Cautionary Statement Regarding Forward-Looking Statements

Statements contained in this press release that are not historical fact may be forward looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward looking statements may relate to, among other things, the first quarter of fiscal year 2024 and full year fiscal 2024 guidance; demand for AI and other advanced applications; and the Company's position to continue growth. Such forward looking statements do not constitute guarantees of future performance and are subject to a variety of risks and uncertainties that could cause our actual results to differ materially from those anticipated, including: (i) our quarterly operating results may fluctuate, which could cause rapid declines in our stock price, (ii) as we increasingly target larger customers and larger sales opportunities, our customer base may become more concentrated, our cost of sales may increase, our margins may be lower and our sales may be less predictable, (iii) if we fail to meet publicly announced financial guidance or other expectations about our business, our stock could decline in value, (iv) the average sales prices for our server solutions could decline if customers do not continue to purchase our latest generation products or additional components, and (v) adverse economic conditions may harm our business. Additional factors that could cause actual results to differ materially from those projected or suggested in any forward looking statements are contained in our filings with the Securities and Exchange Commission, including those factors discussed under the caption "Risk Factors" in such filings, particularly in our Annual Report on Form 10-K for our fiscal year ended June 30, 2022, and Quarterly Reports on Form 10-Q filed thereafter.

Use of Non-GAAP Financial Measures

Non-GAAP gross margin discussed in this press release adds back stock-based compensation expenses and other expenses. Non-GAAP diluted net income per common share discussed in this press release adds back stock-based compensation expenses, litigation settlement costs, special performance bonuses and litigation expense (recovery), adjusted for the related tax effects. Management presents non-GAAP financial measures because it considers them to be important supplemental measures of performance. Management uses the non-GAAP financial measures for planning purposes, including analysis of the Company's performance against prior periods, the preparation of operating budgets and to determine appropriate levels of operating and capital investments. Management also believes that the non-GAAP financial measures provide additional insight for analysts and investors in evaluating the Company's financial and operational performance. However, these non-GAAP financial measures have limitations as an analytical tool and are not intended to be an alternative to financial measures prepared in accordance with GAAP. A reconciliation of GAAP gross margin to non-GAAP gross margin and from GAAP diluted net income per common share to non-GAAP diluted net income per common share is included in the tables below.
