Barrick Announces Early Tender Date Results of Debt Tender Offer, and Increase in Maximum Tender Amount to $650 Million

TORONTO – Barrick Gold Corporation (NYSE:ABX)(TSX:ABX) ("Barrick" or the "company") announced today the results as of 5:00 p.m., New York City time, on November 16, 2016 (the "Early Tender Date"), of its cash tender offer (the "Tender Offer") for specified series of outstanding notes (the "Notes"). Barrick also announced today an increase in the Maximum Tender Amount (as defined below) for the Tender Offer from $350 million to $650 million. The terms and conditions of the Tender Offer are described in an offer to purchase (as amended hereby, the "Offer to Purchase") and the related letter of transmittal (as amended hereby, the "Letter of Transmittal"), each dated November 2, 2016.

The Tender Offer

The Tender Offer commenced on November 2, 2016. Barrick and Barrick North America Finance (together, the "Offerors") are offering to purchase for cash the series of Notes set out in the table below for an aggregate purchase price (including principal and premium) of up to the Maximum Tender Amount, as amended hereby, plus accrued and unpaid interest on the Notes from the last applicable interest payment date up to, but not including, the settlement date. The amount of a series of Notes that is purchased in the Tender Offer will be based on the order of priority (the "Acceptance Priority Level") for such series of Notes as set forth in the table below, with 1 being the highest Acceptance Priority Level and 3 being the lowest Acceptance Priority Level. If there are sufficient remaining funds to purchase some, but not all, of the Notes tendered of any series, the amount of Notes purchased in that series will be subject to proration using the procedure more fully described in the Offer to Purchase. The definition of "Maximum Tender Amount" for the Tender Offer is hereby amended to equal $650,000,000.

The following table presents the aggregate principal amount of Notes validly tendered and not validly withdrawn on the Early Tender Date for each series of Notes, as reported by the Depositary.

Such factors include, but are not limited to: fluctuations in the spot and forward price of gold, copper or certain other commodities (such as silver, diesel fuel, natural gas and electricity); failure to comply with environmental and health and safety laws and regulations; timing of receipt of, or failure to comply with, necessary permits and approvals; the speculative nature of mineral exploration and development; changes in mineral production performance, exploitation and exploration successes; diminishing quantities or grades of reserves; increased costs, delays, suspensions and technical challenges associated with the construction of capital projects; operating or technical difficulties in connection with mining or development activities, including geotechnical challenges and disruptions in the maintenance or provision of required infrastructure and information technology systems; the impact of global liquidity and credit availability on the timing of cash flows and the values of assets and liabilities based on projected future cash flows; the impact of inflation; fluctuations in the currency markets; changes in U.S. dollar interest rates; changes in national and local government legislation, taxation, controls or regulations and/or changes in the administration of laws, policies and practices, expropriation or nationalization of property and political or economic developments in Argentina, Canada, the United States and other jurisdictions in which the company does or may carry on business in the future; lack of certainty with respect to foreign legal systems, corruption and other factors that are inconsistent with the rule of law; damage to the company's reputation due to the actual or perceived occurrence of any number of events, including negative publicity with respect to the company's handling of environmental matters or dealings with community groups, whether true or not; risk of loss due to acts of war, terrorism, sabotage and civil disturbances; litigation; contests over title to properties, particularly title to undeveloped properties, or over access to water, power and other required infrastructure; risks associated with working with partners in jointly controlled assets; employee relations including loss of key employees; increased costs and physical risks, including extreme weather events and resource shortages, related to climate change; and availability and increased costs associated with mining inputs and labor. In addition, there are risks and hazards associated with the business of mineral exploration, development and mining, including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins, flooding and gold bullion, copper cathode or gold or copper concentrate losses (and the risk of inadequate insurance, or inability to obtain insurance, to cover these risks). Many of these uncertainties and contingencies can affect the company's actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, the company or Barrick North America Finance LLC.
