FORWARD LOOKING STATEMENT

Certain statements included herein, including those regarding production, costs, development schedules and other statements that express management's expectations or estimates of our future performance, constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995. The words "believe", "expect", "anticipate", "contemplate", "target", "plan", "intends", "continue", "budget", "estimate", "may", "will", "schedule", and similar expressions identify forward-looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management are inherently subject to significant business, economic and competitive uncertainties and contingencies. We caution you that such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual financial results, performance or achievements of Barrick to be materially different from our estimated future results, performance or achievements expressed or implied by those forward-looking statements and our forward-looking statements are not guarantees of future performance. These risks, uncertainties and other factors include, but are not limited to: changes in the worldwide price of gold or certain other commodities (such as silver, copper, diesel fuel and electricity) and currencies; changes in interest rates or gold lease rates that could impact realized prices under our forward sales program; legislative, political or economic developments in the jurisdictions in which Barrick carries on business; operating or technical difficulties in connection with mining or development activities; the speculative nature of gold exploration and development, including the risks of diminishing quantities or grades of reserves; and the risks involved in the exploration, development and mining business. These factors are discussed in greater detail in Barrick's most recent Form 40-F/Annual Information on file with the U.S. Securities and Exchange Commission and Canadian provincial securities regulatory authorities.

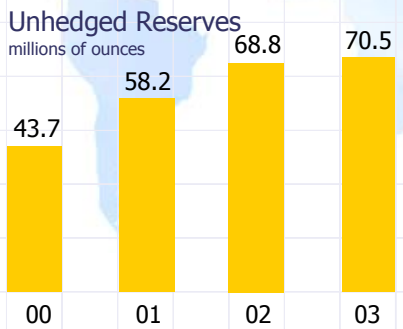

Barrick expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, events or otherwise.

Gold Price Performance

Leverage to Gold

- Reserves: 86 M oz (proven & probable)
- Resources: 25 M oz (measured & indicated)
- Resources: 17 M oz (inferred)

- Unhedged reserves increased 61% over last four years at much lower gold prices
- Over 20 million ounces of these new reserves are now in development

Silver Exposure

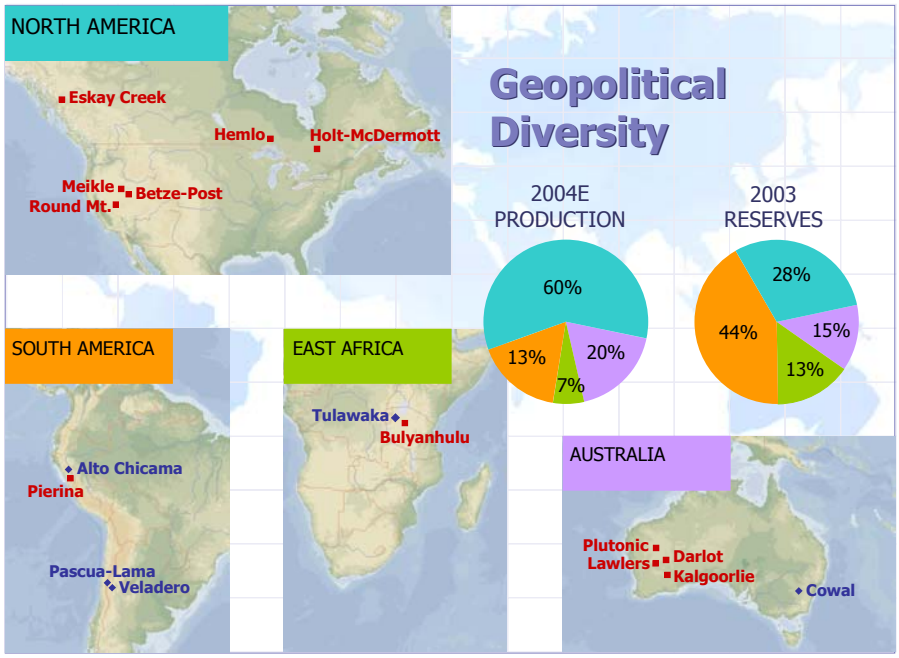

- Tremendous leverage to silver prices
- Will produce about 17 M oz of silver in 2004
- 835 million ounces of contained silver in gold reserves
- One of the world's largest silver producers in future
- By-product credits reduce costs

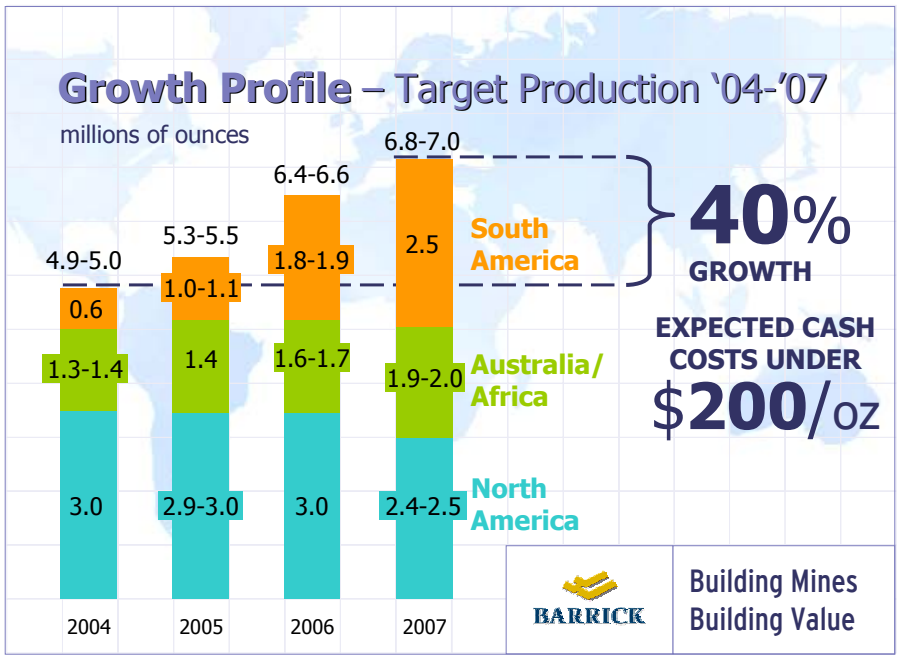

BARRICK | Building Mines Building Value

Asset Base – Mines and Projects

- Solid base in OECD countries
- 12 operating mines and 4 major projects:
  - 7 countries on 4 continents, employing > 7,000 people
  - 86 M oz of gold reserves
  - 2004 est production: 4.9 – 5.0 M oz
  - 2004 est cash costs: $205 – 215 per oz
- Divided into 3 regional business units
- Focus on reserve replacement/cost management

Building Mines
Building Value

Building Mines – Veladero, Argentina

POTENTIAL

- Gold reserves: 11.1 M oz
- Production E: 525–550,000/yr
- Average cash cost est: $155–165/oz
  (subject to exchange rate fluctuations and applicable export duties)

PLAN

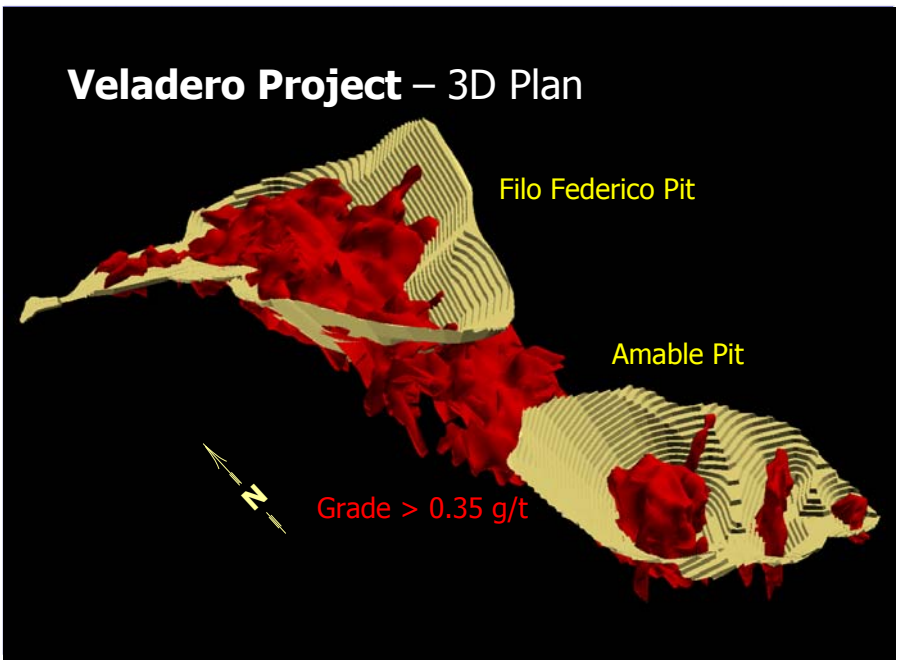

- 2 open pits - crushing/leaching
- Capital costs est: $460M

Construction underway

Building Mines – Lagunas Norte, Peru

Alto Chicama District

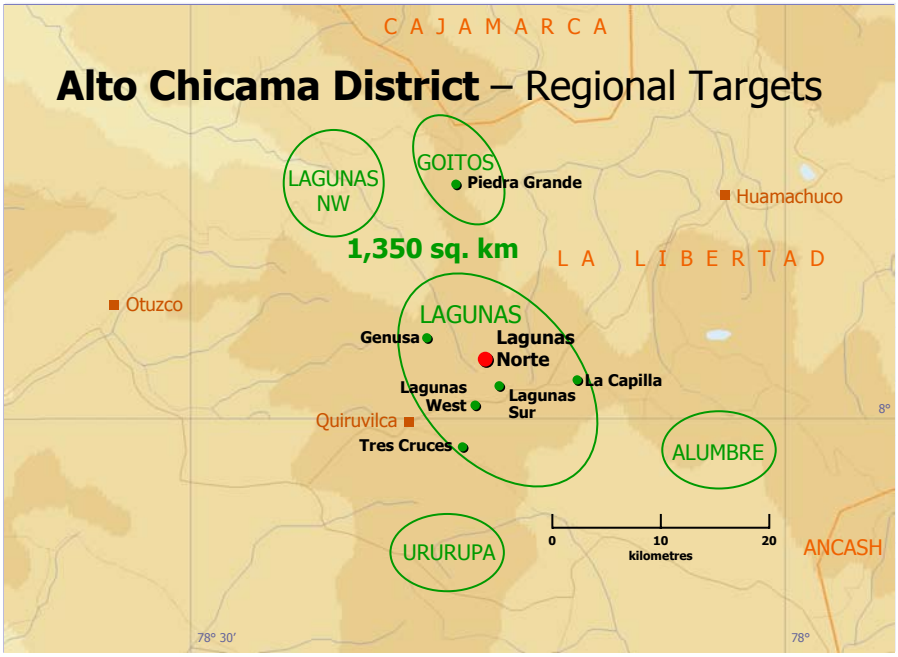

POTENTIAL

- Gold reserves: 7.2 M oz
- Production est: 535–560,000/yr
- Average cash cost est: $135–145/oz

PLAN

- Open pit - crushing/leaching
- Capital costs est: $340M

Construction underway

Building Mines – Cowal, Australia

POTENTIAL

- Gold reserves: 2.5 M oz
- Gold resources: 1.6 M oz
- Production est: 220–230,000/yr
- Average cash cost est: $230–245/oz

PLAN

- Open pit - CIL
- Capital costs est: $270M

Construction underway

Building Mines – Tulawaka, Tanzania

POTENTIAL (70% interest)

- Gold reserves: 368 k oz
- Production est: 70–75,000/yr
- Average cash cost est: $170–180/oz

PLAN (70% interest)

- Open pit
- Capital costs est: $34M

Construction underway

Reserve Development and Replacement

- Virtually replaced 2003 reserves
- Mined below average reserve grade in 2003
- Focusing on replacing and growing in 2004
  - Create long-term value
  - Provide flexibility and enhance future cost performance

Resources to Execute Strategy

Right People in the Right Places

- Strengthened management team
- New organizational structure
  - consolidating life-of-mine accountability with COO
  - established regional economic business units
  - building a Corporate Center that adds value to the global enterprise
- Augmented development team

Resources to Execute Strategy

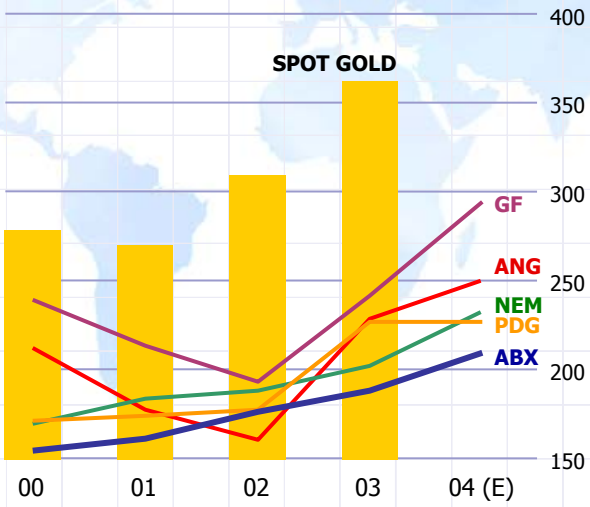

Financial Strength

- "A" rated balance sheet
- Capable of self-financing our development program without equity dilution
- Adopted a no-hedge policy
- 17% of reserves at end of Q1 2004

Beyond 2007

- Pascua-Lama
  - world-class long life asset
  - part of a new mining camp with Veladero
  - updated feasibility study expected mid year
- Consistent investment in exploration
- Opportunistic acquisitions

BARRICK
Building Mines
Building Value

Beyond 2007 – Pascua-Lama

Chile/Argentina

- 6 kilometers from Veladero – 17 M oz gold reserve
- 584 M oz contained silver within 17M oz gold reserve
- Open pit with oxide and sulphide processing facilities
- Completion of the updated feasibility plan mid-year

BARRICK
Building Mines
Building Value

Beyond 2007 – Exploration Strategy

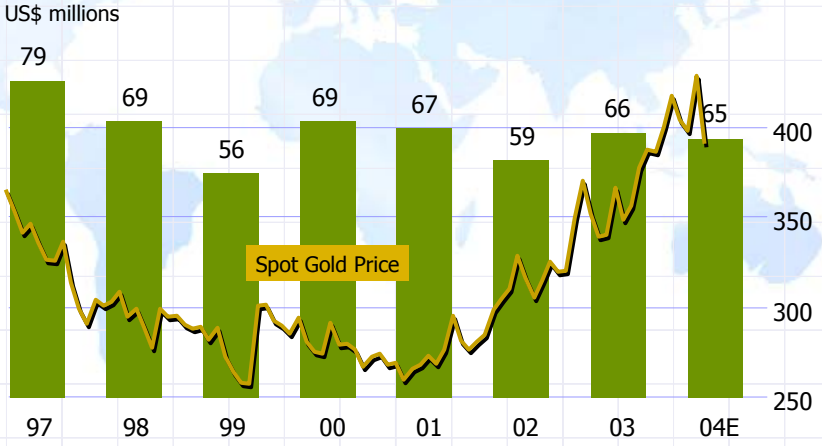

- More than 95 projects in 9 countries
- > 2 million ounce greenfield gold deposits; reserve additions in proximity of existing assets
- 6 high priority countries (Peru, Chile, Argentina, USA, Tanzania, Australia)
- Optimize chances of near-term success

BARRICK

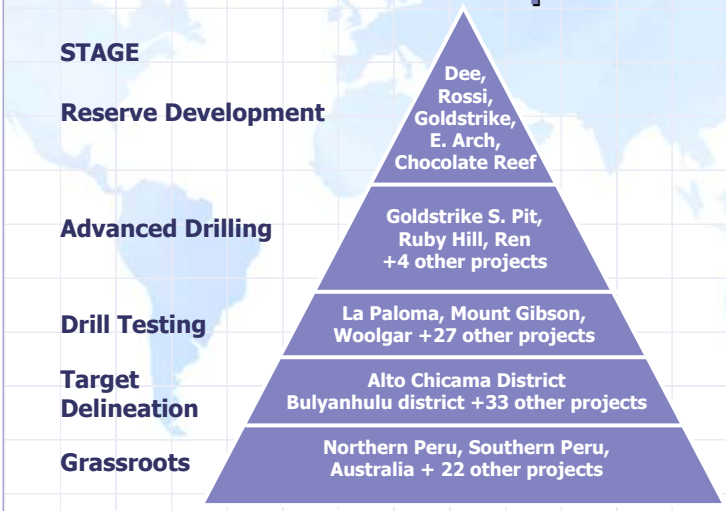

Building Mines
Building Value

Exploration Investment

- Barrick's exploration spending has been consistent

Robust and Balanced Pipeline

Beyond 2007 – Opportunistic Acquisitions

Focused on value-creating asset deals:

- Strategic partnerships
  - Highland Gold – Russia
  - QGX Limited – Mongolia
  - Falconbridge – Kabanga, Tanzania
- Leverage development competencies for existing projects

BARRICK

Building Mines
Building Value

The Case for Barrick

- Construction of all four new mines has begun
- Unrivaled growth and projected lowest cash costs among top five producers through 2007
- Focus on continued growth beyond 2007
- Strong management team and A-rated balance sheet to build new mines
