SUMMIT HOTEL PROPERTIES REPORTS THIRD QUARTER 2022 RESULTS

Same Store RevPAR Increases 24%; 2019 RevPAR Recapture Reaches New Quarterly High of 95% Acquisition of High-End Glamping Asset Onera Fredericksburg Completed

Austin, Texas, November 2, 2022 - - - Summit Hotel Properties, Inc. (NYSE: INN) (the "Company"), today announced results for the three and nine months ended September 30, 2022.

"We are pleased with the continued improvement of our operating results during the quarter as same store RevPAR recapture relative to 2019 reached a new quarterly high of 95% driven by strong pricing power and improving business transient, midweek, and urban market demand trends. September RevPAR recapture of 98% was a monthly high since the onset of the pandemic and hotel EBITDA margins expanded nearly 200 basis points compared to the same period of 2019. Positive top line operating trends further accelerated into October which, based on preliminary results, was our highest nominal RevPAR month since the pandemic began," said Jonathan P. Stanner, the Company's President and Chief Executive Officer. "We are excited to announce the acquisition of the Onera Fredericksburg, our first upscale glamping asset, and a new partnership with Onera Escapes as we continue to strategically and creatively evolve our capital allocation strategy alongside emerging guest preferences. Finally, we made several important enhancements to our balance sheet during the quarter, which remains well positioned with very limited near-term maturities and over \$450 million of liquidity," commented Mr. Stanner.

Third Quarter 2022 Summary

Partnership Established with Onera Escapes Through Acquisition of the Onera Fredericksburg

On October 26, 2022, the Company acquired a 90 percent joint venture interest in the Onera Fredericksburg, an 11-unit premium glamping asset located in Fredericksburg, Texas, for \$4.5 million, based on a total valuation of \$5.0 million, and an adjacent 6.4-acre land parcel for future expansion for \$0.7 million, based on a total valuation \$0.8 million. The acquisition represents the Company's first investment into a partnership with Onera Escapes, a

developer and operator of glamping and short-term rental hospitality properties, to develop and acquire high-end glamping assets in strategic locations across the United States.

"We are thrilled to enter the rapidly growing glamping segment of the hospitality space in partnership with Onera through our initial acquisition of the Onera Fredericksburg and establish a joint venture geared toward future growth. This emerging asset class is highly complementary to our existing portfolio of high-quality hotels with efficient operating models and leverages our core operating competencies in asset and revenue management as well as our in-house design, renovation, and construction capabilities. A hallmark of our investment thesis has always centered around evolving our real estate portfolio along with emerging guest preferences, and glamping is expected to be the fastest growing accommodation segment over the next five to 10 years benefiting from favorable leisure demand trends and the tremendous growth of experiential travel," said Jonathan P. Stanner, the Company's President and Chief Executive Officer. "Investments in glamping assets offer particularly appealing unit level economics as higher average rates, lower labor requirements, minimal services and amenity standards and lower capital needs translate into higher margins and yields on invested capital. We are also excited to partner with the team at Onera who has developed a sophisticated technology driven operating platform to complement their highly unique and differentiated product offering," commented Mr. Stanner.

Through this newly established partnership, the Company will have a right of first refusal on the next 10 glamping projects sponsored by Onera, which are expected to be funded primarily through the Company's mezzanine lending program, providing the Company with valuable investment optionality upon opening and an attractive in-place yield during development. The agreement also provides the Company with future partial ownership of the Onera Escapes brand once capital deployment reaches a certain threshold.

Onera Fredericksburg

Onera Fredericksburg opened in November 2021 with all temperature-controlled units featuring a private bathroom and kitchen. Eight of the units have a private patio and hot tub, and all units have access to common area amenities, including a pool, sun deck, fire pits and a sauna. Located within walking distance of Fredericksburg's historic main street, a charming tourist destination in the epicenter of the Texas Hill Country wine region within one and a half hours of Austin and San Antonio, the property offers guests convenient access to the town's most popular restaurants, bars, antique stores, and sundry shops.

The property ramped quickly since opening, generating year-to-date RevPAR of approximately \$425 and is expected to generate a 15 percent to 17 percent net operating income yield on the joint venture's \$5.0 million acquisition price in the asset's first full year of operation. The efficiency of the labor-light operating model is expected to result in stabilized property-level EBITDA margins of nearly 60 percent and EBITDA of approximately \$90,000 per unit. The acquisition also includes an adjacent 6.4-acre vacant land parcel that can accommodate up to 15-20 additional units. The joint venture has agreed to pay a one-time incentive payment of up to \$2 million if the property meets a certain unlevered yield threshold for the twelve-month period ending July 31, 2023.

Capital Markets & Balance Sheet

On July 21, 2022, the Company amended the credit agreements for its \$400 million senior revolving credit facility and two senior term loans totaling \$425 million to extend the available loan term and enhance overall flexibility. The amendments on the \$600 million senior credit facility included additional extension options that allow the Company to extend the maturity date to March 2025 for the \$400 million revolving credit facility and to April 2025 for the \$200 million term loan facility. Additionally, the Company has retained capital allocation flexibility regarding future potential acquisitions, dispositions, capital expenditures, and dividends. The credit spreads for the credit facilities remain unchanged.

On July 26, 2022, the Company entered into two, \$100 million interest rate swaps that will fix 1-month term SOFR for an average of five years. The swaps will become effective on January 31, 2023, concurrent with the expiration of the Company's existing \$200 million of interest rate swaps. The new SOFR-based interest rate swaps have fixed rates of 2.60 percent and 2.5625 percent that correspond with expiration dates of January 31, 2027, and January 31, 2029, respectively. The new swap transactions will result in the Company maintaining an estimated 70 percent of pro rata outstanding debt with fixed rates after consideration of all outstanding interest rate derivative agreements which have a weighted average fixed SOFR rate of 2.74 percent.

On August 30, 2022, the Company defeased three CMBS loans totaling \$54.9 million that were scheduled to mature during 2023. The defeasance event extinguished all but one remaining 2023 debt maturity, released \$20 million of previously restricted cash to the Company and is estimated to generate net interest savings of \$1.3 million through the scheduled maturity date.

Additionally, the Company intends to defease the final 2023 debt maturity, an estimated \$32.2 million CMBS loan, during the fourth quarter which will eliminate all remaining debt maturities until the fourth quarter of 2024.

On September 30, 2022, inclusive of its pro rata share of the Joint Venture credit facility, the Company had the following:

- Outstanding debt of \$1.2 billion with a weighted average interest rate of 4.24 percent. After giving effect to interest rate derivative agreements, \$781.9 million, or 67 percent, of our outstanding debt had an average fixed interest rate of 3.51%, and \$386.2 million, or 33 percent, had variable interest rates.
- Unrestricted cash and cash equivalents of \$56.9 million.
- Revolving credit facility availability of \$400.0 million. The Company had no borrowings outstanding on its revolving credit facility.
- Total liquidity of \$456.9 million, including unrestricted cash and cash equivalents and revolving credit facility availability.

On October 21, 2022, inclusive of the recent transaction activity and its pro rata share of the Joint Venture credit facility, the Company had the following:

- Outstanding debt of \$1.2 billion with a weighted average interest rate of 4.41 percent. After giving effect to interest rate derivative agreements, \$781.7 million, or 67 percent, of our outstanding debt had an average fixed interest rate of 3.51%, and \$386.1 million, or 33 percent, had variable interest rates.
- Unrestricted cash and cash equivalents of \$64.7 million.
- Revolving credit facility availability of \$400.0 million. The Company had no borrowings outstanding on its revolving credit facility.
- Total liquidity of \$464.7 million, including unrestricted cash and cash equivalents and revolving credit facility availability.

Forward-Looking Statements

This press release contains statements that are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are generally identifiable by use of forward-looking terminology such as "may," "will," "should," "potential," "intend," "expect," "seek," "anticipate," "estimate," "approximately," "believe," "could," "project," "predict," "forecast," "continue," "plan," "likely," "would" or other similar words or expressions. Forward-looking statements are based on certain assumptions and can include future expectations, future plans and strategies, financial and operating projections, or other forward-looking information. Examples of forward-looking statements include the following: the Company's ability to realize growth from the allocation of capital; projections of the Company's cash corporate G&A, interest expense, capital expenditures or other financial items; descriptions of the Company's plans or objectives for future operations, acquisitions, dispositions, and financings; and descriptions of assumptions underlying or relating to any of the foregoing expectations regarding the timing of their occurrence. These forward-looking statements are subject to various risks and uncertainties, not all of which are known to the Company and many of which are beyond the Company's control, which could cause actual results to differ materially from such statements. These risks and uncertainties include, but are not limited to, the state of the U.S. economy, supply and demand in the hotel industry, and other factors as are described in greater detail in the Company's filings with the Securities and Exchange Commission ("SEC"). Unless legally required, the Company disclaims any obligation to update any forwardlooking statements, whether as a result of new information, future events, or otherwise.

For information about the Company's business and financial results, please refer to the "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Risk Factors" sections of the Company's Annual Report on Form 10-K for the year ended December 31, 2021, filed with the SEC, and its quarterly and other periodic filings with the SEC. The Company undertakes no duty to update the statements in this release to conform the statements to actual results or changes in the Company's expectations.

⁽¹⁾ Unaudited pro forma information includes operating results for 102 hotels owned as of September 30, 2022, as if each hotel had been owned by the Company since January 1, 2021. As a result, these pro forma operating and financial measures include operating results for certain hotels for periods prior to the Company's ownership.

⁽²⁾ Same-store information includes operating results for 71 hotels owned by the Company as of January 1, 2021, and at all times during the nine months ended September 30, 2022, and 2021.

Non-GAAP Financial Measures

We disclose certain "non-GAAP financial measures," which are measures of our historical financial performance. Non-GAAP financial measures are financial measures not prescribed by Generally Accepted Accounting Principles ("GAAP"). These measures are as follows: (i) Funds From Operations ("FFO") and Adjusted Funds from Operations ("AFFO"), (ii) Earnings before Interest, Taxes, Depreciation and Amortization ("EBITDA"), Earnings before Interest, Taxes, Depreciation and Amortization for Real Estate ("EBITDAre"), Adjusted EBITDAre, and hotel EBITDA (as described below). We caution investors that amounts presented in accordance with our definitions of non-GAAP financial measures may not be comparable to similar measures disclosed by other companies, since not all companies calculate these non-GAAP financial measures in the same manner. Our non-GAAP financial measures should be considered along with, but not as alternatives to, net income (loss) as a measure of our operating performance. Our non-GAAP financial measures may include funds that may not be available for our discretionary use due to functional requirements to conserve funds for capital expenditures, property acquisitions, debt service obligations and other commitments and uncertainties. Although we believe that our non-GAAP financial measures can enhance the understanding of our financial condition and results of operations, these non-GAAP financial measures are not necessarily better indicators of any trend as compared to a comparable measure prescribed by GAAP such as net income (loss).

Funds From Operations ("FFO") and Adjusted FFO ("AFFO")

As defined by Nareit, FFO represents net income or loss (computed in accordance with GAAP), excluding preferred dividends, gains (or losses) from sales of real property, impairment losses on real estate assets, items classified by GAAP as extraordinary, the cumulative effect of changes in accounting principles, plus depreciation and amortization related to real estate assets, and adjustments for unconsolidated partnerships, and joint ventures. AFFO represents FFO excluding amortization of deferred financing costs, franchise fees, equity-based compensation expense, debt transaction costs, premiums on redemption of preferred shares, losses from net casualties, non-cash lease expense, non-cash interest income and non-cash income tax related adjustments to our deferred tax assets. Unless otherwise indicated, we present FFO and AFFO applicable to our common shares and common units. We present FFO and AFFO because we consider FFO and AFFO an important supplemental measure of our operational performance and believe it is frequently used by securities analysts, investors, and other interested parties in the evaluation of REITs, many of which present FFO and AFFO when reporting their results. FFO and AFFO are intended to exclude GAAP historical cost depreciation and amortization, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO and AFFO exclude depreciation and amortization related to real estate assets, gains and losses from real property dispositions and impairment losses on real estate assets, FFO and AFFO provide performance measures that, when compared year over year, reflect the effect to operations from trends in occupancy, guestroom rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from net income. Our computation of FFO differs slightly from the computation of Nareit-defined FFO related to the reporting of corporate depreciation and amortization expense. Our computation of FFO may also differ from the methodology for calculating FFO used by other equity REITs and, accordingly, may not be comparable to such other REITs. FFO and AFFO should not be considered as an alternative to net income (loss) (computed in accordance with GAAP) as an indicator of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends or make distributions. Where indicated in this release, FFO is based on our computation of FFO and not the computation of Nareit-defined FFO unless otherwise noted.

EBITDA, EBITDAre, Adjusted EBITDAre, and Hotel EBITDA

EBITDA

EBITDA represents net income or loss, excluding: (i) interest, (ii) income tax expense and (iii) depreciation and amortization. We believe EBITDA is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our asset base (primarily depreciation and amortization) from our operating results. Our management team also uses EBITDA as one measure in determining the value of acquisitions and dispositions.

EBITDAre and Adjusted EBITDAre

EBITDA*re* is based on EBITDA and is expected to provide additional relevant information about REITs as real estate companies in support of growing interest among generalist investors. EBITDA*re* is intended to be a supplemental non-GAAP performance measure that is independent of a company's capital structure and will provide a uniform basis to measure the enterprise value of a company compared to other REITs.

EBITDA*re*, as defined by Nareit, is calculated as EBITDA, excluding: (i) loss and gains on disposition of property and (ii) asset impairments, if any. We believe EBITDA*re* is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our asset base (primarily depreciation and amortization) from our operating results.

We make additional adjustments to EBITDA*re* when evaluating our performance because we believe that the exclusion of certain additional non-recurring or certain non-cash items described below provides useful supplemental information to investors regarding our ongoing operating performance. We believe that the presentation of Adjusted EBITDA*re*, when combined with the primary GAAP presentation of net income, is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our asset base (primarily depreciation and amortization) from our operating results.

Hotel EBITDA

With respect to hotel EBITDA, we believe that excluding the effect of corporate-level expenses and non-cash items provides a more complete understanding of the operating results over which individual hotels and operators have direct control. We believe the property-level results provide investors with supplemental information on the ongoing operational performance of our hotels and effectiveness of the third-party management companies operating our business on a property-level basis.

We caution investors that amounts presented in accordance with our definitions of EBITDA, EBITDAre, adjusted EBITDAre, and hotel EBITDA may not be comparable to similar measures disclosed by other companies, since not all companies calculate these non-GAAP measures in the same manner. EBITDA, EBITDAre, adjusted EBITDAre, and hotel EBITDA should not be considered as an alternative measure of our net income (loss) or operating performance. EBITDA, EBITDAre, adjusted EBITDAre, and hotel EBITDA may include funds that may not be available for our discretionary use due to functional requirements to conserve funds for capital expenditures and property acquisitions and other commitments and uncertainties. Although we believe that EBITDA, EBITDAre, adjusted EBITDAre, and hotel EBITDA can enhance your understanding of our financial condition and results of operations, these non-GAAP financial measures are not necessarily a better indicator of any trend as compared to a comparable GAAP measure such as net income (loss). Above, we include a quantitative reconciliation of EBITDA, EBITDAre, adjusted EBITDAre and hotel EBITDA to the most directly comparable GAAP financial performance measure, which is net income (loss) and operating income (loss).
