GLOSSARY

The following terms are frequently used in the text of this report and have the meanings indicated below.

"Used Core" — An automobile part which has previously been used in the operation of a vehicle. Generally, the Used Core is an original equipment ("OE") automobile part installed by the vehicle manufacturer and subsequently removed for replacement. Used Cores contain salvageable parts, which are an important raw material in the remanufacturing process. We obtain most Used Cores by providing credits to our customers for Used Cores returned to us under our core exchange programs. Our customers receive these Used Cores from consumers who deliver a Used Core to obtain credit from our customers upon the purchase of a newly remanufactured automobile part. When sufficient Used Cores are not available from our customers, we purchase Used Cores from core brokers, who are in the business of buying and selling Used Cores. The Used Cores purchased from core brokers or returned to us by our customers under the core exchange programs, and which have been physically received by us, are part of our raw material and work-in-process inventory. Used Cores returned by consumers to our customers but not yet returned to us are classified as contract assets until we physically receive these Used Cores.

"Remanufactured Core" — The Used Core underlying an automobile part that has gone through the remanufacturing process and through that process has become part of a newly remanufactured automobile part. The remanufacturing process takes a Used Core, breaks it down into its component parts, replaces those components that cannot be reused and reassembles the salvageable components of the Used Core and additional new components into a remanufactured automobile part. Remanufactured Cores held for sale at our customer locations are included in long-term contract assets. The Remanufactured Core portion of stock adjustment returns are classified as contract assets until we physically receive them.

MOTORCAR PARTS OF AMERICA, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2026
(Unaudited)

1. Company Background and Organization

Motorcar Parts of America, Inc. and its subsidiaries (the "Company", or "MPA") is a leading supplier of automotive aftermarket non-discretionary replacement parts, and test solutions and diagnostic equipment. These replacement parts are primarily sold to automotive retail chain stores and warehouse distributors throughout North America and to major automobile manufacturers for both their aftermarket programs and warranty replacement programs ("OES"). The Company's test solutions and diagnostic equipment products primarily serve the global automotive component and powertrain testing market. The Company's products include (i) light duty and heavy duty rotating electrical products such as alternators and starters, (ii) brake-related products, which include brake calipers, brake boosters, brake rotors, brake pads, brake master cylinders, and wheel hub assemblies and bearings, and (iii) other products, which include test solutions and diagnostic equipment including: (a) applications for combustion engine vehicles, including bench-top testers for alternators and starters, (b) equipment for the pre- and post-production of electric vehicles, and (c) software emulation of power system applications for the electrification of all forms of transportation (including automobiles, trucks, the emerging electrification of systems within the aerospace industry, and electric vehicle charging stations).

2. Basis of Presentation and New Accounting Pronouncements

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended September 30, 2026 are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2027. This report should be read in conjunction with the Company's audited consolidated financial statements and notes thereto for the fiscal year ended March 31, 2026, which are included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on June 8, 2026.

The accompanying condensed consolidated financial statements have been prepared on a consistent basis with, and there have been no material changes to the accounting policies described in Note 2, Summary of Significant Accounting Policies, to the consolidated financial statements that are presented in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2026.

Recently Adopted Accounting Pronouncements

Debt with Conversion and Other Options

In November 2024, the FASB issued ASU 2024-04, *Debt with Conversion and Other Options (Subtopic 470-20): Induced Conversions of Convertible Debt Instruments*, which seeks to clarify the requirements for determining whether certain settlements of convertible debt instruments should be accounted for as an induced conversion. This guidance is effective for annual periods beginning after December 15, 2025, including interim periods within those fiscal years. The Company adopted this guidance on April 1, 2026, which did not have any material effect on the Company's financial statements and disclosures.

Measurement of Credit Losses

In July 2025, the FASB issued ASU 2025-05, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets,* which provides a practical expedient that all entities can use when estimating expected credit losses for current accounts receivable and current contract assets arising from transactions accounted for under ASC 606, *Revenue from Contracts with Customers*. Under this practical expedient, an entity is allowed to assume that the current conditions it has applied in determining credit loss allowances for current accounts receivable and current contract assets remain unchanged for the remaining life of those assets. This guidance is effective for annual periods beginning after December 15, 2025, including interim reporting periods within those fiscal years. The Company adopted this guidance on April 1, 2026, which did not have any material effect on the Company's financial statements and disclosures.

Accounting Pronouncements Not Yet Adopted

Disclosure Improvements

In October 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-06, *Disclosure Improvements: Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative*. This standard was issued in response to the SEC's disclosure update and simplification initiative, which affects a variety of topics within the Accounting Standards Codification. The amendments apply to all reporting entities within the scope of the affected topics unless otherwise indicated. The effective date for each amendment will be the date on which the SEC's removal of that related disclosure from Regulation S-X or Regulation S-K becomes effective, with early adoption prohibited. The Company is currently evaluating the impact this guidance will have on its financial statement disclosures.

Disaggregation of Income Statement Expenses

In November 2024, the FASB issued ASU 2024-03, *Disaggregation of Income Statement Expenses ("DISE") (Subtopic 220-40)*. This standard requires the Company to disclose, in the footnotes at each interim and annual reporting period, information about expenses by the nature of the expense in addition to certain disclosures about selling expenses. Entities are required to include the following relevant expense captions: (i) purchase of inventory, (ii) employee compensation, (iii) depreciation, (iv) intangible asset amortization, and (v) depreciation, depletion and amortization recognized as part of oil and gas producing activities. In January 2025, the FASB issued ASU No. 2025-01, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40) Clarifying the Effective Date*, which is intended to clarify the effective date of ASU No. 2024-03. As clarified in ASU 2025-01, the new guidance is effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods within annual reporting periods beginning after December 15, 2027, with early adoption permitted. The Company is currently gathering data to further assess the impact of ASU 2024-03 on its financial statements.

Internal-Use Software

In September 2025, the FASB issued ASU 2025-06, *Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software*, which amends the recognition and disclosure guidance for internal-use software costs, removing the previous software development stage model with a probable-to-complete recognition threshold. This guidance is effective for annual periods beginning after December 15, 2027, including interim reporting periods within those fiscal years, with early adoption permitted. The Company is currently evaluating the impact this guidance will have on its financial statements and disclosures.

Interim Reporting

In December 2025, the FASB issued ASU 2025-11, *Interim Reporting (Topic 270) Narrow-Scope Improvements*, which improves the navigability of the guidance in ASC 270, *Interim Reporting*, and clarifies when it applies. Under this guidance, an entity is subject to ASC 270 if it provides interim financial statements and notes in accordance with GAAP. ASU 2025-11 also addresses the form and content of such financial statements, interim disclosures requirements, and establishes a principle under which an entity must disclose events since the end of the last annual reporting period that have a material impact on the entity. This guidance is effective for annual periods beginning after December 15, 2027, including interim reporting periods within those fiscal years, with early adoption permitted. The Company is currently evaluating the impact this guidance will have on its financial statements and disclosures.

Codification Improvements

In December 2025, the FASB issued ASU 2025-12, *Codification Improvements*, which addresses suggestions received from stakeholders regarding the Accounting Standards Codification and makes other incremental improvements to GAAP. The update represents changes to the Accounting Standards Codification that clarify, correct errors in or make other improvements to a variety of topics that are intended to make it easier to understand and apply. This guidance is effective for annual periods beginning after December 15, 2026, including interim reporting periods within those fiscal years, with early adoption permitted. Entities are required to apply the amendments to ASC 260 retrospectively. All other amendments may be applied prospectively or retrospectively. The Company is currently evaluating the impact this guidance will have on its financial statements and disclosures.

3. Accounts Receivable — Net

The Company has trade accounts receivable that result from the sale of goods and services. Accounts receivable — net includes offset accounts related to allowances for credit losses, customer payment discrepancies, and returned goods authorizations ("RGAs") issued for in-transit unit returns. The Company uses accounts receivable discount programs with certain customers and their respective banks (see Note 10).

Accounts receivable — net is comprised of the following:

	September 30, 2026	March 31, 2026
Accounts receivable - net		
Accounts receivable — trade	$ 100,344,000	$ 138,909,000

5. Contract Assets

During the three months ended September 30, 2026 and 2025, the Company reduced the carrying value of Remanufactured Cores held at customers' locations by $1,238,000 and $1,225,000, respectively, for the revaluation of cores that are part of the finished goods on the customers' shelves to the lower of cost or net realizable value. During the six months ended September 30, 2026 and 2025, the Company reduced the carrying value of Remanufactured Cores held at customers' locations by $1,943,000 and $2,251,000, respectively, for the revaluation of cores that are part of the finished goods on the customers' shelves to the lower of cost or net realizable value.

In addition, the Company reduced the carrying value of Remanufactured Cores held at customers' locations and long-term core inventory deposits by $14,154,000 during the three and six months ended September 30, 2025, in connection with the realignment of inventory at certain customer distribution centers.

Contract assets are comprised of the following:

	September 30, 2026	March 31, 2026
Short-term contract assets		
Cores expected to be returned by customers	$ 24,505,000	$ 21,294,000
Core premiums paid to customers	12,934,000	11,187,000
Finished goods premiums paid to customers	1,630,000	1,429,000
Upfront payments to customers	964,000	642,000
Total short-term contract assets	$ 40,033,000	$ 34,552,000
Long-term contract assets		
Remanufactured cores held at customers' locations	$ 306,827,000	$ 297,592,000

Finished goods premiums paid to customers	3,576,000	3,700,000
Upfront payments to customers	2,034,000	1,731,000
Total long-term contract assets	$ 347,874,000	$ 331,221,000

6. Significant Customer and Other Information

Significant Customer Concentrations

The largest customers accounted for the following percentage of consolidated net sales:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2026	2025	2026	2025
Net sales				
Customer A	37%	38%	37%	38%
Customer B	26%	28%	22%	26%
Customer C	21%	21%	24%	21%
Customer D	2%	1%	2%	1%

Revenues for these customers were derived from the Hard Parts segment and Test Solutions and Diagnostic Equipment segment. See Note 18 for a discussion of the Company's segments.

The largest customers accounted for the following percentage of accounts receivable – trade:

Accounts receivable - trade	September 30, 2026	March 31, 2026
Customer A	40%	52%
Customer B	24%	12%
Customer D	10%	2%
Customer C	-%	18%

Geographic and Product Information

The Company's products are sold predominantly in North America and accounted for the following percentages of consolidated net sales:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2026	2025	2026	2025

Significant Supplier Concentrations

The Company had no suppliers that accounted for more than 10% of inventory purchases for the three and six months ended September 30, 2026 and 2025.

7. Debt

The Company has $268,620,000 in senior secured financing, (as amended from time to time, the "Credit Facility") consisting of a $238,620,000 revolving loan facility (the "Revolving Facility"), subject to certain restrictions, and a $30,000,000 term loan facility (the "Term Loans"). The Term Loans were repaid during the year ended March 31, 2024. The lenders have a security interest in substantially all of the assets of the Company.

On August 6, 2026, the Company entered into a ninth amendment to the Credit Facility, which among other things, (i) extended the maturity date from December 12, 2028 to August 4, 2031; provided, that if any of the Convertible Notes (as defined below) remain outstanding (or were redeemed, repurchased, converted, or otherwise retired other than pursuant to one or more cashless (except for payments in cash for fees, expenses, and to avoid fractional shares not to exceed $250,000 in the aggregate) transactions) on the date that is ninety-one (91) days prior to the then-current stated maturity of the Convertible Notes, and such date is earlier than August 4, 2031, then the Credit Facility shall mature on such earlier date, (ii) amended the definition of consolidated EBITDA, and (iii) amended the definition of suppressed availability.

The Company had $126,595,000 and $94,668,000 outstanding under the Revolving Facility at September 30, 2026 and March 31, 2026, respectively. In addition, $15,470,000 was outstanding for letters of credit at September 30, 2026. At September 30, 2026, after certain contractual adjustments, $84,008,000 was available under the Revolving Facility. The interest rate on the Company's Revolving Facility was 6.88% and 6.79%, at September 30, 2026 and March 31, 2026, respectively.

The Credit Facility requires the Company to maintain; (i) a minimum fixed charge coverage ratio if undrawn availability is less than 22.5% of the aggregate revolving commitments and (ii) a specified minimum undrawn availability. During the three and six months ended September 30, 2026, undrawn availability was greater than the 22.5% threshold at all times, therefore, the fixed charge coverage ratio financial covenant was not required to be tested at any point during the fiscal quarter.

Convertible Notes, Related Party

On March 31, 2023, the Company entered into a note purchase agreement, as amended, (the "Note Purchase Agreement") with Bison Capital Partners VI, L.P. and Bison Capital Partners VI-A, L.P. (collectively, the "Purchasers") and Bison Capital Partners VI, L.P., as the purchaser representative (the "Purchaser Representative") for the issuance and sale of $32,000,000 in aggregate principal amount of convertible notes due in 2029 (the "Convertible Notes"), which was used for general corporate purposes. The Convertible Notes bear interest at a rate of 10.0% per annum, compounded annually, and payable (i) in-kind or (ii) in cash, annually in arrears on April 1 of each year, commencing on April 1, 2024. In April 2026, non-cash accrued interest on the Convertible Notes of $3,873,000 was paid in-kind and is included in the principal amount of Convertible Notes at September 30, 2026. The Convertible Notes have an initial conversion price of $15.00 per share of the Company's common stock, subject to adjustment as provided in the Convertible Notes ("Conversion Option"). Unless and until the Company delivers a redemption notice, the Purchasers of the Convertible Notes may convert their Convertible Notes at any time at their option. Upon conversion, the Convertible Notes will be settled in shares of the Company's common stock. The Company may redeem all or part of the Convertible Notes for a cash purchase (the "Company Redemption") price. The effective interest rate was 18.3% as of September 30, 2026 and March 31, 2026, respectively.

The Company's Convertible Notes are comprised of the following:

	September 30, 2026	March 31, 2026
Convertible Notes, related party		
Principal amount of Convertible Notes	$ 42,603,000	$ 38,730,000
Less: unamortized debt discount attributed to Compound Net Derivative Liability	(4,633,000)	(5,332,000)
Less: unamortized debt discount attributed to debt issuance costs	(647,000)	(745,000)
Carrying amount of the Convertible Notes	37,323,000	32,653,000
Plus: Compound Net Derivative Liability	4,640,000	6,340,000
Net carrying amount of Convertible Notes, related party	$ 41,963,000	$ 38,993,000

In connection with the Note Purchase Agreement, the Company entered into common stock warrants (the "Warrants") with the Purchasers, which mature on March 30, 2029. The fair value of the Warrants, using Level 3 inputs and the Monte Carlo simulation model, was zero at September 30, 2026 and March 31, 2026.

The Company Redemption option has been combined with the Conversion Option as a compound net derivative liability (the "Compound Net Derivative Liability"). The Compound Net Derivative Liability has been recorded within convertible note, related party in the condensed consolidated balance sheets at September 30, 2026 and March 31, 2026. The fair value of the Conversion Option and the Company Redemption option using Level 3 inputs and the Monte Carlo simulation model was a liability of $8,900,000 and $16,900,000, and an asset of $4,260,000 and $10,560,000 at September 30, 2026 and March 31, 2026, respectively. During the three months ended September 30, 2026 and 2025, the Company recorded a gain of $3,240,000 and a loss of $2,260,000, respectively, as the change in fair value of the Compound Net Derivative Liability in the condensed consolidated statements of operations. During the six months ended September 30, 2026 and 2025, the Company recorded a gain of $1,700,000 and a loss of $4,050,000, respectively, as the change in fair value of the Compound Net Derivative Liability in the condensed consolidated statements of operations and condensed consolidated statements of cash flows.

The Convertible Notes also contain additional features, such as, default interest and options related to a fundamental transaction, which were not separately accounted for as the value of such features were not material at September 30, 2026 and March 31, 2026.

Interest expense related to the Convertible Notes is as follows:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2026	2025	2026	2025
Interest expense on Convertible Notes				
Contractual interest expense	$ 1,065,000	$ 968,000	$ 2,130,000	$ 1,936,000
Accretion of debt discount	358,000	299,000	699,000	584,000
Amortization of debt issuance costs	50,000	41,000	98,000	82,000
Total interest expense on Convertible Notes	$ 1,473,000	$ 1,308,000	$ 2,927,000	$ 2,602,000

There are no future payments required under the Convertible Notes prior to their maturity, therefore, the principal amount of the Convertible Notes plus interest payable in-kind, assuming no early redemption or conversion has occurred, of $56,704,000 would be paid on March 30, 2029.

8. Contract Liabilities

During the three and six months ended September 30, 2025, the Company recognized remanufactured core revenue $14,797,000 and reduced the customer core returns accruals in connection with the realignment of inventory at certain customer distribution centers.

Contract liabilities are comprised of the following:

	September 30, 2026	March 31, 2026
Short-term contract liabilities		
Customer core returns accruals	$ 23,883,000	$ 18,394,000
Customer allowances earned	21,039,000	19,616,000
Accrued core payment	4,891,000	10,121,000
Customer deposits	2,981,000	2,185,000
Finished goods liabilities	188,000	837,000
Core bank liability	-	10,048,000
Total short-term contract liabilities	$ 52,982,000	$ 61,201,000
Long-term contract liabilities		
Customer core returns accruals	$ 266,638,000	$ 245,504,000
Accrued core payment	2,590,000	3,604,000
Total long-term contract liabilities	$ 269,228,000	$ 249,108,000

9. Leases

The Company leases various facilities in North America and Asia under operating leases expiring through August 2033. The Company has material nonfunctional currency leases that could have a material impact on the Company's condensed consolidated statements of operations. As required for other monetary liabilities, lessees remeasure foreign currency-denominated lease liabilities using the exchange rate at each reporting date, but the lease assets are nonmonetary assets measured at historical rates and are not affected by subsequent changes in the exchange rates.

In connection with the remeasurement of these leases, the Company recorded a loss of $1,036,000 and a gain of $1,467,000 during the three months ended September 30, 2026 and 2025, respectively, and gains of $645,000 and $5,469,000 during the six months ended September 30, 2026 and 2025, respectively. These amounts are included in foreign exchange impact of lease liabilities and forward contracts in the condensed consolidated statements of operations.

Balance sheet information for leases is as follows:

Leases	Classification	September 30, 2026	March 31, 2026
Assets:			
Operating	Operating lease assets	$ 60,672,000	$ 63,103,000

Total lease cost	$ 4,649,000	$ 4,408,000	$ 9,149,000	$ 8,676,000

Maturities of lease commitments at September 30, 2026, by fiscal year, were as follows:

Maturity of lease liabilities by fiscal year	Operating Leases	Finance Leases	Total
2027 - remaining six months	$ 6,452,000	$ 767,000	$ 7,219,000
2028	12,776,000	1,283,000	14,059,000
2029	11,580,000	1,020,000	12,600,000
2030	11,457,000	949,000	12,406,000

Weighted-average remaining lease term (years):		
Finance leases	3.4	3.8
Operating leases	6.0	6.5
Weighted-average discount rate:		
Finance leases	6.8%	6.8%
Operating leases	5.7%	5.7%

10. Accounts Receivable Discount Programs

The Company uses accounts receivable discount programs offered by certain customers and their respective banks. Under these programs, the Company may sell those customers' receivables to those banks at a discount to be agreed upon at the time the receivables are sold. These discount arrangements allow the Company to accelerate receipt of payment on customers' receivables.

The following is a summary of accounts receivable discount programs:

	Six Months Ended September 30,	
	2026	2025
Receivables discounted	$ 283,892,000	$ 339,254,000
Weighted average number of days collection was accelerated	346	345
Annualized weighted average discount rate	5.6%	5.6%
Amount of discount recognized as interest expense	$ 15,364,000	$ 18,098,000

11. Supplier Finance Programs

The Company utilizes a supplier finance program, which allows certain of the Company's suppliers to sell their receivables due from the Company to participating financial institutions at the sole discretion of both the supplier and the financial institutions. The program is administered by a third party. Commitments from participating financial institutions that are available to suppliers under this program were $40,000,000 as of September 30, 2026. The Company has no economic interest in the sale of these receivables and no direct relationship with the financial institution. Payments to the third-party administrator are based on services rendered and are not related to the volume or number of financing agreements between suppliers, financial institution, and the third-party administrator. The Company is not a party to agreements negotiated between participating suppliers and the financial institution. The Company's obligations to its suppliers, including amounts due and payment terms, are not affected by a supplier's decision to participate in this program. The Company does not provide guarantees and there are no assets pledged to the financial institution or the third-party administrator for the committed payment in connection with this program. At September 30, 2026 and March 31, 2026, the Company had $38,789,000 and $42,076,000, respectively, of outstanding supplier obligations confirmed as valid under this program, included in accounts payable in the condensed consolidated balance sheets.

12. Net Income (Loss) per Share

Basic net income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per share includes the effect, if any, from the potential exercise or conversion of securities, such as stock options, Warrants, and Convertible Notes (as defined in Note 7), which would result in the issuance of incremental shares of common stock to the extent such impact is not anti-dilutive. Potential common shares that would have the effect of increasing diluted net income per share or decreasing diluted net loss per share are considered to be anti-dilutive and as such, these shares are not included in calculating diluted net income (loss) per share.

The following presents a reconciliation of basic and diluted net income (loss) per share:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2026	2025	2026	2025
Net income (loss) for basic earnings per share	$ 1,358,000	$ (2,149,000)	$ (12,063,000)	$ 893,000
Effect of potentially dilutive shares:				
Interest expense related to Convertible Notes	1,105,000	-	-	-
Change in fair value of Compound Net Derivative Liability	(3,240,000)	-	-	-
Net (loss) income for diluted earnings per share	$ (777,000)	$ (2,149,000)	$ (12,063,000)	$ 893,000
Basic shares	18,942,932	19,366,633	18,932,989	19,367,840
Dilutive effect of share-based awards	561,514	-	-	827,114
Dilutive effect of Convertible Notes	2,982,193	-	-	-
Diluted shares	22,486,639	19,366,633	18,932,989	20,194,954
Net income (loss) per share:				
Basic net income (loss) per share	$ 0.07	$ (0.11)	$ (0.64)	$ 0.05
Diluted net (loss) income per share	$ (0.03)	$ (0.11)	$ (0.64)	$ 0.04
Anti-dilutive shares (excluded from per-share calculations):				
Outstanding share-based awards	1,099,064	2,476,067	2,570,751	901,182
Dilutive effect of Convertible Notes under the "if-converted" method	-	2,711,084	2,946,691	2,678,810

The potential common shares related to the Warrants issued in connection with the Convertible Notes (see Note 7) are anti-dilutive until they become exercisable and as of September 30, 2026, the Warrants were not exercisable.

13. Income Taxes

The Company recorded income tax expense of $562,000, or an effective tax rate of 29.3%, and $3,561,000, or an effective tax rate of 252.2%, for the three months ended September 30, 2026 and 2025, respectively. The Company recorded income tax expense of $3,931,000, or an effective tax rate of (48.3)%, and $5,986,000, or an effective tax rate of 87.0%, for the six months ended September 30, 2026 and 2025, respectively. The effective tax rate for the three and six months ended September 30, 2026 was primarily impacted by the change in valuation allowance on certain jurisdictions' deferred tax assets resulting from current year activities and foreign income taxed at rates that are different from the federal statutory rate.

Management continues to monitor its valuation allowance position in its various jurisdictions. In assessing the need for a valuation allowance, the Company considers all positive and negative evidence, including scheduled reversals of deferred tax liabilities, projected future taxable income, past financial performance, and tax planning strategies. Based on this analysis, the Company determined that it is more likely than not that certain deferred tax assets will not be realized. As a result, the Company continued to maintain valuation allowances on its U.S., one of its Mexican subsidiaries', and one of its Canadian subsidiaries' deferred tax assets. The Company will monitor its position in future periods. Should the actual amount differ from the Company's estimates, the amount of any valuation allowance could be impacted.

The Company and its subsidiaries file income tax returns for the U.S. federal, various state, and foreign jurisdictions with varying statutes of limitations. At September 30, 2026, the Company remains subject to examination for fiscal years ended March 31, 2023 and forward. At September 30, 2026, the Company continues to be under examination in the U.S. by the Internal Revenue Service for fiscal year 2024. In October 2026, the Company was notified that the examination was expanded to include fiscal year 2025. The Company is not under examination in any other jurisdiction. The Company believes no significant changes in the unrecognized tax benefits will occur within the next 12 months.

14. Financial Risk Management and Derivatives

Purchases and expenses denominated in currencies other than the U.S. dollar, which are primarily related to the Company's overseas facilities, expose the Company to market risk from material movements in foreign exchange rates between the U.S. dollar and the foreign currencies. The Company's primary risk exposure is from fluctuations in the value of the Mexican peso and to a lesser extent the Chinese yuan. To mitigate these risks, the Company enters into forward foreign currency exchange contracts to exchange U.S. dollars for these foreign currencies. The extent to which forward foreign currency exchange contracts are used, is modified periodically in response to the Company's estimate of market conditions and the terms and length of anticipated requirements.

The Company enters into forward foreign currency exchange contracts in order to reduce the impact of foreign currency fluctuations and not to engage in currency speculation. The use of derivative financial instruments allows the Company to reduce its exposure to the risk that the eventual cash outflow resulting from funding the expenses of the foreign operations will be materially affected by changes in exchange rates between the U.S. dollar and the foreign currencies. The Company does not hold or issue financial instruments for trading purposes. The Company designates forward foreign currency exchange contracts for forecasted expenditure requirements to fund foreign operations.

The Company had forward foreign currency exchange contracts with a U.S. dollar equivalent notional value of $44,842,000 and $43,076,000 at September 30, 2026 and March 31, 2026, respectively. These contracts generally have a term of one year or less, at rates agreed at the inception of the contracts. The counterparty to these derivative transactions is a major financial institution with investment grade credit rating; however, the Company is exposed to credit risk with this institution. The credit risk is limited to the potential unrealized gains (which offset currency fluctuations adverse to the Company) in any such contract should this counterparty fail to perform as contracted. Any changes in the fair values of forward foreign currency exchange contracts are included in foreign exchange impact of lease liabilities and forward contracts in the condensed consolidated statements of operations.

The following shows the effect of derivative instruments on the condensed consolidated statements of operations:

	Foreign Exchange Impact of Lease Liabilities and Forward Contracts			
	Three Months Ended September 30,		Six Months Ended September 30,	
Derivatives Not Designated as Hedging Instruments	2026	2025	2026	2025
(Loss) gain from forward foreign currency exchange contracts	$ (1,975,000)	$ 2,000	$ (2,059,000)	$ 4,348,000

The changes in the fair values of forward foreign currency exchange contracts are included in foreign exchange impact of lease liabilities and forward contracts in the condensed consolidated statements of cash flows for the six months ended September 30, 2026 and 2025. The fair value of the forward foreign currency exchange contracts of $1,207,000 is included in other current liabilities in the condensed consolidated balance sheet at September 30, 2026. The fair value of the forward foreign currency exchange contracts of $852,000 is included in prepaid expenses and other current assets in the condensed consolidated balance sheet at March 31, 2026.

15. Fair Value Measurements

The following summarizes financial assets and liabilities measured at fair value, by level within the fair value hierarchy:

	September 30, 2026				March 31, 2026			
		Fair Value Measurements Using Inputs Considered as				Fair Value Measurements Using Inputs Considered as		
	Fair Value	Level 1	Level 2	Level 3	Fair Value	Level 1	Level 2	Level 3

Short-term investments								
Mutual funds	$2,277,000	$2,277,000	$ -	$ -	$2,028,000	$2,028,000	$ -	$ -
Prepaid expenses and other current assets								
Forward foreign currency exchange contracts	-	-	-	-	852,000	-	852,000	-
Liabilities								
Other current liabilities								
Deferred compensation	2,277,000	2,277,000	-	-	2,028,000	2,028,000	-	-
Forward foreign currency exchange contracts	1,207,000	-	1,207,000	-	-	-	-	-
Convertible notes, related party								
Compound Net Derivative Liability	4,640,000	-	-	4,640,000	6,340,000	-	-	6,340,000

Short-term Investments and Deferred Compensation

The Company's short-term investments, which fund its deferred compensation liabilities, consist of investments in mutual funds. These investments are classified as Level 1 as the shares of these mutual funds trade with sufficient frequency and volume to enable the Company to obtain pricing information on an ongoing basis.

Forward Foreign Currency Exchange Contracts

The forward foreign currency exchange contracts are primarily measured based on the foreign currency spot and forward rates quoted by the banks or foreign currency dealers (see Note 14).

Compound Net Derivative Liability

The Company estimates the fair value of the Compound Net Derivative Liability (see Note 7) using Level 3 inputs and the Monte Carlo simulation model at the balance sheet date. The Monte Carlo simulation model requires the input of subjective assumptions including the expected volatility of the underlying stock. These subjective assumptions are based on both historical and other information. Changes in the values assumed and used in the model can materially affect the estimate of fair value. This amount is recorded within convertible notes, related party in the condensed consolidated balance sheets at September 30, 2026 and March 31, 2026. Any changes in the fair value of the Compound Net Derivative Liability are recorded in change in fair value of compound net derivative liability in the condensed consolidated statements of operations and condensed consolidated statements of cash flows.

The following assumptions were used to determine the fair value of the Compound Net Derivative Liability:

	September 30, 2026	March 31, 2026
Risk free interest rate	4.94%	3.81%
Cost of equity	20.10%	19.40%
Weighted average cost of capital	13.90%	12.80%
Expected volatility of the Company's common stock	47.51%	70.00%
EBITDA volatility	40.00%	40.00%

During the three and six months ended September 30, 2026, the Company had no significant measurements of assets or liabilities at fair value on a nonrecurring basis subsequent to their initial recognition.

The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities approximate their fair value due to the short-term nature of these instruments. The carrying amounts of the revolving loan and other long-term liabilities approximate their fair value based on the variable nature of interest rates and current rates for instruments with similar characteristics. At September 30, 2026 and March 31, 2026, the net carrying amount of the Convertible Notes was $41,963,000 and $38,993,000, respectively (see Note 7). The estimated fair value of the Company's Convertible Notes was $47,060,000 and $50,363,000 using Level 3 inputs at September 30, 2026 and March 31, 2026, respectively.

16. Share-based Payments

Stock Options

During the six months ended September 30, 2026 and 2025, no options to purchase shares of the Company's common stock were granted.

The following is a summary of stock option transactions:

	Number of Shares	Weighted Average Exercise Price
Outstanding at March 31, 2026	965,834	$ 19.47
Granted	-	$ -
Exercised	(2,091)	$ 11.42
Forfeited/Cancelled	(5,234)	$ 20.24
Expired	(116,800)	$ 28.66
Outstanding at September 30, 2026	841,709	$ 18.21

At September 30, 2026, there were no unvested options to purchase shares of common stock and no unrecognized compensation expense related to stock option awards.

Restricted Stock Units ("RSUs")

During the six months ended September 30, 2026 and 2025, the Company granted 445,810 and 487,597, respectively, of time-based vesting RSUs, based on the closing market price on the grant date.

The following is a summary of non-vested RSUs:

	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding at March 31, 2026	684,720	$ 9.03
Granted	445,810	$ 14.78
Vested	(243,419)	$ 9.59
Forfeited/Cancelled	(8,541)	$ 8.44
Outstanding at September 30, 2026	878,570	$ 11.80

At September 30, 2026, there was $8,997,000 of unrecognized compensation expense related to RSUs, which will be recognized over the weighted average remaining vesting period of approximately 2.2 years.

Performance Stock Units ("PSUs")

During the six months ended September 30, 2026 and 2025, the Company granted 309,289 and 353,778 PSUs (at target performance levels), respectively, based on the Company's stock price or a total shareholder return ("TSR") market conditions. All PSUs granted have a three-year performance period, subject to continued employment.

Stock Price PSUs

During the six months ended September 30, 2026, the Company granted 154,650 PSUs (at target performance levels), which vest as follows: (i) if the stock price is greater than or equal to $16.00 per share, then 1/3 of the grant will vest, (ii) if the stock price is greater than or equal to $18.00 per share then the next 1/3 of the grant will vest, and (iii) if the stock price is greater than or equal to $20.00 per share then the final 1/3 of the grant will vest. Recipients are eligible to vest in between 50% and 150% of the third tranche by achieving a stock price between $19.00 and $22.00 per share (each stock price target must be met for thirty consecutive trading days).

During the six months ended September 30, 2025, the Company granted 176,893 PSUs (at target performance levels), which vest as follows: (i) if the stock price is greater than or equal to $15.00 per share, then 1/3 of the grant will vest, (ii) if the stock price is greater than or equal to $17.00 per share then the next 1/3 of the grant will vest, and (iii) if the stock price is greater than or equal to $20.00 per share then the final 1/3 of the grant will vest. Recipients are eligible to vest in between 50% and 150% of the third tranche by achieving a stock price between $18.00 and $22.00 per share (each stock price target must be met for thirty consecutive trading days).

The Company calculated the fair value of these PSUs individually for each tranche using the Monte Carlo Simulation Model at the grant date. Compensation cost is recognized over the estimated derived service period. Compensation cost related to these awards will not be adjusted even if the market condition is not met.

TSR PSUs

During the six months ended September 30, 2026 and 2025, the Company granted 154,639 and 176,885 PSUs (at target performance levels), respectively, which cliff vest and the number of shares earned at the end of the three-year performance period will vary, based only on actual performance, from 0% to 150% of the target number of PSUs granted, depending on the Company's TSR percentile rank relative to that of a peer group over the performance period. TSR is measured based on a comparison of the closing price on the first trading day of the performance period and the average closing price over the last 30 trading days of the performance period. TSR is considered a market condition because it measures the Company's return against the performance of the Russell 3000, excluding companies classified as financials and real estate and companies with a market capitalization of more than $600 million, as of the start of the performance period. Compensation cost is determined at the grant date and recognized on a straight-line basis over the requisite service period to the extent the conditions are deemed probable. Compensation cost related to the TSR award will not be adjusted even if the market condition is not met.

The fair value of PSUs subject to a market condition is determined using the Monte Carlo simulation model. The following table summarizes the assumptions used in determining the fair value of the awards subject to market conditions:

	Six Months Ended September 30,	
	2026	**2025**
Risk free interest rate	4.19%	3.86%
Expected life in years	0.1-3.0	0.7-3.0
Expected volatility of the Company's common stock	66.20%	66.80%
Average correlation coefficient of peer companies	14.10%	15.70%
Expected dividend yield	-	-
Grant date fair value	$ 13.90-20.09	$ 7.33-12.68

The following is a summary of non-vested PSUs:

	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding at March 31, 2026	744,542	$ 8.54
Granted	309,289	$ 17.99
Forfeited/Cancelled	(203,359)	$ 4.81
Outstanding at September 30, 2026	850,472	$ 13.16

At September 30, 2026, there was $5,079,000 of unrecognized compensation expense related to these awards, which will be recognized over the weighted average remaining vesting period of approximately 2.0 years.

17. Commitments and Contingencies

Warranty Returns

The Company allows its customers to return goods that their consumers have returned to them, whether or not the returned item is defective ("warranty returns"). The Company accrues an estimate of its exposure to warranty returns based on a historical analysis of the level of this type of return as a percentage of unit sales. Amounts charged to expense for these warranty returns are considered in arriving at the Company's net sales.

The following summarizes the changes in the warranty returns:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2026	2025	2026	2025
Balance at beginning of period	$ 22,437,000	$ 18,131,000	$ 19,188,000	$ 19,677,000
Charged to expense	34,512,000	44,313,000	68,634,000	82,766,000
Amounts processed	(37,665,000)	(44,684,000)	(68,538,000)	(84,683,000)
Balance at end of period	$ 19,284,000	$ 17,760,000	$ 19,284,000	$ 17,760,000

At September 30, 2026 and March 31, 2026, the Company's total warranty return accrual was $19,284,000 and $19,188,000, respectively, of which $9,499,000 and $7,479,000, respectively, was included in the customer returns RGA issued within accounts receivable—net and $9,785,000 and $11,709,000, respectively, was included in the customer finished goods returns accrual in the condensed consolidated balance sheets.

Contingencies

The Company is subject to various lawsuits and claims. In addition, government agencies and self-regulatory organizations have the ability to conduct periodic examinations of and administrative proceedings regarding the Company's business, and its compliance with law, code, and regulations related to matters including, but not limited to, environmental, information security, taxes, levies, tariffs. In the opinion of management, such litigation is not expected to have a material effect on the Company's financial condition, results of operations, and cash flows.

Tariff Refunds

In February 2026, the U.S. Supreme Court held that the International Emergency Economic Powers Act ("IEEPA") does not authorize the imposition of tariffs. Following the ruling, the U.S. Court of International Trade ("CIT") directed U.S. Customs and Border Protection ("CBP") to implement a process for refunds of IEEPA duties previously paid by importers. The U.S. government's challenges to certain CIT orders remain pending. The Company is the importer of record for certain products that were previously subject to IEEPA tariffs. During the three months ended September 30, 2026, the Company recorded refunds of previously paid IEEPA tariffs totaling $11,052,000, which were recognized as a reduction of cost of goods sold in the condensed consolidated statements of operations.

18. Segment Information

The Company has identified its Chief Executive Officer as its chief operating decision maker ("CODM"). The Company has identified its operating segments based on the nature of the products the Company sells, the Company's organizational and management reporting structure, and the operating results that are regularly reviewed by the Company's CODM to make decisions about the resources to be allocated to the business units and to assess performance. The CODM primarily uses operating income to evaluate the performance of the Company's operating segments and to allocate resources.

The Company's three operating segments are:

- **Hard Parts**, which include (i) light duty rotating electrical products such as alternators and starters and (ii) brake-related products, which includes brake calipers, brake boosters, brake rotors, brake pads and brake master cylinders, and wheel hub assemblies and bearings,
- **Test Solutions and Diagnostic Equipment**, which includes (i) applications for combustion engine vehicles, including bench-top testers for alternators and starters, (ii) equipment for the pre- and post-production of electric vehicles, and (iii) software emulation of power system applications for the electrification of all forms of transportation (including automobiles, trucks, the emerging electrification of systems within the aerospace industry, and electric vehicle charging stations), and

- **Heavy Duty**, which includes non-discretionary automotive aftermarket replacement hard parts for heavy-duty truck, industrial, marine, and agricultural applications.

The Company's Hard Parts operating segment meets the criteria of a reportable segment. The Test Solutions and Diagnostic Equipment and Heavy Duty segments are not material, and are not required to be separately reported.

Financial information relating to the Company's segments is as follows:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2026	2025	2026	2025

(1) Net sales, operating income, depreciation and amortization, capital expenditures, and assets from segments below the quantitative threshold are attributable to the Company's Test Solutions and Diagnostic Equipment and the Heavy Duty operating segments. Neither of these two operating segments has ever met any of the quantitative thresholds for determining reportable segments.
(2) The significant expense categories and amounts align with the segment-level information that is regularly provided to the CODM for the Company's Hard Parts reportable segment. Intersegment expenses are included within the amounts shown.
(3) Logistic expenses include freight, tariffs, and customs duties.
(4) Other segment items include general and administrative expenses, sales and marketing expenses, and research and development expenses.
(5) Depreciation and amortization for the Company's Hard Parts reportable segment are included within material, labor, and overhead expenses and other segment items.

19. Share Repurchases

In December 2025, the Company's board of directors approved an increase in its share repurchase program from $37,000,000 to $57,000,000 of its common stock. During the three months ended September 30, 2026, the Company did not repurchase any shares of its common stock. During the six months ended September 30, 2026, the Company repurchased 129,523 shares of its common stock for $1,929,000. During the three and six months ended September 30, 2025, the Company repurchased 90,114 shares of its common stock for $1,389,000 and 287,910 shares of its common stock for $3,355,000, respectively. As of September 30, 2026, $36,857,000 has been utilized and $20,143,000 remains available to repurchase shares under the authorized share repurchase program, subject to the limit in the Company's Credit Facility and Convertible Notes. The Company retired the 2,464,272 shares repurchased under this program through September 30, 2026. The Company's share repurchase program does not obligate it to acquire any specific number of shares and shares may be repurchased in privately negotiated and/or open market transactions.

20. Related Party Transactions

Lease

The Company has an operating lease for its 35,000 square foot manufacturing, warehouse, and office facility in Ontario, Canada, with a company co-owned by a member of management. The Company renewed this operating lease for an additional three-year period, effective January 1, 2025. The rent expense recorded for this related party lease was $93,000 and $94,000 for the three months ended September 30, 2026 and 2025, respectively, and $186,000 and $187,000 for the six months ended September 30, 2026 and 2025, respectively.

Convertible Note and Election of Director

In connection with the issuance and sale of the Company's Convertible Notes on March 31, 2023 (see Note 7), the Board appointed Douglas Trussler, a co-founder of Bison Capital, to the Board. Mr. Trussler's compensation is different from the compensation for other non-employee directors as described in the Company's Definitive Proxy Statement, filed with the SEC on July 29, 2026.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis presents factors that Motorcar Parts of America, Inc. and its subsidiaries ("our," "we" or "us") believe are relevant to an assessment and understanding of our consolidated financial position and results of operations. This financial and business analysis should be read in conjunction with our March 31, 2026 audited consolidated financial statements included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on June 8, 2026.

Disclosure Regarding Private Securities Litigation Reform Act of 1995

This report may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 with respect to our future performance that involve risks and uncertainties. All statements other than statements of historical fact are forward-looking statements, including, but not limited to, statements about our strategic initiatives, operational plans and objectives, expectations for economic conditions and recovery and future business and financial performance, as well as statements regarding underlying assumptions related thereto. They include, among others, factors related to the timing and implementation of strategic initiatives, the highly competitive nature of our industry, demand for our products and services, complexities in our inventory and supply chain, challenges with transforming and growing our business. Except as required by law, we undertake no obligation to revise or update publicly any forward-looking statements for any reason. Therefore, you should not place undue reliance on those statements. Please refer to "Item 1A. Risk Factors" of our most recent Annual Report on Form 10-K filed with the SEC on June 8, 2026, as updated by our subsequent filings with the SEC, for a description of these and other risks and uncertainties that could cause actual results to differ materially from those projected or implied by the forward-looking statements.

Management Overview

With a scalable infrastructure and abundant growth opportunities, we continue to focus on strategic growth by leveraging our competitive advantage and growing our industry position by providing innovative and intuitive solutions to our customers. To support our strategic growth, we have made investments, which included (i) a 410,000 square foot distribution center, (ii) two buildings totaling 372,000 square feet for remanufacturing and core sorting of brake calipers, (iii) the realignment of production at our original 312,000 square foot facility in Mexico, and (iv) the addition of a warehousing and distribution facility in Malaysia to support our direct shipment programs.

Segment Reporting

Our three operating segments are as follows:

- **Hard Parts**, which include (i) light duty rotating electrical products such as alternators and starters and (ii) brake-related products, which includes brake calipers, brake boosters, brake rotors, brake pads and brake master cylinders, and wheel hub assemblies and bearings,
- **Test Solutions and Diagnostic Equipment**, which includes (i) applications for combustion engine vehicles, including bench-top testers for alternators and starters, (ii) equipment for the pre- and post-production of electric vehicles, and (iii) software emulation of power system applications for the electrification of all forms of transportation (including automobiles, trucks, the emerging electrification of systems within the aerospace industry, and electric vehicle charging stations), and
- **Heavy Duty**, which includes non-discretionary automotive aftermarket replacement hard parts for heavy-duty truck, industrial, marine, and agricultural applications.

Our Hard Parts operating segment meets the criteria of a reportable segment. The Test Solutions and Diagnostic Equipment and Heavy Duty segments are not material, and are not required to be separately reported. See Note 18 of the notes to condensed consolidated financial statements for more information.

Results of Operations for the Three Months Ended September 30, 2026 and 2025

The following discussion and analysis should be read together with the financial statements and notes thereto appearing elsewhere herein.

The following summarizes certain key consolidated operating data:

	Three Months Ended September 30,	
	2026	2025
Cash flow (used in) provided by operations	$ (4,061,000)	$ 21,865,000
Finished goods turnover (annualized) (1)	2.8	4.8

(1) Annualized finished goods turnover for the fiscal quarter is calculated by multiplying cost of goods sold for the quarter by 4 and dividing the result by the average between beginning and ending non-core finished goods inventory values for the fiscal quarter. We believe this provides a useful measure of our ability to turn our inventory into revenues.

Net Sales and Gross Profit

The following summarizes net sales and gross profit:

	Three Months Ended September 30,	
	2026	2025
Net sales	$ 169,217,000	$ 221,470,000
Cost of goods sold	128,270,000	178,743,000
Gross profit	40,947,000	42,727,000
Gross margin	24.2%	19.3%

Net Sales. Our consolidated net sales for the three months ended September 30, 2026 were $169,217,000 compared with net sales for the three months ended of September 30, 2025 of $221,470,000, which included $14,797,000 of core revenue in connection with the realignment of inventory at certain customer distribution centers. The net decrease in net sales was $37,456,000, or 18.1% of net sales, primarily due to delayed customer orders and lower tariff pass-throughs.

Gross Profit. Our consolidated gross profit was $40,947,000, or 24.2% of consolidated net sales, for the three months ended September 30, 2026 compared with $42,727,000, or 19.3% of consolidated net sales, for the three months ended September 30, 2025. Our gross margin for the three months ended September 30, 2026 was impacted by $11,052,000 of refunds received for previously paid IEEPA tariffs partially offset by $1,358,000 of transition expenses incurred in connection with the relocation of certain manufacturing to our lower cost facilities in Mexico.

In addition, our gross margin for the three months ended September 30, 2026 and 2025 was impacted by (i) the continued amortization of core and finished goods premiums of $3,544,000 and $2,988,000, respectively and (ii) the non-cash quarterly revaluation of cores that are part of the finished goods on the customers' shelves (which are included in contract assets) to the lower of cost or net realizable value, which resulted in a write-down of $1,238,000 and $1,225,000, respectively.

Operating Expenses

The following summarizes our consolidated operating expenses:

	Three Months Ended September 30,	
	2026	**2025**
General and administrative	$ 18,234,000	$ 17,086,000
Sales and marketing	6,642,000	6,811,000
Research and development	3,091,000	3,928,000
Foreign exchange impact of lease liabilities and forward contracts	3,011,000	(1,469,000)
Percent of net sales		
General and administrative	10.8%	7.7%
Sales and marketing	3.9%	3.1%
Research and development	1.8%	1.8%
Foreign exchange impact of lease liabilities and forward contracts	1.8%	(0.7)%

General and Administrative. Our general and administrative expenses for the three months ended September 30, 2026 were $18,234,000, which represents an increase of $1,148,000, or 6.7%, from the three months ended September 30, 2025 of $17,086,000. This increase was primarily due to $1,467,000 of increased non-cash share-based compensation and $1,037,000 of increased legal and other professional services partially offset by $1,454,000 of decreased employee incentives.

Sales and Marketing. Our sales and marketing expenses were consistent at $6,642,000 for the three months ended September 30, 2026 compared with $6,811,000 for the three months ended September 30, 2025.

Research and Development. Our research and development expenses for the three months ended September 30, 2026 were $3,091,000, which represents a decrease of $837,000, or 21.3%, from the three months ended September 30, 2025 of $3,928,000. This decrease was primarily due to (i) $439,000 of decreased engineering-related professional services, (ii) $248,000 of decreased expense for supplies and our sample library, and (iii) $147,000 of decreased employee-related costs.

Foreign Exchange Impact of Lease Liabilities and Forward Contracts. Our foreign exchange impact of lease liabilities and forward contracts were a non-cash loss of $3,011,000 compared with a non-cash gain of $1,469,000 for the three months ended September 30, 2026 and 2025, respectively. This change during the three months ended September 30, 2026 compared with the three months ended September 30, 2025 was primarily due to (i) the remeasurement of our foreign currency-denominated lease liabilities resulting in a non-cash loss of $1,036,000 compared with a non-cash gain of $1,467,000, respectively, and (ii) the change in the fair values of forward foreign currency exchange contracts resulting in a non-cash loss of $1,975,000 compared with a non-cash gain of $2,000, respectively.

Operating Income

Consolidated Operating Income. Our consolidated operating income for the three months ended September 30, 2026 was $9,969,000 compared with $16,371,000 for the three months ended September 30, 2025. This decrease was primarily due to the impact of the foreign exchange remeasurement of lease liabilities and forward contracts and other items as discussed above.

Interest Expense

Interest Expense, net. Our interest expense for the three months ended September 30, 2026 was $11,289,000, which represents a decrease of $1,410,000, or 11.1%, from interest expense for the three months ended September 30, 2025 of $12,699,000. This decrease was primarily due to lower utilization of our accounts receivable discount programs.

Change in Fair Value of Compound Net Derivative Liability

Change in Fair Value of Compound Net Derivative Liability. Our change in fair value of compound net derivative liability associated with the convertible notes issued on March 31, 2023 were a non-cash gain of $3,240,000 compared with a non-cash loss of $2,260,000 for the three months ended September 30, 2026 and 2025, respectively.

Provision for Income Taxes

Income Tax. We recorded income tax expense of $562,000, or an effective tax rate of 29.3%, and $3,561,000, or an effective tax rate of 252.2%, for the three months ended September 30, 2026 and 2025, respectively. The effective tax rate for the three months ended September 30, 2026, was primarily impacted by the change in valuation allowance on certain jurisdictions' deferred tax assets resulting from current year activities and foreign income taxed at rates that are different from the federal statutory rate.

Results of Operations for the Six Months Ended September 30, 2026 and 2025

The following discussion and analysis should be read together with the financial statements and notes thereto appearing elsewhere herein.

The following summarizes certain key consolidated operating data:

	Six Months Ended September 30,	
	2026	**2025**
Cash flows (used in) provided by operations	$ (15,364,000)	$ 31,893,000
Finished goods turnover (annualized) (1)	3.0	4.5

(1) Annualized finished goods turnover for the fiscal period is calculated by multiplying cost of goods sold for the fiscal period by 2 and dividing the result by the average between beginning and ending non-core finished goods inventory values for the fiscal period. We believe this provides a useful measure of our ability to turn our inventory into revenues.

Net Sales and Gross Profit

The following summarizes net sales and gross profit:

	Six Months Ended September 30,	
	2026	**2025**
Net sales	$ 337,238,000	$ 409,834,000
Cost of goods sold	269,117,000	333,190,000
Gross profit	68,121,000	76,644,000
Gross margin	20.2%	18.7%

Net Sales. Our consolidated net sales for the six months ended September 30, 2026 were $337,238,000 compared with net sales for the six months ended of September 30, 2025 of $409,834,000, which included $14,797,000 of core revenue in connection with the realignment of inventory at certain customer distribution centers. The net decrease in net sales was $57,799,000, or 14.6% of net sales, primarily due to delayed customer orders and lower tariff pass-throughs.

Gross Profit. Our consolidated gross profit was $68,121,000, or 20.2% of consolidated net sales, for the six months ended September 30, 2026 compared with $76,644,000, or 18.7% of consolidated net sales, for the six months ended September 30, 2025. Our gross margin for the six months ended September 30, 2026 was impacted by $11,052,000 of refunds received for previously paid IEEPA tariffs partially offset by $4,125,000 of transition expenses incurred in connection with the relocation of certain manufacturing to our lower cost facilities in Mexico.

In addition, our gross margin for the six months ended September 30, 2026 and 2025 was impacted by (i) the continued amortization of core and finished goods premiums of $6,950,000 and $5,835,000, respectively, and (ii) the non-cash quarterly revaluation of cores that are part of the finished goods on the customers' shelves (which are included in contract assets) to the lower of cost or net realizable value, which resulted in a write-down of $1,943,000 and $2,251,000, respectively.

Operating Expenses

The following summarizes our consolidated operating expenses:

	Six Months Ended September 30,	
	2026	**2025**
General and administrative	$ 33,751,000	$ 29,766,000
Sales and marketing	13,188,000	13,021,000
Research and development	6,267,000	7,234,000
Foreign exchange impact of lease liabilities and forward contracts	1,414,000	(9,817,000)
Percent of net sales		
General and administrative	10.0%	7.3%
Sales and marketing	3.9%	3.2%
Research and development	1.9%	1.8%
Foreign exchange impact of lease liabilities and forward contracts	0.4%	(2.4)%

General and Administrative. Our general and administrative expenses for the six months ended September 30, 2026 were $33,751,000, which represents an increase of $3,985,000, or 13.4%, from the six months ended September 30, 2025 of $29,766,000. This increase was primarily due to $2,659,000 of increased non-cash share-based compensation and $2,182,000 of increased legal and other professional services, partially offset by $1,425,000 of decreased employee incentives.

Sales and Marketing. Our sales and marketing expenses were consistent at $13,188,000 for the six months ended September 30, 2026 compared with $13,021,000 for the six months ended September 30, 2025.

Research and Development. Our research and development expenses for the six months ended September 30, 2026 were $6,267,000, which represents a decrease of $967,000, or 13.4%, from the six months ended September 30, 2025 of $7,234,000. This decrease was primarily due to (i) $461,000 of decreased engineering-related professional services, (ii) $344,000 of decreased expense for supplies and our sample library, and (iii) $174,000 of decreased employee-related costs.

Foreign Exchange Impact of Lease Liabilities and Forward Contracts. Our foreign exchange impact of lease liabilities and forward contracts were a non-cash loss of $1,414,000 compared with a non-cash gain of $9,817,000 for the six months ended September 30, 2026 and 2025, respectively. This change during the six months ended September 30, 2026 compared with the six months ended September 30, 2025 was primarily due to (i) the remeasurement of our foreign currency-denominated lease liabilities resulting in non-cash gains of $645,000 and $5,469,000, respectively, and (ii) the change in the fair values of forward foreign currency exchange contracts resulting in a non-cash loss of $2,059,000 compared with a non-cash gain of $4,348,000, respectively.

Operating Income

Consolidated Operating Income. Our consolidated operating income for the six months ended September 30, 2026 was $13,501,000 compared with $36,440,000 for the six months ended September 30, 2025. This decrease was primarily due to the impact of the foreign exchange remeasurement of lease liabilities and forward contracts and other items as discussed above.

Interest Expense

Interest Expense, net. Our interest expense for the six months ended September 30, 2026 was $23,333,000, which represents a decrease of $2,178,000, or 8.5%, from interest expense for the six months ended September 30, 2025 of $25,511,000. This decrease was primarily due to lower utilization of our accounts receivable discount programs partially offset by higher average outstanding balances under our credit facility.

Change in Fair Value of Compound Net Derivative Liability

Change in Fair Value of Compound Net Derivative Liability. Our change in fair value of compound net derivative liability associated with the convertible notes issued on March 31, 2023 were a non-cash gain of $1,700,000 compared with a non-cash loss of $4,050,000 for the six months ended September 30, 2026 and 2025, respectively.

Provision for Income Taxes

Income Tax. We recorded income tax expense of $3,931,000, or an effective tax rate of (48.3)%, and $5,986,000, or an effective tax rate of 87.0%, for the six months ended September 30, 2026 and 2025, respectively. The effective tax rate for the six months ended September 30, 2026, was primarily impacted by the change in valuation allowance on certain jurisdictions' deferred tax assets resulting from current year activities and foreign income taxed at rates that are different from the federal statutory rate.

Liquidity and Capital Resources

Overview

We had working capital (current assets minus current liabilities) of $179,730,000 and $184,386,000, a ratio of current assets to current liabilities of 1.4:1.0 at September 30, 2026 and 1.5:1.0 at March 31, 2026.

Our primary source of liquidity was from the use of our accounts receivable discount programs and credit facility during the six months ended September 30, 2026. We believe our cash and cash equivalents, use of accounts receivable discount programs, and amounts available under our credit facility are sufficient to satisfy our expected future liquidity needs over the next 12 months.

Share Repurchase Program

In December 2025, our board of directors approved an increase in our share repurchase program from $37,000,000 to $57,000,000 of our common stock. During the three months ended September 30, 2026, we did not repurchase any shares of our common stock. During the six months ended September 30, 2026, we repurchased 129,523 shares of our common stock for $1,929,000. During the three and six months ended September 30, 2025, we repurchased 90,114 shares of our common stock for $1,389,000 and 287,910 shares of our common stock for $3,355,000, respectively. As of September 30, 2026, $36,857,000 has been utilized and $20,143,000 remains available to repurchase shares under the authorized share repurchase program, subject to the limit in our credit facility and convertible notes. We retired the 2,464,272 shares repurchased under this program through September 30, 2026. Our share repurchase program does not obligate us to acquire any specific number of shares and shares may be repurchased in privately negotiated and/or open market transactions.

Cash Flows

The following summarizes cash flows as reflected in the condensed consolidated statements of cash flows:

	Six Months Ended September 30,	
	2026	**2025**
Cash flows (used in) provided by:		
Operating activities	$ (15,364,000)	$ 31,893,000
Investing activities	(5,928,000)	(1,742,000)
Financing activities	27,481,000	(24,341,000)
Effect of exchange rates on cash and cash equivalents	(69,000)	471,000
Net increase in cash and cash equivalents	$ 6,120,000	$ 6,281,000
Additional selected cash flow data:		
Depreciation and amortization	$ 5,135,000	$ 4,822,000
Capital expenditures	1,869,000	1,833,000

Net cash used in operating activities was $15,364,000 compared with net cash provided by operating activities of $31,893,000 during the six months ended September 30, 2026 and 2025, respectively. The change in our operating activities was primarily due to (i) a decrease in our accounts payable balances during the six months ended September 30, 2026 due to lower purchases and the paydown of accounts payable balances compared with an increase during the prior year, (ii) higher inventory balances to support future growth, (iii) a decrease in our accounts receivable balances during the six months ended September 30, 2026 due to lower sales, and (iv) an increase in core premiums paid to customers in connection with new business during the six months ended September 30, 2026 compared with the prior year. In addition, our operating activities were further impacted by changes in operating results (net (loss) income plus the net add-back for non-cash transactions in earnings). We continue to manage our working capital to maximize our operating cash flow. We continue to manage our working capital to maximize our operating cash flow.

Net cash used in investing activities was $5,928,000 and $1,742,000 during the six months ended September 30, 2026 and 2025, respectively. The change in our investing activities was primarily due to the purchase of certain intangible assets during the six months ended September 30, 2026.

Net cash provided by financing activities was $27,481,000 compared with net cash used in financing activities of $24,341,000 during the six months ended September 30, 2026 and 2025, respectively. The change in our financing activities was primarily due to net borrowing of $31,927,000 during the six months ended September 30, 2026 compared with net repayments of $18,368,000 during the six months ended September 30, 2025 under our revolving facility.

Capital Resources

Credit Facility

We have $268,620,000 in senior secured financing (as amended from time to time, the "Credit Facility") consisting of a $238,620,000 revolving loan facility (the "Revolving Facility"), subject to certain restrictions, and a $30,000,000 term loan facility (the "Term Loans"). The Term Loans were repaid during the year ended March 31, 2024. The lenders have a security interest in substantially all our assets.

On August 6, 2026, we entered into a ninth amendment to the Credit Facility, which among other things, (i) extended the maturity date from December 12, 2028 to August 4, 2031; provided, that if any of the Convertible Notes (as defined below) remain outstanding (or were redeemed, repurchased, converted, or otherwise retired other than pursuant to one or more cashless (except for payments in cash for fees, expenses, and to avoid fractional shares not to exceed $250,000 in the aggregate) transactions) on the date that is ninety-one (91) days prior to the then-current stated maturity of the Convertible Notes, and such date is earlier than August 4, 2031, then the Credit Facility shall mature on such earlier date, (ii) amended the definition of consolidated EBITDA, and (iii) amended the definition of suppressed availability.

We had $126,595,000 and $94,668,000 outstanding under the Revolving Facility at September 30, 2026 and March 31, 2026, respectively. In addition, $15,470,000 was outstanding for letters of credit at September 30, 2026. At September 30, 2026, after certain contractual adjustments, $84,008,000 was available under the Revolving Facility. The interest rate on our Revolving Facility was 6.88% and 6.79%, at September 30, 2026 and March 31, 2026, respectively.

The Credit Facility requires us to maintain; (i) a minimum fixed charge coverage ratio if undrawn availability is less than 22.5% of the aggregate revolving commitments and (ii) a specified minimum undrawn availability. During the three and six months ended September 30, 2026, undrawn availability was greater than the 22.5% threshold at all times, therefore, the fixed charge coverage ratio financial covenant was not required to be tested at any point during the fiscal period.

Convertible Notes, Related Party

On March 31, 2023, we entered into a note purchase agreement, as amended, (the "Note Purchase Agreement") with Bison Capital Partners VI, L.P. and Bison Capital Partners VI-A, L.P. (collectively, the "Purchasers") and Bison Capital Partners VI, L.P., as the purchaser representative (the "Purchaser Representative") for the issuance and sale of $32,000,000 in aggregate principal amount of convertible notes due in 2029 (the "Convertible Notes"), which was used for general corporate purposes. The Convertible Notes bear interest at a rate of 10.0% per annum, compounded annually, and payable (i) in-kind or (ii) in cash, annually in arrears on April 1 of each year, commencing on April 1, 2024. In April 2026, non-cash accrued interest on the Convertible Notes of $3,873,000 was paid in-kind and is included in the principal amount of Convertible Notes at September 30, 2026. The Convertible Notes have an initial conversion price of $15.00 per share of our common stock, subject to adjustment as provided in the Convertible Notes ("Conversion Option"). Unless and until we deliver a redemption notice, the Purchasers of the Convertible Notes may convert their Convertible Notes at any time at their option. Upon conversion, the Convertible Notes will be settled in shares of our common stock. We may redeem all or part of the Convertible Notes for a cash purchase (the "Company Redemption") price. The effective interest rate was 18.3% as of September 30, 2026 and March 31, 2026, respectively.

In connection with the Note Purchase Agreement, we entered into common stock warrants (the "Warrants") with the Purchasers, which mature on March 30, 2029. The fair value of the Warrants, using Level 3 inputs and the Monte Carlo simulation model, was zero at September 30, 2026 and March 31, 2026.

The Company Redemption option has been combined with the Conversion Option as a compound net derivative liability (the "Compound Net Derivative Liability"). The Compound Net Derivative Liability has been recorded within convertible note, related party in the condensed consolidated balance sheets at September 30, 2026 and March 31, 2026. The fair value of the Conversion Option and the Company Redemption option using Level 3 inputs and the Monte Carlo simulation model was a liability of $8,900,000 and $16,900,000, and an asset of $4,260,000 and $10,560,000 at September 30, 2026 and March 31, 2026, respectively. During the three months ended September 30, 2026 and 2025, we recorded a non-cash gain of $3,240,000 and a non-cash loss of $2,260,000, respectively, as the change in fair value of the Compound Net Derivative Liability in the condensed consolidated statements of operations. During the six months ended September 30, 2026 and 2025, we recorded a non-cash gain of $1,700,000 and a non-cash loss of $4,050,000, respectively, as the change in fair value of the Compound Net Derivative Liability in the condensed consolidated statements of operations and condensed consolidated statements of cash flows.

The Convertible Notes also contain additional features, such as, default interest and options related to a fundamental transaction, which were not separately accounted for as the value of such features were not material at September 30, 2026 and March 31, 2026.

Accounts Receivable Discount Programs

We use accounts receivable discount programs offered by certain customers and their respective banks. Under these programs, we have options to sell those customers' receivables to those banks at a discount to be agreed upon at the time the receivables are sold. These discount arrangements allow us to accelerate receipt of payment on customers' receivables. While these arrangements have reduced our working capital needs, there can be no assurance that these programs will continue in the future. Interest expense resulting from these programs would increase if interest rates rise, if utilization of these discounting arrangements expands, if customers extend their payment to us, or if the discount period is extended to reflect more favorable payment terms to customers.

The following is a summary of the accounts receivable discount programs:

	Six Months Ended September 30,	
	2026	2025
Receivables discounted	$ 283,892,000	$ 339,254,000
Weighted average number of days collection was accelerated	346	345
Annualized weighted average discount rate	5.6%	5.6%
Amount of discount recognized as interest expense	$ 15,364,000	$ 18,098,000

Supplier Finance Programs

We utilize a supplier finance program, which allows certain of our suppliers to sell their receivables due from us to participating financial institutions at the sole discretion of both the supplier and the financial institutions. The program is administered by a third party. Commitments from participating financial institutions that are available to suppliers under this program were $40,000,000 as of September 30, 2026. We have no economic interest in the sale of these receivables and no direct relationship with the financial institution. Payments to the third-party administrator are based on services rendered and are not related to the volume or number of financing agreements between suppliers, financial institution, and the third-party administrator. We are not a party to agreements negotiated between participating suppliers and the financial institution. Our obligations to our suppliers, including amounts due and payment terms, are not affected by a supplier's decision to participate in this program. We do not provide guarantees and there are no assets pledged to the financial institution or the third-party administrator for the committed payment in connection with this program. At September 30, 2026 and March 31, 2026, we had $38,789,000 and $42,076,000, respectively, in outstanding supplier obligations confirmed as valid under this program, included in accounts payable in the condensed consolidated balance sheets.

Capital Expenditures and Commitments

Capital Expenditures

Our total capital expenditures were $1,698,000 and $3,866,000 for six months ended September 30, 2026 and 2025, respectively. These capital expenditures include (i) cash paid for the purchase of plant and equipment, (ii) plant and equipment acquired under finance leases, and (iii) accrued capital expenditures. Capital expenditures for the six months ended September 30, 2026 primarily include the purchase of equipment for our current operations. We expect to incur approximately $7,000,000 of capital expenditures primarily to support our operations in fiscal 2027. We have used and expect to continue using our working capital and additional capital lease obligations to finance these capital expenditures.

Related Party Transactions

Lease

We have an operating lease for our 35,000 square foot manufacturing, warehouse, and office facility in Ontario, Canada, with a company co-owned by a member of management. We renewed this operating lease for an additional three-year period, effective January 1, 2025. The rent expense recorded for this related party lease was $93,000 and $94,000 for the three months ended September 30, 2026 and 2025, respectively, and $186,000 and $187,000 for the six months ended September 30, 2026 and 2025, respectively.

Convertible Note and Election of Director

In connection with the issuance and sale of our Convertible Notes on March 31, 2023, the Board appointed Douglas Trussler, a co-founder of Bison Capital, to the Board. Mr. Trussler's compensation is different from the compensation for other non-employee directors as described in our Definitive Proxy Statement, filed with the SEC on July 29, 2026.

Litigation

We are subject to various lawsuits and claims. In addition, government agencies and self-regulatory organizations have the ability to conduct periodic examinations of and administrative proceedings regarding our business, and our compliance with law, code, and regulations related to all matters including but not limited to environmental, information security, taxes, levies, and tariffs. In the opinion of management, such litigation is not expected to have a material effect on our financial condition, results of operations, and cash flows.

Critical Accounting Policies

There have been no material changes to our critical accounting policies and estimates that are presented in our Annual Report on Form 10-K for the year ended March 31, 2026, which was filed with the SEC on June 8, 2026.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in market risk from the information provided in Item 7A. "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K as of March 31, 2026, which was filed with the SEC on June 8, 2026.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures designed to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and that such information is accumulated and communicated to management, including our chief executive officer, chief financial officer, and chief accounting officer, as appropriate to allow timely decisions regarding required disclosures.

Under the supervision and with the participation of management, including our chief executive officer, chief financial officer, and chief accounting officer, we have conducted an evaluation of the effectiveness of our disclosure controls and procedures as defined in Exchange Act Rules 13a-15(e) and 15d-15(e). Based on this evaluation, our chief executive officer, chief financial officer, and chief accounting officer concluded that MPA's disclosure controls and procedures were effective as of September 30, 2026.

Inherent Limitations on Effectiveness of Controls

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Exchange Act Rules 13a-15(f) and 15d-15(f).

Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America, applying certain estimates and judgments as required.

Internal control over financial reporting includes those policies and procedures that:

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;

2. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and

3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) that occurred during the three months ended September 30, 2026 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to various lawsuits and claims. In addition, government agencies and self-regulatory organizations have the ability to conduct periodic examinations of and administrative proceedings regarding our business, and our compliance with law, code, and regulations related to all matters including but not limited to environmental, information security, taxes, levies, tariffs and such. We have an immaterial amount accrued related to these exposures to various lawsuits, claims, examinations, and administrative proceedings.

Item 1A. Risk Factors

There have been no material changes in the risk factors set forth in Item 1A to Part I of our Annual Report on Form 10-K for the fiscal year ended March 31, 2026 as filed with the SEC on June 8, 2026.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Limitation on Payment of Dividends and Share Repurchases

The Credit Facility currently permits the payment of up to $24,325,000 of dividends and share repurchases for fiscal year 2027, subject to pro forma compliance with amended financial covenants.

Purchases of Equity Securities by the Issuer

Shares repurchased during the three months ended September 30, 2026 were as follows:

Periods	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs (1)

Open market and privately negotiated purchases	-	$ -	-	20,143,000
Total	0		0	$ 20,143,000

(1) In December 2025, our board of directors approved an increase in our share repurchase program from $37,000,000 to $57,000,000 of our common stock. As of September 30, 2026, $36,857,000 has been utilized and $20,143,000 remains available to repurchase shares under the authorized share repurchase program, subject to the limit in our Credit Facility and Convertible Notes. We retired the 2,464,272 shares repurchased under this program through September 30, 2026. Our share repurchase program does not obligate us to acquire any specific number of shares and shares may be repurchased in privately negotiated and/or open market transactions.

Item 3. Defaults Upon Senior Securities

None.

Item 5. Other Information

(a) None.

(b) None.

(c) During the quarter ended September 30, 2026, no director or officer of the Company adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement” as each such term is defined in Item 408 of Regulation S-K.
