

NEWS RELEASE

Longeveron to Present at the H.C. Wainwright 28th Annual Global Investment Conference

2026-09-03

MIAMI, Sept. 03, 2026 (GLOBE NEWSWIRE) -- **Longeveron Inc.** (NASDAQ: LGVN), a clinical stage regenerative medicine biotechnology company developing cellular therapies for life-threatening and chronic aging-related conditions, today announced that it will participate in the H.C. Wainwright 28th Annual Global Investment Conference taking place September 14-16, 2026 in New York City.

Details for the Company's presentation:

Date:	Monday, September 14, 2026
Time:	1:00 – 1:30 p.m. ET

The webcast for this conference presentation may be accessed at the “**Events and Presentations**” section of the Company's website.

About Longeveron Inc.

Longeveron is a clinical stage biotechnology company developing regenerative medicines to address unmet medical needs. The Company's lead investigational product is laromestrocel (Lomecel-B[®]), an allogeneic mesenchymal stem cell (MSC) therapy product isolated from the bone marrow of young, healthy adult donors. Laromestrocel has multiple potential mechanisms of action encompassing pro-vascular, pro-regenerative, anti-inflammatory, and

tissue repair and healing effects with broad potential applications across a spectrum of disease areas. Longeveron is pursuing four pipeline indications: hypoplastic left heart syndrome (HLHS), Alzheimer's disease (AD), Pediatric Dilated Cardiomyopathy (DCM) and Aging-related Frailty. Laromestrocel development programs have received five distinct and important U.S. FDA designations: for the HLHS program - Orphan Drug designation, Fast Track designation, and Rare Pediatric Disease designation; and, for the AD program - Regenerative Medicine Advanced Therapy (RMAT) designation and Fast Track designation.
