About New Era Energy & Digital, Inc.

New Era Energy & Digital is developing large-scale data centers across energy-rich U.S. markets to support AI

training and inference workloads. New Era's flagship project, Texas Critical Data Centers, is a 493-acre site located in the Permian Basin, with anticipated capacity scaling to 1.4 GW over time. New Era's strategy is to combine large-acreage sites with flexible power solutions, including behind-the-meter power. New Era's approach is a modular, phased data center deployment model, utilizing best-in-class water efficiency and self-generated power to minimize community impact and accelerate time-to-power for hyperscale, enterprise and edge operators.
