# Emergent BioSolutions Participates in Upcoming International Preparedness Conferences

April 2, 2026

GAITHERSBURG, Md., April 02, 2026 (GLOBE NEWSWIRE) -- Emergent BioSolutions Inc. (NYSE: EBS), a global life sciences leader with biodefense and medical countermeasures products, announced today that members of its products business, medical affairs, government and public affairs teams will participate in the following international preparedness conferences:

- London Defence Conference, April 10-11, London, United Kingdom
- CBRN Research & Innovation Conference, May 19-21, Arcachon, France
- Global Health Security Conference, June 9-12, Kuala Lumpur, Malaysia
- BIO International Convention, June 20-22, San Diego, California, United States

“As the world navigates an increasingly complex health threat landscape, Emergent is committed to working with governments to help protect regional and global security,” said Paul Williams, senior vice president, head of products business, global government and public affairs. “We look forward to engaging with government and industry leaders to discuss how together we can strengthen preparedness and help protect and save lives.”

Emergent specializes in developing, manufacturing and delivering medical countermeasures to governments around the world for security and preparedness. These products support emergency response preparedness and help protect the public from critical threats like smallpox, anthrax, botulism and Ebola.
