Cautionary Statement regarding Forward-Looking Statements

This presentation contains statements that relate to future events and expectations and as such constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include those containing such words as "aims," "ambition," "anticipates," "believes," "could," "develop," "endeavors," "estimates," "expects," "forecasts," "goal," "intends," "may," "outlook," "potential," "plans," "projects," "reach," "seeks," "sees," "should," "strive," "targets," "will," "working," "would," or other words of similar meaning. All statements by Alcoa Corporation ("Alcoa") that reflect expectations, assumptions or projections about the future, other than statements of historical fact, are forward-looking statements, including, without limitation, statements regarding the proposed transaction; the ability of the parties to complete the proposed transaction; the expected benefits of the proposed transaction, the competitive ability and position following completion of the proposed transaction; forecasts concerning global demand growth for bauxite, alumina, and aluminum, and supply/demand balances; statements, projections or forecasts of future or targeted financial results, or operating performance (including our ability to execute on strategies related to environmental, social and governance matters); statements about strategies, outlook, and business and financial prospects; and statements about capital allocation and return of capital. These statements reflect beliefs and assumptions that are based on Alcoa's perception of historical trends, current conditions, and expected future developments, as well as other factors that management believes are appropriate in the circumstances. Forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties, and changes in circumstances that are difficult to predict. Although Alcoa believes that the expectations reflected in any forward-looking statements are based on reasonable assumptions, it can give no assurance that these expectations will be attained and it is possible that actual results may differ materially from those indicated by these forward-looking statements due to a variety of risks and uncertainties. Such risks and uncertainties include, but are not limited to: (1) the non-satisfaction or non-waiver, on a timely basis or otherwise, of one or more closing conditions to the proposed transaction; (2) the prohibition or delay of the consummation of the proposed transaction by a governmental entity; (3) the risk that the proposed transaction may not be completed in the expected time frame or at all; (4) unexpected costs, charges or expenses resulting from the proposed transaction; (5) uncertainty of the expected financial performance following completion of the proposed transaction; (6) failure to realize the anticipated benefits of the proposed transaction; (7) the occurrence of any event that could give rise to termination of the proposed transaction; (8) potential litigation in connection with the proposed transaction or other settlements or investigations that may affect the timing or occurrence of the contemplated transaction or result in significant costs of defense, indemnification and liability; (9) the impact of global economic conditions on the aluminum industry and aluminum end-use markets; (10) volatility and declines in aluminum and alumina demand and pricing, including global, regional, and product-specific prices, or significant changes in production costs which are linked to LME or other commodities; (11) the disruption of market-driven balancing of global aluminum supply and demand by non-market forces; (12) competitive and complex conditions in global markets; (13) our ability to obtain, maintain, or renew permits or approvals necessary for our mining operations; (14) rising energy costs and interruptions or uncertainty in energy supplies; (15) unfavorable changes in the cost, quality, or availability of raw materials or other key inputs, or by disruptions in the supply chain; (16) our ability to execute on our strategy to be a lower cost, competitive, and integrated aluminum production business and to realize the anticipated benefits from announced plans, programs, initiatives relating to our portfolio, capital investments, and developing technologies; (17) our ability to integrate and achieve intended results from joint ventures, other strategic alliances, and strategic business transactions; (18) economic, political, and social conditions, including the impact of trade policies and adverse industry publicity; (19) fluctuations in foreign currency exchange rates and interest rates, inflation and other economic factors in the countries in which we operate; (20) changes in tax laws or exposure to additional tax liabilities; (21) global competition within and beyond the aluminum industry; (22) our ability to obtain or maintain adequate insurance coverage; (23) disruptions in the global economy caused by ongoing regional conflicts; (24) legal proceedings, investigations, or changes in foreign and/or U.S. federal, state, or local laws, regulations, or policies; (25) climate change, climate change legislation or regulations, and efforts to reduce emissions and build operational resilience to extreme weather conditions; (26) our ability to achieve our strategies or expectations relating to environmental, social, and governance considerations; (27) claims, costs and liabilities related to health, safety, and environmental laws, regulations, and other requirements, in the jurisdictions in which we operate; (28) liabilities resulting from impoundment structures, which could impact the environment or cause exposure to hazardous substances or other damage; (29) our ability to fund capital expenditures; (30) deterioration in our credit profile or increases in interest rates; (31) restrictions on our current and future operations due to our indebtedness; (32) our ability to continue to return capital to our stockholders through the payment of cash dividends and/or the repurchase of our common stock; (33) cyber attacks, security breaches, system failures, software or application vulnerabilities, or other cyber incidents; (34) labor market conditions, union disputes and other employee relations issues; (35) a decline in the liability discount rate or lower-than-expected investment returns on pension assets; and (36) the other risk factors discussed in Part I Item 1A of Alcoa's Annual Report on Form 10-K for the fiscal year ended December 31, 2023 and other reports filed by Alcoa with the SEC. These risks, as well as other risks associated with the proposed transaction, will be more fully discussed in the proxy statement. Alcoa cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date they are made. Alcoa disclaims any obligation to update publicly any forward-looking statements, whether in response to new information, future events or otherwise, except as required by applicable law. Market projections are subject to the risks described above and other risks in the market. Neither Alcoa nor any other person assumes responsibility for the accuracy and completeness of any of these forward-looking statements and none of the information contained herein should be regarded as a representation that the forward-looking statements contained herein will be achieved.

Important information

Additional Information and Where to Find It

This communication does not constitute an offer to buy or sell or the solicitation of an offer to buy or sell any securities. This communication relates to the proposed transaction. In connection with the proposed transaction, Alcoa plans to file with the SEC a proxy statement on Schedule 14A (the "Proxy Statement"). This communication is not a substitute for the Proxy Statement or any other document that Alcoa may file with the SEC and send to its stockholders in connection with the proposed transaction. The issuance of the stock consideration in the proposed transaction will be submitted to Alcoa's stockholders for their consideration. The Proxy Statement will contain important information about Alcoa, the proposed transaction and related matters. Before making any voting decision, Alcoa's stockholders should read all relevant documents filed or to be filed with the SEC completely and in their entirety, including the Proxy Statement, as well as any amendments or supplements to those documents, when they become available, because they will contain important information about Alcoa and the proposed transaction. Alcoa's stockholders will be able to obtain a free copy of the Proxy Statement, as well as other filings containing information about Alcoa, free of charge, at the SEC's website (www.sec.gov). Copies of the Proxy Statement and other documents filed by Alcoa with the SEC may be obtained, without charge, by contacting Alcoa through its website at <https://investors.alcoa.com/>.

Participants in the Solicitation

Alcoa, its directors, executive officers and other persons related to Alcoa may be deemed to be participants in the solicitation of proxies from Alcoa's stockholders in connection with the proposed transaction. Information about the directors and executive officers of Alcoa and their ownership of common stock of Alcoa is set forth in the section entitled "*Information about our Executive Officers*" included in Alcoa's annual report on Form 10-K for the fiscal year ended December 31, 2023, which was filed with the SEC on February 21, 2024 (and which is available at <https://www.sec.gov/ixviewer/ix.html?doc=/Archives/edgar/data/1675149/000095017024018069/aa-20231231.htm>), and in the sections entitled "*Director Nominees*" and "*Stock Ownership of Directors and Executive Officers*" included in its proxy statement for its 2024 annual meeting of stockholders, which was filed with the SEC on March 19, 2024 (and which is available at <https://www.sec.gov/ix?doc=/Archives/edgar/data/1675149/000119312524071354/d207257ddef14a.htm>). Additional information regarding the persons who may, under the rules of the SEC, be deemed participants in the proxy solicitation and a description of their direct and indirect interests, by security holdings or otherwise, will be included in the Proxy Statement and other relevant materials to be filed with the SEC in connection with the proposed transaction when they become available. Free copies of these documents may be obtained as described in the preceding paragraph.

Non-GAAP Financial Measures

This presentation contains reference to certain financial measures that are not calculated and presented in accordance with generally accepted accounting principles in the United States (GAAP). Alcoa Corporation believes that the presentation of these non-GAAP financial measures is useful to investors because such measures provide both additional information about the operating performance of Alcoa Corporation and insight on the ability of Alcoa Corporation to meet its financial obligations by adjusting the most directly comparable GAAP financial measure for the impact of, among others, "special items" as defined by the Company, non-cash items in nature, and/or nonoperating expense or income items. The presentation of non-GAAP financial measures is not intended to be a substitute for, and should not be considered in isolation from, the financial measures reported in accordance with GAAP. Certain definitions, reconciliations to the most directly comparable GAAP financial measures and additional details regarding management's rationale for the use of the non-GAAP financial measures can be found in the appendix to this presentation. Alcoa Corporation does not provide reconciliations of the forward-looking non-GAAP financial measures Adjusted EBITDA and Adjusted Net Income, including transformation, intersegment eliminations and other corporate Adjusted EBITDA; operational tax expense; and other expense; each excluding special items, to the most directly comparable forward-looking GAAP financial measures because it is impractical to forecast certain special items, such as restructuring charges and mark-to-market contracts without unreasonable efforts due to the variability and complexity associated with predicting the occurrence and financial impact of such special items. For the same reasons, we are unable to address the probable significance of the unavailable information, which could be material to future results.

Near term market improving; long term remains positive

1Q24 Market and commercial update

Alumina

Near term

- Steady demand
- Chinese refinery curtailments due to domestic bauxite shortage
- Potential risks to supply chain highlighted by Queensland, Guinea events
- Kwinana curtailment to be complete in 2Q24

Long term

- Alumina demand to grow alongside aluminum
- ~80% of new refining projects fueled by coal
- Bauxite supply chain security proves critical with China seaborne demand continuing to increase

Aluminum

- Automotive, electrical demand remains solid; packaging, construction sectors stabilize
- 1Q24 value add product volumes up QoQ and YoY
- Limited new projects; China holds to 45Mmt cap despite Yunnan restarts
- Inventory low (50-55 days); Russian metal 91% of LME; US/UK sanctions; LME to restrict new Russian metal inflows
- 1Q24 regional premiums in key markets up sequentially

- Demand growth from renewable energy transition
- Supply growth of 8 Mtpa primary aluminum capacity needed by 2030; face potential renewable energy constraints
- Additional smelter projects needed ex-China beyond announced projects
- China National Emissions Trading Scheme (ETS) to include aluminum

Key operational activities underway, including at San Ciprián

Path forward for near term annual profitability improvement

Near term actions

- Raw materials savings
 - Benefits being realized as expected, or better
- Productivity and competitiveness program
 - Fully deployed; some savings realization starting in 2Q24
- Warrick optimization and Inflation Reduction Act (IRA) funding improvements
 - Potline restart complete
 - Awaiting decision on additional IRA funding
- Alumar smelter restart
 - Restart challenges remain
- Kwinana curtailment
 - Expected to reach full curtailment in 2Q24

San Ciprián solution

- Pots restarted (6%) in 1Q24 in compliance with viability agreement
- Some market improvements in energy and API pricing although business remains unviable; near-term government support appears unlikely
- Operational optimization project identified limited short and medium term potential savings; executing with focus on cash preservation
- Sale process commenced; success depends upon involvement of government and flexibility from unions; bid process expected to conclude in 2Q24
- Cash expected to run out in second half of 2024; Alcoa will not provide additional funds

Alumina Limited deal, key activities progress, better markets

1Q24 Summary

Our Values

- Act with Integrity
- Operate with Excellence
- Care for People
- Lead with Courage

First quarter summary

- Strong safety performance and ongoing programs
- Signed agreement to acquire Alumina Limited
- Completed restart at Warrick
- Issued \$750 million green bond

Going forward

- Progress and close Alumina Limited acquisition
- Continue efforts to achieve San Ciprián solution
- Complete operating level adjustments at Kwinana and Alumar
- Deliver savings of productivity and competitiveness program
- Benefit from positive near and long term market outlook

Appendix

Maximizing value creation through balanced uses of cash

Capital allocation framework and value creation considerations

Capital allocation framework

Maximize value creation

Return cash to stockholders

- 1Q24 dividend payments totaled \$19 million

Transform portfolio

- Continue to take actions to optimize smelter and refinery capacity
- Aggressively pursue productivity and competitiveness improvements at challenged locations

Position for value-creating growth

- Implement innovative technologies, when proven at commercial scale, with potential to transform the industry
- Fund projects that are expected to provide returns to stockholders greater than cost of capital

Additional business considerations

Items expected to impact Adjusted EBITDA and Adjusted net income for 2Q24

Expected sequential impacts on Adjusted EBITDA excluding special items, excluding indexed sales prices or currency impacts:

- In the Alumina segment, we expect impacts of approximately \$20 million related to higher seasonal maintenance and other mining costs for the Australia operations.
- In the Aluminum segment, we expect favorable raw material and production costs to fully offset unfavorable energy impacts. Alumina costs in the Aluminum segment are expected to be unfavorable by \$15 million.
- Estimate intersegment profit elimination for every \$10/mt decrease in API prices to be a \$7 million to \$9 million favorable impact based on comparison of the average API of the last two months of each quarter (API is based on average of prior month spot prices); consider intersegment eliminations as component of minority interest calculation.
- Using quarter end exchange rates, 1Q24 Adjusted EBITDA included a favorable balance sheet revaluation impact of approximately \$4 million (favorable \$4 million sequentially compared to 4Q23); impacts related to balance sheet revaluation are not incorporated into the currency sensitivities provided for Adjusted EBITDA.

Below Adjusted EBITDA:

- 1Q24 Other expenses included negative impacts of approximately \$20 million due to foreign currency losses.
- Based on recent pricing, the Company expects 2Q24 operational tax expenses to approximate \$40 to \$50 million.

1. Alcoa Corporation has an investment in a joint venture related to the ownership and operation of an integrated aluminum complex (bauxite mine, alumina refinery, and aluminum smelter) in Saudi Arabia. The joint venture is owned 74.9% by the Saudi Arabian Mining Company (Ma'aden) and 25.1% by Alcoa Corporation.
2. Halco Mining, Inc. owns 100% of Boké Investment Company, which owns 51% of Compagnie des Bauxites de Guinée (CBG).
3. Pechiney Reynolds Quebec, Inc. owns a 50.1% interest in the Bécancour smelter in Quebec, Canada thereby entitling Alcoa Corporation to a 25.05% interest in the smelter. Through two wholly-owned Canadian subsidiaries, Alcoa Corporation also owns 49.9% of the Bécancour smelter.
4. Each of the investees either owns the facility listed or has an ownership interest in an entity that owns the facility listed.
5. A portion or all of each of these ownership interests are held by majority-owned subsidiaries that are part of AWAC.

1. On January 8, 2024, the Company announced the full curtailment of the Kwinana refinery beginning in the second quarter of 2024.

2. On September 20, 2021, the Company announced plans to restart its 60% share of the Alumar smelter in São Luís, Brazil, equivalent to 268,000 metric tonnes per year (mtpa) of aluminum capacity. Production began in the second quarter of 2022.

3. In the first quarter of 2024, the Company completed the restart of an initial component of approximately 6% of total pots, in accordance with the February 2023 viability agreement.

4. In the first quarter of 2024, the Company completed the restart of one potline that was curtailed in July 2022.

5. The Company's proportionate share of earnings from its equity investment in the Saudi Arabian joint venture does not impact Adjusted EBITDA.

Adjusted EBITDA excl. special items	\$240	\$137	\$70	\$89	\$536	\$132

Alcoa Corporation's definition of Adjusted EBITDA is net margin plus an add-back for depreciation, depletion, and amortization. Net margin is equivalent to Sales minus the following items: Cost of goods sold; Selling, general administrative, and other expenses; Research and development expenses; and Provision for depreciation, depletion, and amortization. Adjusted EBITDA is a non-GAAP financial measure. Management believes that this measure is meaningful to investors because Adjusted EBITDA provides additional information with respect to Alcoa Corporation's operating performance and the Company's ability to meet its financial obligations. The Adjusted EBITDA presented may not be comparable to similarly titled measures of other companies.

Free cash flow reconciliation

Free cash flow less net noncontrolling interest distributions	\$(166)	\$(108)	\$(36)	\$28	\$(282)	\$(269)

Free cash flow and Free cash flow less net distributions to noncontrolling interest are non-GAAP financial measures. Management believes that these measures are meaningful to investors because management reviews cash flows generated from operations after taking into consideration capital expenditures and net distributions to noncontrolling interest. Capital expenditures are necessary to maintain and expand Alcoa Corporation's asset base and are expected to generate future cash flows from operations, while net distributions to noncontrolling interest are necessary to fulfill our obligations to our joint venture partners. It is important to note that Free cash flow and Free cash flow less net distributions to noncontrolling interest do not represent the residual cash flows available for discretionary expenditures since other non-discretionary expenditures, such as mandatory debt service requirements, are not deducted from the measure.

Adjusted net debt	\$1,287	\$(79)	\$1,366	\$1,580	\$(93)	\$1,673	\$1,879	\$(94)	\$1,973

Net debt is a non-GAAP financial measure. Management believes that this measure is meaningful to investors because management assesses Alcoa Corporation's leverage position after considering available cash that could be used to repay outstanding debt. When cash exceeds total debt, the measure is expressed as net cash.

Adjusted net debt and Proportional adjusted net debt are also non-GAAP financial measures. Management believes that these additional measures are meaningful to investors because management also assesses Alcoa Corporation's leverage position after considering available cash that could be used to repay outstanding debt and net pension/OPEB liability, net of the portion of those items attributable to noncontrolling interest (NCI).

DWC working capital and Days working capital are non-GAAP financial measures. Management believes that these measures are meaningful to investors because management uses its working capital position to assess Alcoa Corporation's efficiency in liquidity management.

1. Days working capital is calculated as DWC working capital divided by the quotient of Sales and number of days in the quarter
