Forward-looking Statements

- This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, regarding InterDigital, Inc.'s current beliefs, plans and expectations, as to: (i) future results, projections and trends; (ii) its strategy and business plan; (iii) the company's future revenues and expenses; (iv) investments; (v) partnerships, commercial initiatives and other potential business and revenue opportunities, including through new markets; (vi) technology development timelines; and (vii) future global mobile device and IoT device shipments and market opportunities. Such statements are subject to the safe harbor created by those sections.
- Words such as "anticipate," "believe," "estimate," "expect," "project," "intend," "plan," "forecast," "will," variations of any such words or similar expressions, and graphical timelines representing future estimates or events are intended to identify such forward-looking statements. Forward-looking statements are subject to risks and uncertainties. Actual outcomes could differ materially from those expressed in or anticipated by such forward-looking statements due to a variety of factors, including, without limitation: (i) the market relevance of our technologies; (ii) changes in the needs, availability, pricing and features of competitive technologies as well as those of strategic partners or consumers; (iii) unanticipated technical or resource difficulties or delays related to further development of our technologies; (iv) the entry into additional patent license, patent sales or technology solutions agreements; (v) the accuracy of market sales projections of the company's licensees and timely receipt and final reviews of quarterly royalty reports from the company's licensees and related matters; (vi) our ability to successfully identify and launch new commercial businesses; (vii) our ability to successfully identify and expand into new markets; (viii) our ability to enter into partnerships, strategic relationships or complementary investment opportunities on acceptable terms; (ix) changes in the market share and sales performance of our primary licensees, delays in product shipments of our licensees and timely receipt and final reviews of quarterly royalty reports from our licensees and related matters; (x) the resolution of current legal proceedings, including any awards or judgments relating to such proceedings, additional legal proceedings, changes in the schedules or costs associated with legal proceedings or adverse rulings in such legal proceedings; (xi) changes in the company's strategy going forward; and (xii) changes or inaccuracies in market projections or technology development timelines, as well as other risks and uncertainties, including those detailed in our Annual Report on Form 10-K for the year ended December 31, 2015 and from time to time in our other Securities and Exchange Commission filings. We undertake no duty to update publicly any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required by applicable law, regulation or other competent legal authority.

A Long History of Leadership in Mobile Technology

- Over four decades of mobile innovation, and pioneers in digital wireless
- ~160 R&D staff in six R&D locations around the world
- Our engineers have contributed inventions to IEEE, IETF, 3GPP, ITU, ETSI and MPEG standards, among others
- InterDigital has invested over $700 million in R&D during the past decade

Recognized as Thomson-Reuters Top 100 Global Innovator, an independent and exclusive listing of top innovating companies worldwide, in 2015

A Track Record of Wireless Innovation, Participation & Leadership in Key Standards Organizations

- We cover a broad but related group of standards bodies and industry forums
- Strongest focus
  - Cellular: 3GPP
  - Wi-Fi: 802.11
  - Networks: IETF
- Also
  - ETSI, ITU, …

Recent Leadership Positions

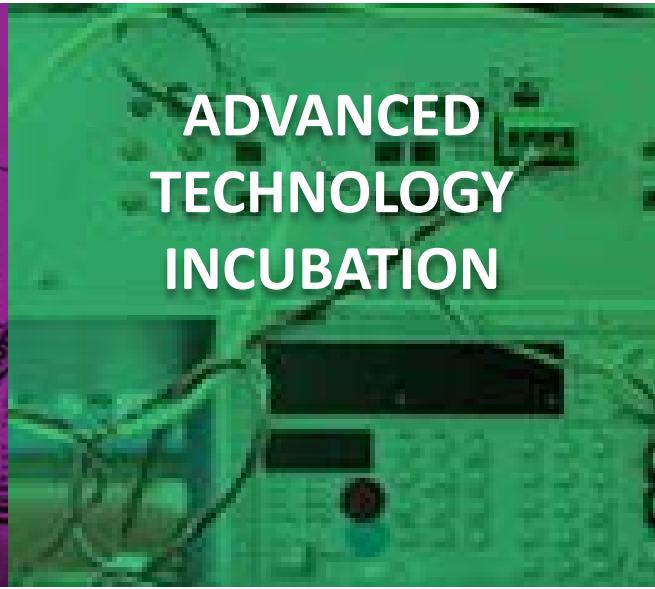

- ***Vice Chair*** 3GPP RAN2: 2013 – present
- ***Vice Chair*** 3GPP RAN3: 2001-2009
- OMA Board of Directors/ ***Board Officer***: 2013-2015
- ***Board of Directors*** Small Cell Forum: 2009-2010
- ETSI RRS Architecture WG ***Chair*** (2012 – 2014)
- IETF Internet Area WG ***Co-Chair*** (2013-present)
- 802 OmniRAN EC SG ***Vice-Chair*** (2012-present)
- 802.21 TGb ***Chair*** (2010-2012)
- 802.21 WG ***Vice-Chair*** (2010-2012)
- 802.11 ARC ***Vice-Chair*** (2013 – present)
- 802.11 TGai Passive Scanning Ad Hoc ***Chair*** (2012-2013)

InterDigital's 3 Main Focus Areas, Driving Opportunities in Broad, Horizontal Markets

© 2016 InterDigital, Inc. All Rights Reserved.

Leadership in Key Existing Technologies

- 3G: InterDigital accounted for close to 10% of the patents and patent applications judged likely to be essential to WCDMA – the third-highest share out of more than 40 companies (May 2015)
- 4G: InterDigital accounted for close to 10% of the patents and patent applications judged likely to be essential to LTE – fourth-highest share of nearly 100 companies (September 2016)

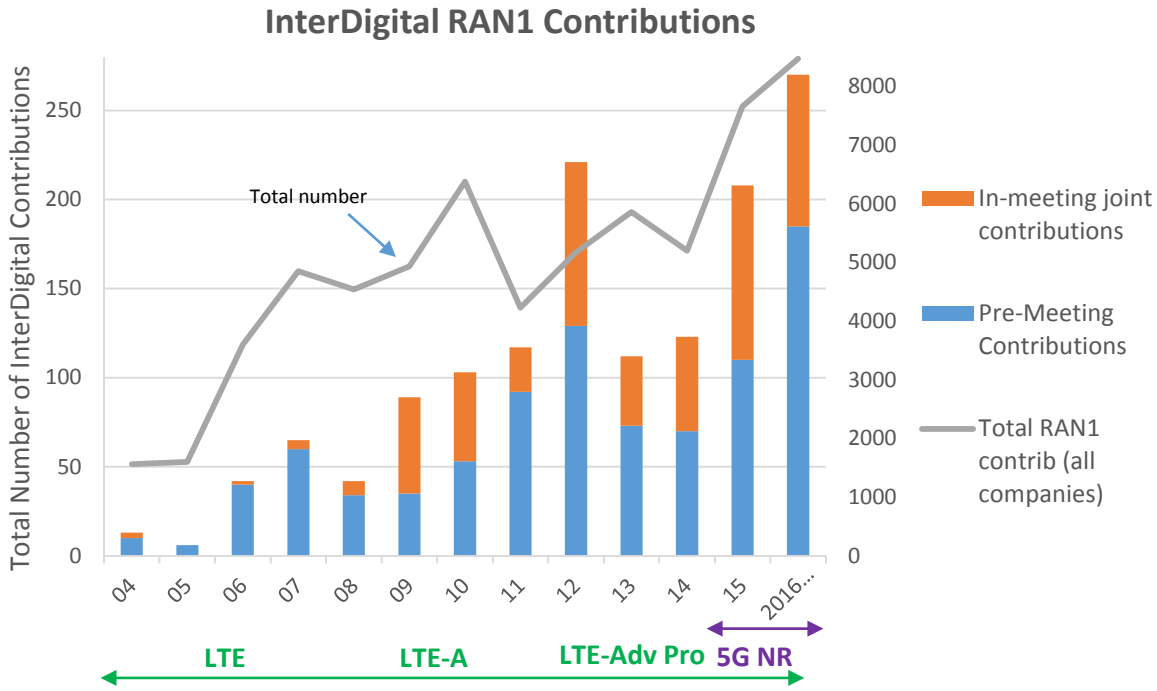

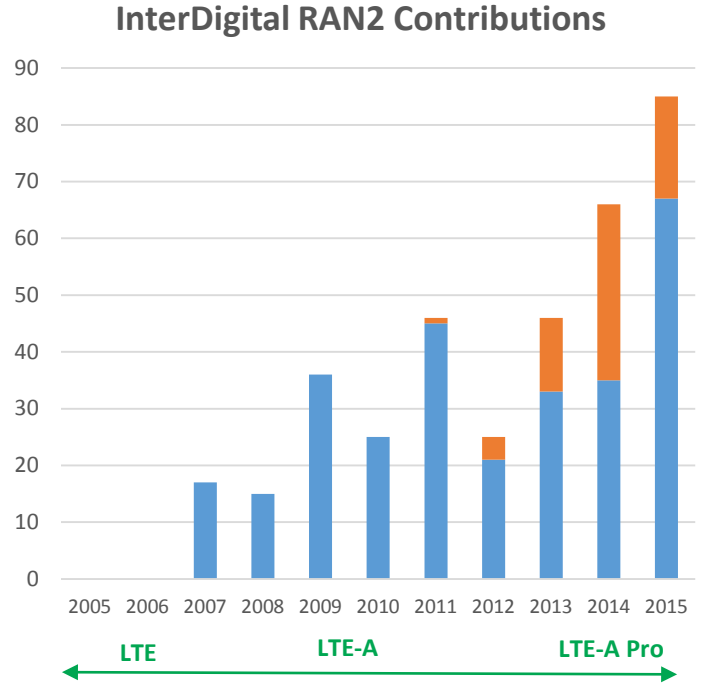

- IoT: InterDigital in top 10 of global companies in terms of IoT patent landscape, ahead of Microsoft and IBM
- Fourth in “high-strength IoT patents” ahead of Intel and Ericsson (May 2016)

InterDigital does not endorse any third-party analysis in relation to technology areas, but believes these studies may provide independent confirmation of the strength of the company’s R&D activities in mobile communication.

…And Continued Leadership in Future Standards

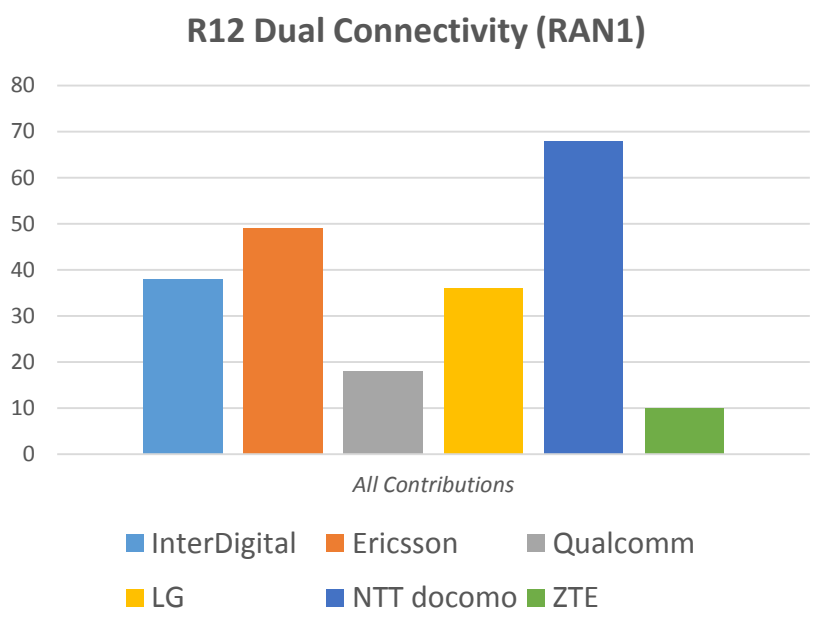

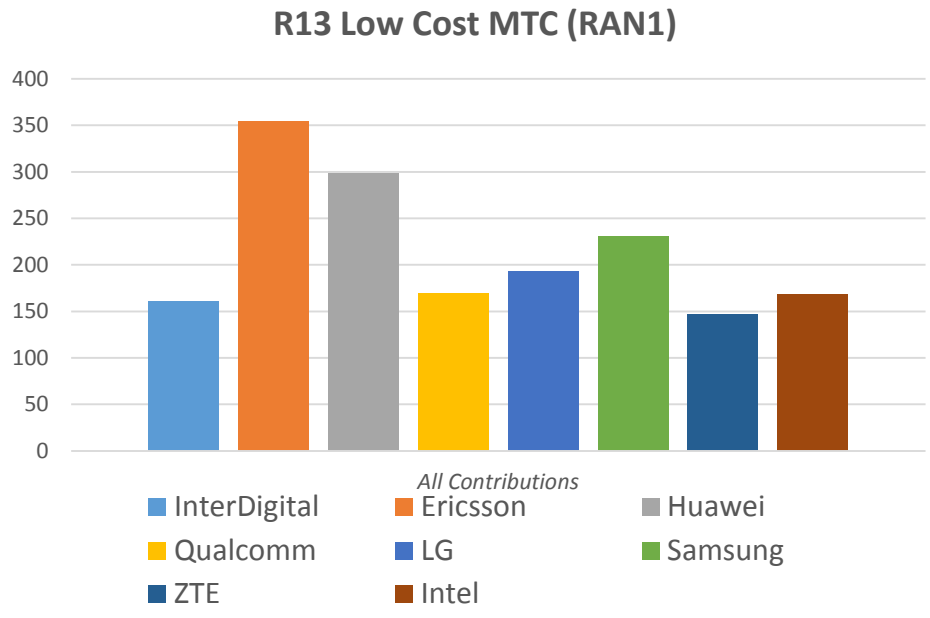

~5X increase in 3GPP standards participation in past decade

Strong emphasis on collaboration, especially with licensees

© 2016 InterDigital, Inc. All rights reserved.

…And Continued Leadership in Future Standards

5G is an enormous opportunity, extending beyond handsets to every area of technology, and InterDigital is in the thick of contributing technologies to it

Moderate Penetration – Outsized Gains

In a market expected to see continued moderate growth, an additional 25% of market penetration would double the number of handsets and terminal units licensed

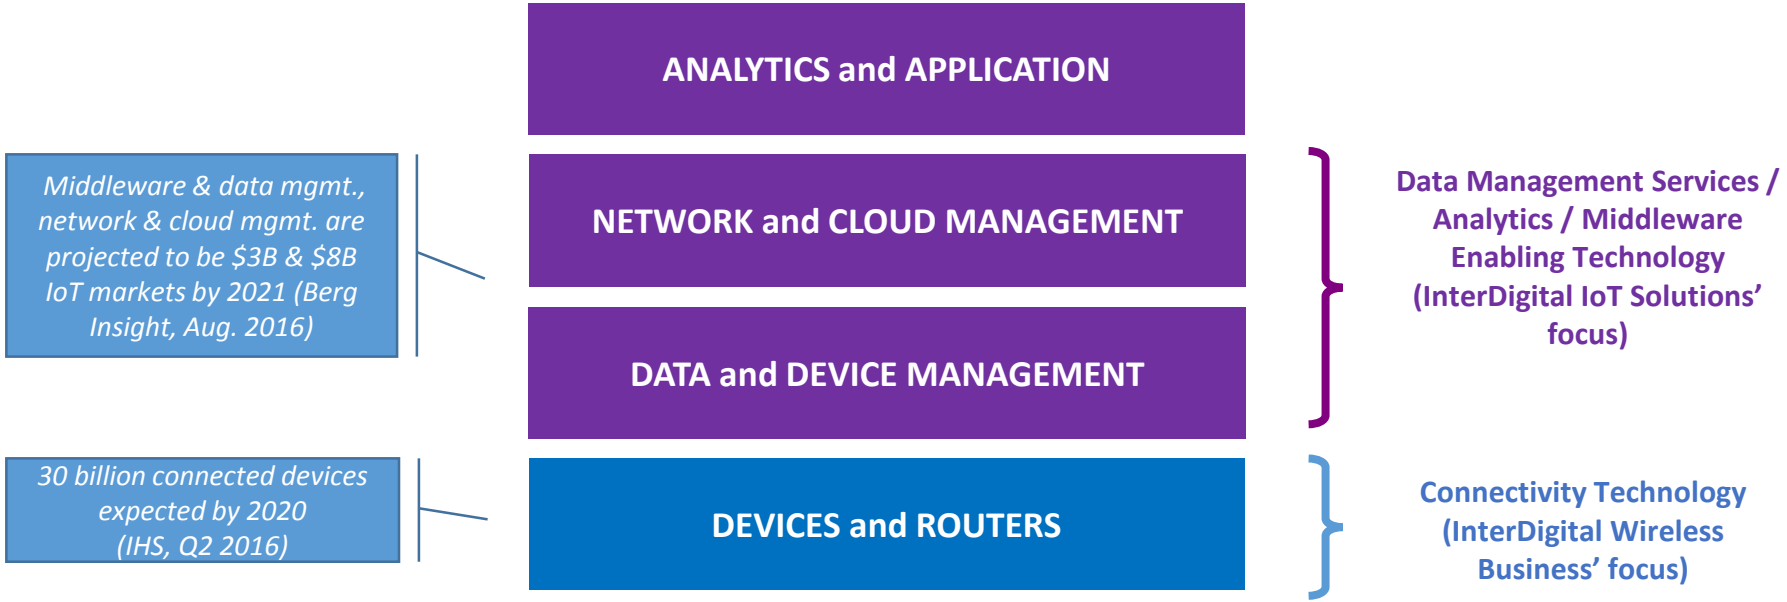

*Based on IHS Q2 2016 market projections

Avanci Patent Licensing Platform

- Separate entity formed to aggregate 2G/3G/4G standard essential patents for IoT connectivity patent licensing programs
- Initial licensing programs: manufacturers of vehicles and smart meters
- Announced initial licensors: InterDigital, Ericsson, Qualcomm, KPN and ZTE
- Avanci royalties to be priced on a flat-rate basis and vary depending on the value the technology brings to the device

Avanci…

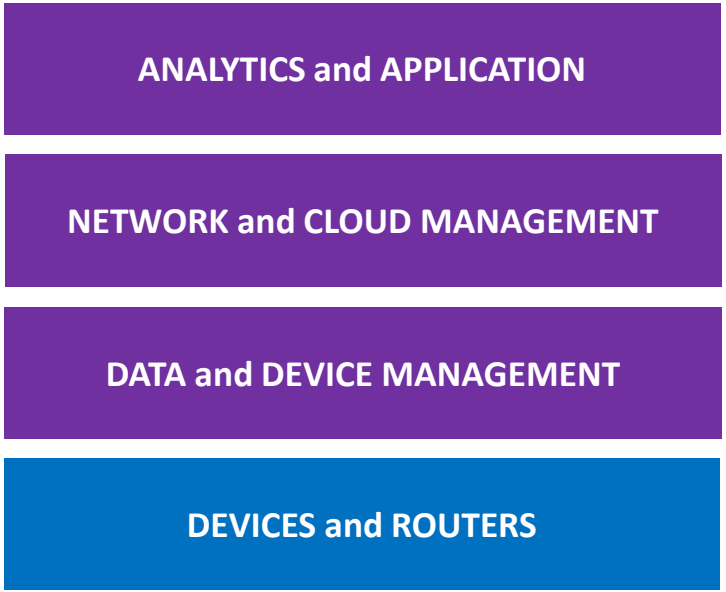

- Seeks to license some end-user products not addressed by InterDigital's current licensing activities
- Provides **recognition of InterDigital's contributions** to wireless industry
- Offers potential incremental revenue source in **high-growth IoT verticals**
- Requires **minimal incremental resources** to support license discussions

Where We Play in the IoT Ecosystem

INTERDIGITAL IoT SOLUTIONS

IoT Connectivity and IoT SW & Services

oneMPOWER™ - a oneM2M standards-based IoT services platform

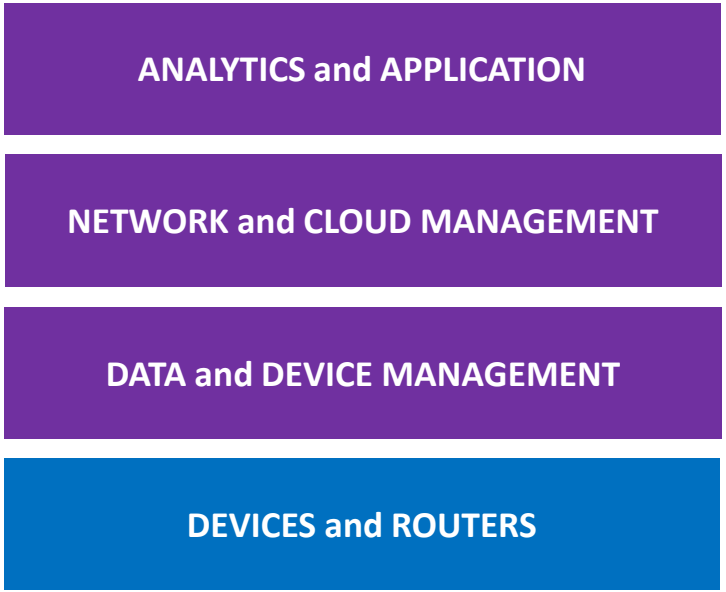

- Future-proofs deployments
- SW in sensors, devices, gateways and servers
- Interworks with many other standards (AllJoyn, OIC – now OCF, …)
- Device & service discovery, data management, interworking
- LWM2M device management

Where We Play in the IoT Ecosystem

INTERDIGITAL IoT SOLUTIONS

IoT Connectivity and IoT SW & Services

Unique IoT operating environment that:

- Enables public/private cloud as-a-service solutions
- Easy/rapid integration of 3rd party value added sources
- Agile – rapid time to market …through extensive adaptor framework (>100) that accelerate building IoT Solutions
- Enables new business models – data brokerage, analytics, etc.

The Result: Expanded Revenue Opportunities – With Outsized Profit Potential

ASSUMING THE SAME OPERATING COST BASIS AS TODAY

A $100M increase in revenue…

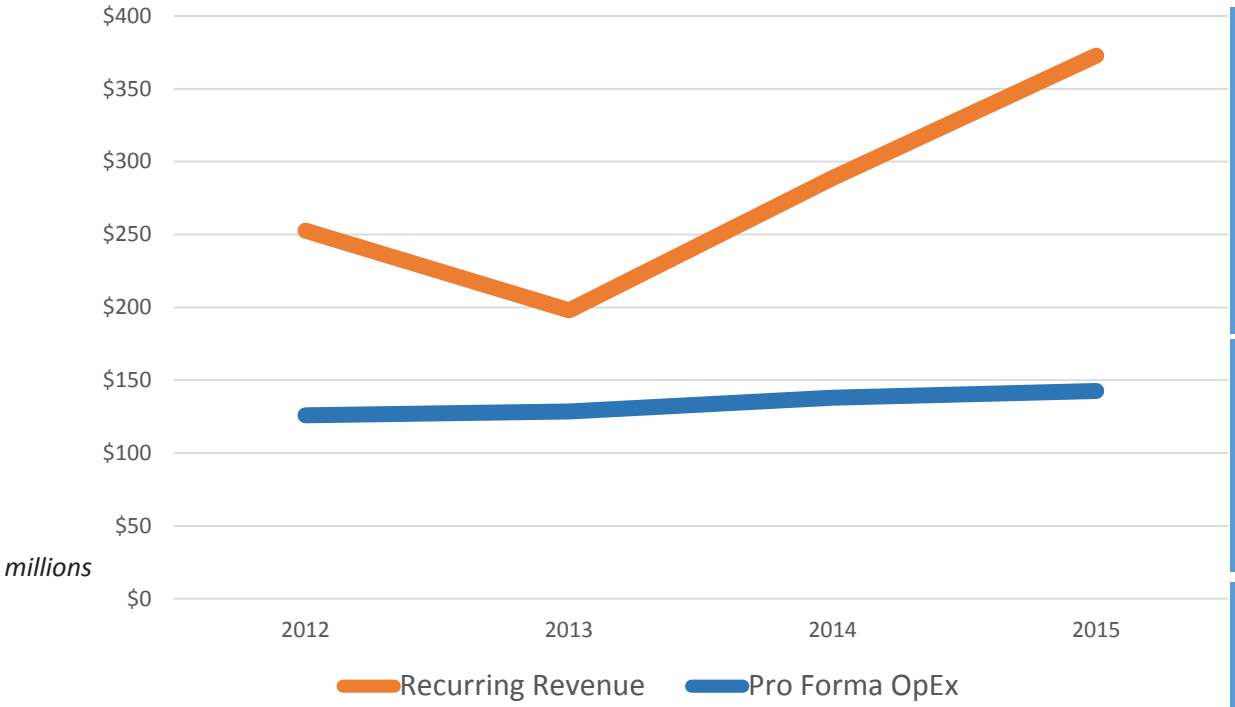

…could drive a ~50% increase in operating income

© 2016 InterDigital, Inc. All Rights Reserved.

Growing Recurring Revenues, Careful Expense Control

$263M in recurring revenues through Q3 2016, $358-362M expected through Q4 2016*

$487-491M in total revenues expected through Q4 2016*

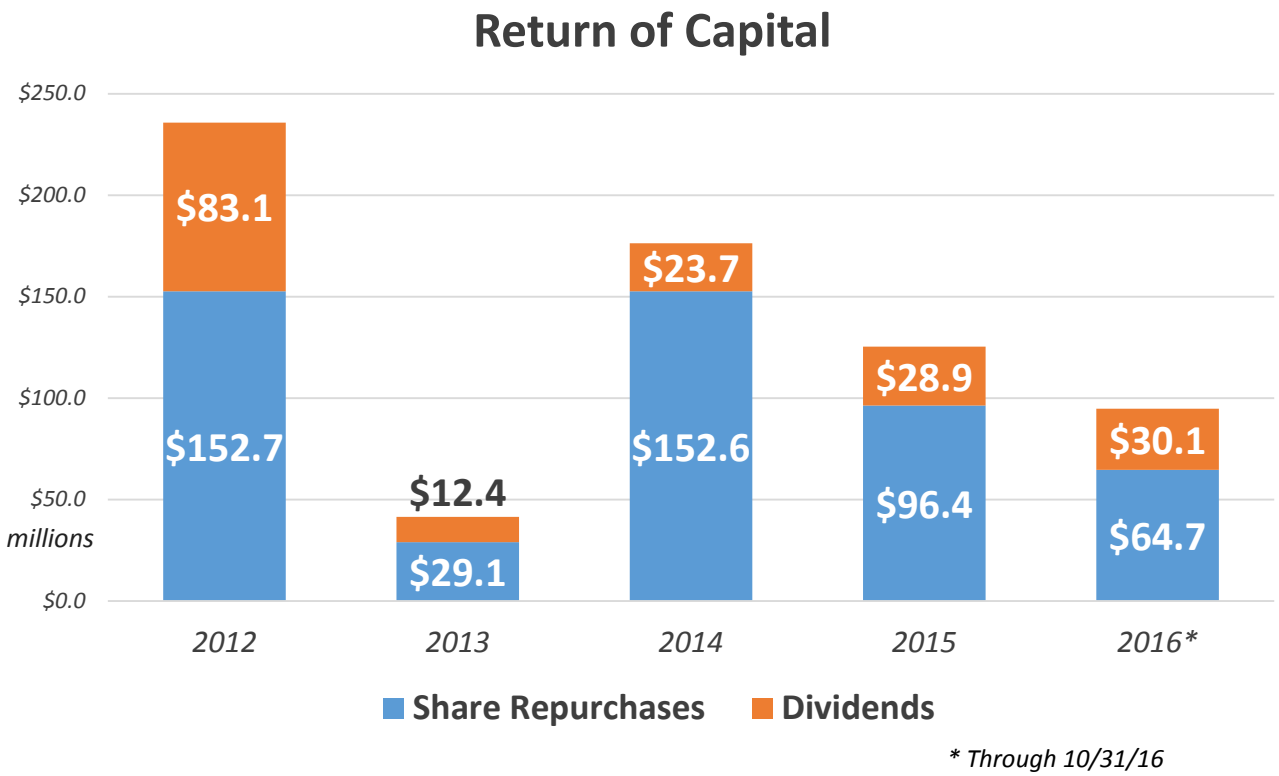

Expected total revenue CAGR of ~15% since 2013*

Pro forma operating expense is a non-GAAP financial measure that excludes from total operating expense significant items that are non-operational or non-recurring in nature. See Slide 22 for a detailed reconciliation of pro forma operating expense to total operating expense, the most comparable GAAP financial measure.

**Effective as of 11/28/2016, date of Q4 2016 guidance press release*

© 2016 InterDigital, Inc. All Rights Reserved.

Continued Efforts to Return Value to Shareholders

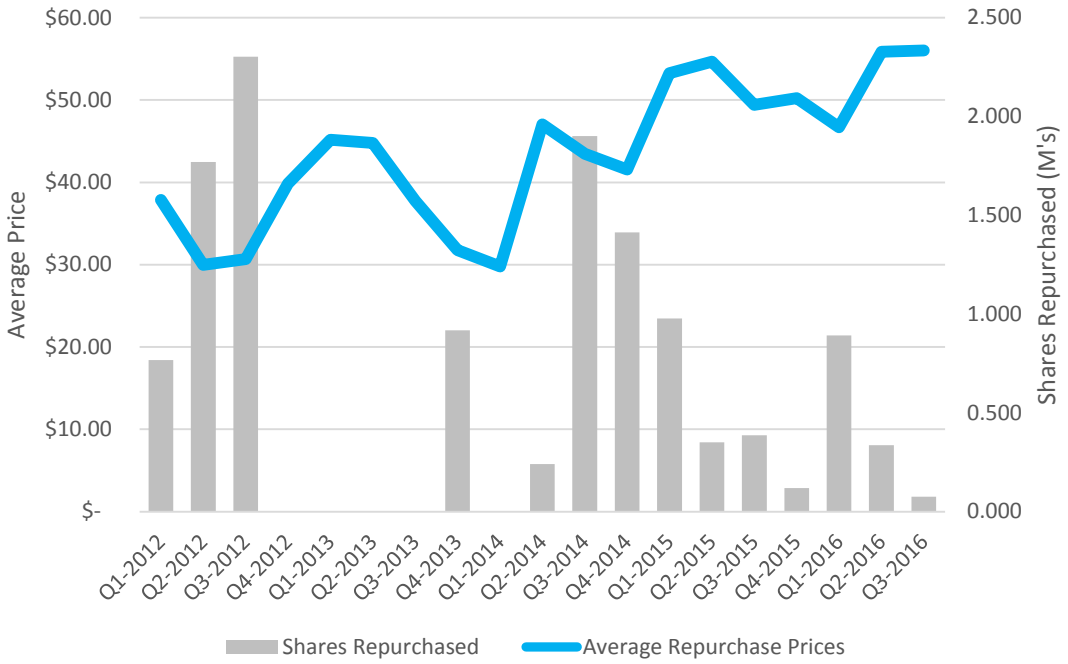

** Through 10/31/16*

Since 2012 through October 2016, the company has returned a total of ~$675M in capital to shareholders through a combination of buybacks, regular dividends and a special dividend. The company announced a 50% increase in its regular quarterly dividend in September 2016, which was paid in Q4 2016.

© 2016 InterDigital, Inc. All Rights Reserved.

Strong Performance of Our Buyback Program

- Since 2012 we've paid $495.5 million to buy back our own stock
- That "portfolio" would now be valued at just under $1B
- Our program's Buyback ROI is currently **32%***

**Buyback ROI is the IRR of cash flows associated with share purchases: outflows to repurchase shares, "inflows" of unpaid dividends, and the value of accumulated shares repurchased. Figures based on repurchases from Q1 2012 through Q3 2016, using stock price as at market close on November 18, 2016.*

Reconciliation of Pro Forma Operating Expense to Total Operating Expense

	2012	2013	2014	2015
Operating Expenses:				
Patent administration and licensing	$ 126.3	$ 143.1	$ 133.8	$ 120.4
Development	67.9	64.7	75.3	72.7
Selling, general and administrative	37.4	31.3	37.8	39.8
Repositioning	12.5	1.5	-	-
Total Operating Expenses	**$ 244.1**	**$ 240.6**	**$ 246.9**	**$ 232.9**
Intellectual property enforcement and non-patent litigation	(60.7)	(75.6)	(52.3)	(32.7)
Patent amortization	(22.7)	(29.9)	(38.3)	(44.0)
Compensation accrual adjustments [1]	1.9	1.0	(9.8)	(5.4)
Cost of patent sales	(16.7)	-	(0.7)	-
Repositioning	(12.5)	(1.5)	-	-
Other*	(7.5)	(6.0)	(7.9)	(8.1)
Pro forma Operating Expense [2]	**$ 125.9**	**$ 128.6**	**$ 137.9**	**$ 142.7**

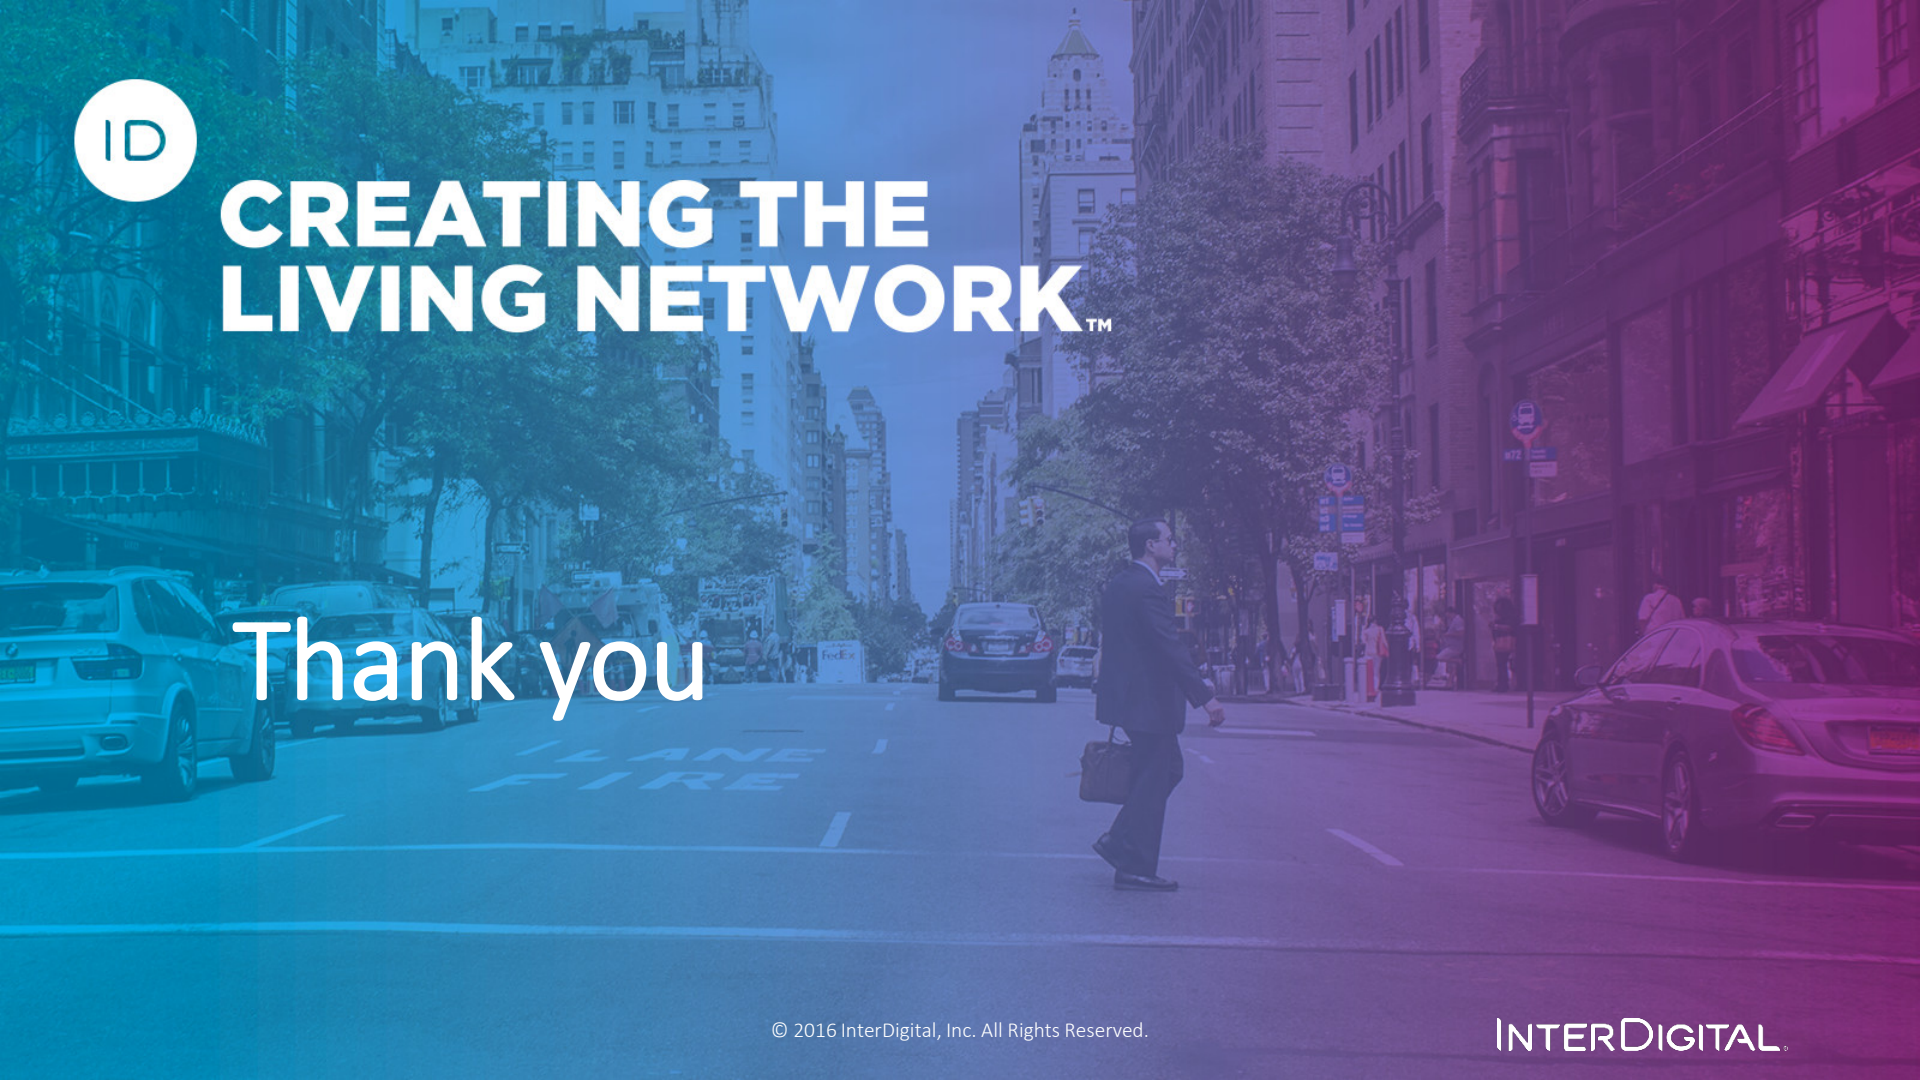

** Other adjustments include fringe rate, vacation accrual, R&D refund, bad debt expense, severance associated with structural changes and non-recurring contra expenses.*

NOTE: Sums may not equal total due to rounding

1) "*Compensation accrual adjustments*" represents the adjustment that would be necessary in a given period to present the performance compensation actually accrued for that period against the performance compensation as if it had been accrued at 100% of the target performance compensation levels.

2) "*Pro forma operating expenses*" is a supplemental non-GAAP financial measure that InterDigital believes provides relevant and useful information to investors and other users of our financial data in evaluating the effectiveness of our operations and underlying business trends. A limitation of "Pro forma operating expenses" is that it does not represent the total increase or decrease in InterDigital's total operating expenses for the period. "Pro forma operating expenses" excludes from total operating expense significant items that are non-operational or non-recurring in nature, including "Compensation accrual adjustments" (see Footnote 1). InterDigital's computation of "Pro forma operating expenses" might not be comparable to the "Pro forma operating expenses" reported by other companies. The presentation of this financial information, which is not prepared under any comprehensive set of accounting rules or principles, is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with generally accepted accounting principles ("GAAP"). A detailed reconciliation of "Pro forma operating expenses" to total operating expenses, the most directly comparable GAAP financial measure, is provided above.
