Non-GAAP Financial Measures:

While the Company reports financial results in accordance with accounting principles generally accepted in the United States of America ("GAAP"), this presentation includes certain Non-GAAP measures, including Adjusted Revenue, Adjusted EBITDA, Adjusted EBITDA margin, Free Cash Flow, Adjusted Net Income, and Adjusted Net Income per Diluted Common Share (Adjusted EPS), which are not presented in accordance with GAAP and should not be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. The Company also uses information on (i) the impact of the adjustments required to compute Adjusted Net income and Adjusted EBITDA on line items reported in the Company's consolidated statements of operations, as applicable, and (ii) Adjusted fixed operating expenses, which is Total operating expenses, as reported in the Company's consolidated statements of operations, adjusted to exclude (a) certain operating expenses which are generally more likely to vary based on changes in business volumes and (b) amounts which are excluded in the computation of Adjusted EBITDA. The Company uses non-GAAP financial measures for financial and operational decision-making and as a basis to evaluate performance and set targets for employee compensation programs. The Company believes that these non-GAAP financial measures are useful for analysts and investors to evaluate the Company's ongoing operating performance because they facilitate comparison of the Company's results for the current period and projected next-period results to those of prior periods and to those of its competitors (though other companies may calculate similar non-GAAP financial measures differently from those calculated by the Company). These non-GAAP financial measures, in particular Adjusted Net income, Adjusted EBITDA, and Free cash flow, are not intended to represent funds available for Booking Holdings' discretionary use and are not intended to represent or to be used as a substitute for Operating income, Net income, or Net cash provided by operating activities as measured under GAAP. The items excluded from these non-GAAP measures, but included in the calculation of their closest GAAP equivalent, are significant components of the Company's consolidated statements of operations and cash flows and must be considered in performing a comprehensive assessment of overall financial performance. For a reconciliation of Adjusted Revenue, Adjusted EBITDA, Adjusted EBITDA margin, Free Cash Flow, Adjusted Net Income, Adjusted EPS, and Adjusted Fixed Operating Expenses to the comparable GAAP measures, see the Appendix. We evaluate certain operating and financial measures on both an as-reported and constant currency basis. We calculate constant currency measures based on the predominant transactional currency in each country, converting our current-year period results in currencies other than U.S. Dollars using the corresponding prior-year period monthly average exchange rates. We are not able to provide a reconciliation between forward-looking Adjusted Revenue, Adjusted EBITDA, and Adjusted EPS, and their comparable GAAP measures as we cannot, without unreasonable effort, forecast certain items required to develop meaningful comparable GAAP measures and predict certain components of such reconciliation as they arise from events in future periods. This is due to the unpredictable nature of these reconciling items, which would require an unreasonable effort to forecast, and would result in a large range of projected values that would not be meaningful to investors. See Item 10(e)(1)(i)(B) of SEC Regulation S-K.

Q3 Highlights

- The acceleration in room nights in Q3 from Q2 was driven by an improvement in international travel from bookers in Europe and Asia, while domestic room night growth was stable at a higher level. Globally, domestic room nights grew high single digits and international room nights grew mid single digits.

- In Q3, we continued to navigate the indirect impacts of the conflict in the Middle East, with elevated airfares and reduced capacity on certain routes weighing on long-haul travel demand.

- Room night growth by region[2]:
  - **Europe**: up **high single digits**
  - **Asia**: up **high single digits**
  - **RoW**: up **mid single digits**
  - **U.S.**: up **mid single digits**

Q3 Highlights

- Gross Bookings growth of 10% was due to:
  - Room night growth of 7%
  - A positive impact from Constant Currency (“CC”) ADRs up about 3%
  - A positive contribution from flights and other verticals
  - Partially offset by a negative impact from changes in FX of about 1 percentage point year-over-year
- CC Gross Bookings growth was about 11%

Q3 Adjusted Revenue Grew 9%, which Benefited from Payments Revenue

Adjusted Revenue[(1)] by Quarter

(figures in billions)

(1) Refer to Appendix for reconciliation of Non-GAAP measures.

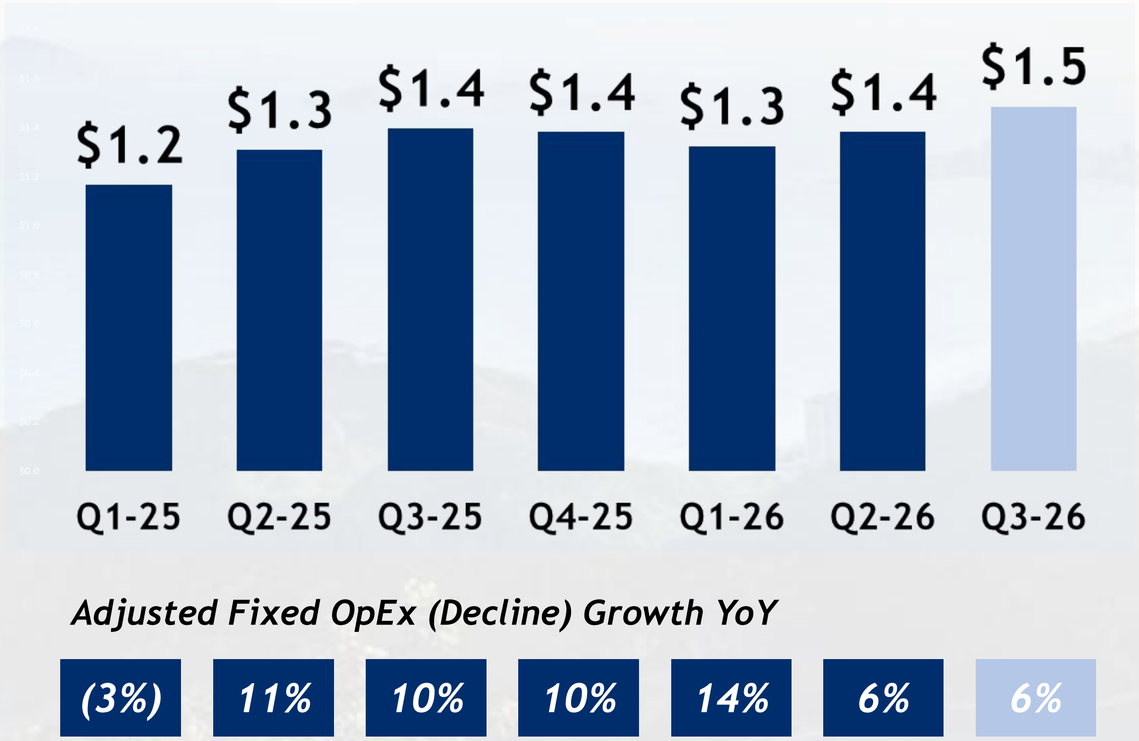

Q3 Highlights

- Adjusted Revenue growth was slightly below the 10% gross bookings growth due to a higher mix of flight bookings and the timing of bookings versus travel, partially offset by higher revenues from facilitating payments.
- CC Adjusted Revenue growth was about 10%[(1)]

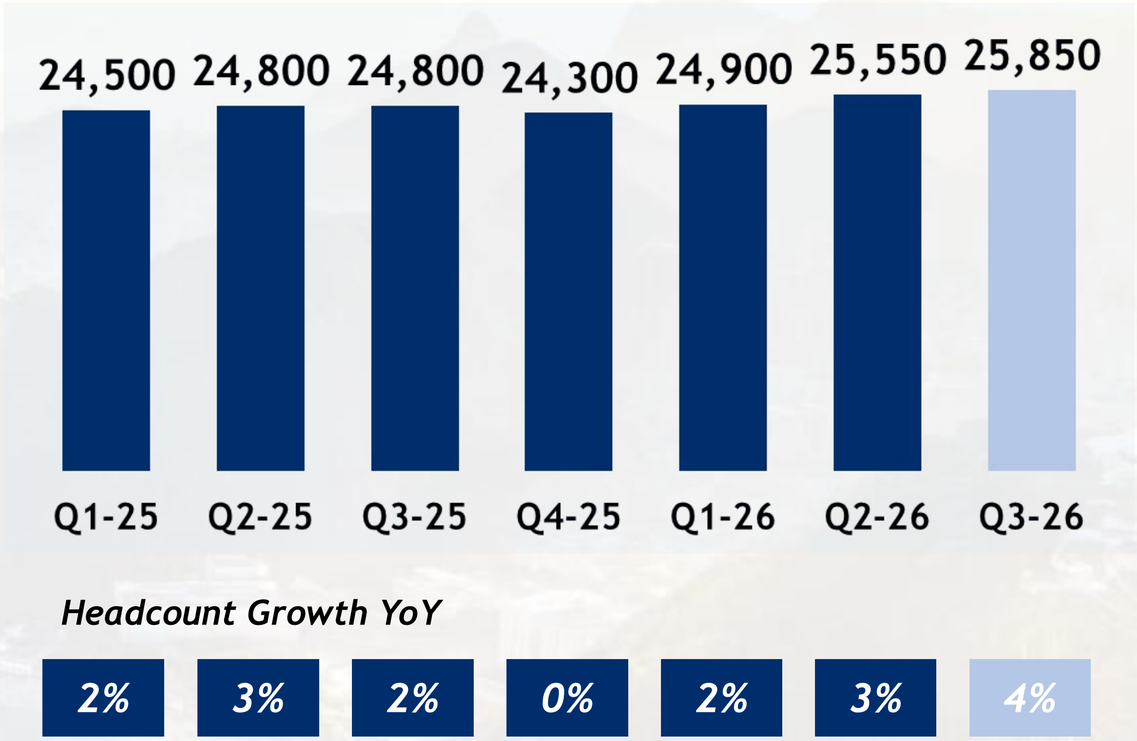

Q3 Adjusted Fixed OpEx Grew 6%, Slower than Adjusted Revenue Growth, due to Disciplined Cost Management

Q3 Adjusted EBITDA Grew Slightly Faster than Adjusted Revenue

- Q3 Adjusted EBITDA as a percentage of Adjusted Revenue had slight leverage driven by Adjusted Fixed Operating Expenses and Sales & Other Expenses, partially offset by slight deleverage in our Marketing Expenses. The slight Marketing deleverage was driven primarily by faster growth in B2B affiliate marketing expenses.
- Q3 Adjusted EPS grew 17%, faster than Adjusted EBITDA, helped by a 7.5% reduction in our average share count

Q4 2026 Guidance

	YoY Growth	
	Reported[1]	Constant Currency
Room Nights	1% to 3%	
Gross Bookings	2% to 4%	4% to 6%
Adjusted Revenue	0% to 2%	2% to 4%
Adjusted EBITDA[2][3]	About Flat	up ~2%

- We saw some moderation in global demand trends toward the end of the third quarter, driven by international travel. Domestic travel continues to hold up as we are seeing travelers take shorter trips and choose destinations closer to home. In October, a number of external factors have also affected demand, including disruptions to travel to and from the Middle East, the conflict's broader indirect effects such as elevated airfares, and localized unrest in certain European cities.

- Our guidance reflects these near-term disruptions and assumes that both the direct and indirect impacts of the Middle East conflict on travel persist through the end of the year

(1) Reported Gross Bookings, Adjusted Revenue, and Adjusted EBITDA growth are each expected to be negatively impacted by about 2% from year-over-year changes in FX.

(2) We are not able to provide a reconciliation between forward-looking Adjusted Revenue and Adjusted EBITDA, and their comparable GAAP measures as we cannot, without unreasonable effort, forecast certain items required to develop meaningful comparable GAAP measures and predict certain components of such reconciliation as they arise from events in future periods. This is due to the unpredictable nature of these reconciling items, which would require an unreasonable effort to forecast, and would result in a large range of projected values that would not be meaningful to investors.

(3) Excludes certain costs expected to be incurred related to the previously disclosed Transformation Program.

FY 2026 Guidance

	Reported YoY Growth[1]
Gross Bookings	High Single Digits
Adjusted Revenue	High Single Digits
Adjusted EBITDA[2][3]	High Single Digits
Adjusted EPS[2][3]	Low to Mid-Teens

- For the full-year, on a reported basis, we continue to expect gross bookings, adjusted revenue, and adjusted EBITDA to be up high single digits, and adjusted EPS to be up low to mid-teens
- At the high-end, this outlook is broadly in line with our long-term constant currency growth ambition of at least 8% for gross bookings and adjusted revenue, and 15% for adjusted EPS

(1) Reported Gross Bookings growth is expected to be positively impacted by about 1% from year-over-year changes in FX. Adjusted Revenue growth is expected to be positively impacted by about 0.5% from year-over-year changes in FX. Adjusted EBITDA and Adjusted EPS growth are expected to have a limited impact from year-over-year changes in FX.

(2) We are not able to provide a reconciliation between forward-looking Adjusted Revenue, Adjusted EBITDA, and Adjusted EPS, and their comparable GAAP measures as we cannot, without unreasonable effort, forecast certain items required to develop meaningful comparable GAAP measures and predict certain components of such reconciliation as they arise from events in future periods. This is due to the unpredictable nature of these reconciling items, which would require an unreasonable effort to forecast, and would result in a large range of projected values that would not be meaningful to investors.

(3) Excludes certain costs expected to be incurred related to the previously disclosed Transformation Program.

Appendix: Reconciliation of GAAP to Non-GAAP Financial Information

Notes:

(a) The Company recorded a reduction in revenue of $900 million and accrued a loss of $100 million related to a Federal Trade Commission ("FTC") matter, which have been excluded from Total revenues and Net income to calculate Adjusted revenue, Adjusted Net income, and Adjusted EBITDA (and other related measures), as applicable. See footnote 13 to the financial statements included in the Company's Form 10-Q for the quarter ended September 30, 2026.

(b) Adjustments related to the Netherlands pension fund matter are recorded in Personnel expenses and General and administrative expenses, as applicable. During the year ended December 31, 2025, the Netherlands pension fund matter related to 2023 and earlier years was resolved resulting in $123 million reduction to the related accruals, and has been excluded from Net income to calculate Adjusted Net income and Adjusted EBITDA. When the liability related to these years was initially recorded in the Company's Consolidated Financial Statements for 2023, its impact was excluded from the Non-GAAP results for that year.

(c) Adjustments for the impact of certain indirect tax matters are recorded in General and administrative expenses and excluded from Net income to calculate Adjusted Net income and Adjusted EBITDA.

(d) In the first quarter of 2026, the Company entered into favorable settlement agreements to resolve litigation matters in which it was a plaintiff, for which it received a benefit of $89 million.

(e) Depreciation and amortization, Interest and dividend income, Interest expense, and Income tax expense are excluded from Net income to calculate Adjusted EBITDA.

(f) Impairment of KAYAK's goodwill and certain intangible assets is recorded in Impairment and excluded from Net income to calculate Adjusted Net income and Adjusted EBITDA.

(g) In November 2024, the Company announced its intention to implement certain organizational changes to improve operating expense efficiency, increase organizational agility, free up resources that can be reinvested into further improving its offering to travelers and partners, and better position the Company for the long-term. Certain costs incurred in connection with this Transformation Program, which are not considered normal operating expenses, are excluded from Net income to calculate Adjusted Net income and Adjusted EBITDA. These costs are recorded in Transformation costs and primarily consist of professional fees and employee termination benefits.

(h) Net (gains) losses on equity securities with readily determinable fair values and significant impairments of investments in equity securities are recorded in Other income (expense), net and excluded from Net income to calculate Adjusted Net income and Adjusted EBITDA.

(i) Foreign currency transaction losses (gains) on the remeasurement of Euro-denominated debt and accrued interest that are not designated as hedging instruments for accounting purposes and gains on debt-related foreign currency derivative instruments used as economic hedges are recorded in Other income (expense), net and excluded from Net income to calculate Adjusted Net income and Adjusted EBITDA.

(j) For the quarters ended December 31, 2024, March 31, 2025, and June 30, 2025, the Company recorded losses of $796 million, $234 million, and $126 million, respectively, related to the conversion option on the convertible senior notes that matured in May 2025, which primarily represents the changes in the fair value of an embedded derivative and amortization of debt discount. Under U.S. GAAP, the conversion option was required to be accounted separately as an embedded derivative as, during the quarter ended December 31, 2024, the Company irrevocably elected cash as the settlement method for the conversion premium on the maturity of the notes. Adjustments related to the convertible senior notes, primarily for the amortization of the debt discount and the change in fair value of the conversion option, are recorded in Interest expense and Other income (expense), net, as applicable, and excluded from Net income to calculate Adjusted Net income and Adjusted EBITDA.

(k) Loss on early extinguishment of debt is recorded in Other income (expense), net and excluded from Net income to calculate Adjusted Net income and Adjusted EBITDA.

(l) For the three months ended June 30, 2024, includes an accrual related to the Canadian digital services taxes for the years ended December 31, 2022 and 2023 enacted in June 2024 with retrospective effect, which is recorded in Sales and other expenses. For the three months ended March 31, 2026, includes a benefit related to the Canadian digital services taxes for the years ended December 31, 2022 and 2023 as it was repealed in March 2026. These adjustments are excluded from Net income to calculate Adjusted Net income and Adjusted EBITDA.

(m) Adjustments related to the fine imposed by the Spanish competition authority are recorded in General and administrative expenses and excluded from Net income to calculate Adjusted Net income and Adjusted EBITDA.

(n) Amortization of intangible assets is recorded in Depreciation and amortization expenses and excluded from Net income to calculate Adjusted Net income.

(o) Discrete tax items include a tax expense of $56 million related to the one-time deemed repatriation income tax liability resulting from the U.S. Tax Cuts and Jobs Act and the tax impacts of certain intercompany asset transfers, which are excluded from Net income to calculate Adjusted Net income.

(p) Reflects the tax impact of Non-GAAP adjustments above and changes in tax estimates, as applicable, which are excluded from Net income to calculate Adjusted Net income.

(q) Cash used for additions to property and equipment is included in the calculation of Free cash flow.

For (a) - (q) above, Total revenues, Net income, Sales and other expenses, Personnel expenses, General and administrative expenses, Transformation costs, Interest and dividend income, Other income (expense), net, Depreciation and amortization expenses, Impairment expense, Interest expense, and Income tax expense, as applicable, refers to the respective line item in the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2025 or in the Company's Quarterly Report on Form 10-Q for the period ended September 30, 2026.
