultimate parent, Pinnacle Topco Limited, was £31 million for the quarter and £62m for the six months ended 30 June 2025. These borrowings act as a pass through of equity investments raised by Pinnacle Topco Limited. This is non-cash in the period and typical of similar private-equity owned structures.

Exceptional items

Exceptional items of £2 million in the three months to 30 June 2025 and £5 million in the six months to 30 June 2025 relate to costs incurred in the acquisition and integration of Blink Fitness.

Tax charge

The income tax charge for the 3 months and 6 months ended 30 June 2025 relates to the utilisation of brought forward tax losses against current period taxable profits.

Net cash flow from operating activities for the three months ended 30 June 2025 was an inflow of £44 million, an increase of £23 million as compared to the three months ended 30 June 2024. This was primarily driven by improvement of trading results arising from a £22 million increase in Reported EBITDA partially offset by £1 million of exceptional costs paid and £2 million increase in the interest element of finance lease payments for property rentals under IFRS 16.

Net cash flow from operating activities for the six months ended 30 June 2025 was an inflow of £78 million, an increase of £8 million as compared to the six months ended 30 June 2024. This increase was driven by a £35 million improvement in EBTIDA, offset by a £9 million increase on interest payments on the Group's Senior Secured Notes, £5 million increase in exceptional expenses paid and £6 million in the interest element of finance lease payments for property rentals under IFRS 16.

Net cash flows used in investing activities

Net cash flows used in investing activities consist of expenditure on property, plant and equipment and intangible assets, less proceeds from disposals.

Net cash flows used in financing activities

For the three months and six months ended 30 June 2024 and 2025, net cash flows used in financing activities related entirely to capital payments on leases for property rentals under IFRS 16.

Notes:

(1) Group Reported EBITDA is defined as earnings before net finance cost, taxation, depreciation, amortisation, profit/loss on sale of property, plant & equipment, impairment, profit/loss on lease modifications & exceptional items.

(2) Other adjustments includes the net impact of various one-off items not included in "Exceptional items" but which are not reflective of the underlying trade of the Group.

(3) The share based payment charge relates to shares in the ultimate parent company, Pinnacle Topco Limited, issued to directors & certain employees.

(4) Pre-opening costs represent the total of all gym site operating costs incurred prior to the opening of a new gym & primarily consist of staff costs & marketing.

(5) Under IFRS 16, most lease costs are excluded from Group Reported EBITDA. To produce a comparable & more relevant EBITDA figure, the contractual property rent payments due during the accounting period are deducted & any property rent-related expenses included in Group Reported EBITDA are added back. Management believes that adjusting EBITDA to reflect cash rent is a better reflection of actual earnings.

(6) The Run-Rate Adjustment reflects the impact of those gyms which are less than three years old at the end of the reporting period. These adjustments replace the Adjusted EBITDA earned by these sites in the last twelve month period with the projected Adjusted EBITDA for their third year of operation. Run-Rate Adjusted EBITDA therefore seeks to reflect the anticipated mature Adjusted EBITDA potential of those gyms which were trading at the end of the relevant period. Management forecasts EBITDA on a gym specific basis & regularly updates forecasts based on current & anticipated performance, taking into account seasonality & location-specific factors.

Certain parts of this report contain non-IFRS measures and ratios. We believe that these measures are useful indicators of our ability to incur and service our indebtedness and can assist certain investors, security analysts and other interested parties in evaluating us. Because all companies do not calculate these measures on a consistent basis, our presentation of these measures may not be comparable to measures under the same or similar names used by other companies. Accordingly, undue reliance should not be placed on these measures in this report. In particular, Adjusted EBITDA and Run Rate Adjusted EBITDA are not measures of our financial performance or liquidity under IFRS and should not be considered as an alternative to (a) net income/(loss) for the period as a measure of our operating performance, (b) cash flows from operating, investing and financing activities as a measure of our ability to meet our cash needs or (c) any other measures of performance under IFRS. We define our non-IFRS measures as set forth in the glossary on page 13.

Notes to the Condensed Consolidated Interim Financial Statements

1 General information

The principal activity of the Group during the year was the provision of facilities for physical fitness and is expected to remain so for the foreseeable future. Pinnacle Bidco plc ("the Company") is limited by shares and is registered, incorporated and domiciled in England, United Kingdom. The address of the Company's registered office is C/O Pure Gym Limited, Town Centre House, Merrion Centre, Leeds, West Yorkshire, LS2 8LY, United Kingdom. The Company's registered number is 11038859. The condensed financial statements are unaudited and were approved by the Board of Directors on 27 August 2025.

This financial information for the 6 months ended 30 June 2025, including comparative financial information for the 6 months ended 30 June 2024, has been prepared on the basis of the accounting policies set out in the last annual report and accounts and in accordance with UK adopted IAS 34 'Interim Financial Reporting', as issued by the International Accounting Standards Board. This report does not include all the notes of the type normally included in an annual financial report and accordingly should be read in conjunction with the annual report for the year ended 31 December 2024.

In preparing the condensed interim financial statements, the significant judgements made by management in applying the group's accounting policies and key sources of estimation uncertainty were the same, in all material respects, as those applied to the consolidated financial statements for the year ended 31 December 2024.

Going concern assumption

In preparing these financial statements, the Directors have carefully evaluated the Going Concern basis of preparation. The Group meets its day to day working capital requirements, capital expenditure and funding of new sites through its cash reserves and credit facilities, being a revolving credit facility ("RCF") of £175.5 million which includes an overdraft of £10 million. The Group's cash reserves at 30 June 2025 totalled £94 million, and it has an additional £34 million of cash available in its parent company, Pinnacle Topco Limited. Combining these with the available RCF gives total available liquidity for the Group at 30 June 2025 of £303 million.

The Group's RCF is subject to a covenant of a maximum leverage ratio of 8.8x, which is tested when the RCF is greater than 40% drawn. The Group is not expected to breach its covenants.

The Group's forecasts and projections taking account of reasonably possible changes in trading performance showed that the Group should be able to operate within its existing facilities. Based on this review, the Directors have concluded that the Group has adequate resources to continue to remain a going concern for the foreseeable future and have therefore adopted the going concern basis in preparing its financial statements.

Information extracted from 2024 Annual Report

The financial figures for the year ended 31 December 2024, as set out in this report, do not constitute statutory accounts but are derived from the statutory accounts for that financial year.

The statutory accounts for the year ended 31 December 2024 were prepared under International Accounting Standards ("UK-adopted IFRS"), and have been delivered to the Registrar of Companies. They are available to download from corporate.puregym.com. The audit report was unqualified, did not draw attention to any matters by way of emphasis and did not include a statement under Section 498(2) or 498(3) of the Companies Act 2006.

2 Operating segments

Operating segments are reported in a manner consistent with internal reporting provided to the chief operating decision maker, identified as the Group's Group Management Board. The Group Management Board primarily consider the business from a geographical perspective, by country of operation. The Group's operations consist solely of the provision of high quality health and fitness facilities and associated services and consequently, it is not necessary to segregate operating segments by service or product. The Group Management Board use the measures of Revenue and Adjusted EBITDA as key performance indicators in assessing the performance of the operating segments. A definition of Adjusted EBITDA is included below. The Group's material reportable segments as at 30 June 2025, are the United Kingdom, Denmark, USA and Switzerland. The results from other segments in which the Group operates (Franchising) are included in "All other segments", as they are deemed to be individually immaterial.

Segmental information presented to the Executive Management Team for the 6 months ended 30 June 2025 is presented in the below tables, alongside comparative information:

	6 months ended 30 June 2025 (Unaudited)					
	United Kingdom £m	**Denmark £m**	**Switzerland £m**	**USA £m**	**All other segments £m**	**Total £m**
Revenue	**227.5**	**67.7**	**23.8**	**50.9**	**0.9**	**370.8**
Adjusted EBITDA	**70.6**	**16.3**	**7.0**	**6.5**	**-**	**100.4**

	6 months ended 30 June 2024 (Unaudited)					
	United Kingdom £m	Denmark £m	Switzerland £m	USA £m	All other segments £m	Total £m
Revenue	205.4	70.6	21.1	1.6	0.9	299.6
Adjusted EBITDA	62.5	13.2	2.3	(0.4)	(0.5)	77.1

All operating segments derive revenue from all of the services and products included within note 3. All revenue included in the table above derives from external customers.

Adjusted EBITDA is a non-IFRS measure derived by adjusting operating profit for depreciation, amortisation, profit/loss on disposal of property, plant and equipment, profit/loss on lease modifications, impairment of property, plant and equipment, exceptional costs, share based payment charges, pre-opening costs, other adjustments and the cash rent adjustment. The cash rent adjustment includes an add back of any property rent related expenses charged in the statement of comprehensive income and a deduction of contractual property rent payments due in the period (whether or not paid in cash in the period).

The Adjusted EBITDA KPI is typically used within the industry as it is more effective than operating profit in representing the performance of the business and, as such, is a key focus of our stakeholders, including our investors, our bondholders and our banking partners. A reconciliation from operating profit to Adjusted EBITDA is included in note 4.

Amounts owed to Group undertakings relate to the parent company, Pinnacle Midco 2 Limited. Of the amounts owed to Group undertakings, £527.9m (2024: £507.5m) accrue interest at 8% and £123.9m (2024: £121.2m) accrue interest at 4.375%. These amounts are repayable on 11 April 2029.

Financing

The Group currently has £520 million of Senior Secured Notes ("the Sterling Notes") and €505 million of Senior Secured Notes ("the Euro Notes"), in issue (together, "the Notes").

The Notes are listed on The International Stock Exchange, for which the Pinnacle Bidco plc is the Issuer and certain subsidiaries of the Group are guarantors. Interest on the Sterling Notes accrues at a rate of 10.00% and interest on the Euro Notes accrues at a rate of 8.25%, both payable at half-yearly intervals. The Notes are due to be repaid in full on 11 October 2028.

The Notes include an early repayment option. The directors have concluded that, in accordance with IFRS 9, the option is closely related to the underlying debt and does not have a significant value. It is therefore not recognised separately from the debt.

In addition, the Group has a £175.5 million revolving credit facility (the "RCF") with five international institutions, repayable 11 July 2028. The RCF bears interest at a floating rate derived from SONIA when drawn. Included within the total RCF is a £10 million overdraft facility. As at 30 June 2025 and 31 December 2024, the facility was undrawn.

The RCF is subject to a financial covenant, tested quarterly, of a minimum senior secured net leverage of 8.8x, when drawdown of the RCF is greater than 40%. The Group has been in compliance with all relevant covenants and tests during the current and previous financial periods.

Fair value hierarchy

IFRS 7 requires fair value measurements to be recognised using a fair value hierarchy that reflects the significance of the inputs used in the value measurements:

- Level 1: inputs are quoted prices in active markets
- Level 2: a valuation that uses observable inputs for the asset or liability other than quoted prices in active markets; and
- Level 3: a valuation using unobservable inputs i.e. a valuation technique.

There were no transfers between levels throughout the period under review.

Set out below is a comparison of carrying amounts and fair values of all the financial instruments as carried in the financial statements, other than lease liabilities and those for which the fair value approximates closely with their carrying value. The fair value of senior secured notes is taken from the quoted market price. This is a Level 1 valuation. The fair value of all other borrowings are calculated by discounting the future cash flows at prevailing market interest rates, categorised as a Level 2 valuation.

There were no transfers between levels throughout the period under review.

12 Financial risk management objectives and policies

The Group has exposure to the following risks from its use of financial instruments: liquidity risk, credit risk, and market risk arising from interest rate risk.

This note presents information about the Group's exposure to each of the above risks and the Group's objectives, policies and procedures for measuring and managing risk. The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The key market risks affecting the Group are interest rate risk and foreign exchange rate risk. Financial instruments affected by market risk include certain borrowings and deposits. Financial instruments affected by exchange rate risk include the Euro Notes. At 30 June 2025, the €505.0m Euro Notes had a carrying amount of £432.5m based on an exchange rate of 0.856.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. During the period, the Group's exposure to the risk of changes in market interest rates related primarily to the Group's bank borrowings with floating interest rates.

As at 30 June 2025 and 31 December 2024, the Group had 100% of its borrowings in fixed rate instruments by way of senior secured loan notes, amounts owed to group undertakings and lease liabilities. The Group has access to a £175.5m revolving credit facility with floating interest rates but was not drawn down on this facility at the end of the period.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. Ultimate responsibility for liquidity risk management rests with the Board of Directors. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows, matching the maturity profiles of financial assets and operational liabilities and by maintaining adequate cash reserves.

The table below summaries the maturity profile of the Group's financial liabilities and includes contractual future interest payments:

Credit risk

The Group's principal financial assets are bank balances and cash, and trade receivables. The Group's credit risk is minimised due to exposure being spread over a large number of customers who generally pay by direct debit in advance. The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies. The group has no significant concentration of credit risk, with exposure spread over a large number of counterparties and customers.
