Disclaimers

Special Note Concerning Forward-Looking Statements

This presentation contains forward-looking statements, within the meaning of such term in the Private Securities Litigation Reform Act of 1995, with respect to the financial condition, results of operations, plans, objectives, future performance and business of Landmark Bancorp, Inc. (the "Company"). Forward-looking statements, which may be based upon beliefs, expectations and assumptions of our management and on information currently available to management, are generally identifiable by the use of words such as "believe," "expect," "anticipate," "plan," "intend," "estimate," "may," "will," "would," "could," "should" or other similar expressions. Additionally, all statements in this presentation, including forward-looking statements, speak only as of the date they are made, and the Company undertakes no obligation to update any statement in light of new information or future events.

The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. A number of factors could have a material adverse effect on the operations and future prospects of the Company and its subsidiaries. These risks and uncertainties should be considered in evaluating forward-looking statements, and undue reliance should not be placed on such statements.

Additional information concerning the Company and its business, including the factors that could materially affect the Company's financial results, is included in the Company's filings with the Securities and Exchange Commission.

Non-GAAP Financial Measures

This presentation contains certain ratios and amounts not in conformity with U.S. generally accepted accounting principles ("GAAP"). These are provided to evaluate and measure the operating performance and financial condition of the Company, including tangible book value per share, ratio of tangible equity to tangible assets, and efficiency ratio. Management believes these ratios and amounts provide investors with information regarding the Company's balance sheet, profitability, financial condition and capital adequacy and how management evaluates such metrics internally.
