Atmus Filtration Technologies Inaugurates New Distribution Center

2024-04-03

NASHVILLE, Tenn.--(BUSINESS WIRE)-- Atmus Filtration Technologies Inc. (NYSE: ATMU) (“Atmus”), a global leader in filtration and media solutions, has announced the expansion of its distribution capabilities with the inauguration of the Atmus Southern Distribution Center (SDC) in Hutchins, Texas, U.S.

SDC had a soft launch in late 2023 and is now fully operational, signifying a critical milestone as Atmus transforms its supply chain to better serve its customers. The facility serves customers throughout the United States with a focus on the Southern region.

Situated just outside of Dallas, the SDC covers 94,000 square feet that is solely dedicated to distributing Fleetguard products, a brand of Atmus. Fleetguard fuel filters, lube filters, air filters, crankcase ventilation, hydraulic filters and coolants and other chemicals serve customers across various markets, including truck, bus, construction, mining and power generation around the globe.

“As part of our supply chain transformation strategy, optimizing our network to ensure our physical footprint provides superior availability while minimizing part movement has been a key focus. Opening the SDC allows us to better serve our customers when and where they need us,” said Paul Massey, Vice President of Supply Chain at Atmus.

Atmus Filtration Technologies has 11 distribution centers strategically located around the world, including more than 1.6 million square feet across six continents.
