FORWARD LOOKING STATEMENTS

Certain information included in this presentation, including any information as to our future financial or operating performance and other statements that express management's expectations or estimates of future performance, constitute "forward-looking statements." The words "expect", "will", "intend", "estimate" and similar expressions identify forward-looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management are inherently subject to significant business, economic and competitive uncertainties and contingencies. The Company cautions the reader that such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual financial results, performance or achievements of Barrick to be materially different from the Company's estimated future results, performance or achievements expressed or implied by those forward-looking statements and the forward-looking statements are not guarantees of future performance. These risks, uncertainties and other factors include, but are not limited to: changes in the worldwide price of gold or certain other commodities (such as fuel and electricity) and currencies; ability to successfully integrate acquired assets; legislative, political or economic developments in the jurisdictions in which the Company carries on business; operating or technical difficulties in connection with mining or development activities; the speculative nature of gold exploration and development, including the risks of diminishing quantities or grades of reserves; and the risks involved in the exploration, development and mining business. These factors are discussed in greater detail in the Company's most recent Form 40-F/Annual Information Form on file with the US Securities and Exchange Commission and Canadian provincial securities regulatory authorities.

The Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

ADDITIONAL DISCLOSURE

On November 10, 2005, Barrick filed with the U.S. Securities and Exchange Commission (the "SEC") a Registration Statement on Form F-10 which includes Barrick's offer and take-over bid circular. Investors and security holders are urged to read the disclosure documents filed by Barrick from time to time with the SEC regarding the proposed business combination transaction because they contain important information. The offer and take-over bid circular have been sent to shareholders of Placer Dome Inc. Investors may also obtain a free copy of the offer and take-over bid circular and other disclosure documents filed by Barrick with the SEC at the SEC's website at www.sec.gov. The offer and take-over bid circular and the other disclosure documents may also be obtained free of charge by directing a request to Barrick's media or investor relations departments.

FOOTNOTES

1. Total cash costs per ounce is defined as costs of sales divided by ounces sold, and exclude amortization expense. The statistic for 2005 and 2004 are not comparable due to the change in accounting for deferred stripping costs – see page 18 of the Management's Discussion and Analysis accompanying the Company's Third Quarter earnings release. Total cash costs per ounce exclude amortization – see page 20 of the Management's Discussion and Analysis accompanying the Company's Third Quarter earnings release.
2. The Company's original guidance of $220-$230 per ounce restated for the impact of the new accounting policy for stripping costs and the inclusion of accretion expense.
