"American consumers turned the holiday season on its head, redefining 'home for the holidays' in a uniquely 2020 way. They shopped from home for the home, leading to record e-commerce growth," said Steve Sadove, senior advisor for Mastercard and former CEO and Chairman of Saks Incorporated. "And, consumers shopped earlier than

ever before. Across our expanded 75-day holiday shopping season, sales were up 3.0%, a testament to the holiday season and strength of retailers and consumers alike.”

Key findings from Mastercard SpendingPulse underscore the shift to online spending, with e-commerce accounting for 19.7% of overall retail sales – up from approximately 13.4% in 2019. In addition, consumers continue to spend more time – and money – on their homes.

- Home furniture and furnishings experienced the strongest growth of any sector compared to 2019, up 16.2%, and it grew 31.0% online specifically. In addition, home improvement was up 14.1%, with e-commerce sales up 79.7%.
- Meanwhile, apparel experienced a decline of 19.1% year over year, while electronics and appliances were up 6.0% overall.
- Department stores saw overall sales decline of 10.2% and online sales growth of 3.3%, reinforcing the importance of omnichannel offerings. Buy online, pick up in store as well as technologies like contactless were key for retailers this season.

Mastercard SpendingPulse™: Sector Snapshot Expanded Holiday Season: October 11 – December 24		
	Total YOY Retail Sales Growth	YOY E-Commerce Sales Growth
Apparel	-19.1%	15.7%
Department Stores	-10.2%	3.3%
Electronics & Appliances	6.0%	—
Furniture & Furnishings	16.2%	31.0%

This season, U.S. consumers shopped far earlier than in years past, as retailers offered special promotions early and often. In addition, though Black Friday was down (-16.1%*), Thanksgiving weekend through Cyber Monday remained a key time for shoppers, with Black Friday being the top spending day of the 2020 holiday season.

*Total Retail Sales excluding automotive and gasoline sales

About Mastercard SpendingPulse:

Mastercard SpendingPulse reports on national retail sales across all payment types in select markets around the world. The findings are based on aggregate sales activity in the Mastercard payments network, coupled with survey-based estimates for certain other payment forms, such as cash and check.

Mastercard SpendingPulse defines “U.S. retail sales” as sales at retailers and food services merchants of all sizes. Sales activity within the services sector (for example, travel services such as airlines and lodging) are not included. Holiday spending insights are preliminary.

About Mastercard

Mastercard is a global technology company in the payments industry. Our mission is to connect and power an inclusive, digital economy that benefits everyone, everywhere by making transactions safe, simple, smart and accessible. Using secure data and networks, partnerships and passion, our innovations and solutions help individuals, financial institutions, governments and businesses realize their greatest potential. Our decency quotient, or DQ, drives our culture and everything we do inside and outside of our company. With connections across more than 210 countries and territories, we are building a sustainable world that unlocks priceless possibilities for all.
