

JBT Corporation Wins \$4 Million Gate Equipment Order for Major U.S. Airport

CHICAGO, Oct. 31, 2011 /PRNewswire/ -- **JBT Corporation** (NYSE: JBT) today announced that its JBT AeroTech business has been awarded a contract for approximately \$4 million to supply gate equipment for the Dallas Fort Worth International Airport (DFW), "Satellite" Terminal E portion of the Terminal Renewal and Improvement Program. The contract, placed by the MBJ3 Joint Venture team (Manhattan Construction Company, Thos. S. Byrne, Ltd., James R. Thompson, Inc. and 3i Construction), includes the supply of seven Jetway® passenger boarding bridges, seven JetAire® preconditioned air units, seven Jetpower® ground power units and other ancillary products.

JBT AeroTech's gate equipment is part of the overall \$1.9 billion, seven year Terminal Renewal and Improvement Program. The Terminal E Satellite Reactivation and Infill Project will result in the construction/renovation of 54,000 square feet of space in Terminal E, and the reactivation of seven gates at the Satellite facility.

"DFW has been an important JBT customer over the years, reflected recently by the over 80 new Jetway® passenger boarding bridges that have been installed at the airport since 2005," said John Lee, Vice President and Division Manager, JBT AeroTech. "We greatly appreciate their continued confidence in JBT AeroTech's leading gate technology and are pleased to be a key part of their important expansion program."

JBT AeroTech anticipates installation of the gate equipment to be completed in the second quarter of 2012.
