UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

☑ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended September 26, 2026

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the Transition Period from ____ to ____

Commission File Number 0-17795

CIRRUS LOGIC, INC.

(Exact name of registrant as specified in its charter)

Delaware		**77-0024818**
(State or other jurisdiction of incorporation or organization)		**(I.R.S. Employer Identification No.)**
800 W. 6th Street	**Austin, Texas**	**78701**
(Address of principal executive offices)		**(Zip Code)**

Registrant's telephone number, including area code: (512) 851-4000

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common stock, $0.001 par value	CRUS	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes ☑ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☑ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer	☑	Accelerated Filer	☐
Non-accelerated Filer	☐	Smaller Reporting Company	☐
		Emerging Growth Company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☑

The number of shares of the registrant's common stock, $0.001 par value, outstanding as of November 2, 2026 was 49,862,052.

CIRRUS LOGIC, INC.

FORM 10-Q QUARTERLY REPORT

QUARTERLY PERIOD ENDED SEPTEMBER 26, 2026

TABLE OF CONTENTS

CIRRUS LOGIC, INC.
NOTES TO THE CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
(unaudited)

1. Basis of Presentation

The unaudited consolidated condensed financial statements have been prepared by Cirrus Logic, Inc. ("Cirrus Logic," "we," "us," "our," or the "Company") pursuant to the rules and regulations of the Securities and Exchange Commission (the "Commission"). The accompanying unaudited consolidated condensed financial statements do not include complete footnotes and financial presentations. As a result, these financial statements should be read along with the audited consolidated financial statements and notes thereto for the year ended March 28, 2026, included in our Annual Report on Form 10-K filed with the Commission on May 21, 2026. In our opinion, the financial statements reflect all material adjustments, including normal recurring adjustments, necessary for a fair presentation of the financial position, operating results and cash flows for those periods presented. The preparation of financial statements in conformity with United States ("U.S.") generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect reported assets, liabilities, revenues and expenses. Actual results could differ from those estimates and assumptions. Moreover, the results of operations for the interim periods presented are not necessarily indicative of the results that may be expected for the entire year.

2. Recently Issued Accounting Pronouncements

In November 2024, the FASB issued ASU 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Topic 220-40): Disaggregation of Income Statement Expenses*, which requires disaggregation of certain expense categories in the notes to the financial statements in order to provide enhanced transparency into the expense captions presented on the face of the income statement. The amendments are effective for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027, with early adoption and prospective or retrospective application permitted. The Company is currently evaluating the impact of this guidance on financial statement disclosures.

In September 2025, the FASB issued ASU 2025-06, *Intangibles – Goodwill and Other – Internal-Use Software (Topic 350-40): Targeted Improvements to the Accounting for Internal-Use Software*, which removes references to software development stages, or "project stages," in assessing the timing of software cost capitalization. The amendments are effective for annual reporting periods beginning after December 15, 2027, and interim periods within those annual reporting periods. Early adoption is permitted using the prospective, modified, or retrospective adoption methods. The Company is currently evaluating the impact of this guidance on financial statement disclosures.

In December 2025, the FASB issued ASU 2025-10, *Government Grants (Topic 832): Accounting for Government Grants Received by Business Entities*, which provides guidance on the recognition, measurement, and presentation of government grants. The amendments are effective for annual reporting periods beginning after December 15, 2028, and interim periods within those annual reporting periods. Early adoption is permitted using the modified prospective, modified retrospective, or full retrospective adoption methods. The Company is currently evaluating the impact of this guidance on financial statement disclosures.

In May 2026, the FASB issued ASU 2026-02, *Environmental Credits and Environmental Credit Obligations (Topic 818)*, to improve the financial accounting disclosure of environmental credits and environmental credit obligations, providing recognition, measurement, presentation, and disclosure requirements for all entities that generate, purchase, or receive environmental credits or have a regulatory compliance obligation that may be settled with environmental credits. The amendments are effective for fiscal years beginning after December 15, 2027, and interim periods within those fiscal years, with early adoption permitted. The guidance is to be applied retrospectively. The Company is currently evaluating the impact of this guidance on financial statement disclosures.

3. Marketable Securities

The Company's investments have been classified as available-for-sale securities in accordance with U.S. GAAP. Marketable securities are initially categorized on the Consolidated Condensed Balance Sheet as "*Marketable securities*," within the short-term or long-term classification, as appropriate, based on the original maturity.

The following table is a summary of available-for-sale securities at September 26, 2026 (in thousands):

As of September 26, 2026	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value (Net Carrying Amount)
Corporate debt securities	$ 354,407	$ 28	$ (5,080)	$ 349,355
U.S. Treasury securities	7,110	—	(155)	6,955
Total securities	$ 361,517	$ 28	$ (5,235)	$ 356,310

The Company typically invests in highly-rated securities with original maturities generally ranging from one to three years. The Company's specifically identified gross unrealized losses were $5.2 million related to securities with total amortized costs of approximately $337.2 million at September 26, 2026. There were no securities in a continuous unrealized loss position for more than 12 months as of September 26, 2026. The Company may sell certain of its marketable securities prior to their stated maturities for strategic reasons including, but not limited to, anticipated or actual changes in credit rating and duration management. The Company records an allowance for credit loss when a decline in investment market value is due to credit-related factors. When evaluating an investment for impairment, the Company reviews factors including the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer, changes in market interest rates and whether it is more likely than not the Company will be required to sell the investment before recovery of the investment's cost basis. As of September 26, 2026, the Company does not consider any of its investments to be impaired.

The following table is a summary of available-for-sale securities at March 28, 2026 (in thousands):

As of March 28, 2026	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value (Net Carrying Amount)
Corporate debt securities	$ 353,190	593	$ (1,598)	$ 352,185
U.S. Treasury securities	669	3	—	672
Total securities	$ 353,859	$ 596	$ (1,598)	$ 352,857

The Company's specifically identified gross unrealized losses of $1.6 million related to securities with total amortized costs of approximately $197.4 million at March 28, 2026. There were no securities in a continuous unrealized loss position for more than 12 months as of March 28, 2026. As of March 28, 2026, the Company did not consider any of its investments to be impaired.

The cost and estimated fair value of available-for-sale securities by contractual maturities were as follows (in thousands):

	September 26, 2026		March 28, 2026	
	Amortized Cost	Estimated Fair Value	Amortized Cost	Estimated Fair Value
Within 1 year	$ 31,928	$ 31,923	$ 86,371	$ 86,697
After 1 year	329,589	324,387	267,488	266,160
Total	$ 361,517	$ 356,310	$ 353,859	$ 352,857

4. Fair Value of Financial Instruments

The Company has determined that the only material assets and liabilities in the Company's financial statements that are required to be measured at fair value on a recurring basis are the Company's cash equivalents and marketable securities portfolio. The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

- Level 1 - Quoted prices in active markets for identical assets or liabilities.
- Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company's cash equivalents and marketable securities portfolio consist of money market funds, debt securities, and U.S. Treasury securities, and are reflected on our Consolidated Condensed Balance Sheets under the headings cash and cash equivalents, marketable securities, and long-term marketable securities. The Company determines the fair value of its marketable securities portfolio by obtaining non-binding market prices from third-party pricing providers on the last day of the quarter, whose sources may use quoted prices in active markets for identical assets (Level 1 inputs) or inputs other than quoted prices that are observable either directly or indirectly (Level 2 inputs) in determining fair value.

The Company's revolving credit facility, described in Note 8 - Revolving Credit Facility, bears interest at a base rate plus applicable margin or forward-looking secured overnight financing rate ("Term SOFR"). As of September 26, 2026, there are no amounts drawn under the facility and the fair value is zero.

As of September 26, 2026 and March 28, 2026, the Company has no Level 3 assets or liabilities. There were no transfers between Level 1, Level 2, or Level 3 measurements for the three and six months ended September 26, 2026.

The following summarizes the fair value of our financial instruments at September 26, 2026 (in thousands):

	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
Assets:				
Cash equivalents				
Money market funds	$ 361,792	$ —	$ —	$ 361,792
Available-for-sale securities				
Corporate debt securities	$ —	$ 349,355	$ —	$ 349,355
U.S. Treasury securities	6,955	—	—	6,955
	$ 6,955	$ 349,355	$ —	$ 356,310

The following summarizes the fair value of our financial instruments at March 28, 2026 (in thousands):

	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
Assets:				
Cash equivalents				
Money market funds	$ 748,675	$ —	$ —	$ 748,675
Available-for-sale securities				
Corporate debt securities	$ —	$ 352,185	$ —	$ 352,185
U.S. Treasury securities	672	—	—	672
	$ 672	$ 352,185	$ —	$ 352,857

5. Derivative Financial Instruments

Foreign Currency Forward Contracts

The Company uses foreign currency forward contracts to reduce the earnings impact that exchange rate fluctuations have on non-functional currency balance sheet exposures. The Company recognizes both the gains and losses on foreign currency forward contracts and the gains and losses on the remeasurement of non-functional currency assets and liabilities within "*Other expense*" in the Consolidated Condensed Statements of Income. The Company does not apply hedge accounting to these foreign currency derivative instruments.

As of September 26, 2026, the Company held one foreign currency forward contract denominated in British Pound Sterling with a notional value of $13.8 million. The fair value of this contract was not material as of September 26, 2026.

The before-tax effect of derivative instruments not designated as hedging instruments was as follows (in thousands):

	Three Months Ended		Six Months Ended		
	September 26, 2026	September 27, 2025	September 26, 2026	September 27, 2025	Location
Gain (loss) recognized in income:					
Foreign currency forward contracts	$ 145	$ (266)	$ (254)	$ 898	Other expense

6. Accounts Receivable, net

The following are the components of accounts receivable, net (in thousands):

	September 26, 2026	March 28, 2026
Gross accounts receivable	$ 365,753	$ 220,149
Allowance for doubtful accounts	—	—
Accounts receivable, net	$ 365,753	$ 220,149

7. Inventories

Inventories are comprised of the following (in thousands):

	September 26, 2026	March 28, 2026
Work in process	$ 211,488	$ 162,533
Finished goods	59,710	78,338
	$ 271,198	$ 240,871

8. Revolving Credit Facility

On May 4, 2026, the Company entered into a third amended and restated credit agreement (the “Third Amended Credit Agreement”) with Wells Fargo Bank, National Association, as administrative agent, and the lenders party thereto, which amended and restated the Second Amended Credit Agreement. The Third Amended Credit Agreement provides for a $350 million senior secured revolving credit facility (the "Revolving Credit Facility"). The Revolving Credit Facility matures on May 4, 2031 (the “Maturity Date”). The Revolving Credit Facility is required to be guaranteed by all of Cirrus Logic’s material domestic subsidiaries (the "Subsidiary Guarantors"). The Revolving Credit Facility is secured by substantially all the assets of Cirrus Logic and any Subsidiary Guarantors, except for certain excluded assets.

Borrowings under the Revolving Credit Facility may, at Cirrus Logic’s election, bear interest, at either (a) a base rate plus the applicable margin ("Base Rate Loans") or (b) the forward-looking term rate based on the secured overnight financing rate ("Term SOFR") plus the applicable margin ("SOFR Loans"). The applicable margin ranges from 0% to 0.75% per annum for Base Rate Loans and 1.00% to 1.75% per annum for SOFR Loans based on the ratio of consolidated funded indebtedness to consolidated EBITDA for the most recently ended period of four consecutive fiscal quarters (the “Consolidated Leverage Ratio”). A Commitment Fee accrues at a rate per annum ranging from 0.175% to 0.275% (based on the Consolidated Leverage Ratio) on the average daily unused portion of the commitment of the lenders.

The Third Amended Credit Agreement contains customary affirmative covenants, including, among others, covenants regarding the payment of taxes and other obligations, maintenance of insurance, reporting requirements, and compliance with applicable laws and regulations. Further, the Third Amended Credit Agreement contains customary negative covenants limiting the ability of Cirrus Logic or any Subsidiary to, among other things, incur debt, grant liens, make investments, effect certain fundamental changes, make certain asset dispositions, and make certain restricted payments. The Revolving Credit Facility also contains certain financial covenants providing that (a) the ratio of consolidated funded indebtedness (minus up to $300 million of unrestricted cash and cash equivalents available on such date) to consolidated EBITDA for the prior four consecutive quarters must not be greater than 3.50 to 1.00 (the “Consolidated Net Leverage Ratio”) and (b) the ratio of consolidated EBITDA for the prior four consecutive quarters to consolidated interest expense paid or payable in cash for the prior four consecutive quarters must not be less than 3.00 to 1.00 (the “Consolidated Interest Coverage Ratio”).

As of September 26, 2026, the Company had no amounts outstanding under the Revolving Credit Facility and was in compliance with all covenants under the Third Amended Credit Agreement.

9. Revenues

Disaggregation of revenue

We disaggregate revenue from contracts with customers by product line and ship to location of the customer. Sales are designated in the respective product line categories of Audio and High-Performance Mixed-Signal (“HPMS”).

Total net sales based on the product line disaggregation criteria described above are shown in the table below (in thousands).

	Three Months Ended		Six Months Ended	
	September 26, 2026	September 27, 2025	September 26, 2026	September 27, 2025
Audio Products	$ 314,509	$ 318,214	$ 563,544	$ 558,257
HPMS Products	244,953	242,746	455,641	409,975
	$ 559,462	$ 560,960	$ 1,019,185	$ 968,232

Geographic Area

See the Company's geographic details of revenue in Note 15 - Segment Information.

10. Income Taxes

Our provision for income taxes is based on estimated effective tax rates derived from an estimate of annual consolidated earnings before taxes, adjusted for nondeductible expenses, other permanent items, and any applicable income tax credits.

The following table presents the provision for income taxes (in thousands) and the effective tax rates:

	Three Months Ended		Six Months Ended	
	September 26, 2026	September 27, 2025	September 26, 2026	September 27, 2025
Income before income taxes	$ 141,982	$ 153,396	$ 236,136	$ 234,024
Provision for income taxes	$ 27,243	$ 21,800	$ 44,546	$ 41,731
Effective tax rate	19.2 %	14.2 %	18.9 %	17.8 %

Income tax expense was $27.2 million and $21.8 million for the second quarters of fiscal years 2027 and 2026, respectively, resulting in effective tax rates of 19.2 percent and 14.2 percent, respectively. Income tax expense for the first six months of fiscal years 2027 and 2026 was $44.5 million and $41.7 million, respectively, resulting in effective tax rates of 18.9 percent and 17.8 percent, respectively.

The effective tax rates for all periods presented were lower than the statutory rate, primarily due to the effect of income in foreign jurisdictions taxed below the federal statutory rate, offset by certain nondeductible items. All periods presented were favorably impacted by the legislation commonly referred to as the One Big Beautiful Bill Act ("OBBBA"), enacted in the second quarter of fiscal year 2026, which permanently eliminated the requirement to capitalize U.S. R&D expenditures effective from the beginning of fiscal year 2026.

The Company records unrecognized tax benefits for the estimated risk associated with tax positions taken on tax returns. At September 26, 2026, the Company had unrecognized tax benefits of $32.1 million, all of which would impact the effective tax rate if recognized. The Company's total unrecognized tax benefits are classified as "*Non-current income taxes*" in the Consolidated Condensed Balance Sheets. The Company recognizes interest and penalties related to unrecognized tax benefits in the provision for income taxes. As of September 26, 2026, the balance of accrued interest and penalties, net of tax, was $16.0 million.

On July 27, 2015, the U.S. Tax Court issued an opinion in Altera Corp. et al. v. Commissioner which concluded that the regulations relating to the treatment of stock-based compensation expense in intercompany cost-sharing arrangements were invalid. In 2016 the U.S. Internal Revenue Service appealed the decision to the U.S. Court of Appeals for the Ninth Circuit (the "Ninth Circuit"). On June 7, 2019, the Ninth Circuit reversed the decision of the U.S. Tax Court and upheld the cost-sharing regulations. On February 10, 2020, Altera Corp. filed a Petition for a Writ of Certiorari with the Supreme Court of the United States, which was denied by the Supreme Court on June 22, 2020. Although the issue is now resolved in the Ninth Circuit, the Ninth Circuit's opinion is not binding in other circuits. The potential impact of this issue on the Company, which is not located within the jurisdiction of the Ninth Circuit, is unclear at this time. We will continue to monitor developments related to this issue and the potential impact of those developments on the Company's current and prior fiscal years.

The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax in multiple state and foreign jurisdictions. Fiscal years 2017 through 2019 and 2023 through 2026 remain open to examination by the major taxing jurisdictions in which the Company operates.

The Company's fiscal year 2017, 2018, and 2019 federal income tax returns are under examination by the U.S. Internal Revenue Service ("IRS"). The IRS has proposed adjustments that would increase U.S. taxable income related to transfer pricing matters with respect to our U.S. and U.K. affiliated companies. The final Revenue Agent's Report asserted additional tax of approximately $168.3 million, excluding interest, and imposed penalties of approximately $63.7 million. The Company does not agree with the IRS's positions and has not accrued an additional liability. In July 2024, the Company entered the administrative dispute process with the IRS Independent Office of Appeals ("IRS Appeals"). The Company continues to vigorously dispute the proposed adjustments, including through ongoing discussions as part of the administrative process with IRS Appeals. If an acceptable outcome cannot be reached with IRS Appeals, the Company is prepared to pursue judicial remedies, which could take a number of years to resolve. Although the final resolution of these matters is uncertain, the Company believes adequate amounts have been reserved in accordance with ASC 740 for any adjustments to the provision for income taxes that may ultimately result. However, the ultimate amount of assessed tax, interest, and penalties, if any, could be material and may have an adverse impact on our financial position, results of operations, and cash flows in future periods. The Company is not under an income tax audit in any other major taxing jurisdiction.

11. Net Income Per Share

Basic net income per share is based on the weighted effect of common shares issued and outstanding and is calculated by dividing net income by the basic weighted average shares outstanding during the period. Diluted net income per share is calculated by dividing net income by the weighted average number of common shares used in the basic net income per share calculation, plus the equivalent number of common shares that would be issued assuming exercise or conversion of all potentially dilutive common shares outstanding. These potentially dilutive items consist primarily of outstanding equity awards.

The following table details the calculation of basic and diluted earnings per share for the three and six months ended September 26, 2026 and September 27, 2025 (in thousands, except per share amounts):

	Three Months Ended		Six Months Ended	
	September 26, 2026	September 27, 2025	September 26, 2026	September 27, 2025
Numerator:				
Net income	$ 114,739	$ 131,596	$ 191,590	$ 192,293
Denominator:				
Weighted average shares outstanding	49,902	51,175	50,226	51,451
Effect of dilutive securities	1,579	1,879	1,681	1,744
Weighted average diluted shares	51,481	53,054	51,907	53,195
Basic earnings per share	$ 2.30	$ 2.57	$ 3.81	$ 3.74
Diluted earnings per share	$ 2.23	$ 2.48	$ 3.69	$ 3.61

The weighted outstanding shares excluded from our diluted calculation for the three and six months ended September 26, 2026 were 100 thousand and 73 thousand, respectively, as the shares were anti-dilutive. The weighted outstanding shares excluded from our diluted calculation for the three and six months ended September 27, 2025 were 65 thousand and 252 thousand, respectively, as the shares were anti-dilutive.

12. Commitments and Contingencies

Capacity Reservation Agreement

On June 30, 2026, the Company entered into a new Capacity Reservation and Wafer Supply Commitment Agreement (the "Commitment Agreement") with GlobalFoundries to provide the Company a wafer capacity commitment and wafer pricing for Company products for calendar years 2027-2028 (the "Period"). The Commitment Agreement requires GlobalFoundries to provide, and the Company to purchase, a defined number of wafers on a quarterly basis for the Period, subject to certain shortfall provisions. The Company currently estimates that it will purchase at least approximately $600 million of wafers from

GlobalFoundries over the period of calendar years 2027 and 2028 under the Commitment Agreement. There are no remaining wafer commitments under the July 28, 2021 Capacity Reservation Agreement with GlobalFoundries.

Purchase Commitments

We rely primarily on third-party foundries for our wafer manufacturing needs. With the exception of the terms of the Commitment Agreement described above, generally, our foundry agreements do not have volume purchase commitments and primarily provide for purchase commitments based on purchase orders. Cancellation fees or other charges may apply and are generally dependent upon whether wafers have been started or the stage of the manufacturing process at which the notice of cancellation is given.

In addition to our wafer supply arrangements, we contract with third-party assembly vendors to package the wafer die into finished products. Assembly and test vendors provide fixed-cost-per-unit pricing, as is common in the semiconductor industry.

The Company's purchase commitments primarily include the Company's obligations to purchase wafers (including under the Commitment Agreement) and related assembly and testing services described above, in addition to future payments predominantly related to multi-year tool commitments.

Total future unconditional purchase commitments as of September 26, 2026, were as follows (in thousands):

Fiscal Year	
Remainder of 2027	$ 296,018
2028	369,713
2029	274,406
2030	17,593
2031	3,065
Thereafter	950
Total	$ 961,745

13. Legal Matters

From time to time, we are involved in legal proceedings concerning matters arising in connection with the conduct of our business activities. We regularly evaluate the status of legal proceedings in which we are involved in order to assess whether a loss is probable or there is a reasonable possibility that a loss or additional loss may have been incurred, and to determine if accruals are appropriate. We further evaluate each legal proceeding to assess whether an estimate of possible loss or range of loss can be made.

Based on current knowledge, management does not believe that there are any pending matters that could potentially have a material adverse effect on our business, financial condition, results of operations or cash flows. However, we are engaged in various legal actions in the normal course of business. There can be no assurances in light of the inherent uncertainties involved in any potential legal proceedings, some of which are beyond our control, and an adverse outcome in any legal proceeding could be material to our results of operations or cash flows for any particular reporting period.

14. Stockholders' Equity

Common Stock

The Company issued an immaterial number of shares of common stock during the three months ended September 26, 2026, and 0.1 million shares of common stock for the six months ended September 26, 2026 and three and six months ended September 27, 2025.

Share Repurchase Program

The Company's net stock repurchases are subject to a 1 percent excise tax under the Inflation Reduction Act, which is included as a reduction to accumulated earnings in the Consolidated Condensed Statements of Stockholders' Equity. As of September 26, 2026, approximately $1.5 million is accrued related to this excise tax. Disclosure of repurchased amounts and related average costs exclude the impact of excise taxes.

In March 2025, the Board of Directors authorized the repurchase of up to $500 million of the Company's common stock. As of September 26, 2026, approximately $385.9 million of the Company's common stock has been repurchased, leaving approximately $114.1 million available for repurchase under the 2025 authorization. During the three months ended September 26, 2026, the Company repurchased 1.0 million shares of the Company's common stock for $125.5 million, at an average cost of $126.51 per share under the 2025 authorization. During the first six months ended September 26, 2026, the Company repurchased 1.2 million shares of the Company's common stock for $160.0 million, at an average cost of $132.99 per share under the 2025 authorization.

Additionally, subsequent to September 26, 2026, as of October 30, 2026, the Company utilized $18.6 million to repurchase 0.2 million shares at an average price of $108.67 under a Rule 10b5-1 trading plan.

15. Segment Information

We determine our operating segments in accordance with FASB guidelines. Our Chief Executive Officer ("CEO") has been identified as the chief operating decision maker ("CODM") under these guidelines.

The Company operates and tracks its results in one reportable segment, but reports revenue in two product lines, Audio and HPMS. Our CEO receives and uses enterprise-wide financial information to assess financial performance and allocate resources. Our product lines have similar characteristics and customers and share operations support functions such as sales, public relations, supply chain management, various research and development and engineering support, in addition to the general and administrative functions of human resources, legal, finance and information technology. Therefore, there is no complete, discrete financial information maintained for these product lines. Revenue by product line is disclosed in Note 9 - Revenues.

The CODM evaluates Company performance based on net income, and this information is used to measure profitability, make budgeting and forecasting decisions, monitor performance trends, and to compare actual results to forecasts. The CODM regularly reviews the consolidated statement of income and a disaggregation of operating expenses, with a focus on personnel-related and product development expenses. The measure of segment assets is reported on the balance sheet as total consolidated assets.

The table below presents the Company's significant segment operating expenses (in thousands):

	Three Months Ended		Six Months Ended	
	September 26, 2026	September 27, 2025	September 26, 2026	September 27, 2025
Personnel-related (1)	$ 101,777	$ 91,148	$ 200,817	$ 179,467
Product development (2)	18,043	16,550	33,930	30,281
Other segment items (3)	48,361	41,912	90,853	81,498
Total Operating Expense	$ 168,181	$ 149,610	$ 325,600	$ 291,246

(1) Personnel-related expenses include variable compensation and employee-related expenses, which primarily include employee base pay and benefit expenses.
(2) Product development costs include software, engineering mask sets, wafers, and boards, as well as outside design services.
(3) Other segment items primarily include stock-based compensation, IT and facilities-related costs, depreciation and amortization, professional fees, and other operating expenses, offset by the benefit received from research and development expenditure credits.

Geographic Area

The Company's geographic details of revenue are included below.

The following illustrates net sales by ship to location of the customer (in thousands):

	Three Months Ended		Six Months Ended	
	September 26, 2026	September 27, 2025	September 26, 2026	September 27, 2025
China	$ 329,521	$ 302,950	$ 546,231	$ 492,905
India	80,328	69,765	163,593	145,194
Vietnam	70,905	57,464	125,643	93,727
Hong Kong	40,482	69,335	96,911	118,510
South Korea	16,413	34,238	40,022	67,131
United States	4,201	3,033	9,745	7,681
Rest of World	17,612	24,175	37,040	43,084
Total consolidated sales	$ 559,462	$ 560,960	$ 1,019,185	$ 968,232

16. Subsequent Events

On October 6, 2026, the Company acquired 100% of the authorized, issued and outstanding capital of INVENTVM Semiconductor S.r.l. (“INVENTVM”), a privately held fabless semiconductor company based in Italy, specializing in mixed-signal power management and audio integrated circuits. The acquisition is not material to the Company’s consolidated financial statements and will be accounted for as a business combination beginning in the third quarter of fiscal year 2027.

On October 26, 2026, the Board of Directors authorized the repurchase of up to an additional $500 million of the Company's common stock. This authorization is in addition to the approximately $114.1 million that remained available under the March 2025 authorization as of September 26, 2026 (see Note 14 - Stockholders' Equity). Repurchases may be made from time to time through open market purchases, including under Rule 10b5-1 trading plans, or in privately negotiated transactions, and will be funded from existing cash. The authorization has no expiration date and may be modified or suspended at any time.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read along with the unaudited consolidated condensed financial statements and notes thereto included in Item 1 of this Quarterly Report on Form 10-Q, as well as the audited consolidated financial statements and notes thereto and Management’s Discussion and Analysis of Financial Condition and Results of Operations for the fiscal year ended March 28, 2026, contained in our fiscal year 2026 Annual Report on Form 10-K filed with the Securities and Exchange Commission (the “Commission”) on May 21, 2026. We maintain a website at investor.cirrus.com, which makes available free of charge our most recent annual report and all other filings we have made with the Commission.

Special Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q including Management’s Discussion and Analysis of Financial Condition and Results of Operations and certain information incorporated herein by reference contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements are based on expectations, estimates, forecasts and projections and the beliefs and assumptions of our management as of the filing of this Form 10-Q. In some cases, forward-looking statements are identified by words such as “expect,” “anticipate,” “target,” “project,” “believe,” “goals,” “estimates,” “intend,” and variations of these types of words and similar expressions which are intended to identify these forward-looking statements. In addition, any statements that refer to our plans, expectations, strategies or other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned that these forward-looking statements are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements and readers should not place undue reliance on such statements. We undertake no obligation, and expressly disclaim any duty, to revise or update publicly any forward-looking statement for any reason, except as required by law.

For additional information regarding known material factors that could cause our actual results to differ from our projected results, please see *"Item 1A - Risk Factors"* in our 2026 Annual Report on Form 10-K filed with the Commission on May 21, 2026, and in "*Part II, Item 1A - Risk Factors*" within this Quarterly Report on Form 10-Q. Readers should carefully review these risk factors, as well as those identified in other documents filed by us with the Commission.

Overview

Cirrus Logic, Inc. ("Cirrus Logic," "We," "Us," "Our," or the "Company") is a leader in low-power, high-precision mixed-signal processing solutions that create innovative user experiences for the world's top mobile and consumer applications.

During the second quarter of fiscal year 2027, we saw our latest-generation custom boosted amplifier and 22-nanometer smart codec featured in newly launched smartphones, along with a higher attach rate of our third-generation camera controller. We also made progress on the development of new custom components, with our smart power IC for 3D sensing applications remaining on schedule and the tape out of our fourth-generation camera controller. Beyond smartphones, a new premium six-speaker PC based on NVIDIA's RTX Spark™ platform featuring Cirrus Logic amplifiers and a codec was recently introduced and we taped out our second-generation smart codec for AI-enabled PCs. In our general market business, we began sampling our new analog front-end components for smart metering and secured the first production orders for our new industrial imaging components. Finally, subsequent to the end of the quarter, we completed the acquisition of INVENTVM, a fabless semiconductor company specializing in mixed-signal power management and audio integrated circuits. This acquisition not only expands our engineering capacity but also strengthens our competitive position and product portfolio in the emerging consumer wearable and AI gadget markets.

Critical Accounting Policies and Estimates

Our discussion and analysis of the Company's financial condition and results of operations are based upon the unaudited consolidated condensed financial statements included in this report, which have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts. We evaluate the estimates on an ongoing basis. We base these estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

There have been no significant changes during the three and six months ended September 26, 2026, to the information provided under the headings "*Critical Accounting Estimates*" and "*Summary of Significant Accounting Policies*" included in our fiscal year 2026 Annual Report on Form 10-K for the fiscal year ended March 28, 2026.

Recently Issued Accounting Pronouncements

For a discussion of recently issued accounting pronouncements, refer to Note 2 of the Notes to the Consolidated Condensed Financial Statements.

Results of Operations

Our fiscal year is the 52- or 53-week period ending on the last Saturday in March. Fiscal years 2027 and 2026 are 52-week fiscal years.

The following table summarizes the results of our operations for the three and six months of fiscal years 2027 and 2026, respectively, as a percentage of net sales. All percentage amounts were calculated using the underlying data in thousands, unaudited. Percentages are rounded to the nearest whole percent and, as a result, may not sum to subtotals presented.

	Three Months Ended		Six Months Ended	
	September 26, 2026	September 27, 2025	September 26, 2026	September 27, 2025
Net sales	100 %	100 %	100 %	100 %
Gross margin	54 %	53 %	53 %	53 %
Research and development	22 %	20 %	23 %	22 %
Selling, general and administrative	8 %	7 %	9 %	9 %
Income from operations	24 %	26 %	21 %	22 %
Interest income	2 %	1 %	2 %	2 %
Interest expense	— %	— %	— %	— %
Other expense	— %	— %	— %	— %
Income before income taxes	25 %	27 %	23 %	24 %
Provision for income taxes	5 %	4 %	4 %	4 %
Net income	21 %	23 %	19 %	20 %

Net Sales

Net sales for the second quarter of fiscal year 2027 decreased $1.5 million, to $559.5 million from $561.0 million in the second quarter of fiscal year 2026. Net sales from our audio products decreased $3.7 million, primarily driven by lower general market sales. Net sales from HPMS products increased $2.2 million for the quarter versus the second quarter of fiscal year 2026, primarily due to higher sales of components shipping into smartphones, partially offset by lower general market sales and previously anticipated pricing reductions.

Net sales for the first six months of fiscal year 2027 increased $51.0 million, or 5 percent, to $1.0 billion from $968.2 million for the first six months of fiscal year 2026. Net sales from our audio products increased $5.3 million, primarily driven by higher smartphone unit volumes and increased content shipping into smartphones, partially offset by lower general market sales and declines due to previously anticipated pricing reductions. Net sales from HPMS products increased $45.7 million for the first six months of fiscal year 2027 versus the first six months of fiscal year 2026, primarily due to higher sales of components shipping into smartphones. Declines due to lower general market sales and previously anticipated pricing reductions partially offset the increase.

International sales, including sales to U.S.-based end customers that manufacture products through contract manufacturers or plants located overseas, were approximately 99 percent of net sales for each of the second quarters and six month periods of fiscal years 2027 and 2026. Our sales are denominated primarily in U.S. dollars.

Since the components we produce are largely proprietary, we consider our end customer to be the entity specifying the use of our component in their design. These end customers may purchase our products directly from us, through distributors, or third-party manufacturers contracted to produce their designs. For each of the second quarters of fiscal years 2027 and 2026, our ten largest end customers represented approximately 97 percent of our net sales, and 96 percent and 97 percent for the first six months of fiscal years 2027 and 2026, respectively.

We had one end customer, Apple Inc., that purchased through multiple contract manufacturers and represented approximately 93 percent and 90 percent of the Company’s total net sales for the second quarters of fiscal years 2027 and 2026, respectively, and 92 percent and 88 percent for the first six months of fiscal years 2027 and 2026, respectively.

No other end customer or distributor represented more than 10 percent of net sales for the three and six months ended September 26, 2026 or September 27, 2025.

For more information, please see "*Part II, Item 1A - Risk Factors*" — "We depend on a limited number of customers and distributors for a substantial portion of our sales, and the loss of, or a significant reduction in orders from, or pricing on products sold to, any key customer or distributor could significantly reduce our sales and our profitability."

Gross Margin

Gross margin was 53.7 percent and 52.5 percent in the second quarter of fiscal years 2027 and 2026, respectively. The increase was primarily due to a more favorable product mix, lower inventory reserves, and a temporary benefit from wafers purchased under prior agreements with GlobalFoundries, partially offset by higher freight and supply chain costs.

Gross margin was 53.2 percent for the first six months of fiscal year 2027, up from 52.5 percent for the first six months of fiscal year 2026. The increase was primarily due to a more favorable product mix and lower inventory reserves, partially offset by higher freight and supply chain costs.

Research and Development Expense

Research and development expense for the second quarter of fiscal year 2027 was $123.3 million, an increase of $13.3 million, from $110.0 million in the second quarter of fiscal year 2026. Significant drivers were increased employee-related costs, including acquisition-specific employee bonus and retention payments, increased IT and facilities-related, and product development costs, partially offset by reductions in variable compensation costs.

Research and development expense for the first six months of fiscal year 2027 was $238.4 million, an increase of $25.4 million, from $212.9 million for the first six months of fiscal year 2026, primarily due to increased employee-related costs, including acquisition-specific employee bonus and retention payments, IT and facilities-related, and product development costs, offset by increased R&D incentives for the period.

Selling, General and Administrative Expense

Selling, general and administrative expense for the second quarter of fiscal year 2027 was $44.8 million, an increase of $5.3 million, from $39.6 million in the second quarter of fiscal year 2026, due to higher professional fees associated with acquisition-related costs, and higher employee-related costs, partially offset by reductions in stock-based compensation expenses related to performance-based awards.

Selling, general and administrative expense for the first six months of fiscal year 2027 was $87.2 million, an increase of $8.9 million, from $78.3 million for the first six months of fiscal year 2026, predominantly due to higher professional fees associated with acquisition-related costs. Additional increases are attributed to employee-related costs and other professional fees, partially offset by reductions in stock-based compensation expenses related to performance-based awards.

Interest Income

The Company reported interest income of $9.9 million and $20.3 million for the three and six months ended September 26, 2026, and $8.9 million and $17.8 million for the three and six months ended September 27, 2025, respectively. Interest income increased in the current period due to higher average cash, cash equivalents and marketable securities balances, partially offset by marginally lower interest rates compared to the prior period.

Interest Expense

The Company reported interest expense of $0.3 million and $0.6 million for the three and six months ended September 26, 2026, and $0.2 million and $0.5 million for the three and six months ended September 27, 2025, respectively. Interest expense consists primarily of commitment fees and debt issuance cost amortization associated with the Company's Revolving Credit Facility (see Note 8 - Revolving Credit Facility of the Notes to the Consolidated Condensed Financial Statements).

Other Expense

For the three and six months ended September 26, 2026, the Company reported other expense of $0.1 million and $0.4 million, respectively. For the three and six months ended September 27, 2025, the Company reported other expense of $0.1 million and $0.5 million, respectively. This activity primarily related to non-investment related expense and remeasurement on foreign currency denominated monetary assets and liabilities.

Income Taxes

Our provision for income taxes is based on estimated effective tax rates derived from an estimate of annual consolidated earnings before taxes, adjusted for nondeductible expenses, other permanent items and any applicable credits.

The following table presents the provision for income taxes (in thousands) and the effective tax rates:

	Three Months Ended		Six Months Ended	
	September 26, 2026	September 27, 2025	September 26, 2026	September 27, 2025
Income before income taxes	$ 141,982	$ 153,396	$ 236,136	$ 234,024
Provision for income taxes	$ 27,243	$ 21,800	$ 44,546	$ 41,731
Effective tax rate	19.2 %	14.2 %	18.9 %	17.8 %

Our income tax expense for the second quarter of fiscal year 2027 was $27.2 million compared to $21.8 million for the second quarter of fiscal year 2026, resulting in effective tax rates of 19.2 percent and 14.2 percent, respectively. Income tax expense for the first six months of fiscal years 2027 and 2026 was $44.5 million and $41.7 million, respectively, resulting in effective tax rates of 18.9 percent and 17.8 percent, respectively.

The effective tax rates for all periods presented were lower than the statutory rate, primarily due to the effect of income in foreign jurisdictions taxed below the federal statutory rate, offset by certain nondeductible items. All periods presented were favorably impacted by the legislation commonly referred to as the One Big Beautiful Bill Act ("OBBBA"), enacted in the second quarter of fiscal year 2026, which permanently eliminated the requirement to capitalize U.S. R&D expenditures effective from the beginning of fiscal year 2026.

Liquidity and Capital Resources

We require cash to fund our operating expenses and working capital requirements, including outlays for inventory, capital expenditures, share repurchases, and strategic acquisitions. Our principal sources of liquidity are cash on hand, cash generated from operations, cash generated from the sale and maturity of marketable securities, and available borrowings under our $350 million Revolving Credit Facility.

Cash generated from our operating activities is net income adjusted for certain non-cash items and changes in working capital. Cash generated from operations was $115.0 million for the first six months of fiscal year 2027 versus $208.3 million generated for the corresponding period of fiscal year 2026. The cash flow from operations during the first six months of fiscal year 2027 was related to the cash components of our net income and a $148.3 million unfavorable change in working capital, primarily as a result of increases in accounts receivables, inventories, and other assets, partially offset by increases in accounts payable and other accrued liabilities and prepaid wafer usage (related to the Capacity Reservation Agreement). The cash flow from operations during the corresponding period of fiscal year 2026 was related to the cash components of our net income and a $52.8 million unfavorable change in working capital, primarily as a result of an increase in accounts receivables and decrease in income taxes payable, partially offset by decreases in inventory, and increases in prepaid wafer usage (related to the Capacity Reservation Agreement) and accounts payable and other accrued liabilities.

Net cash used in investing activities was $31.8 million during the first six months of fiscal year 2027 versus $14.1 million during the first six months of fiscal year 2026. The cash used in investing activities in the first six months of fiscal year 2027 was related to net purchases of marketable securities of $7.7 million and capital expenditures and technology investments of $24.1 million. The cash used in investing activities in the corresponding period in fiscal year 2026 was related to net purchases of marketable securities of $6.9 million and capital expenditures and technology investments of $7.3 million.

Net cash used in financing activities was $164.0 million during the first six months of fiscal year 2027 and was primarily associated with stock repurchases for the period of $160.0 million. The cash used in financing activities during the first six months of fiscal year 2026 of $140.3 million was primarily associated with stock repurchases during the period of $140.0 million.

Our future capital requirements will depend on many factors, including the rate of sales growth, market acceptance of our products, the timing and extent of research and development projects, potential future acquisitions of companies or technologies, inventory build, and commitments under the Commitment Agreement with GlobalFoundries (discussed further in Note 12 - Commitments and Contingencies of the Notes to the Consolidated Condensed Financial Statements). We believe our expected future cash earnings, existing cash, cash equivalents, investment balances, and available borrowings under our Revolving Credit Facility will be sufficient to meet our capital requirements both domestically and internationally, in the short-term (i.e. the next 12 months) and in the long-term, although we could be required, or could elect, to seek additional funding prior to that time.

The Company’s contractual cash requirements have changed since the fiscal year 2026 Form 10-K, including manufacturing purchase obligations and multi-year tool commitments. See additional details of total future unconditional purchase commitments within Note 12 - Commitments and Contingencies of the Notes to the Consolidated Condensed Financial Statements.

Manufacturing Purchase Obligations

The Company's manufacturing purchase obligations consist primarily of commitments related to our wafer supply arrangements and third-party assembly vendors that package the wafer die into finished products. As of September 26, 2026, the Company had unconditional manufacturing purchase obligations of $273.6 million, payable within the remaining 2027 fiscal year.

Other Purchase Obligations

The Company's other purchase obligations consist primarily of multi-year tool commitments. As of September 26, 2026, the Company's unconditional other purchase obligations were $22.4 million, payable within the remaining 2027 fiscal year.

Revolving Credit Facility

On May 4, 2026, the Company entered into a third amended and restated credit agreement (the “Third Amended Credit Agreement”) with Wells Fargo Bank, National Association, as administrative agent, and the lenders party thereto. The Third Amended Credit Agreement provides for a $350 million senior secured revolving credit facility (the “Revolving Credit Facility”). The Revolving Credit Facility matures on May 4, 2031 (the “Maturity Date”). The Revolving Credit Facility is required to be guaranteed by all of Cirrus Logic’s Subsidiary Guarantors. The Revolving Credit Facility is secured by substantially all the assets of Cirrus Logic and any Subsidiary Guarantors, except for certain excluded assets.

As of September 26, 2026, the Company had no amounts outstanding under the Revolving Credit Facility and was in compliance with all covenants under the Third Amended Credit Agreement.

See Note 8 — Revolving Credit Facility of the Notes to the Consolidated Condensed Financial Statements for additional information including material terms and related covenants.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks associated with interest rates on our debt securities, currency movements on non-functional currency assets and liabilities, and the effect of market factors on the value of our marketable securities. We assess these risks on a regular basis and have established policies that are designed to protect against the adverse effects of these and other potential exposures. We use forward contracts to manage exposure to foreign currency exchange risk attributable to certain non-U.S. dollar balance sheet exposures. Gains and losses from these foreign currency forward contracts are recognized currently in earnings along with the gains and losses resulting from remeasuring the underlying exposures. Information about our market risks as of September 26, 2026, does not materially differ from the description of our market risks included in "*Part II – Item 7A – Quantitative and Qualitative Disclosures about Market Risk"* within our fiscal year 2026 Annual Report on Form 10-K filed with the Commission on May 21, 2026. For related financial statement impact see Note 5 - Derivative Financial Instruments of the Notes to the Consolidated Condensed Financial Statements.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

As required by Rule 13a-15(b) of the Exchange Act, we have evaluated, under the supervision and with the participation of our management, including our chief executive officer (CEO) and chief financial officer (CFO), the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Commission rules and forms and (ii) accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Based upon the evaluation, our management, including our CEO and CFO, has concluded that our disclosure controls and procedures were effective as of September 26, 2026.

Changes in control over financial reporting

There has been no change in the Company's internal control over financial reporting during the quarter ended September 26, 2026, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Information regarding legal proceedings to which the Company is a party is set forth in Note 13 – Legal Matters to our unaudited consolidated condensed financial statements and is incorporated herein by reference.

ITEM 1A. RISK FACTORS

In evaluating all forward-looking statements, you should specifically consider risk factors that may cause actual results to vary from those contained in the forward-looking statements. Various risk factors associated with our business are included in our Annual Report on Form 10-K for the year ended March 28, 2026, as filed with the Commission on May 21, 2026, and available at www.sec.gov. Other than as set forth below, there have been no material changes to those risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended March 28, 2026.

We depend on a limited number of customers and distributors for a substantial portion of our sales, and the loss of, or a significant reduction in orders from, or pricing on products sold to, any key customer or distributor could significantly reduce our sales and our profitability.

While we generate sales from a broad base of customers worldwide, the loss of any of our key customers, or a significant reduction in sales or selling prices to any key customer, or reductions in selling prices made to retain key customer relationships, would significantly reduce our revenue, margins and earnings and adversely affect our business. For each of the

second quarters of fiscal years 2027 and 2026, our ten largest end customers represented approximately 97 percent of our net sales. For the first six months of fiscal years 2027 and 2026, our ten largest end customers represented approximately 96 percent and 97 percent of our net sales, respectively. We had one end customer, Apple Inc., that purchased through multiple contract manufacturers and represented approximately 93 percent and 90 percent of the Company's total net sales for the second quarter of fiscal years 2027 and 2026, respectively and 92 percent and 88 percent for the first six months of fiscal years 2027 and 2026, respectively. No other end customer or distributor represented more than 10 percent of net sales for the three and six months ended September 26, 2026, or September 27, 2025.

We may not be able to maintain or increase sales to certain of our key customers for a variety of reasons, including:

- most of our customers can stop incorporating our products into their own products with limited notice to us and suffer little or no penalty;

- our agreements with our customers typically do not require them to purchase a minimum quantity of our products;

- many of our customers have pre-existing or concurrent relationships with our current or potential competitors that may affect the customers' decisions to purchase our products;

- many of our customers have sufficient resources to internally develop technology solutions and semiconductor components that could replace the products that we currently supply in our customers' end products;

- our customers face intense competition from other manufacturers that do not use our products;

- our customers may be subject to investigations and litigation that could result in injunctive or other relief that negatively impacts sales of their products, which in turn would result in a decrease in demand for our products;

- our customers regularly evaluate alternative sources of supply in order to diversify their supplier base, which increases their negotiating leverage with us and their ability to either obtain or dual-source components from other suppliers; and

- our current customers may be hesitant in some cases to award new business to us based on their desire to manage their supply chain risks around any potential over-dependence on a supplier or supply chain.

In addition, our dependence on a limited number of key customers may make it easier for them to demand favorable commercial terms or to pressure us on price reductions or to not accept price increases resulting from unexpected or additional cost increases or fees associated with our suppliers. We have experienced pricing pressure from certain key customers, and we expect that the average selling prices ("ASPs") for certain of our products will decline from time to time, potentially reducing our revenue, margins, and earnings.

Our key customer relationships often require us to develop new products that may involve significant technological challenges. Our customers frequently place considerable pressure on us to meet tight development schedules. In addition, we have entered, and may again enter in the future, into customer agreements providing for exclusivity periods during which we may only sell specified products or technology to a specific customer. Even without exclusivity periods, the products that we develop are often specific to our customer's system architecture and frequently cannot be sold to other customers. Accordingly, we have in the past and may in the future devote a substantial amount of resources to strategic relationships, which could detract from or delay our completion of other important development projects or the development of next-generation products and technologies. Notwithstanding our efforts, our customers are not always obligated to purchase new products that we develop for them, and their failure to do so could have a material effect on our operating results, financial condition, and cash flows.

Our reliance on certain customers may continue to increase, which could heighten the risks associated with having key customers, including making us more vulnerable to significant reductions in revenue, margins, and earnings; pricing pressure; and other adverse effects on our business.

We have long-term capacity reservation and wafer supply agreements with GlobalFoundries, which include obligations to purchase wafers from GlobalFoundries through calendar year 2028. If our requirements are different from the number of wafers that we have committed to purchase from GlobalFoundries, or if GlobalFoundries is not able to satisfy our manufacturing requirements, our results of operations and financial condition could be adversely impacted.

In 2021, in an effort to alleviate some of our future expected supply constraints, the Company entered into a Capacity Reservation and Wafer Supply Commitment Agreement with GlobalFoundries on July 28, 2021 to reserve capacity and set wafer pricing for products purchased pursuant to the agreement through 2026. In February 2025, this agreement was amended to reflect an agreed change in the number of wafers to be shipped on a quarterly basis during calendar years 2025 and 2026. On June 30, 2026, the Company entered into a new Capacity Reservation and Wafer Supply Commitment Agreement with GlobalFoundries to reserve capacity and set wafer pricing for products pursuant to the agreement for calendar years 2027-2028.

Although we believe these agreements are a good use of our financial resources and secure capacity for certain products through 2028, the agreements with GlobalFoundries involve certain risks that have resulted and may in the future result in excess inventory, or may place us at a competitive disadvantage, have a negative impact on our liquidity, or adversely affect our results of operations and financial condition. Pursuant to the agreements, the Company is required to purchase, and GlobalFoundries is required to supply, a certain number of wafers on a quarterly basis. Customers, on occasion, cancel, reschedule orders, or change future product plans on short notice, which can lead to our actual wafer requirements being less than the number of wafers required to meet the applicable wafer purchase requirements, potentially resulting in excess inventory or higher inventory unit costs, both of which may adversely impact our gross margin and our results of operations.

Additionally, the agreements set forth pricing for wafer purchases pursuant to the agreements through 2028. If market conditions change and wafer prices in the market decrease significantly below what is contemplated in the agreements, the agreements may put us at a competitive disadvantage relative to our competitors.

Even with long-term supply agreements, we are still subject to risks that GlobalFoundries will be unable to meet its supply commitments, achieve anticipated manufacturing yields, manufacture our products on a timely basis, or provide additional wafer capacity beyond its current contractual commitments sufficient to meet our customers' product demands. If this were to occur, we may experience delays in product launches or supply shortages for certain products, which could cause an unanticipated decline in our sales and damage our existing customer relationships and our ability to establish new customer relationships.

Any of the foregoing could materially harm our liquidity, financial condition and results of operations and could put us at a disadvantage relative to our competitors.

We could be subject to changes in tax laws, the adoption of new U.S. or international tax legislation or exposure to additional tax liabilities.

We are subject to taxes in the U.S. and numerous foreign jurisdictions, including the United Kingdom (“U.K.”), where a number of our subsidiaries are organized. Due to economic and political conditions, tax laws in various jurisdictions may be subject to significant change. For example, many countries have started to implement legislation and other guidance to align their international tax rules with the Organization of Economic Cooperation and Development’s Base Erosion and Profit Shifting recommendations and action plan that aim to standardize and modernize global corporate tax policy, including implementation of a global minimum tax (“Pillar Two”). In another example, the U.K. government has proposed legislation relating to the treatment of foreign permanent establishments for U.K. tax purposes. If enacted, interpreted or applied in a manner adverse to our structure or operations, such changes could alter the treatment of income, expenses, tax attributes or incentives associated with U.K. foreign branch operations, including by reducing the availability or value of the U.K. research and development expenditure credit or other tax benefits, and could adversely affect our provision for income taxes, effective tax rate, operating results, cash flows and financial condition. These and other changes in tax laws and regulations may impact both our international and domestic tax liabilities and result in increased complexity and uncertainty and may adversely affect our provision for income taxes. Our future effective tax rates could be affected by changes in the mix of earnings in countries with differing statutory tax rates, changes in the valuation of deferred tax assets and liabilities, or changes in tax laws or their interpretation. If our effective tax rates were to increase, particularly in the U.S. or the U.K., or if the ultimate determination of taxes owed is for an amount in excess of amounts previously accrued, our operating results, cash flows, and financial condition could be adversely affected.

Significant judgment is required in the calculation of our tax provision and the resulting tax liabilities. Our estimates of future taxable income and the regional mix of this income can change as new information becomes available. Any such changes in our estimates or assumptions can significantly impact our tax provision in a given period. For discussion of our income taxes, see Note 10 - Income Taxes, of the Notes to Consolidated Condensed Financial Statements contained in Part I, Item 1.

We are also subject to the examination of our tax returns and other tax matters by the U.S Internal Revenue Service ("IRS") and other tax authorities and governmental bodies. We regularly assess the likelihood of an adverse outcome resulting from these examinations to determine the adequacy of our provision for taxes. There can be no assurance as to the outcome of these examinations.

The Company's fiscal year 2017, 2018, and 2019 federal income tax returns are under examination by the IRS. The IRS has proposed adjustments that would increase U.S. taxable income related to transfer pricing matters with respect to our U.S. and U.K. affiliated companies. The final Revenue Agent's Report asserted additional tax of approximately $168.3 million, excluding interest, and imposing penalties of approximately $63.7 million. We do not agree with the IRS's positions and we continue to vigorously dispute the proposed adjustments, including through ongoing discussions as part of the administrative process with the IRS Independent Office of Appeals. If an acceptable outcome cannot be reached with IRS Appeals, we are prepared to pursue judicial remedies, which could take a number of years to resolve. Although the final resolution of these matters is uncertain, the Company believes adequate amounts have been reserved for any adjustments to the provision for income taxes that may ultimately result. However, the ultimate amount of assessed tax, interest, and penalties, if any, could be material and may have an adverse impact on our financial position, results of operations, and cash flows in future periods.

Our debt obligations may be a burden on our future cash flows and cash resources.

On May 4, 2026, the Company entered into a third amended and restated credit agreement (the "Third Amended Credit Agreement") which provides for a $350 million senior secured revolving credit facility (the "Revolving Credit Facility"). The Revolving Credit Facility matures on May 4, 2031 (the "Maturity Date"). As of September 26, 2026, the Company did not have an outstanding balance under the Revolving Credit Facility. To the extent the Company has an outstanding balance, our ability to repay the principal of, to pay interest on, or to refinance our indebtedness, depends on our future performance, which is subject to economic, financial, competitive, regulatory, and other factors, some of which are beyond our control. Our business may not generate cash flow from operations in the future sufficient to satisfy our obligations or to make necessary capital expenditures. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as reducing or delaying investments or capital expenditures, selling assets, or refinancing or obtaining additional equity capital on terms that may be onerous or highly dilutive. Our ability to refinance any indebtedness will depend on the capital markets and our financial condition at such time. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on the Third Amended Credit Agreement.

Our Third Amended Credit Agreement contains restrictions that could limit our flexibility in operating our business.

Our Third Amended Credit Agreement contains various covenants that could limit our ability to engage in specified types of transactions under certain conditions. These covenants could limit our ability to, among other things:

- pay dividends on, repurchase, or make distributions in respect of our capital stock or make other restricted payments;

- incur additional indebtedness or issue certain preferred shares;

- make certain investments;

- sell certain assets;

- create liens;

- consolidate, merge, sell, or otherwise dispose of all or substantially all of our assets; and

- enter into certain transactions with our affiliates.

A breach of any of these covenants could result in a default under the Third Amended Credit Agreement. In the event of a default, the lenders could elect to declare all amounts then outstanding to be immediately due and payable. If our lenders accelerate the repayment of borrowings, we may not be able to repay our debt obligations. If we were unable to repay amounts

due to the lenders under our credit facility, those lenders could proceed against the collateral granted to them to secure that indebtedness.

We may acquire other companies or technologies, which may create additional risks, including risks associated with our ability to successfully integrate these acquisitions into our business.

On October 6, 2026, we announced that we had acquired Inventvm Semiconductor S.r.l. (“Inventvm”), a fabless semiconductor company based in Italy. We continue to consider future acquisitions of other companies, or their technologies or products, to improve our market position, broaden our technological capabilities, and expand our product offerings. Acquiring companies or technologies, including Inventvm, involves a number of risks, including, but not limited to:

- the potential disruption of our ongoing business;

- unexpected costs or incurring unknown liabilities;

- the diversion of management resources from other strategic and operational issues;

- the inability to retain the employees of the acquired businesses;

- difficulties relating to integrating the operations and personnel of the acquired businesses;

- the possibility that we do not realize the anticipated benefits of an acquisition, including the expected technology, intellectual property, and engineering capacity;

- adverse effects on our existing customer relationships or the existing customer relationships of acquired businesses;

- the potential incompatibility of the acquired business or their business customers;

- adverse effects associated with entering into markets and acquiring technologies in areas in which we have little experience; and

- acquired intangible assets, including goodwill, becoming impaired as a result of technological advancements or worse-than-expected performance of the acquired business.

If we are unable to successfully address any of these risks, our business could be harmed.

If certain tax credits or incentives we receive change or cease to be in effect or applicable for any reason, or if our assumptions and interpretations regarding tax laws and incentives prove to be incorrect, our financial results could be adversely impacted.

Our operations are currently structured to benefit from various incentives available to us in various jurisdictions to encourage research and development investment. For example, we receive a research and development expenditure credit in the United Kingdom ("RDEC"), which is recorded for accounting purposes as an offset to research and development expenses in the Company’s consolidated income statement and resulted in a benefit of $42.9 million in fiscal year 2026. The Company makes estimates of the RDEC receivable as of each balance sheet date, based upon facts known at the time. Although the Company does not expect its estimates to be materially different from the amounts ultimately recognized, its estimates could differ from actual results. To date, there have not been any material adjustments to the Company's prior estimates of RDEC receivables. If such credit is modified or rescinded, or we are no longer eligible for such credit, our financial results could be adversely impacted. For example, the U.K. government has proposed legislation relating to the treatment of foreign permanent establishments for U.K. tax purposes. If enacted, interpreted, or applied in a manner adverse to our structure or operations, the legislation, which as proposed would be effective beginning in fiscal year 2028, would likely reduce the availability or value of the RDEC, increase our R&D expenses, and decrease our cash flows. See further discussion of the research and development expenditure credit in the U.K. in Note 2 - Summary of Significant Accounting Policies - Government Assistance, of the Notes to Consolidated Financial Statements contained in Item 8 of our Form 10-K filed with the SEC on May 21, 2026.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information about purchases of equity securities that are registered by us pursuant to Section 12 of the Exchange Act during the three months ended September 26, 2026 (in thousands, except per share amounts):

Monthly Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs (1)
June 28, 2026 - July 25, 2026	595	$ 121.60	595	$ 167,320
July 26, 2026 - August 22, 2026	107	$ 112.09	107	$ 155,320
August 23, 2026 - September 26, 2026	290	$ 141.91	290	$ 114,142
Total	992	$ 126.51	992	$ 114,142

(1) As of September 26, 2026, the Company had one active share repurchase authorization, the $500 million in share repurchases authorized by the Board of Directors in March 2025. Share repurchases are to be funded from existing cash and intended to be effected from time to time in accordance with applicable securities laws through the open market, including pursuant to a Rule 10b5-1 trading plan, or in privately negotiated transactions. The timing of repurchases and the actual amount purchased depend on a variety of factors including general market and economic conditions and other corporate considerations. The authorization does not have an expiration date, does not obligate the Company to repurchase any particular amount of common stock, and may be modified or suspended at any time at the Company's discretion. Under the 2025 share repurchase authorization, the Company repurchased 1.0 million shares of its common stock for $125.5 million during the quarter ended September 26, 2026. The Company's repurchases reflected in the table above were made in the open market and were funded from existing cash. All shares of our common stock that were repurchased and settled as of September 26, 2026, were retired.

The Company's net stock repurchases are subject to a 1 percent excise tax under the Inflation Reduction Act, which is included as a reduction to accumulated earnings in the Consolidated Condensed Statements of Stockholders' Equity. Disclosure of repurchased amounts and related average costs exclude the impact of excise taxes.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

Trading Arrangements

None of our directors or Section 16 officers entered into, modified or terminated a Rule 10b5-1 or non-Rule 10b5-1 trading arrangement for the purchase or sale of Company securities during the second quarter of fiscal year 2027.

ITEM 6. EXHIBITS

The following exhibits are filed as part of or incorporated by reference into this Report:

Number	Description
3.1	Amended and Restated Certificate of Incorporation of Registrant, filed with the Delaware Secretary of State on July 26, 2024 (1)
3.2	Amended and Restated Bylaws of Registrant (2)
10.1*†	Capacity Reservation and Wafer Supply Commitment Agreement, dated June 30, 2026 (3)
10.2	Third Amended and Restated Credit Agreement, entered May 4, 2026, among Cirrus Logic, Inc., the Lenders party thereto and Wells Fargo Bank, National Association, as a Lender and Administrative Agent (4)
31.1	Certification of Chief Executive Officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
31.2	Certification of Chief Financial Officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
32.1**	Certification of Chief Executive Officer, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

1. Incorporated by reference to Exhibit 2 to the Registrant's Definitive Proxy Statement filed with the Commission on June 3, 2024 (Registration No. 000-17795).
2. Incorporated by reference to Exhibit 3.1 to the Registrant's Current Report on Form 8-K filed with the Commission on March 8, 2023 (Registration No. 000-17795).
3. Incorporated by reference to Exhibit 10.1 to the Registrant's Quarterly Report on Form 10-Q filed with the Commission on August 5, 2026 (Registration No. 000-17795).
4. Incorporated by reference to Exhibit 10.1 to the Registrant's Current Report on Form 8-K filed with the Commission on May 6, 2026 (Registration No. 000-17795).

* Certain confidential information contained in this exhibit has been omitted by means of redacting a portion of the text, pursuant to Regulation S-K Item 601(b)(10)(iv). Certain confidential information has been excluded from the exhibit because it (i) is not material and (ii) is the type of information that the registrant treats as private or confidential. An unredacted copy of the exhibit will be provided on a supplemental basis to the SEC upon request.

† Certain schedules or appendices to this exhibit have been omitted pursuant to Regulation S-K Item 601(a)(5). A copy of any omitted schedule will be furnished to the SEC upon request.

** The certifications attached as Exhibits 32.1 and 32.2 accompanying this Quarterly Report on Form 10-Q are deemed furnished and not filed with the SEC and are not to be incorporated by reference into any filing of the Registrant under the Securities Act of 1933, as amended, whether made before or after the date of this Quarterly Report on Form 10-Q, irrespective of any general incorporation language contained in such filing.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

CIRRUS LOGIC, INC.

Date: November 4, 2026

Chief Financial Officer and Principal Accounting Officer

CERTIFICATION

pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, John M. Forsyth, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Cirrus Logic, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Certification Pursuant to 18 U.S.C. Section 1350,
as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

In connection with the Quarterly Report of Cirrus Logic, Inc. (the "Company") on Form 10-Q for the period ended September 26, 2026, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, John M. Forsyth, Chief Executive Officer of the Company, hereby certify as of the date hereof, solely for purposes of Title 18, Chapter 63, Section 1350 of the United States Code, that to my knowledge:

1. The Report fully complies with the requirements of Section 13(a) or 15(d), of the Securities Exchange Act of 1934, as amended; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

A signed original of this written statement required by Section 906, or other document authenticating, acknowledging, or otherwise adopting the signature that appears in typed form within the electronic version of this written statement required by Section 906, has been provided to the Company and will be retained by the Company and furnished to the Securities and Exchange Commission or its staff upon request.

This Certification has not been, and shall not be deemed, "filed" with the Securities and Exchange Commission.
