

Aptar Fact Book

Updated July 2026-Rev 2

Forward Looking Statements & Non-GAAP Financial Measures

This presentation includes forward-looking statements. Forward-looking statements are made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and are based on management's beliefs and assumptions in light of information currently available to management. Accordingly, the Company's actual results may differ materially from those expressed or implied in such forward-looking statements due to known or unknown risks and uncertainties that exist in the Company's operations and business environment, including, among other factors, those described in documents filed by the Company with the Securities and Exchange Commission, specifically its Form 10-Ks and 10-Qs. The Company does not assume any obligation to update, amend or clarify such statements to reflect new events, information or circumstances after the date of this presentation.

During the course of this presentation, certain non-GAAP financial information will be presented. Refer to the Appendix at the end of this presentation for additional information and a reconciliation to the most directly comparable GAAP measures. However, we are not able to reconcile forward-looking non-GAAP financial measures because certain reconciling items are dependent on future events that either cannot be controlled, such as exchange rates and changes in the fair value of equity investments or reliably predicted without unreasonable effort because they are not part of the company's routine activities, such as restructuring and acquisition costs. The variability of these items could have a significant impact on our future GAAP financial results.

Adjusted EBITDA and EPS exclude the impact of restructuring initiatives, acquisition related costs, certain purchase accounting adjustments related to acquisitions and investments and net unrealized investment gains and losses related to observable market price changes on equity securities. EBITDA Margin is EBITDA divided by reported net sales. Adjusted EBITDA margin is adjusted EBITDA divided by reported net sales. Adjusted EPS also neutralizes the impact of foreign currency translation effects when comparing current results to the prior year and further adjusts for the net effect of a tax payment related to a legal entity reorganization. Prior year Adjusted EPS includes foreign currency effects that are approximations of the adjustment necessary to state the prior year earnings per share using current period foreign currency exchange rates. Core sales exclude acquisitions and changes in foreign currency sales. Core sales growth is calculated as current sales, less acquisitions, less constant currency prior year sales, divided by constant currency prior year sales. Free cash flow is calculated as cash provided by operating activities less capital expenditures plus proceeds from government grants related to capital expenditures. Return on Investment Capital (ROIC) is calculated as Adjusted Earnings before Net Interest and Taxes, less Tax Effect / Average Capital, whereas Average Capital is the average of beginning of year capital and Capital is Equity plus Debt less Cash. Dividend Payout Ratio is calculated as Cash Dividends Paid / Adjusted Earnings Per Share.

Aptar is a **global leader in drug delivery and consumer product dosing, dispensing and protection technologies.**

Our technologies deliver medications that treat chronic diseases, bring convenience and security to consumers and we continually work to make our solutions more recyclable, reusable and sustainable. We are the visionaries behind transformative solutions that improve the lives of countless people around the world every day.

80 Years of Innovation

A market leading, proprietary dosing and precision dispensing company

Proprietary Dosing & Dispensing

Precision Consumer Dispensing

Dispensing Closures

Our Mission

We serve the world's leading healthcare and consumer brands to help deliver drugs safely and effectively, and create unique consumer experiences

We partner with our customers to help them win with differentiated solutions and services

We harness the expertise of the world to innovate

We care for our planet, source renewable energy and believe that all packaging should be reused and recycled

We have talented, passionate, diverse people who thrive in our inclusive and equitable culture

We lead and inspire others by living our Core Values

Our Purpose

We innovate and transform ideas into solutions that improve everyday life

Core Values

- We respect and trust people
- We aspire to the goal of zero injuries
- We believe in the value of each individual
- We challenge ourselves to take initiative and develop our full potential
- We promote teamwork and cooperation at all levels
- We strive for relationships that are based on openness, honesty and feedback
- We act ethically and responsibly, holding ourselves accountable to all stakeholders

Millions of People Around the World Use our Products Every Day

FY Adjusted EBITDA

Free Cash Flow*

- Free cash flow was \$303 million comprising cash from operations of \$570 million, less capital expenditures, net of government grants, of \$267 million
- The year-over-year decline in free cash flow was largely due to the timing of tax payments, higher pension contributions and higher working capital in 2025
- These were partially offset by lower capital expenditures

Sustainability

Recent Recognitions

Our award-winning commitment to sustainability is a competitive advantage that drives impact for our customers

<https://www.aptar.com/esg/reporting-center/>

Aptar's Comprehensive ESG Strategy (2025-2030)

CARE

Operating from a place of care for our employees, communities and environment by continuously improving our impact and reducing our footprint.

1. Providing a safe and healthy workplace
2. Nurturing equity, inclusion and belonging
3. Pursuing Net Zero operations through validated, Science-based targets and carbon transition planning
4. Sourcing renewable electricity while minimizing our energy footprint within our operations
5. Reducing impacts on nature and biodiversity
6. Reducing operations wastes to landfill through our Landfill free Certification program

COLLABORATION

Innovating alongside customers, suppliers, industry coalitions and non-profits, enabling progress toward their goals — better outcomes for people and planet.

1. Working with diverse and responsible suppliers
2. Increasing positive social impact of products
3. Fostering the expertise to innovate responsibly
4. Optimizing economic value through sustainability
5. Participating in high-impact coalitions that align to our purpose

CIRCULARITY

Helping the industry advance system-scale change that will benefit people today and for generations to come by addressing climate change and the waste crisis.

1. Designing products with sustainability in mind including lightweighting and alternative materials
2. Increasing recycled material content in products
3. Increasing reusability of products
4. Seeking partnerships that enable circularity
5. Promoting new circular technologies
6. Promoting policies that address climate change

Corporate Social Responsibility

Community Activism

- **The AptarGroup Charitable Foundation** provides Corporate Grants to qualifying organizations and has an Employee Matching Gift Program that has helped support almost **180 nonprofits**.

Global Policies

- Continue to comply with ESG policies that uphold our commitment to **Human Rights; Inclusion, Equity & Belonging; Community Engagement and Global Giving; and Sustainable Purchasing**.

CARE International

- Through our on-going global partnership with CARE, Aptar will support CARE's mission, including **education programming, economic empowerment efforts** and CARE's crisis response funds.

Vatsalya Foundation

- Aptar Corporate University with strong support from Aptar Mumbai (India) has partnered with the Vatsalya Foundation since 2010.
- The foundation works with street children in India to provide outreach, services and shelter and Aptar employees **engage with and support** the Foundation's learning programs.

Aptar Corporate University offers training programs developed by Aptar for Aptar following the business needs cross region and cross segment within the following main topics:

- Leadership
- Leadership & Management Competencies
- Market Oriented
- Business Oriented like Strategic Thinking, Change Management, Project Management and Finance for Non-Finance

The training programs are offered in a hybrid format which combines a mixture of different learning methods such as Experiential, Online, Face-to-Face, Self-Learning and 1:1 Tutoring.

Aptar Corporate University has an extensive database of content and modular learning resources on various topics, which we leverage to develop our training programs in a flexible manner.

Employee Safety and Engagement

- Environment, Health and Safety Program includes an Ergonomics and Behavior-Based Safety Program
- Learning and development programs are offered in a hybrid format which combines a mixture of different learning methods
- Ongoing engagement and knowledge-sharing initiatives that bring leaders and teams together across regions and functions, creating communities that encourage collaboration, peer learning, networking, and the sharing of best practices and innovation.
