

JBT Corporation Announces AGV System Contract

CHICAGO, Dec. 15, 2010 /PRNewswire via COMTEX/ --**JBT Corporation** (NYSE: JBT) today announced it received an Automatic Guided Vehicle (AGV) system contract to automate product movement in a North American integrated manufacturing and warehousing facility. The contract, valued at over \$5 million, represents the eighth consumer products facility automated by JBT Corporation's guided vehicle systems.

The AGV system includes several different types of vehicles that provide material handling throughout the manufacturing process, from the automatic delivery of raw material and work-in-process goods to the storage and retrieval of finished goods. In addition to guided vehicles, the system also includes integration of an inventory tracking software package with the customer's business system software that controls production.

"We are very proud to be awarded this order after a thorough evaluation process," stated John Lee, Vice President and Division Manager of JBT AeroTech. "It confirms both our strength in automating consumer product facilities, and our ability to reduce costs while increasing productivity in both manufacturing and warehousing applications."

The system will be commissioned in several phases with completion scheduled for the second quarter of 2012.
