Safe Harbor Statement, Industry and Market Data and Financial Information

Forward-Looking Statements

This presentation includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions, or projections regarding future events or future results and therefore are, or may be deemed to be, "forward-looking statements" within the meaning of the "safe harbor provisions" of the Private Securities Litigation Reform Act of 1995. These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms "believes," "estimates," "anticipates," "expects," "seeks," "projects," "intends," "plans," "may," "will," or "should" or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts, and include statements regarding our intentions, beliefs, or current expectations concerning, among other things, anticipated cost savings, results of operations, financial condition, liquidity, prospects, growth, strategies, and the markets in which we operate. Such forward-looking statements are based on available current market material and management's expectations, beliefs, and forecasts concerning future events impacting us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks and uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described in Item *1A. Risk Factors* of our annual report on Form 10-K, along with our other filings with the U.S. Securities and Exchange Commission ("SEC"). Should one or more of these risks or uncertainties materialize, or should any of the assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws. Please consult our public filings with the SEC, which are also available on our website at www.clarivate.com.

Industry and Market Data

The market data and other statistical information used throughout this presentation are based on industry publications and surveys, public filings, and various government sources. Industry publications and surveys generally state that the information contained therein has been obtained from sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of the included information. We have not independently verified such third-party information, nor have we ascertained the underlying economic assumptions relied upon in those sources, and we are unable to assure you of the accuracy or completeness of such information contained in this presentation. While we are not aware of any misstatements regarding our market, industry, or similar data presented herein, such data involve risks and uncertainties and are subject to change based on various factors.

Financial Information

Unless otherwise noted, references to Clarivate or segment revenue refer to revenue for Clarivate Plc or a specific segment, as applicable, for the trailing twelve months ended September 30, 2025, excluding disposals. References to proprietary revenue percentage are based on solutions which are materially enhanced by Clarivate's intellectual property.

Uniquely comprehensive, expertly curated and enriched AI-ready data engine delivers differentiated intelligence across the innovation value chain

Curated and Enriched

Expertly selected and enhanced by in-house subject matter experts

Deep and Longitudinal

Current and historical data objects curated across multiple decades

Comprehensive

Unmatched data set breadth and depth across innovation value chain

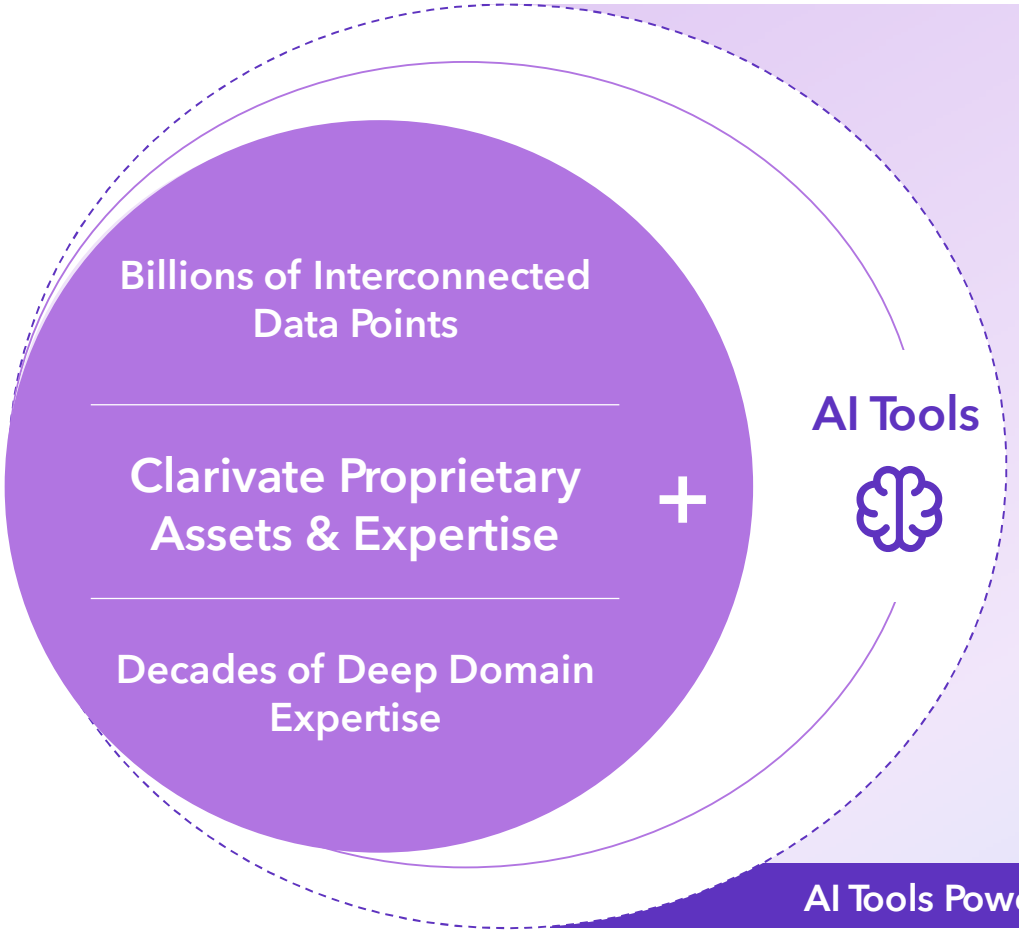

AI-Optimized

Structured and enriched data sets for a high degree of accuracy and low risk of hallucinations

Our proprietary assets and expertise, combined with cutting-edge technology, positions us to deliver amplified intelligence in the age of AI

PROPRIETARY INTELLIGENCE AMPLIFIED BY AI

Clarivate AI Research Assistants

Conversational, contextual AI driven search and discovery; a "front door" to our trusted intelligence

Clarivate AI Workflow Agents

AI Agents embedded across customer workflows, serving as "digital workers", enabling execution at speed

Clarivate AI Ecosystem Access

Extending our gold-standard intelligence across the AI ecosystem through secure integrations such as MCP servers

AI Tools Powered by Licensed LLMs, RAG Data Access, and MCP Workflow Integration

© 2026 Clarivate. All rights reserved.

Our AI platform delivers customer value through faster insight, automated workflows, and expanded reach

Clarivate AI Research Assistants

Enable customers to find, synthesize, and validate trusted insights faster through query-specific, source-backed outputs that can be trusted

Drive Adoption and Retention

Clarivate AI Workflow Agents

Automate complex workflows such as literature reviews by deploying AI agents that execute and validate work across our proprietary solutions

Unlock New Revenue Streams

Clarivate AI Ecosystem Access

Enable customers to access and apply Clarivate's trusted intelligence across the AI ecosystem, e.g. Leading AI Tools, AI Browsers and Custom Workflows

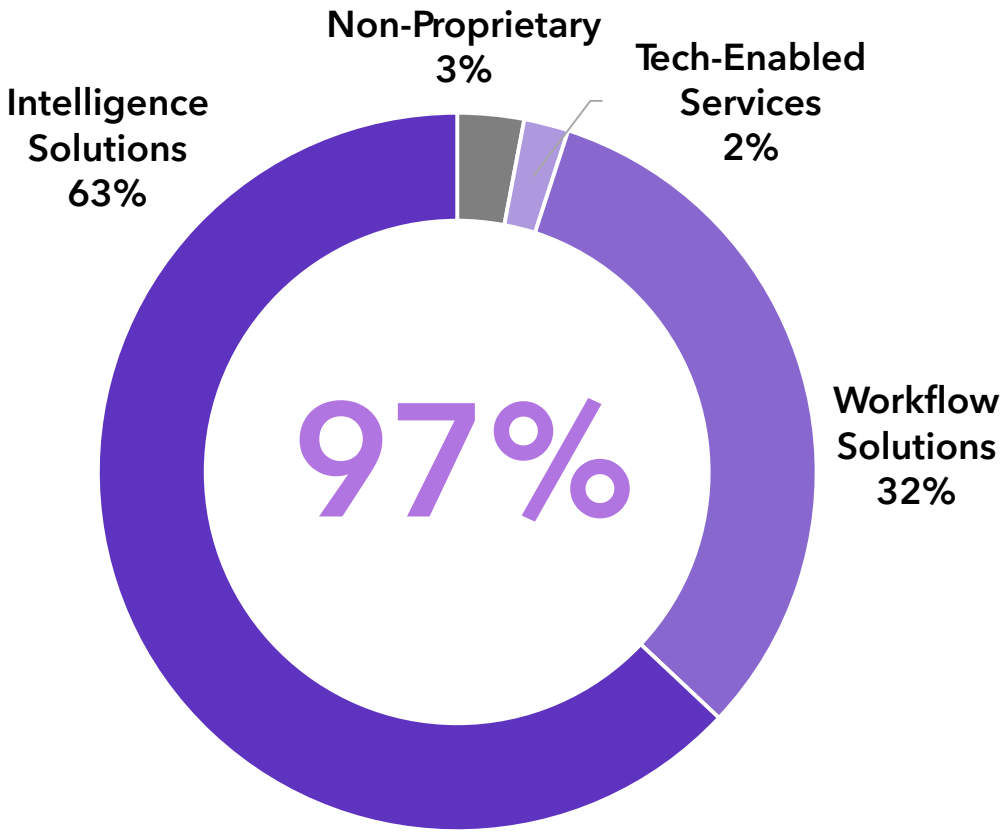

Extend Platform Reach
