Use of Non-GAAP Financial Information

This press release contains references to non-GAAP earnings per share, which is adjusted from results based on GAAP and exclude certain expenses, gains and losses; non-GAAP revenue which excludes revenues from our divested ID Analytics solutions; and free cash flow, which is defined as cash flows from operating activities less purchases of property and equipment. These non-GAAP financial measures are provided to enhance the user's understanding of our prospects for the future. Our management team uses these non-GAAP financial measures in assessing NortonLifeLock's performance, as well as in planning and forecasting future periods. These non-GAAP financial measures are not computed according to GAAP and the methods we use to compute them may differ from the methods used by other companies. Non-GAAP financial measures are supplemental, should not be considered a substitute for financial information presented in accordance with GAAP and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. No reconciliation of the forecasted range for non-GAAP EPS guidance is included in this release because most non-GAAP adjustments pertain to events that have not yet occurred. It would be unreasonably burdensome to forecast, therefore we are unable to provide an accurate estimate.
