NGM in the COMMUNITY

NGM Heritage Fund (Across Nevada) | Through the NGM Heritage Fund, employees take the lead in supporting their communities by donating to organizations they care about. The Heritage Fund matches donations to qualifying non-profits at 120%. More than 1,000 employees participate in the Heritage Fund. Together, they have raised \$4.6 million, benefiting 315 organizations.

Students Reached

Nevada Outdoor School (Northern Nevada) | NOS reached over 3,700 students through immersive outdoor learning experiences. Their programs encourage hands-on exploration of nature, promote environmental awareness, empower local youth with essential skills, and foster a greater appreciation for stewardship.

Ely Shoshone Tribe Life Center (Ely) | The Ely Shoshone Tribe has recently opened a new health and wellness center. The 3,200-sq.-ft facility focuses on preventing or delaying type 2 diabetes and improving health outcomes for those diagnosed. The center serves 250 tribal community members each year with diabetes education, nutrition, exercise and wellness, diabetes counseling, and complementary and alternative medicine (CAM). NGM's investment supported installation of landscaping, plumbing, and handicap ramps.

People Served

Desert Research Institute - Nevada Robotics (Battle Mountain, Winnemucca, Elko, Carlin, Wells and more) | The Nevada Robotics initiative is transforming STEM education across rural Nevada, serving 34 schools in 6 districts. The program provides resources to schools—140 robots and 1,200 books—and trains educators, including 287 so far, which will impact more than 13,582 students in the classroom. Outreach and educational events outside of schools engaged an additional 5,446 community members.

People Engaged

Junior Achievement - BizTown (Las Vegas) | JA BizTown lets fifth graders immerse themselves in entrepreneurship: running businesses and managing finances in a vibrant simulated town. Since October 2024, over 1,441 students have engaged in hands-on learning. Upcoming innovations, including a Mining VR experience and a career center, promise to connect classroom learning to practical, real-world applications and empower future leaders, fostering career development and readiness.
