General Description

Kite Realty Group Trust is a full-service, vertically integrated real estate investment trust (REIT) engaged primarily in the ownership and operation, acquisition, development and redevelopment of high-quality neighborhood and community shopping centers in select markets in the United States. As of June 30, 2017, we owned interests in 117 operating and redevelopment properties totaling approximately 23.1 million square feet and one development project currently under construction.

Our strategy is to maximize the cash flow of our operating properties, successfully complete the construction and lease-up of our redevelopment and development portfolio, and identify additional opportunities to acquire or dispose of properties to further strengthen the Company. New investments are focused in the shopping center sector primarily in markets where we believe we can leverage our existing infrastructure and relationships to generate attractive risk-adjusted returns or otherwise in desirable trade areas. Dispositions are generally designed to increase the quality of our portfolio and to strengthen the Company's balance sheet.

Interim Information

This Quarterly Financial Supplemental contains historical information of Kite Realty Group Trust (“the Company” or “KRG”) and is intended to supplement the Company’s Quarterly Report on Form 10-Q for the quarter ended June 30, 2017 to be filed on or about August 4, 2017, which should be read in conjunction with this supplement. The supplemental information is unaudited, although it reflects all adjustments which, in the opinion of management, are necessary for a fair presentation of operating results for the interim periods.

Forward-Looking Statements

This supplemental information package, together with other statements and information publicly disseminated by us, contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on assumptions and expectations that may not be realized and are inherently subject to risks, uncertainties and other factors, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Future events and actual results, performance, transactions or achievements, financial or otherwise, may differ materially from the results, performance, transactions or achievements, financial or otherwise, expressed or implied by the forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include but are not limited to:

- national and local economic, business, real estate and other market conditions, particularly in light of low growth in the U.S. economy as well as economic uncertainty caused by fluctuations in the prices of oil and other energy sources;
- financing risks, including the availability of, and costs associated with, sources of liquidity;
- our ability to refinance, or extend the maturity dates of, our indebtedness;
- the level and volatility of interest rates;
- the financial stability of tenants, including their ability to pay rent and the risk of tenant bankruptcies;
- the competitive environment in which the Company operates;
- acquisition, disposition, development and joint venture risks;
- property ownership and management risks;
- our ability to maintain our status as a real estate investment trust for federal income tax purposes;
- potential environmental and other liabilities;
- impairment in the value of real estate property the Company owns;
- the impact of online retail and the perception that such retail has on the value of shopping center assets;
- risks related to the geographical concentration of our properties in Florida, Indiana and Texas;
- insurance costs and coverage;
- risks associated with cybersecurity attacks and the loss of confidential information and other business disruptions;
- other factors affecting the real estate industry generally; and
- other risks identified in reports the Company files with the Securities and Exchange Commission (“the SEC”) or in other documents that it publicly disseminates, including, in particular, the section titled “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016, and in our quarterly reports on Form 10-Q.

The Company undertakes no obligation to publicly update or revise these forward-looking statements, whether as a result of new information, future events or otherwise.

Non-GAAP Disclosures

Funds from Operations

Funds from Operations (FFO) is a widely used performance measure for real estate companies and is provided here as a supplemental measure of operating performance. The Company calculates FFO, a non-GAAP financial measure, in accordance with the best practices described in the April 2002 National Policy Bulletin of the National Association of Real Estate Investment Trusts (“NAREIT”). The NAREIT white paper defines FFO as net income (determined in accordance with GAAP), excluding gains (or losses) from sales and impairments of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

Considering the nature of our business as a real estate owner and operator, the Company believes that FFO is helpful to investors in measuring our operational performance because it excludes various items included in net income that do not relate to or are not indicative of our operating performance, such as gains or losses from sales of depreciated property and depreciation and amortization, which can make periodic and peer analyses of operating performance more difficult. For informational purposes, the Company has also provided FFO adjusted for transaction costs and a severance charge in 2016. The Company believes this supplemental information provides a meaningful measure of our operating performance. The Company believes our presentation of FFO, as adjusted, provides investors with another financial measure that may facilitate comparison of operating performance between periods and among our peer companies. FFO should not be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of our financial performance, is not an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, and is not indicative of funds available to satisfy our cash needs, including our ability to make distributions. Our computation of FFO may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do. A reconciliation of net income (computed in accordance with GAAP) to FFO is included elsewhere in this Financial Supplement.

Adjusted Funds from Operations

Adjusted Funds From Operations ("AFFO") is a non-GAAP financial measure of operating performance used by many companies in the REIT industry. AFFO modifies FFO, as adjusted for certain cash and non-cash transactions not included in FFO, as adjusted. AFFO should not be considered an alternative to net income as an indication of the company's performance or as an alternative to cash flow as a measure of liquidity or ability to make distributions. Management considers AFFO a useful supplemental measure of the company's performance. The Company's computation of AFFO may differ from the methodology for calculating AFFO used by other REITs, and therefore, may not be comparable to such other REITs. A reconciliation of net income (computed in accordance with GAAP) to AFFO is included elsewhere in this Financial Supplement.

Net Operating Income and Same Property Net Operating Income

The Company uses property net operating income ("NOI"), a non-GAAP financial measure, to evaluate the performance of our properties. The Company defines NOI as income from our real estate, including lease termination fees received from tenants, less our property operating expenses. NOI excludes amortization of capitalized tenant improvement costs and leasing commissions and certain corporate level expenses. The Company believes that NOI is helpful to investors as a measure of our operating performance because it excludes various items included in net income that do not relate to or are not indicative of our operating performance, such as depreciation and amortization, interest expense, and impairment, if any.

The Company also uses same property NOI ("Same Property NOI"), a non-GAAP financial measure, to evaluate the performance of our properties. Same Property NOI excludes properties that have not been owned for the full period presented. It also excludes net gains from outlot sales, straight-line rent revenue, bad debt expense and recoveries, lease termination fees, amortization of lease intangibles and significant prior period expense recoveries and adjustments, if any. The Company believes that Same Property NOI is helpful to investors as a measure of our operating performance because it includes only the NOI of properties that have been owned for the full period presented, which eliminates disparities in net income due to the acquisition or disposition of properties during the particular period presented and thus provides a more consistent metric for the comparison of our properties. The year to date results represent the sum of the individual quarters, as reported.

NOI and Same Property NOI should not, however, be considered as alternatives to net income (calculated in accordance with GAAP) as indicators of our financial performance. Our computation of NOI and Same Property NOI may differ from the methodology used by other REITs, and therefore may not be comparable to such other REITs.

When evaluating the properties that are included in the same property pool, the Company has established specific criteria for determining the inclusion of properties acquired or those recently under development. An acquired property is included in the same property pool when there is a full quarter of operations in both years subsequent to the acquisition date. Development and redevelopment properties are included in the same property pool four full quarters after the properties have been transferred to the operating portfolio. A redevelopment property is first excluded from the same property pool when the execution of a redevelopment plan is likely and the Company begins recapturing space from tenants. For the quarter ended June 30, 2017, the Company excluded eight redevelopment properties and the recently completed Northdale Promenade from the same property pool that met these criteria and were owned in both comparable periods.

Earnings Before Interest Expense, Income Tax Expense, Depreciation and Amortization (EBITDA)

The Company defines EBITDA, a non-GAAP financial measure, as net income before depreciation and amortization, interest expense and income tax expense of taxable REIT subsidiary. For informational purposes, the Company has also provided Adjusted EBITDA, which the Company defines as EBITDA less (i) EBITDA from unconsolidated entities, (ii) gains on sales of operating properties or impairment charges, (iii) other income and expense, (iv) noncontrolling interest EBITDA and (v) other non-recurring activity or items impacting comparability from period to period. Annualized Adjusted EBITDA is Adjusted EBITDA for the most recent quarter multiplied by four. Net Debt to Adjusted EBITDA is the Company's share of net debt divided by Annualized Adjusted EBITDA. EBITDA, Adjusted EBITDA, Annualized Adjusted EBITDA and Net Debt to Adjusted EBITDA, as calculated by us, are not comparable to EBITDA and EBITDA-related measures reported by other REITs that do not define EBITDA and EBITDA-related measures exactly as we do. EBITDA, Adjusted EBITDA and Annualized Adjusted EBITDA do not represent cash generated from operating activities in accordance with GAAP, and should not be considered alternatives to net income as an indicator of performance or as alternatives to cash flows from operating activities as an indicator of liquidity.

Considering the nature of our business as a real estate owner and operator, the Company believes that EBITDA, Adjusted EBITDA and the ratio of Net Debt to Adjusted EBITDA are helpful to investors in measuring our operational performance because they exclude various items included in net income that do not relate to or are not indicative of our operating performance, such as gains or losses from sales of depreciated property and depreciation and amortization, which can make periodic and peer analyses of operating performance more difficult. For informational purposes, the Company has also provided Annualized Adjusted EBITDA, adjusted as described above. The Company believes this supplemental information provides a meaningful measure of our operating performance. The Company believes presenting EBITDA and the related measures in this manner allows investors and other interested parties to form a more meaningful assessment of our operating results.

1 Minimum rent includes \$4.8 million in ground lease-related revenue for the three months ended June 30, 2017.

2 Other property related revenue for the three months ended June 30, 2017 includes a \$4.9 million gain on the sale of an outlot.

3 Parking revenue, net represents the net operating results of the Eddy Street Parking Garage and the Union Station Parking Garage. In the three months ended June 30, 2017, this amount was calculated as revenue of \$450,000 less real estate taxes and property operating expenses of \$135,000 and \$178,000, respectively.

4 Recoverable expenses include total management fee expense (or recurring G&A expense of \$1.2 million) allocable to the property operations in the three months ended June 30, 2017, a portion of which is recoverable. Non-recoverable expenses primarily include bad debt provision, ground rent, and professional fees.

5 "Recovery Ratio" is computed by dividing tenant reimbursements by the sum of recoverable property operating expense and real estate tax expense.

1 Comparable space leases on this report are included for retail properties only. Leases at our two office properties, Thirty South Meridian and Eddy Street, are included in the totals and ground leases are excluded.

2 Comparable leases represent those leases signed for which there was a former tenant within the last 12 months.

3 Prior rent represents minimum rent, if any, paid by the prior tenant in the final 12 months of the term.

4 All amounts reported at lease execution.

5 Contractual rent represents contractual minimum rent per square foot for the first 12 months of the lease.

6 Includes redevelopment costs for tenant specific landlord work and tenant allowances provided to tenants at properties in the 3-R pipeline. Excluding the costs associated with three anchor leases the Q3, 2016 new lease amount would have been \$47.53 psf.

7 Cash rent spread on comparable new leases for Q1, 2017, excluding one anchor lease, was 14.3%.

8 Cash renewal spread on comparable leases for Q1, 2017, excluding one strategic anchor renewal, was 5.5%. The aggregate spread excluding the one anchor renewal was 10.3%.

9 The aggregate spread on a straight-line basis over the contractual life of the lease to the comparable lease was 13.9% for Q2, 2017 and 13.7% for Q1, 2017.
