

NETSTREIT

Investor Presentation
July 2026

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements include, without limitation, statements concerning our business and growth strategies, investment, financing and leasing activities, including estimated development costs, and trends in our business, including trends in the market for single-tenant, retail commercial real estate. Words such as “expects,” “anticipates,” “intends,” “plans,” “likely,” “will,” “believes,” “seeks,” “estimates,” and variations of such words and similar expressions are intended to identify such forward-looking statements. Such statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from the results of operations or plans expressed or implied by such forward-looking statements. Although we believe that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate, and therefore such statements included in this presentation may not prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the results or conditions described in such statements, or our objectives and plans will be achieved. For a further discussion of these and other factors that could impact future results, performance or transactions, see the information under the heading “Risk Factors” in our Form 10-K for the year ended December 31, 2025, filed with the SEC on February 10, 2026, and other reports filed with the SEC from time to time. Forward-looking statements and such risks, uncertainties and other factors speak only as of the date of this presentation. New risks and uncertainties may arise over time, and it is not possible for us to predict those events or how they may affect us. Many of the risks identified herein and in our periodic reports have been and will continue to be heightened as a result of the ongoing and numerous adverse effects arising from macroeconomic conditions, including inflation, interest rates and instability in the banking system. We expressly disclaim any obligation or undertaking to update or revise any forward-looking statement contained herein, to reflect any change in our expectations with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based, except to the extent otherwise required by law.

This presentation also includes certain financial measures not presented in accordance with generally accepted accounting principles (“GAAP”) including, but not limited to, FFO, Core FFO, AFFO, EBITDA, EBITDAre, Adjusted EBITDAre, Annualized Adjusted EBITDAre, Property-Level NOI, Property-Level Cash NOI, Property-Level Cash NOI - Estimated Run Rate, Net Debt, Adjusted Net Debt, and Pro Forma Adjusted Net Debt. These non-GAAP financial measures are not measures of financial performance in accordance with GAAP and may exclude items that are significant in understanding and assessing the Company’s financial results. Therefore, these measures should not be considered in isolation or as an alternative to net income, cash flows from operations or other measures of profitability, liquidity or performance under GAAP. You should be aware that the presentation of these measures may not be comparable to similarly-titled measures used by other companies. The Company believes these non-GAAP measures provide useful information to management and investors regarding certain financial and business trends relating to the Company’s financial condition and results of operations. The Company believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends in and in comparing its financial results with other similar companies, many of which present similar non-GAAP financial measures to investors. These non-GAAP financial measures are subject to inherent limitations as they reflect the exercise of judgments by management about which expense and income are excluded or included in determining these non-GAAP financial measures.

Certain monetary amounts, percentages and other figures included in this presentation have been subject to rounding adjustments. Certain other amounts that appear in this presentation may not sum due to rounding.

High Credit Quality & Resilient Net Lease Portfolio

- ✓ Focused on growing portfolio with high quality tenants that offer strong credit profiles and provide consistent performance through various economic cycles
- ✓ Proven track record of full occupancy and strong unit-level coverage
- ✓ Long weighted average lease term supported by a geographically diverse portfolio of fungible freestanding assets

1. Represents tenants with investment grade credit metrics (more than \$1.0 billion in annual sales and a debt to adjusted EBITDA ratio of less than 2.0x), but do not carry a published rating from S&P, Fitch, Moody's, or NAIC.

2. See slide 4 for further details on our historical credit loss experience and slide 13 for various credit and coverage statistics.

3. Reflects the impact of 38.9 million unsettled forward shares at the June 30, 2026, weighted average net settlement price of \$18.34 per share and 0.2 million ATM shares sold QTD in 3Q'26 at the weighted average net settlement price of \$21.27 per share.

4. Includes the \$50 million of undrawn term loan balance from the \$250 million senior unsecured term loan.

Annualized Credit Loss Experience vs. Peers

De Minimis Historical Annualized Credit Loss Since Inception

Since NETSTREIT's initial equity raise in 4Q'19, only one portfolio tenant – Big Lots – has experienced a credit event, which has caused **3bps of annualized credit loss over the last six-plus years**

Peer Commentary on Annualized Credit Loss

"..that compares to the roughly **35bps** of credit loss that we incurred in 2024, which is slightly above our longer-term average."
(4Q'24 Earnings Transcript)

"We provided some good credit loss statistics in our NAREIT deck of **30bps** per annum is our historical experience"
(3Q'24 Earnings Transcript)

"Going back to 2016, we've had a total of \$1.76 million in bad debt versus \$1.5 billion in rent collected — an average of **12bps** per year"
(2Q'25 Earnings Transcript)

"Historically, our credit loss typically runs in the kind of the **30bps to 50bps** kind of range"
(4Q'24 Earnings Transcript)

"Historically about how when you exclude the pandemic, we've been right there around **25bps** of credit loss in a given year as a % of revenue"
(3Q'24 Earnings Transcript)

"Historically, both under assumptions but also realized credit loss...we've probably been more in the **50bps to 75bps** range"
(1Q'25 Citi Conference Transcript)

Big Lots Historical ABR

With Big Lots footprint shrinking to ≈200 stores from ≈1,400 stores post bankruptcy (**15%** acceptance rate), NETSTREIT's **87.5%** acceptance rate (7 of 8 leases accepted/assigned in bankruptcy) was significantly better than all other multi-unit landlords

Real Estate Valuation

Real Estate Closely Follows Credit as a Top Priority: We Utilize a Ground-Up Framework Rooted in Real Estate Fundamentals to Underpin Valuation and Further Quantify the Upside Potential of an Investment

Market-Level Considerations

- Vacancy analysis
 - *Marketability of the real estate without current tenant*
 - *List of likely replacement tenants*
- Rent analysis
 - *Market rent versus in-place rent*
- Demographic analysis
 - *Current demographics plus trends and forecasts*
- Competitive analysis
 - *Market position versus competing retail corridors*

Property-Level Considerations

- Fungibility of building for alternative uses
- Replacement cost
- Location analysis
 - *Traffic counts*
 - *Nearby uses and traffic drivers, complementary nature thereof*
- Accessibility and parking capacity
 - *Ingress and egress*
 - *Visibility / signage*

Unit-Level Profitability

Assess Unit-Level Financial Performance to Focus on Properties with Strong Rent Coverage and Higher Variability in Operating Costs

1 Obtain Financial Info

- *Provides clarity into location-specific performance*
- Obtain unit-level financial information from parent company if possible
- If financials are not provided, utilize data provided by third party vendors to estimate sales by location
- Third party data includes:
 - Cell phone traffic
 - Point of sales (POS) data

2 Perform Financial Analysis

- *Analyze store demand dynamics, cost structure and liquidity profile*
- Triangulate P&L based on available information
 - Foot traffic
 - Sales
 - EBITDAR margin
 - Rent
- Account for variability in business model cost structure
 - Higher proportion of fixed costs = more variability in rent coverage
- Determine store ranking within tenant's broader operating portfolio based on estimated sales

3 Assess Investment Merits

- *Determine whether property meets investment criteria*

Key Unit-Level Investment Criteria

- ✓ **Target Rent Coverage of 2.0x on a Stabilized Basis**
- ✓ **Higher Variable Cost Structure**
- ✓ **Ranks in Top Half of Tenant's Store Portfolio**

Portfolio Health Statistics

Durability Evidenced by Creditworthy Tenants with Large Revenue Bases and Strong Unit-Level Coverage

% of ABR by Tenant Revenue Tranche

% of ABR by Unit-Level Coverage Tranche¹

Unit-Level Coverage by Tenant Credit²

Source: Company data as of June 30, 2026.

"NR" stands for not reported.

1. Unit-level rent coverage is calculated using a.) unit-level financial reporting, which represents 37.2% of ABR, or b.) Placer.ai adjusted sales and corporate EBITDA margins, where unit level reporting is not required by a lease.

2. The chart illustrates the ABR attributable to leases with tenants having specified implied credit ratings based on their Moody's EDF-X scores. Moody's equates the EDF scores generated using EDF-X with a corresponding credit rating. For those tenants with an actual credit rating from S&P, Moody's, Fitch, or the National Association of Insurance Commissioners, the higher of the actual or implied credit rating is used.

3. Excludes investments that secure mortgage loans receivable.

Unit-Level Coverage by Lease Expiration³

Active Asset Management

Continuously Track Property Performance to Stratify Portfolio and Ensure a Secure Rental Stream

Strategic Recycling

Leverage 1031 exchange transfers where possible to access deep, non-institutional market for portfolio optimization

Active Monitoring

Periodically review all properties for changes in performance, credit, and local conditions

Perpetual Stratification

Identify properties not meeting strategy and/or risk management criteria (i.e. rent coverage)

Since inception, the Company has disposed of 239 properties totaling \$600 million, materially improving portfolio performance metrics such as tenant quality, WALT, and geographic diversity

Source: Company data as of June 30, 2026.

Conservative Balance Sheet with Strong Liquidity

Balance Sheet Positioned for Growth Given Strong Liquidity Profile and Low Leverage Position

Abundant Liquidity to Support Growth:

\$1.1 billion in total PF liquidity^{1,2}

Well-Staggered Debt Maturity Profile:

Weighted average debt maturity of 3.6 years; no term loan maturities expected until 2028

Unsecured Balance Sheet:

Asset base is over 99% unencumbered

Low Leverage:

PF Adjusted Net Debt¹ / Annualized Adjusted EBITDA^{are} of 3.1x

Debt Maturity Schedule

Source: Company data as June 30, 2026, unless otherwise noted.

1. Reflects the impact of 38.9 million unsettled forward shares at the June 30, 2026, weighted average net settlement price of \$18.34 per share and 0.2 million ATM shares sold QTD in 3Q'26 at the weighted average net settlement price of \$21.27 per share.

2. Includes the \$50 million of undrawn term loan balance from the \$250 million senior unsecured term loan.

3. Principal balance of revolver as of June 30, 2026.

Leverage

Net Debt / Annualized Adjusted EBITDAre	6.5 x
Adjusted Net Debt / Annualized Adjusted EBITDAre	3.2 x
Pro Forma Adjusted Net Debt / Annualized Adjusted EBITDAre	3.1 x

1. Adjustment reflects the estimated cash yield on developments in process as of June 30, 2026.

2. Adjustment assumes all re-leasing activity, investments in and dispositions of real estate, including any developments completed during the three months ended June 30, 2026, had occurred on April 1, 2026.

3. We calculate Annualized Adjusted EBITDAre by multiplying Adjusted EBITDAre by four.

4. Reflects 38,942,108 of unsettled forward equity shares at the June 30, 2026, available weighted average net settlement price of \$18.34 per share.

5. Reflects 210,670 of shares sold on a forward basis at a weighted average net settlement price of \$21.27 per share.

Fixed vs. Floating Debt

Debt Maturity Schedule

1. Rates presented exclude the impact of capitalized loan fee amortization.

2. Interest rate reflects the all-in borrowing rate as of June 30, 2026. Facility fees are charged at an annual rate of 0.20% of the total facility size of \$500 million, and are not included in the interest rate presented. The facility matures on January 15, 2029, and includes a one-year extension option. Remaining capacity reduced by \$0.15 million for outstanding letters of credit.

3. The term loan matures on July 3, 2027, and includes one one-year extension option and one six-month extension option.

4. The term loan matures on January 15, 2029, and includes a one-year extension option. Existing fixed rate SOFR expires in January 2027; the term loan is unhedged beyond that date.

5. The term loan matures on January 15, 2029, and includes a one-year extension option.

6. \$200.0 million of the term loan is hedged at an all-in rate of 4.67%. The remaining \$50.0 million is unhedged.

7. The mortgage note was assumed as part of an asset acquisition during the third quarter of 2022.

1. Remaining capacity reduced by \$0.15 million for outstanding letters of credit.

2. Reflects 38,942,108 of unsettled shares under forward sale agreements at the June 30, 2026, weighted average net settlement price of \$18.34 per share.

3. Reflects 210,670 of shares sold on a forward basis at a weighted average net settlement price of \$21.27 per share.

4. Value is based on the June 30, 2026, closing share price of \$21.13 per share.

5. Excludes unvested LTIP units and unvested restricted stock units.

Non-GAAP Measures and Definitions

FFO, Core FFO, and AFFO

The National Association of Real Estate Investment Trusts (“NAREIT”), an industry trade group, has promulgated a widely accepted non-GAAP financial measure of operating performance known as FFO. Our FFO is net income in accordance with GAAP, excluding gains (or losses) resulting from dispositions of properties, plus depreciation and amortization and impairment charges on depreciable real property.

Core FFO is a non-GAAP financial measure defined as FFO adjusted to exclude infrequent and unusual items not expected to impact our operating performance on an ongoing basis. These include executive transition costs, severance, and related charges, debt-related transaction costs, and other non-core losses (gains) as they occur.

AFFO is a non-GAAP financial measure defined as Core FFO adjusted for GAAP net income related to non-cash revenues and expenses, such as straight-line rent, amortization of above- and below-market lease-related intangibles, amortization of lease incentives, capitalized interest expense and earned development interest, non-cash interest expense, non-cash compensation expense, amortization of deferred financing costs, amortization of above/below-market assumed debt, and amortization of loan origination costs.

Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. In fact, real estate values historically have risen or fallen with market conditions. FFO is intended to be a standard supplemental measure of operating performance that excludes historical cost depreciation and valuation adjustments from net income. We consider FFO to be useful in evaluating potential property acquisitions and measuring operating performance.

We further consider FFO, Core FFO, and AFFO to be useful in determining funds available for payment of distributions. FFO, Core FFO, and AFFO do not represent net income or cash flows from operations as defined by GAAP. You should not consider FFO, Core FFO, and AFFO to be alternatives to net income as a reliable measure of our operating performance nor should you consider FFO, Core FFO, and AFFO to be alternatives to cash flows from operating, investing, or financing activities (as defined by GAAP) as measures of liquidity.

FFO, Core FFO, and AFFO do not measure whether cash flow is sufficient to fund our cash needs, including debt service obligations, capital improvements, and distributions to stockholders. FFO, Core FFO, and AFFO do not represent cash flows from operating, investing, or financing activities as defined by GAAP. Further, FFO, Core FFO, and AFFO as disclosed by other REITs might not be comparable to our calculations of FFO, Core FFO, and AFFO.

Enterprise Value

We calculate Enterprise Value as the sum of our Adjusted Net Debt, market value of unsettled forwards, and equity market capitalization as of period end.

Non-GAAP Measures and Definitions

EBITDA, EBITDAre, Adjusted EBITDAre, and Annualized Adjusted EBITDAre

We compute EBITDA as earnings before interest expense, income tax expense, and depreciation and amortization. In 2017, NAREIT issued a white paper recommending that companies that report EBITDA also report EBITDAre. We compute EBITDAre in accordance with the definition adopted by NAREIT. NAREIT defines EBITDAre as EBITDA (as defined above) excluding gains (or losses) from the sales of depreciable property and impairment charges on depreciable real property.

Adjusted EBITDAre is a non-GAAP financial measure defined as EBITDAre further adjusted to exclude straight-line rent, non-cash compensation expense, executive transition costs, severance, and related charges, debt related transaction costs, transaction costs, other non-recurring losses (gains), other non-recurring expenses (income), including lease termination fees, as well as adjustments for construction in process and for intraquarter activities. Annualized Adjusted EBITDAre is Adjusted EBITDAre multiplied by four.

We present EBITDA, EBITDAre, Adjusted EBITDAre, and Annualized Adjusted EBITDAre as they are measures commonly used in our industry. We believe that these measures are useful to investors and analysts because they provide supplemental information concerning our operating performance, exclusive of certain non-cash items and other costs. We use EBITDA, EBITDAre, Adjusted EBITDAre, and Annualized Adjusted EBITDAre as measures of our operating performance and not as measures of liquidity.

EBITDA, EBITDAre, Adjusted EBITDAre, and Annualized Adjusted EBITDAre do not include all items of revenue and expense included in net income, they do not represent cash generated from operating activities and they are not necessarily indicative of cash available to fund cash requirements; accordingly, they should not be considered alternatives to net income as a performance measure or cash flows from operations as a liquidity measure and should be considered in addition to, and not in lieu of, GAAP financial measures. Additionally, our computation of EBITDA, EBITDAre, Adjusted EBITDAre, and Annualized Adjusted EBITDAre may differ from the methodology for calculating these metrics used by other equity REITs and, therefore, may not be comparable to similarly titled measures reported by other equity REITs.

Net Debt, Adjusted Net Debt, and Pro Forma Adjusted Net Debt

We calculate Net Debt as the principal amount of our total debt outstanding, excluding deferred financing costs, net discounts, and debt issuance costs, less cash, cash equivalents, and restricted cash available for future investment.

We then adjust Net Debt by the net value of unsettled forward equity as of period end to derive Adjusted Net Debt. Further, we adjust Adjusted Net Debt by the value of any unsettled forward equity and at-the-market sales occurring subsequent to the period to derive Pro Forma Adjusted Net Debt.

We believe excluding cash, cash equivalents, and restricted cash available for future investment from the principal amount of our total debt outstanding, together with the exclusion of the net value of unsettled forward equity as of period end and the net value of unsettled forward equity and at-the-market sales subsequent to the period, all of which could be used to repay debt, provides a useful estimate of the net contractual amount of borrowed capital to be repaid. We believe these adjustments are additional beneficial disclosures to investors and analysts.

Non-GAAP Measures and Definitions (cont'd)

Property-Level NOI, Property-Level Cash NOI, and Property-Level Cash NOI - Estimated Run Rate

Property-Level NOI, Property-Level Cash NOI, and Property-Level Cash NOI - Estimated Run Rate are non-GAAP financial measures which we use to assess our operating results. We compute Property-Level NOI as net income (computed in accordance with GAAP), excluding general and administrative expenses, interest expense, net, income tax expense, amortization of loan origination costs and discounts, transaction costs, depreciation and amortization, gains (or losses) on sales of depreciable property, real estate impairment losses, interest income on mortgage loans receivable, debt-related transaction costs, and other expense (income), net, including lease termination fees. We further adjust Property-Level NOI for non-cash revenue components of straight-line rent and amortization of lease-intangibles to derive Property-Level Cash NOI. We further adjust Property-Level Cash NOI for intraquarter acquisitions, dispositions, and completed development to derive Property-Level Cash NOI - Estimated Run Rate. We believe Property-Level NOI, Property-Level Cash NOI, and Property-Level Cash NOI - Estimated Run Rate provide useful and relevant information because they reflect only those income and expense items that are incurred at the property level and present such items on an unlevered basis.

Property-Level NOI, Property-Level Cash NOI, and Property-Level Cash NOI - Estimated Run Rate are not measurements of financial performance under GAAP and may not be comparable to similarly titled measures of other companies. You should not consider our measures as alternatives to net income or cash flows from operating activities determined in accordance with GAAP.

Other Definitions

ABR is annualized base rent for all leases that commenced and annualized cash interest for all executed mortgage loans as of period end.

Cash Yield is the annualized base rent contractually due from acquired properties and completed developments, and interest income from mortgage loans receivable, divided by the gross investment amount, gross proceeds in the case of dispositions, or loan repayment amount.

Defensive Category is considered by us to represent tenants that focus on necessity goods and essential services in the retail sector, including discount stores, grocers, drug stores and pharmacies, home improvement, automotive service and quick-service restaurants, which we refer to as defensive retail industries.

The defensive sub-categories as we define them are as follows: (1) Necessity, which are retailers that are considered essential by consumers and include sectors such as drug stores, grocers and home improvement, (2) Discount, which are retailers that offer a low price point and consist of off-price and dollar stores, (3) Service, which consist of retailers that provide services rather than goods, including, tire and auto services and quick service restaurants, and (4) Other, which are retailers that are not considered defensive in terms of being considered necessity, discount or service, as defined by us.

Investments are lease agreements in place at owned properties, properties that have leases associated with mortgage loans receivable, developments where rent commenced, interest earning developments, or in the case of master lease arrangements each property under the master lease is counted as a separate lease.

Occupancy is expressed as a percentage, and it is the number of leased investments divided by the total number of investments owned, excluding properties under development.

Non-GAAP Measures and Definitions (cont'd)

OP Units means operating partnership units not held by NETSTREIT.

Weighted Average Lease Term is weighted by the annualized base rent, excluding lease extension options and investments associated with mortgage loans receivable.
