

Atmus Filtration Technologies Reports Second Quarter 2026 Results

2026-08-07

NASHVILLE, Tenn.--(BUSINESS WIRE)-- Atmus Filtration Technologies Inc. (Atmus; NYSE: ATMU), a global leader in filtration and media solutions, today reported financial results for its second quarter that ended June 30, 2026.

Second Quarter Highlights

- Record Net sales of \$528 million
 - Power Solutions segment net sales of \$486 million
 - Industrial Solutions segment net sales of \$42 million
- GAAP net income of \$64 million
- Diluted earnings per share of \$0.78
- Adjusted earnings per share of \$0.82
- Adjusted EBITDA of \$109 million and Adjusted EBITDA margin of 20.7%
 - Power Solutions Segment Adjusted EBITDA of \$101 million and Segment Adjusted EBITDA margin of 20.8%
 - Industrial Solutions Segment Adjusted EBITDA of \$8 million and Segment Adjusted EBITDA margin of 18.9%
- Cash provided by operating activities was \$78 million
- Adjusted free cash flow was \$67 million

2026 Outlook

The company is raising guidance for the full year 2026 as follows:

- Total company Net sales expected to be in the range of \$1,975 million to \$2,030 million
 - Power Solutions segment expected to be in the range of \$1,820 million to \$1,865 million
 - Industrial Solutions segment expected to be in the range of \$155 million to \$165 million

- Adjusted EBITDA margin expected to be in the range of 19.75% to 20.25%
- Adjusted earnings per share expected to be in the range of \$2.85 to \$3.00

During the quarter, Atmus repurchased \$13 million of common stock under the \$150 million share repurchase program authorized by the Board of Directors in July 2024. As of June 30, 2026, \$49 million was remaining under the authorization. Additionally, Atmus paid a quarterly cash dividend of \$0.055 per share of common stock.

“The Atmus team delivered record sales during the quarter through a relentless focus on solving our customer’s toughest filtration challenges with our industry leading Fleetguard® and Koch Filter® branded products,” said Steph Disher, Chief Executive Officer of Atmus. “Our team remains committed to executing our four-pillar growth strategy and creating long-term shareholder value.”

Second Quarter Results

For the second quarter of 2026, Atmus posted net sales of \$528 million, compared to \$454 million in the second quarter of 2025, an increase of 16.4%. The increase in sales was primarily driven by the acquisition of Koch Filter Corporation (“Koch Filter”), increases in pricing, the favorable impacts of currency and higher volumes.

Gross margin was \$154 million, compared to \$131 million in the second quarter of 2025. Gross margin as a percent of net sales was 29.2% compared to 28.9% in the same period last year. The increase in Gross margin was primarily due to increases in pricing, incremental margin from the acquisition of Koch Filter, favorable impacts of currency, higher volume and lower one-time costs associated with the separation of the business from Cummins Inc., partially offset by higher materials and manufacturing costs.

Adjusted EBITDA was \$109 million, compared to \$95 million in the second quarter of 2025. Adjusted EBITDA margin was 20.7% compared to 21.0% in the same period last year. Adjusted EBITDA in the second quarter of 2026 excludes \$1 million of one-time integration costs associated with the acquisition of Koch Filter compared to the prior year quarter which excludes \$3 million of one-time costs associated with the separation of the business from Cummins.

Net income was \$64 million, or \$0.78 of diluted earnings per share in the second quarter of 2026, compared to \$60 million, or \$0.72 of diluted earnings per share in the same period last year.

Adjusted earnings per share was \$0.82 in the second quarter of 2026, compared to \$0.75 of Adjusted earnings per share in the same period last year.

The effective tax rate for the second quarter of 2026 was 22.8% compared to 21.9% for the same period last year.

Cash provided by operating activities was \$78 million in the second quarter of 2026, compared to cash provided by operating activities of \$44 million in the second quarter of 2025.

Adjusted free cash flow was \$67 million in the second quarter of 2026, compared to \$36 million in the second quarter of 2025. Adjusted free cash flow in the second quarter of 2026 excludes \$1 million of one-time integration costs and \$1 million of one-time capital expenditures associated with the acquisition of Koch Filter. The second quarter of 2025 excludes \$3 million of one-time expenditures associated with the separation of the business from Cummins.

Second Quarter 2026 Conference Call and Webcast

Atmus will host a conference call and webcast to discuss the company's second quarter 2026 results on Friday, August 7, 2026, at 10:00 a.m. CT.

A live webcast and replay of the conference call can be accessed from the Atmus investor relations website at <https://investors.atmus.com>.

About Atmus Filtration Technologies Inc.

Atmus Filtration Technologies Inc. (Atmus; NYSE: ATMU) is a global leader in filtration and media solutions. With more than 65 years of innovation and engineering expertise to deliver high-performance filtration solutions, Atmus operates through two business segments: Power Solutions, which serves global on- and off-highway equipment markets through its trusted Fleetguard® brand; and Industrial Solutions, which addresses commercial and industrial HVAC applications, and high- growth end markets including data centers and power generation environments – through its dependable Koch Filter® brand. Headquartered in Nashville, Tenn., Atmus employs nearly 5,000 people worldwide who are committed to creating a better future by protecting what is important. Learn more at <https://www.atmus.com>.

Forward-looking disclosure statement

This press release contains forward-looking statements within the meaning of the safe harbor provisions of the United States Private Securities Litigation Reform Act of 1995, including, without limitation, those that are based on current expectations, estimates and projections about the industries in which we operate and management's views, plans, objectives, projections, beliefs and assumptions. Forward-looking statements may be identified by the use of words such as "anticipates," "expects," "forecasts," "intends," "plans," "believes," "seeks," "estimates," "could," "should," "may" or words of similar meaning. All statements other than statements of historical fact are forward-looking statements, including, without limitation, statements regarding the outlook for our future business and

financial performance, discussions of future operations, our strategy for growth and market position. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict. If the underlying assumptions prove inaccurate, or known or unknown risks or uncertainties materialize, our actual outcomes, results and financial condition may differ materially from what is expressed, implied or forecasted in such forward-looking statements. Risks and uncertainties include, but are not limited to, those reflected in Part I, Item 1A, “Risk Factors,” and elsewhere in our Annual Report on Form 10-K for our fiscal year ended December 31, 2025, in our Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2026, and also as may be described from time to time in future reports we file with the Securities and Exchange Commission (SEC). You are cautioned not to place undue reliance on forward-looking statements. The forward-looking statements made herein are made only as of the date hereof and we undertake no obligation to publicly update or to revise any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

Non-GAAP measures

We use non-GAAP financial information and believe it is useful to investors as it provides additional information to facilitate comparisons of historical operating results, identify trends in our underlying operating results and provide additional insight and transparency on how we evaluate our business. We use non-GAAP financial measures to budget, make operating and strategic decisions and evaluate our performance. We have detailed the non-GAAP adjustments that we make in our non-GAAP definitions below. We believe the non-GAAP measures should always be considered along with the related U.S. GAAP financial measures. We have provided the reconciliations between the U.S. GAAP and non-GAAP financial measures and we also discuss our underlying U.S. GAAP results throughout our Management’s Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for our fiscal year ended December 31, 2025, and in our Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2026.

Our primary non-GAAP financial measures are listed below and reflect how we evaluate our current and prior-year operating results. As new events or circumstances arise, these definitions could change. When our definitions change, we provide the updated definitions and present the related non-GAAP historical results on a comparable basis.

- “EBITDA” is defined as earnings or losses before interest expense, income taxes, depreciation and amortization and “EBITDA margin” is defined as EBITDA as a percent of Net sales. We believe EBITDA and EBITDA margin are useful measures of our operating performance as they assist investors and debt holders in comparing our performance on a consistent basis without regard to financing methods, capital structure, income taxes or depreciation and amortization methods, which can vary significantly depending upon many

factors. Additionally, we believe these metrics are widely used by investors, securities analysts, ratings agencies and others in our industry in evaluating performance.

- “Adjusted EBITDA” is defined as EBITDA after adding back certain one-time expenses, reflected in Cost of sales and Selling, general and administrative expenses, associated with becoming a standalone public company, transaction costs associated with the Koch Filter acquisition and costs related to the integration of Koch Filter and “Adjusted EBITDA margin” is defined as Adjusted EBITDA as a percent of Net sales. We believe Adjusted EBITDA and Adjusted EBITDA margin are useful measures of our operating performance as they allow investors and debt holders to compare our performance on a consistent basis without regard to one-time costs attributable to our becoming a standalone public company and costs associated with the acquisition and integration of Koch Filter.
- “Adjusted earnings per share” is defined as diluted earnings per share (the most comparable U.S. GAAP financial measure) after adding back certain one-time expenses, reflected in Cost of sales and Selling, general and administrative expenses, associated with becoming a standalone public company, transaction costs associated with the Koch Filter acquisition, costs related to the integration of Koch Filter and amortization of the intangible assets acquired in the Koch Filter acquisition less the related tax impact of the same one-time expenses, acquisition and integration costs and amortization expense. We believe Adjusted earnings per share provides improved comparability of underlying operating results.
- “Free cash flow” is defined as cash flows provided by (used for) operating activities less capital expenditures and “Adjusted free cash flow” is defined as Free cash flow after adding back certain one-time capital expenditures and other separation costs associated with becoming a standalone public company, transaction costs associated with the Koch Filter acquisition and capital expenditures and other costs related to the integration of Koch Filter. We believe Free cash flow and Adjusted free cash flow are useful metrics used by management and investors to analyze our ability to service and repay debt and return value to shareholders.

The metrics defined above are not in accordance with, or alternatives for, U.S. GAAP financial measures and may not be consistent with measures used by other companies. It should be considered supplemental data; however, the amounts included in the EBITDA, EBITDA margin, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted earnings per share, Free cash flow and Adjusted free cash flow calculations are derived from amounts included in the consolidated statements of net income and cash flows.

We do not consider our non-GAAP financial measures as superior to, or a substitute for, the equivalent measures calculated and presented in accordance with GAAP. Some of the limitations are: such measures do not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments; such measures do not reflect changes in, or cash requirements for, our working capital needs; such measures do not reflect the interest expense or the cash requirements necessary to service interest or principal payments on our debt; although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will

often have to be replaced in the future and such measures do not reflect any cash requirements for such replacements; and other companies in our industry may calculate such measures differently than we do, limiting their usefulness as comparative measures. To properly and prudently evaluate our business, we encourage you to review the unaudited condensed consolidated financial statements included in our SEC filings and not rely on a single financial measure to evaluate our business.
