Key Goals of Universal Digital Bank

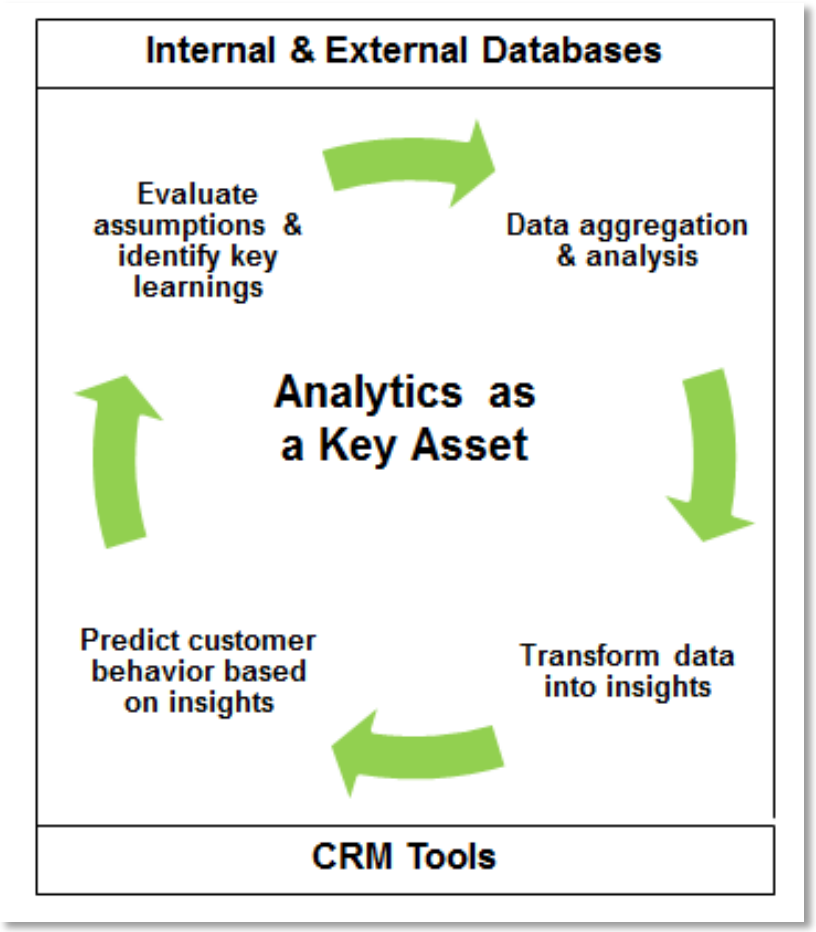

Personalization	• Increase chance of offering right product at the right time and place • Personalization is the right antidote for too much choice, too much content, and not enough time
Self-Service	• Eventual artificial intelligence tools assist sale of banking products such as deposits, loans, and mortgages • Products optimized by channel, recipient and journey • Self service saves time and cost (e.g., activate and de-activate debit-card in platform, send wires via self-service)
Facilitate Partnerships	• Easy integration of third-party features (e.g., biometrics) • Access to value added tools (e.g., robo-advisory, automated savings features) either proprietary or third party • Enable creative customer acquisition partners
Customizable Experience	• Provide holistic and interactive and intuitive design experience • Integrate online experience with other channels
Cross-Sell	• Artificial intelligence and big data credit models enable quick credit decisions • Customized product recommendations based upon analytical determination of need

Universal Digital Bank Consumer Platform

Advanced Data Analytics Provides Key Insights Into Customer Engagement, Profitability, and Retention to Enhance Customer Lifetime Throughout the Bank

Framework for Data Analysis

Key Learnings

- Retention & Attrition Drivers to Boost Long-Term Customer Engagement
- Customer Segmentation Methodology to Understand Usage & Behavior
