

BARRICK

First Quarter 2014 Results

Conference Call / Webcast – April 30, 2014

CAUTIONARY STATEMENT ON FORWARD-LOOKING INFORMATION

BARRICK

Certain information contained or incorporated by reference in this presentation, including any information as to our strategy, projects, plans or future financial or operating performance, constitutes "forward-looking statements". All statements, other than statements of historical fact, are forward-looking statements. The words "believe", "expect", "anticipate", "contemplate", "target", "plan", "intend", "continue", "budget", "estimate", "may", "will", "schedule" and similar expressions identify forward-looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by us, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements. Such factors include, but are not limited to: fluctuations in the spot and forward price of gold, copper or certain other commodities (such as silver, diesel fuel and electricity); changes in national and local government legislation, taxation, controls or regulations and/or changes in the administration of laws, policies and practices, expropriation or nationalization of property and political or economic developments in Canada, the United States and other jurisdictions in which the company does or may carry on business in the future; failure to comply with environmental and health and safety laws and regulations; timing of receipt of, or failure to comply with, necessary permits and approvals; diminishing quantities or grades of reserves; increased costs, delays, suspensions and technical challenges associated with the construction of capital projects; the impact of global liquidity and credit availability on the timing of cash flows and the values of assets and liabilities based on projected future cash flows; adverse changes in our credit rating; the impact of inflation; operating or technical difficulties in connection with mining or development activities; the speculative nature of mineral exploration and development; risk of loss due to acts of war, terrorism, sabotage and civil disturbances; fluctuations in the currency markets; changes in U.S. dollar interest rates; risks arising from holding derivative instruments; litigation; contests over title to properties, particularly title to undeveloped properties, or over access to water, power and other required infrastructure; business opportunities that may be presented to, or pursued by, us; our ability to successfully integrate acquisitions or complete divestitures; employee relations; availability and increased costs associated with mining inputs and labor; and the organization of our previously held African gold operations and properties under a separate listed company. In addition, there are risks and hazards associated with the business of mineral exploration, development and mining, including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins, flooding and gold bullion, copper cathode or gold or copper concentrate losses (and the risk of inadequate insurance, or inability to obtain insurance, to cover these risks). Many of these uncertainties and contingencies can affect our actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, us. Readers are cautioned that forward-looking statements are not guarantees of future performance. All of the forward-looking statements made in this presentation are qualified by these cautionary statements. Specific reference is made to the most recent Form 40-F/Annual Information Form on file with the SEC and Canadian provincial securities regulatory authorities for a discussion of some of the factors underlying forward-looking statements.

The company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except as required by applicable law.

First Quarter 2014 Results

Jamie Sokalsky
President and CEO

Kelvin Dushnisky
Senior Executive
Vice President

Ammar Al-Joundi
Executive Vice President
and CFO

Jim Gowans
Executive Vice President
and COO

Rob Krcmarov
Senior Vice President
Global Exploration

First Quarter 2014 Highlights

- **Gold** production
  1.6 Moz

AISC(1)
($/oz)

- **Copper** production
  104 Mlbs

C1 Cash Costs(1)
($/lb)

(1) See final slide #1

First Quarter 2014 Highlights

- Adjusted net earnings of $238M ($0.20/share)[1]
- Net earnings of $88M ($0.08/share)
- Operating cash flow of $585M
- Maintaining 2014 gold guidance[2] of 6.0-6.5 Moz at AISC of $920-$980/oz, the lowest costs of senior peers
- Revised 2014 copper production guidance[2] to 410-440 Mlbs; C1 cash cost guidance remains unchanged

(1) See final slide #1 (2) See final slide #2

Unrivalled Gold Portfolio

BARRICK

Q1 Copper Operating Results

- Lumwana impacted by unusually heavy wet season
- Processing interruption due to conveyor collapse post Q1 not expected to have a material economic impact
- 2014 production guidance revised to 410-440 Mlbs
  - C1 cash cost guidance unchanged at $1.90-$2.10/lb
- Evaluating opportunities at Zaldívar to improve sulfide recoveries and process tertiary crusher fines

Evaluating Projects Through a New Lens

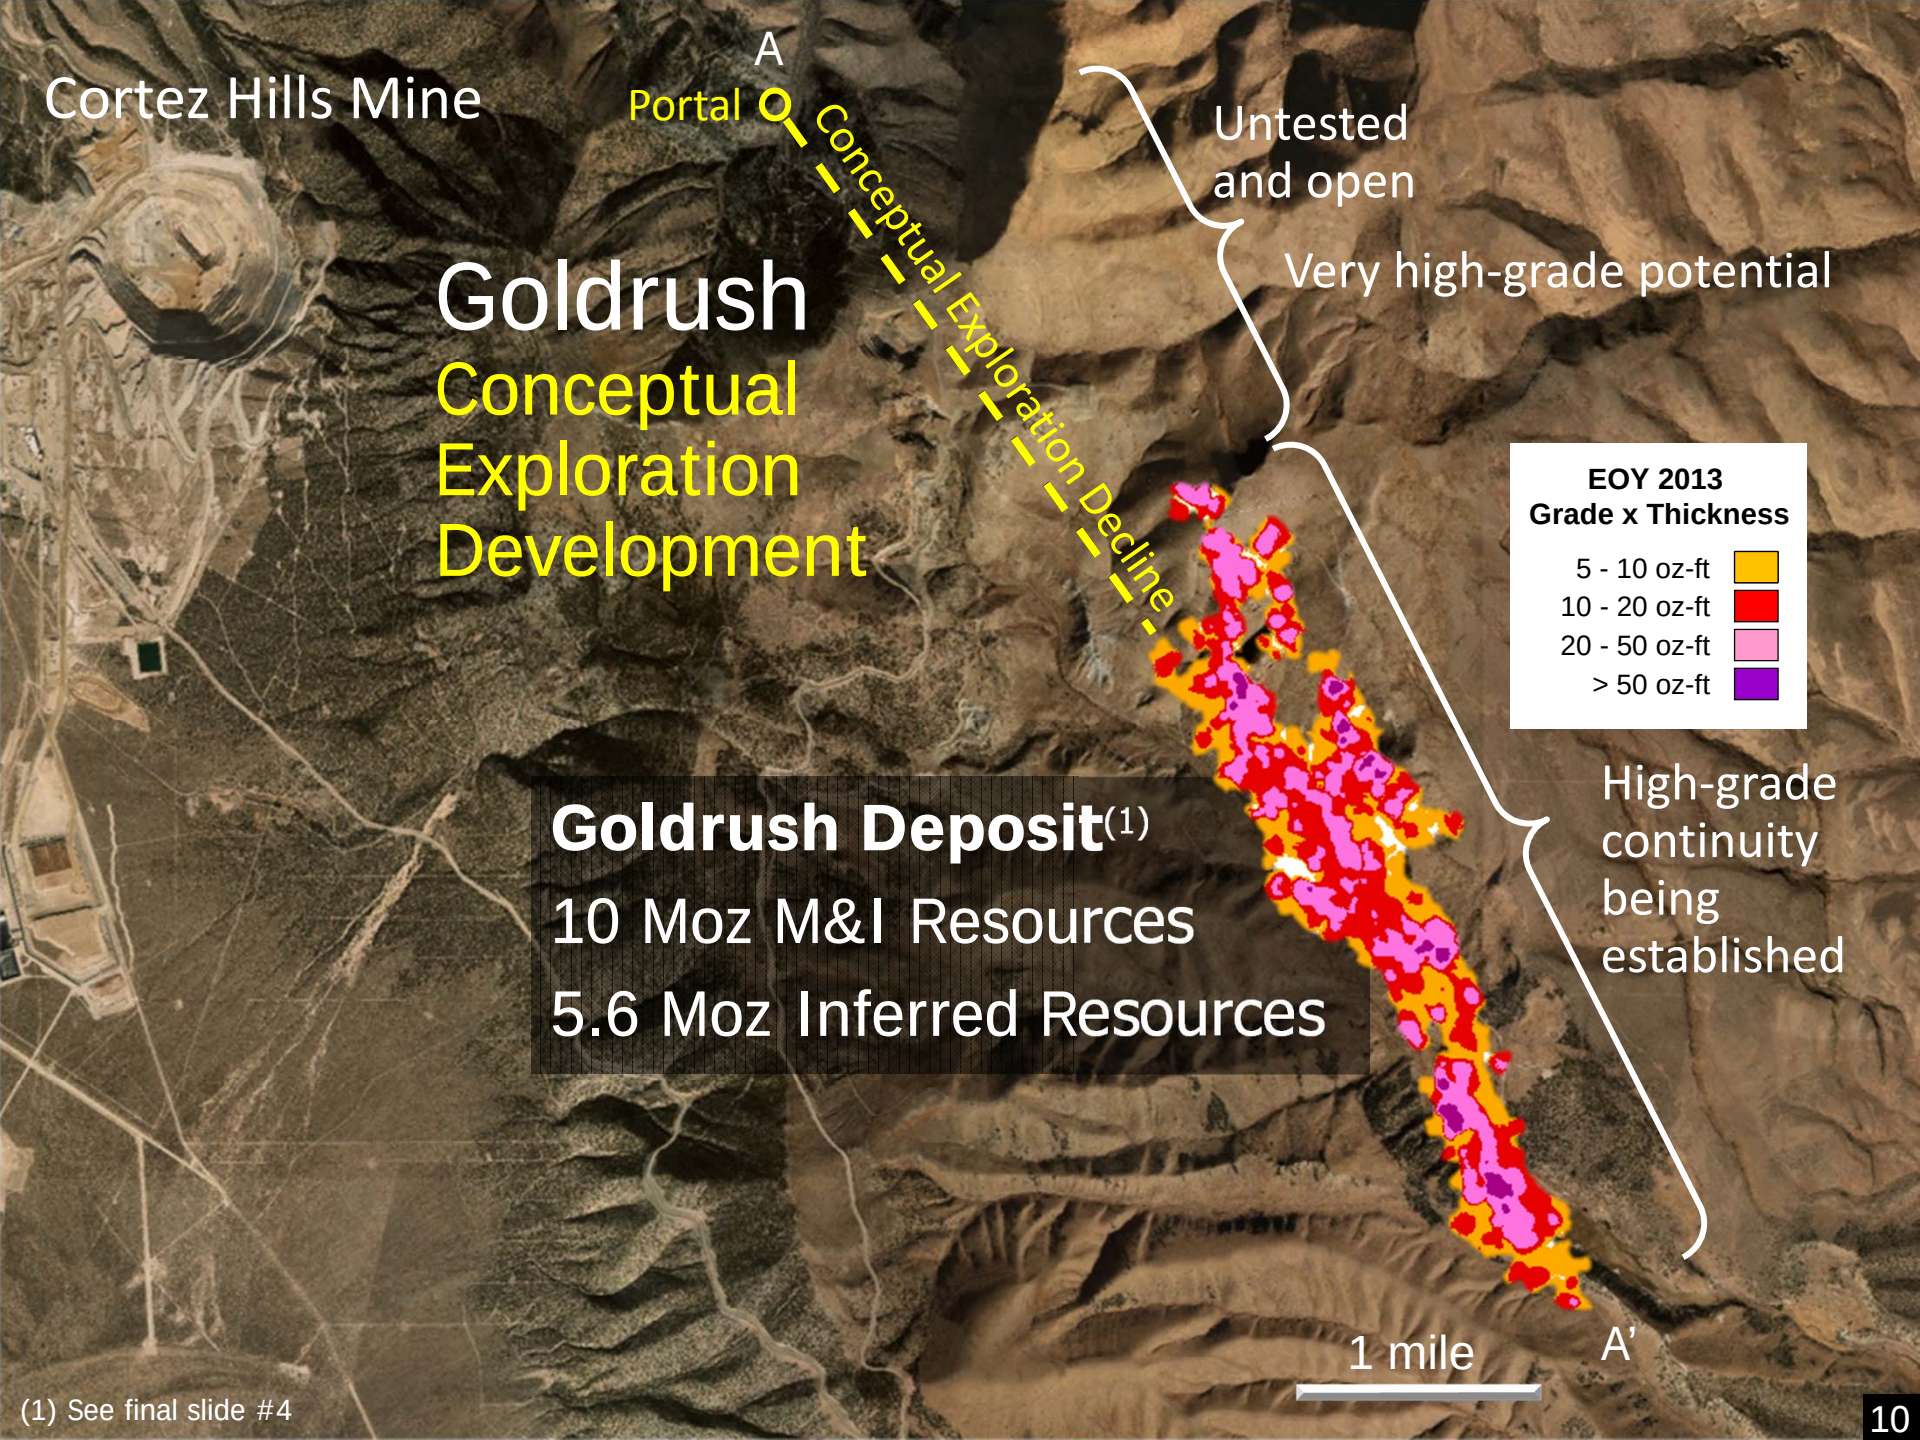

- Sea change in approach to evaluating and developing projects
- In line with focus on risk-adjusted returns and free cash flow
- Taking a staged approach to development
  - specific milestones and budgets for each stage
  - incremental expansions
  - use existing cash flow to fund the next stage
- Further de-risk, minimize costs and maximize free cash flow
- Mitigate political, technical, permitting and commodity price risk, supply chain and labor cost escalation

Growth Opportunities(1)

- Deep pipeline with excellent potential to meet or exceed hurdle rates of return
- All opportunities will compete for capital based on risk-adjusted returns and free cash flow

(1) See final slide #3

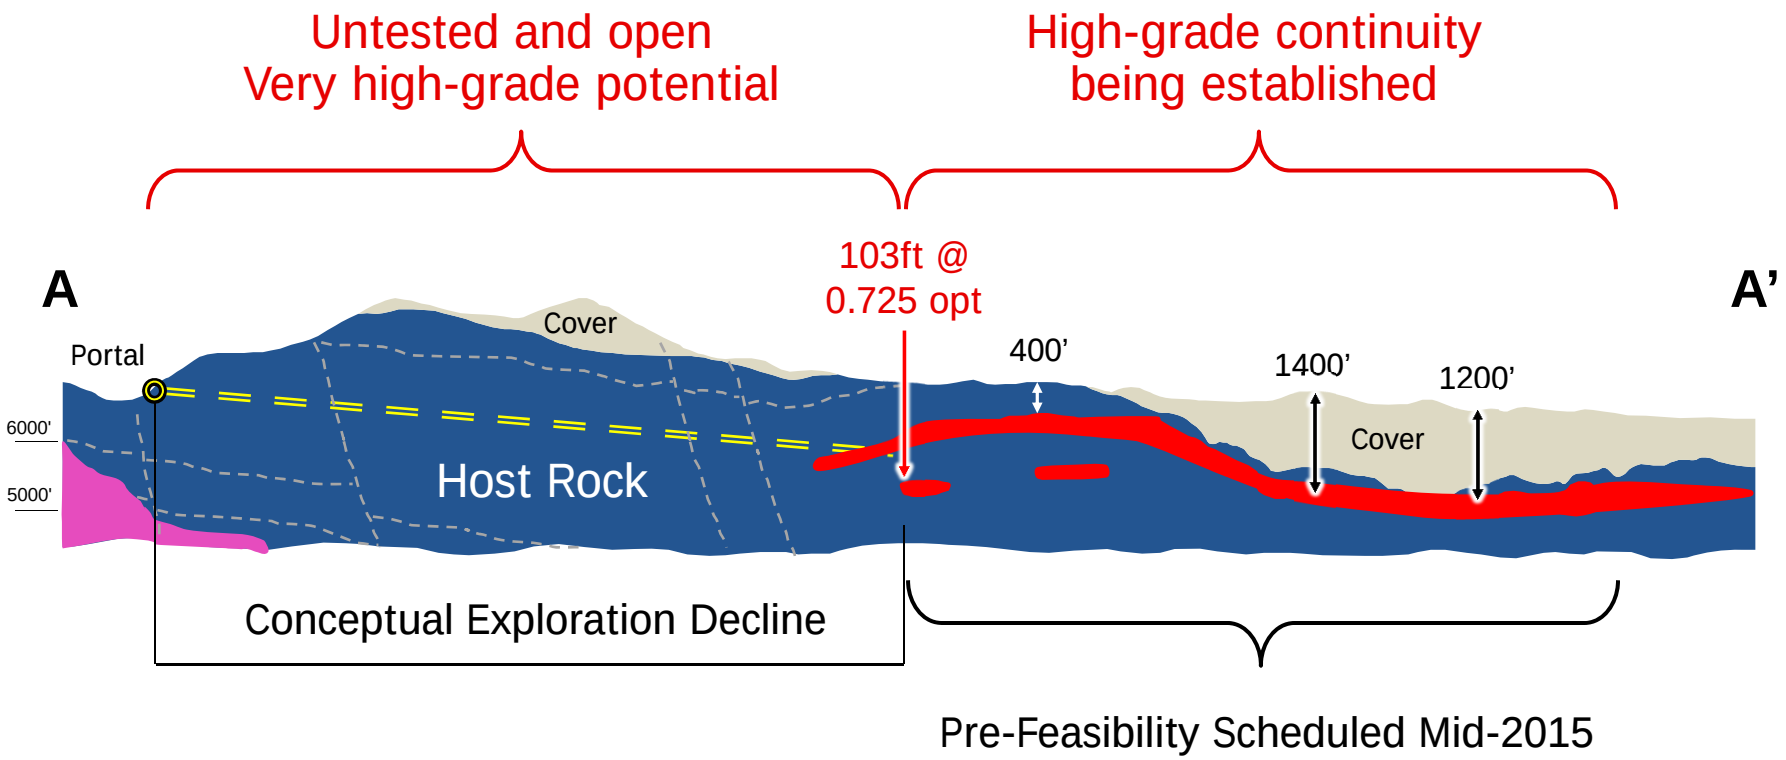

Greenfields Exploration	Near Mine Exploration	Orebody Extensions	Mine Expansions	Third Party Opportunities
▪ Emphasis on prolific belts in North America and South America	▪ Maximize infrastructure, expertise and local relationships	▪ Excellent optionality on core projects	▪ Identified new opportunities	▪ JVs, earn-ins, acquisitions and other opportunities with upside potential
Spring Valley **El Indio**	**Goldrush**	**Cortez Hills Lower Zone**	**Turquoise Ridge**	**Gold Ridge**

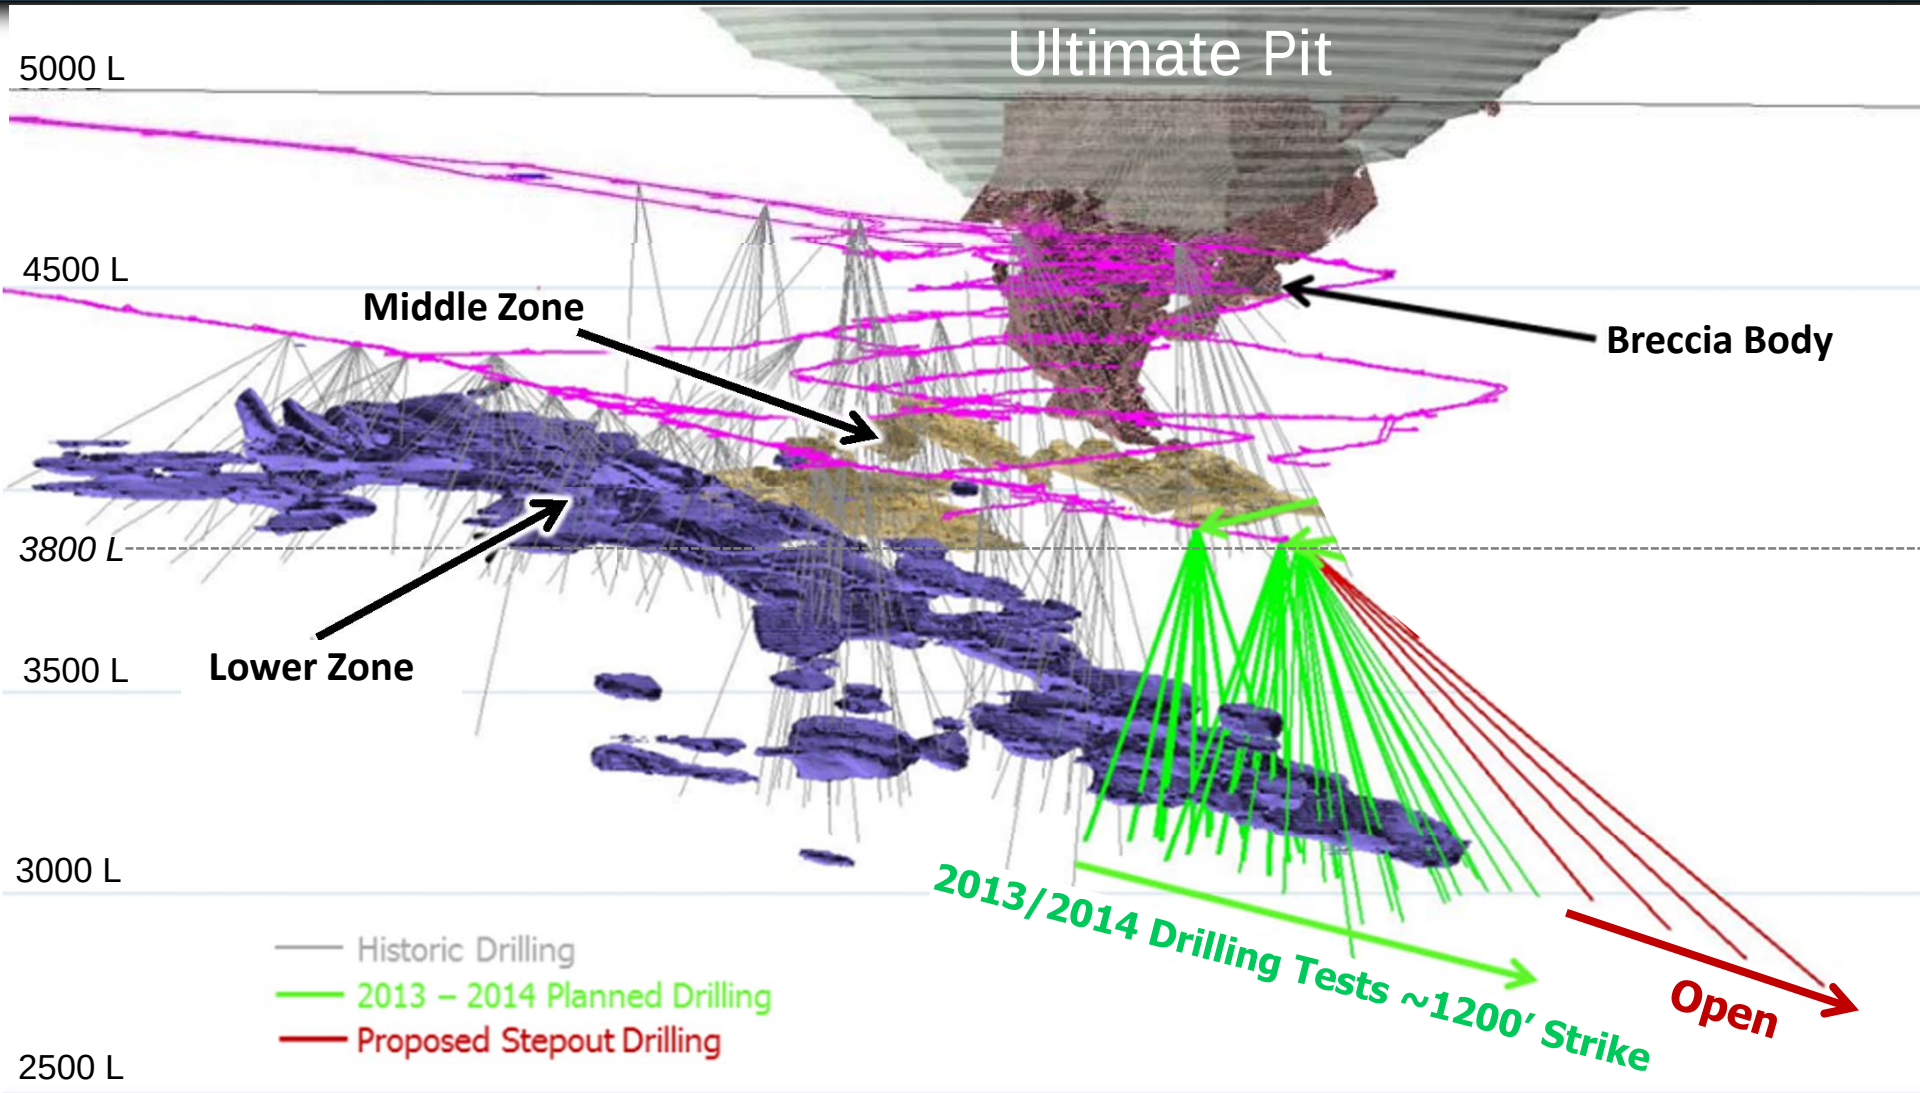

(1) See final slide #4

Goldrush – Conceptual Exploration Development

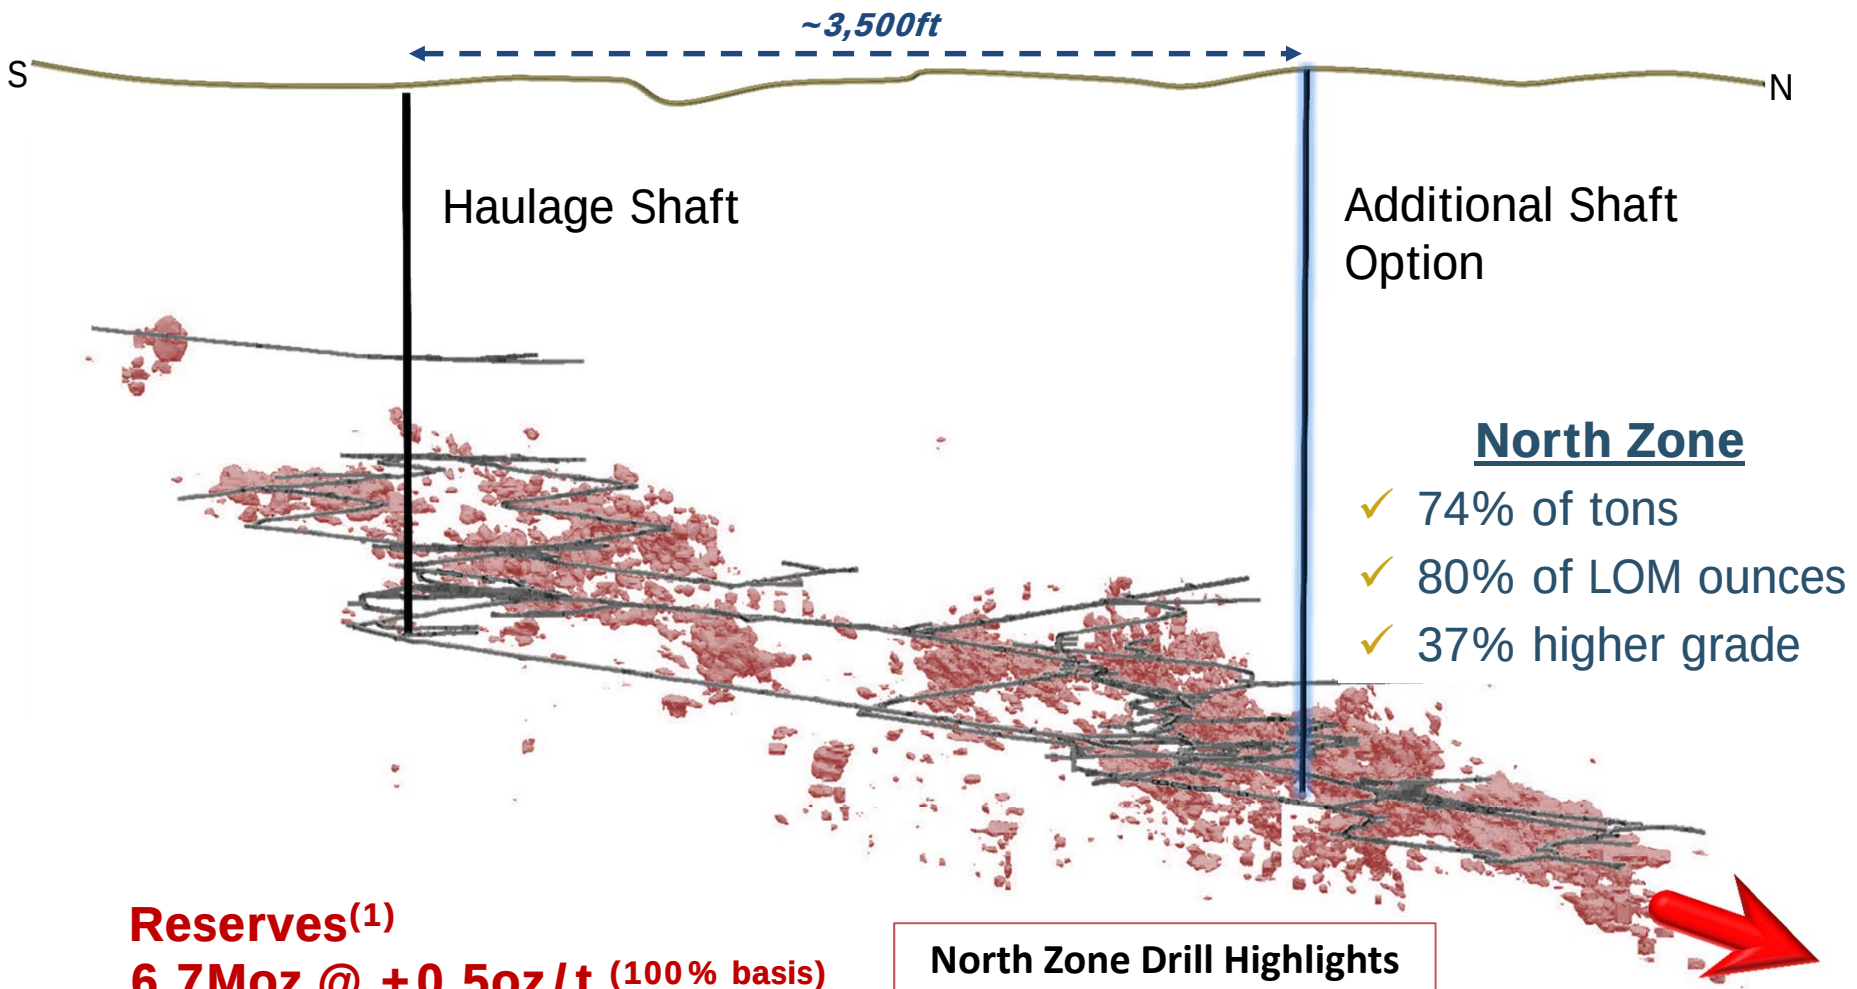

- Very strong mineralization open and untested to north along extent of where exploration decline could be

Cortez Hills Lower Zone

Turquoise Ridge – Underground Optimization

North Zone

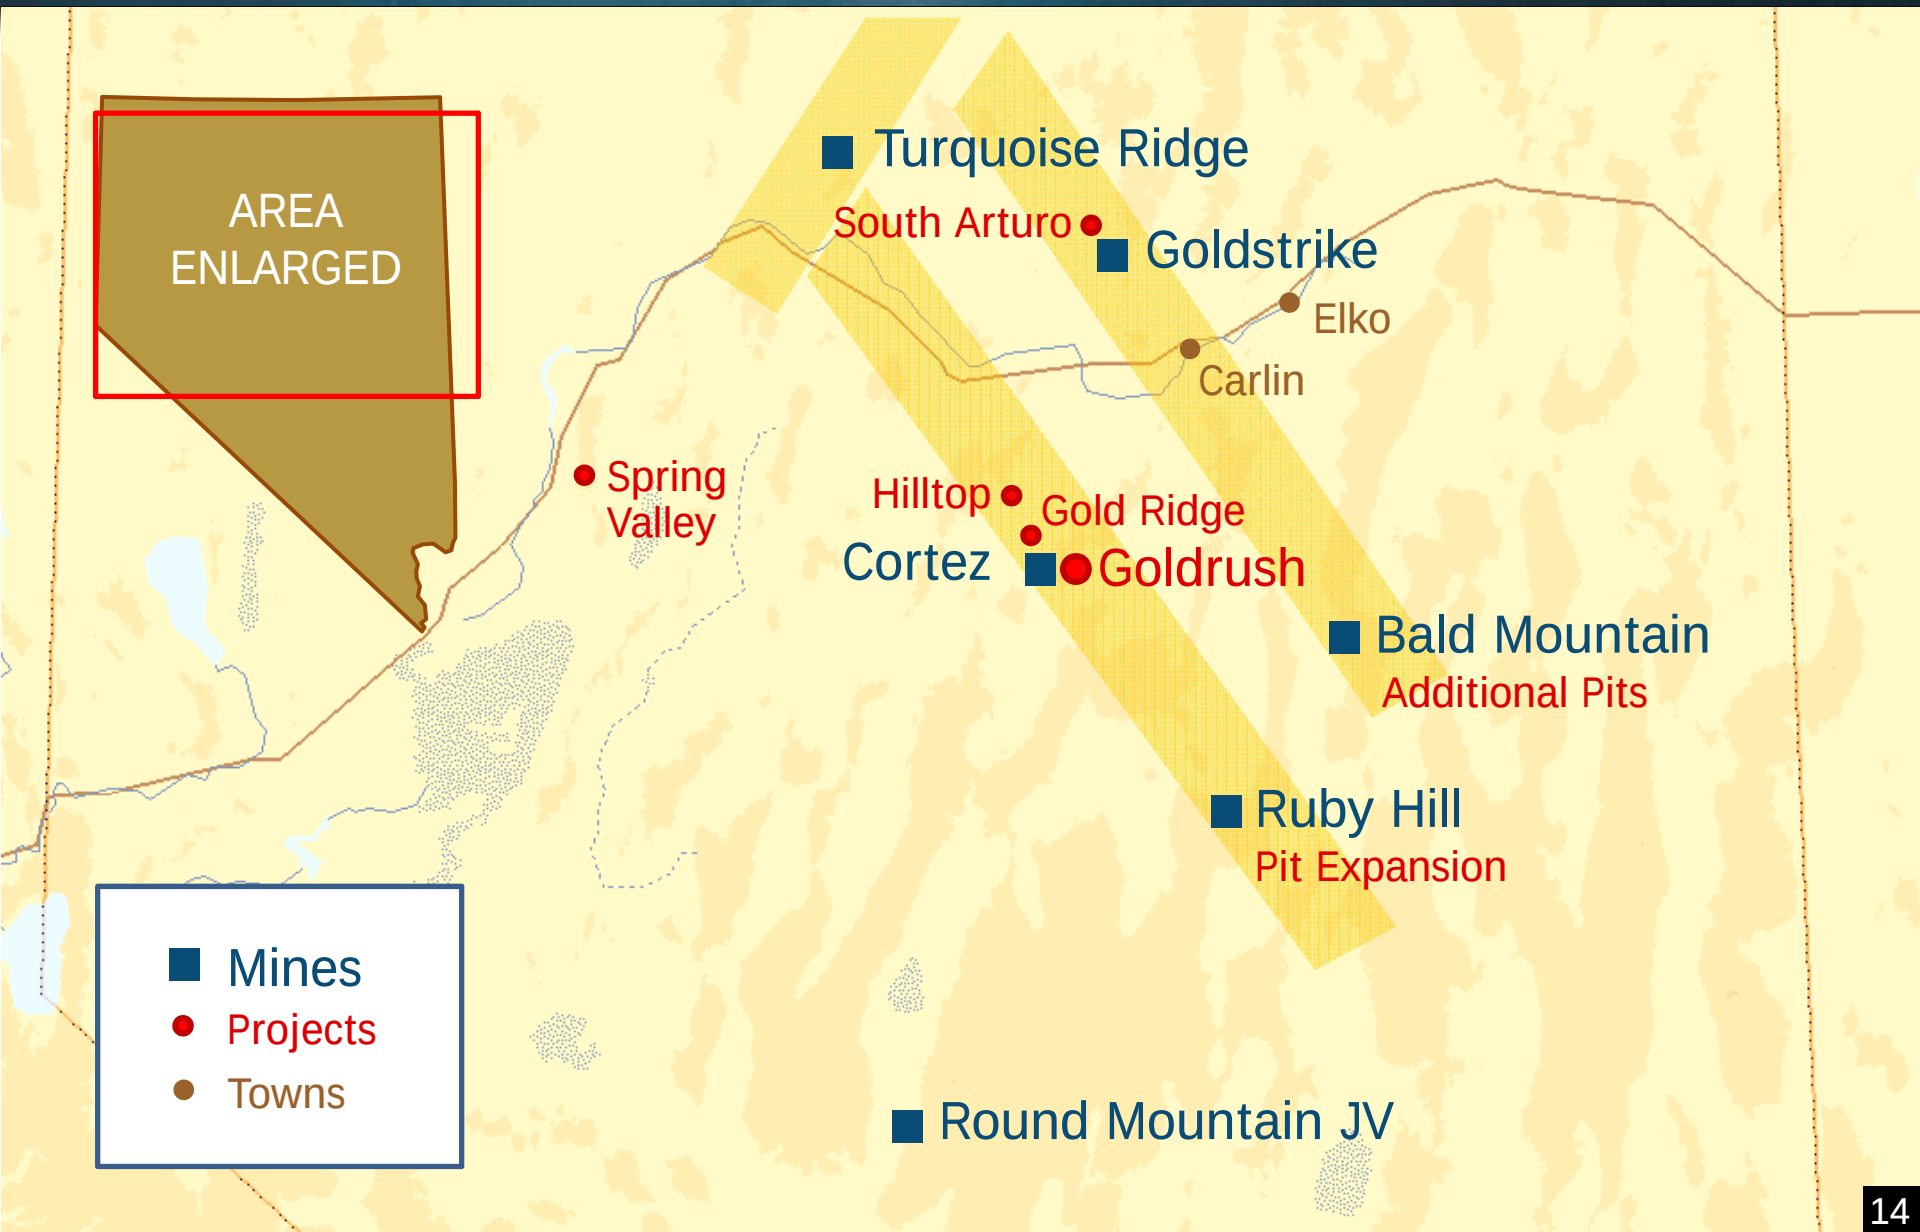

- ✓ 74% of tons
- ✓ 80% of LOM ounces
- ✓ 37% higher grade

Reserves(1)
6.7Moz @ +0.5oz/t (100% basis)

North Zone Drill Highlights
102ft @ 1.38oz/t
45ft @ 1.45oz/t
25ft @ 1.90oz/t

(1) See final slide #4

Unrivalled Position in Nevada

Portfolio Optimization and Cost Reduction

- Focused on investments that generate attractive risk-adjusted returns and free cash flow
- Total consideration of over $1.0B for sales of higher cost and non-core assets since July 2013
- Portfolio reduced to 19 mines from 27
  - sold Plutonic, Kanowna and Marigold in 2014
  - re-balanced equity interest in ABG to capitalize on share price improvement
- Implementing actions to achieve $500M annual savings
  - on track to reach full run rate by year end

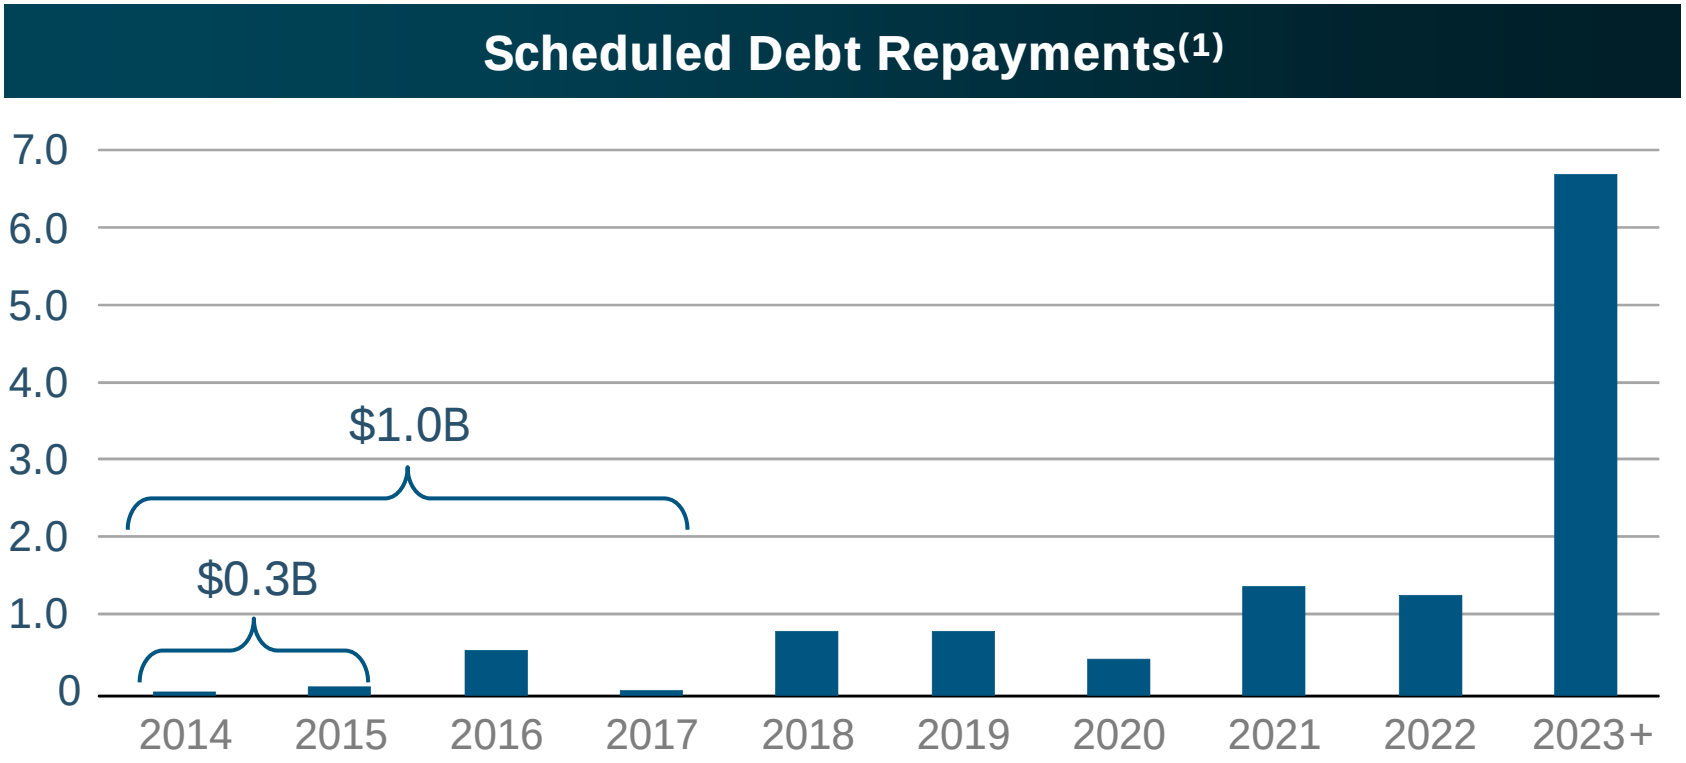

Increasing Flexibility and Agility

- Extensive scenario planning to be more agile in various price environments
- Results in a more optimized portfolio that maximizes cash flow in lower metal price environment
- Enhances ability to capitalize on strong asset base if prices recover

Options at Lower Prices	
✓ Alter LOM plans	✓ Temporary care and maintenance
✓ Defer stripping activities	✓ Mine closure
✓ Increase cut-off grades	✓ Reduce mining/processing rates
✓ Shorten mine life	✓ Reduce G&A/exploration
✓ Reduce sustaining capital	✓ Process higher grade stockpiles

Improved Financial Flexibility

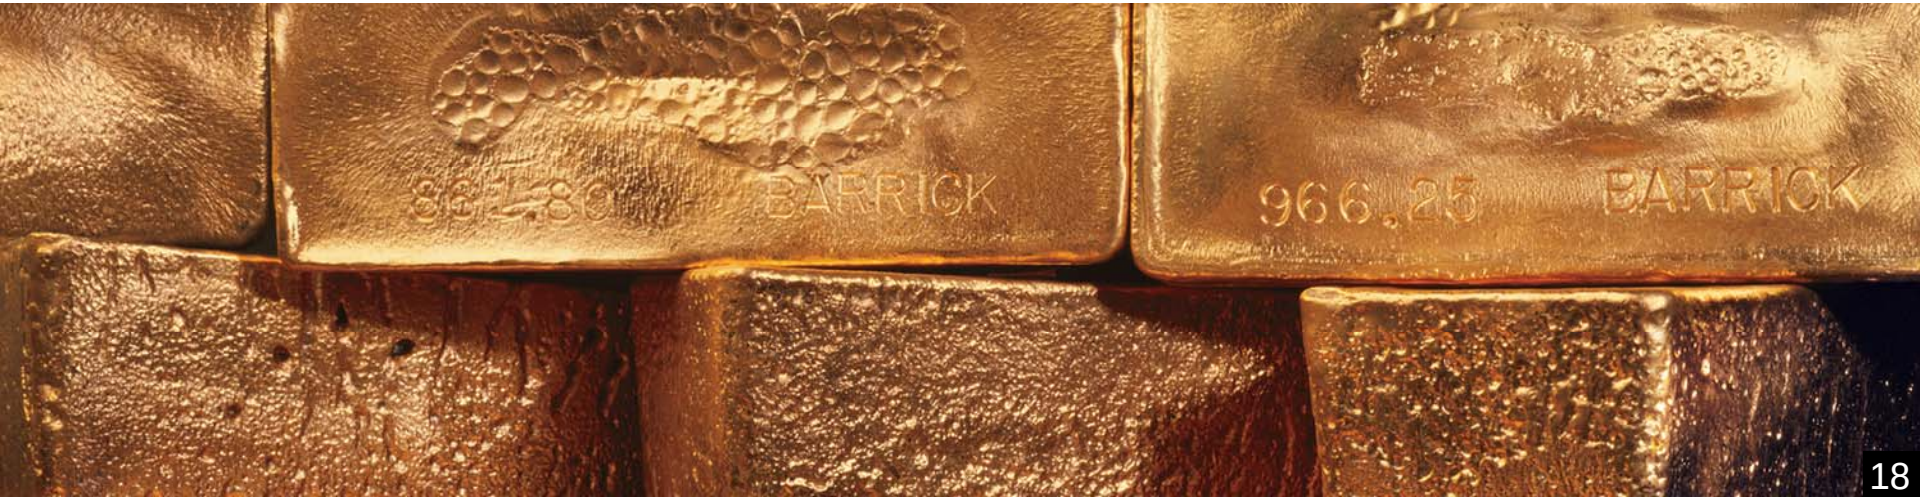

- $2.7B of cash and $4.0B undrawn credit facility
- Only $0.3B of debt maturing over next two years
- $0.6B of operating cash flow in Q1

(1) Effective as of March 31, 2014.

Reshaping Barrick's Future

- Disciplined capital allocation framework continues to guide every decision
- Prioritizing free cash flow and profitable production
- Transforming Barrick into a leaner, more agile company
- Better protected against price downside, more strongly positioned for the upside

Footnotes

1. Adjusted net earnings, adjusted net earnings per share, all-in sustaining costs per ounce ("AISC") and C1 cash costs per pound are non-GAAP financial performance measures with no standardized definition under IFRS. See pages 36-41 of Barrick's First Quarter 2014 Report.
2. 2014 guidance is based on gold, copper, silver and oil price assumptions of $1,300/oz, $3.25/lb, $20/oz, and $100/bbl, respectively, a AUS:US exchange rate of $0.91 and an ARS:US exchange rate of 8.5:1.
3. Barrick's exploration programs are designed and conducted under the supervision of Robert Krcmarov, Senior Vice President, Global Exploration of Barrick.
4. Calculated in accordance with National Instrument 43-101 as required by Canadian securities regulatory authorities. For a breakdown, see pages 29-37 of Barrick's Form 40-F.
