

# Our Commitment To Advance Health Equity

In August 2020 BMS announced a commitment to invest \$150 million to advance diversity, inclusion and health equity. BMS is delivering on this commitment by donating funds to leading nonprofits serving medically underserved populations across the U.S. These organizations will deliver programs to improve access to high-quality care as well as increase disease awareness and education in racially and ethnically diverse and medically underserved communities, and to improve diversity in clinical research.

## 56

Organizations

## \$11M

in Grants

## 4

Core Therapeutic Areas

Oncology

Cardiovascular Disease (CVD)

Hematology

Immunology

## Disease Awareness & Education

### 28

Grants

- LGBTQ patients and their HCPs
- Elderly and underserved patients in rural communities
- Asian American, Pacific Islander and African Immigrant Communities
