### **Non-GAAP Financial Measures**

#### **Funds from Operations**

Funds From Operations (“FFO”) is a widely used performance measure for real estate companies and is provided here as a supplemental measure of operating performance. The Company calculates FFO, a non-GAAP financial measure, in accordance with the best practices described in the April 2002 National Policy Bulletin of the National Association of Real Estate Investment Trusts (“NAREIT”), as restated in 2018. The NAREIT white paper defines FFO as net income (calculated in accordance with GAAP), excluding (i) depreciation and amortization related to real estate, (ii) gains and losses from the sale of certain real estate assets, (iii) gains and losses from change in control, and (iv) impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by the entity.

Considering the nature of our business as a real estate owner and operator, the Company believes that FFO is helpful to investors in measuring our operational performance because it excludes various items included in net income that do not relate to or are not indicative of our operating performance, such as gains or losses from sales of depreciated property and depreciation and amortization, which can make periodic and peer analyses of operating performance more difficult. FFO (a) should not be considered as an alternative to net income (calculated in accordance with GAAP) for the purpose of measuring our financial performance, (b) is not an alternative to cash flow from operating activities (calculated in accordance with GAAP) as a measure of our liquidity, and (c) is not indicative of funds available to satisfy our cash needs, including our ability to make distributions. The Company’s computation of FFO may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do. A reconciliation of net income (calculated in accordance with GAAP) to FFO is included elsewhere in this Financial Supplement.

From time to time, the Company may report or provide guidance with respect to “FFO, as adjusted,” which removes the impact of certain non-recurring and non-operating transactions or other items the Company does not consider to be representative of its core operating results including, without limitation, (i) gains or losses associated with the early extinguishment of debt, (ii) gains or losses associated with litigation involving the Company that is not in the normal course of business, (iii) merger and acquisition costs, (iv) the impact on earnings from employee severance, (v) the excess of redemption value over carrying value of preferred stock redemption, and (vi) in 2022, the impact of prior period bad debt or the collection of accounts receivable previously written off (“prior period collection impact”) due to the recovery from the COVID-19 pandemic, which are not otherwise adjusted in the Company’s calculation of FFO.

#### **Adjusted Funds from Operations**

Adjusted Funds From Operations (“AFFO”) is a non-GAAP financial measure of operating performance used by many companies in the real estate industry. AFFO modifies FFO for certain cash and non-cash transactions that are not included in FFO. AFFO should not be considered an alternative to net income as an indicator of the Company’s performance or as an alternative to cash flow as a measure of liquidity or the Company’s ability to make distributions. Management considers AFFO a useful supplemental measure of the Company’s performance. The Company’s computation of AFFO may differ from the methodology for calculating AFFO used by other REITs, and therefore, may not be comparable to such other REITs. A reconciliation of net income (calculated in accordance with GAAP) to AFFO is included elsewhere in this Financial Supplement.

#### **Net Operating Income, Cash Net Operating Income and Same Property Net Operating Income**

The Company uses property net operating income (“NOI”) and cash NOI, which are non-GAAP financial measures, to evaluate the performance of our properties. The Company defines NOI and cash NOI as income from our real estate, including lease termination fees received from tenants, less our property operating expenses. NOI and cash NOI exclude amortization of capitalized tenant improvement costs and leasing commissions and certain corporate level expenses, including merger and acquisition costs. Cash NOI also excludes other property-related revenue as that activity is recurring but unpredictable in its occurrence, straight-line rent adjustments, and amortization of in-place lease liabilities, net. The Company believes that NOI and cash NOI are helpful to investors as measures of our operating performance because they exclude various items included in net income that do not relate to or are not indicative of our operating performance, such as depreciation and amortization, interest expense, and impairment, if any.

The Company also uses same property NOI (“Same Property NOI”), a non-GAAP financial measure, to evaluate the performance of our properties. Same Property NOI is net income excluding properties that have not been owned for the full periods presented. Same Property NOI also excludes (i) net gains from outlot sales, (ii) straight-line rent revenue, (iii) lease termination income in excess of lost rent, (iv) amortization of lease intangibles, and (v) significant prior period expense recoveries and adjustments, if any. When the Company receives payments in excess of any accounts receivable for terminating a lease, Same Property NOI will include such excess payments as monthly rent until the earlier of the expiration of 12 months or the start date of a replacement tenant.

### **Non-GAAP Financial Measures (continued)**

#### **Net Operating Income and Same Property Net Operating Income (continued)**

The Company believes that Same Property NOI is helpful to investors as a measure of our operating performance because it includes only the NOI of properties that have been owned for the full periods presented. The Company believes such presentation eliminates disparities in net income due to the acquisition or disposition of properties during the particular periods presented and thus provides a more consistent metric for the comparison of our properties. Same Property NOI includes the results of properties that have been owned for the entire current and prior year reporting periods.

NOI and Same Property NOI should not, however, be considered as alternatives to net income (calculated in accordance with GAAP) as indicators of our financial performance. The Company's computation of NOI and Same Property NOI may differ from the methodology used by other REITs and, therefore, may not be comparable to such other REITs.

When evaluating the properties that are included in the same property pool, we have established specific criteria for determining the inclusion of properties acquired or those recently under development. An acquired property is included in the same property pool when there is a full quarter of operations in both years subsequent to the acquisition date. Development and redevelopment properties are included in the same property pool four full quarters after the properties have been transferred to the operating portfolio. A redevelopment property is first excluded from the same property pool when the execution of a redevelopment plan is likely and we (a) begin recapturing space from tenants or (b) the contemplated plan significantly impacts the operations of the property. For the three months and year ended December 31, 2023, the same property pool excludes the following: (i) properties acquired or placed in service during 2022 and 2023; (ii) the multifamily rental units and commercial portion at One Loudoun Downtown – Pads G & H; (iii) Shoppes at Quarterfield, Circle East and The Landing at Tradition – Phase II, which were reclassified from active redevelopment into our operating portfolio in June 2022, September 2022 and June 2023, respectively; (iv) two active development and redevelopment projects; (v) Hamilton Crossing Centre and Edwards Multiplex – Ontario, which were reclassified from our operating portfolio into redevelopment in June 2014 and March 2023, respectively; (vi) properties sold or classified as held for sale during 2022 and 2023; and (vii) office properties.

#### **Earnings Before Interest, Taxes, Depreciation and Amortization (“EBITDA”) and Net Debt to Adjusted EBITDA**

The Company defines EBITDA, a non-GAAP financial measure, as net income before interest expense, income tax expense of the taxable REIT subsidiary, and depreciation and amortization. For informational purposes, the Company also provides Adjusted EBITDA, which it defines as EBITDA less (i) Adjusted EBITDA from unconsolidated entities, (ii) gains on sales of operating properties or impairment charges, (iii) merger and acquisition costs, (iv) other income and expense, (v) noncontrolling interest Adjusted EBITDA, and (vi) other non-recurring activity or items impacting comparability from period to period. Annualized Adjusted EBITDA is Adjusted EBITDA for the most recent quarter multiplied by four. Net Debt to Adjusted EBITDA is the Company's share of net debt divided by Annualized Adjusted EBITDA. EBITDA, Adjusted EBITDA, Annualized Adjusted EBITDA and Net Debt to Adjusted EBITDA, as calculated by the Company, are not comparable to EBITDA and EBITDA-related measures reported by other REITs that do not define EBITDA and EBITDA-related measures exactly as we do. EBITDA, Adjusted EBITDA and Annualized Adjusted EBITDA do not represent cash generated from operating activities in accordance with GAAP and should not be considered alternatives to net income as an indicator of performance or as alternatives to cash flows from operating activities as an indicator of liquidity.

Considering the nature of our business as a real estate owner and operator, the Company believes that EBITDA, Adjusted EBITDA and the ratio of Net Debt to Adjusted EBITDA are helpful to investors in measuring our operational performance because they exclude various items included in net income that do not relate to or are not indicative of our operating performance, such as gains or losses from sales of depreciated property and depreciation and amortization, which can make periodic and peer analyses of operating performance more difficult. For informational purposes, the Company also provides Annualized Adjusted EBITDA, adjusted as described above. The Company believes this supplemental information provides a meaningful measure of its operating performance. The Company believes presenting EBITDA and the related measures in this manner allows investors and other interested parties to form a more meaningful assessment of the Company's operating results.
