FULL YEAR 2022 NET INCOME OF \$3.28 PER SHARE AND CORE INCOME OF \$3.84 PER SHARE
REGULAR QUARTERLY DIVIDEND INCREASED 5% TO \$0.42 PER SHARE
SPECIAL DIVIDEND OF \$1.20 PER SHARE

Fourth Quarter

- Net income of \$248 million versus \$266 million in the prior year quarter; core income of \$274 million versus \$265 million in the prior year quarter
- P&C core income of \$342 million versus \$353 million, reflects lower investment income from limited partnerships and common stock, as well as lower underwriting income from a \$36 million increase in pretax catastrophe losses to \$76 million.
- Life & Group core loss of \$(16) million versus core income of \$6 million in the prior year quarter reflects lower investment income from limited partnerships.
- Corporate & Other core loss of \$(52) million versus \$(94) million in the prior year quarter, includes a non-economic charge related to asbestos and environmental pollution of \$28 million after-tax versus \$48 million in the prior year quarter.
- P&C combined ratio of 93.7%, compared with 92.9% in the prior year quarter, including 3.6 points of catastrophe loss impact compared with 2.0 points in the prior year quarter. The underlying combined ratio was 91.2%, consistent with the prior year quarter. The underlying loss ratio was 59.9% compared with 60.1% in the prior year quarter.
- P&C segments, excluding third party captives, generated gross written premium growth of 8%, or 9% excluding foreign currency fluctuations. Net written premium growth of 5% in the quarter, or 7% excluding foreign currency fluctuations. P&C renewal premium change of +7%, with written rate of +4% and exposure change of +3%.

Full Year

- Net income of \$894 million versus \$1,202 million in the prior year; core income of \$1,048 million versus \$1,106 million in the prior year
- P&C core income of \$1,240 million versus \$1,184 million, reflects record high underwriting income of \$559 million as well as higher investment income from fixed income securities, partially offset by lower investment income from limited partnerships and common stock.
- Life & Group core loss of \$(9) million versus core income of \$126 million in the prior year reflects lower investment income from limited partnerships.
- P&C record low combined ratio of 93.2%, compared with 96.2% in the prior year, including 3.0 points of catastrophe loss impact compared with 5.1 points in the prior year. The underlying combined ratio was a record low 91.2% compared with 91.4% in the prior year. The underlying loss ratio was 60.0%, consistent with the prior year.
- P&C segments, excluding third party captives, generated gross written premium growth of 10%, or 11% excluding foreign currency fluctuations. Net written premium growth of 9% in the year, or 10% excluding foreign currency fluctuations. P&C renewal premium change of +8%, with written rate of +5% and exposure change of 3%.

Shareholders' Equity

- Book value per share of \$32.58; book value per share excluding AOCI of \$45.71, a 7% increase from year-end 2021 adjusting for \$3.60 of dividends per share.
- Increased quarterly dividend 5% to \$0.42 per share; special dividend of \$1.20 per share.

"We had another excellent quarter with solid top-line growth and strong underwriting profitability which capped off an excellent year of underwriting performance. Gross written premium growth ex captives was 8% for the quarter and 10% for the year, marking two straight years of double-digit growth. Overall P&C renewal premium change was 7% in the quarter and 9% in Commercial which is up 2 points from the third quarter. The combined ratio was 93.7% for the quarter and a record low 93.2% for the year. We produced core income of \$274 million for the quarter and \$1,048 million for the year. Core income was greater than \$1 billion for the second straight year and represents our highest two-year total on record. Given our strong results in 2022, we are optimistic about our opportunities to capitalize on the continued favorable market conditions, and achieve a meaningful benefit from the tailwind of higher yields on our fixed maturity portfolio," said Dino E. Robusto, Chairman & Chief Executive Officer of CNA Financial Corporation.

Life & Group

(\$ millions)	Results for the Three Months Ended December 31		Results for the Year Ended December 31	
	2022	2021	2022	2021
Net earned premiums	\$ 117	\$ 122	\$ 473	\$ 491
Net investment income	204	242	804	966
Core (loss) income	(16)	6	(9)	126

Core results decreased \$22 million for the fourth quarter of 2022 as compared with the prior year quarter primarily due to a \$40 million pretax decline in net investment income from limited partnerships partially offset by improved morbidity.

Corporate & Other

(\$ millions)	Results for the Three Months Ended December 31		Results for the Year Ended December 31	
	2022	2021	2022	2021
Net investment income	\$ 9	\$ 3	\$ 19	\$ 15
Insurance claims and policyholders' benefits	40	86	76	109
Interest expense	28	28	112	112
Core loss	(52)	(94)	(183)	(204)

Core loss improved \$42 million for the fourth quarter of 2022 as compared with the prior year quarter. The application of retroactive reinsurance accounting to additional cessions to the A&EP Loss Portfolio Transfer in both periods resulted in after-tax non-economic charges of \$28 million and \$48 million in 2022 and 2021, respectively. The additional cessions in those periods were \$87 million and \$138 million, respectively. Results for the prior year quarter include a \$16 million after-tax impact from unfavorable development related to legacy mass tort exposures in the fourth quarter of 2021.

Net Investment Income

	Results for the Three Months Ended December 31		Results for the Year Ended December 31	
	2022	2021	2022	2021
Net investment income	\$ 503	\$ 551	\$ 1,805	\$ 2,159

Net investment income decreased \$48 million for the fourth quarter of 2022 as compared with the prior year quarter. The decrease was driven by a decline in income from limited partnership and common stock investments, which returned 0.9%, or \$20 million for the fourth quarter of 2022 compared with a return of 5.1%, or \$108 million in the prior year quarter. The decrease was partially offset by a \$33 million increase in income from fixed income securities.

Stockholders' Equity

Stockholders' equity of \$8.8 billion decreased 31% from year-end 2021, primarily due to net unrealized investment losses compared to net unrealized investment gains at year-end 2021, resulting from the effect of higher interest rates on the fair value of the fixed income portfolio and dividends paid to stockholders, partially offset by net income. Net unrealized investment gains decreased \$3.8 billion after-tax driven by a decrease in unrealized investment gains of \$7.8 billion, partially offset by Shadow Adjustments of \$3.1 billion and tax of \$1.0 billion. Book value per share of \$32.58 likewise decreased 31% from year-end 2021.

Book value per share ex AOCI of \$45.71 increased 7% from year-end 2021 adjusting for \$3.60 of dividends per share.

As of December 31, 2022, statutory capital and surplus for the Combined Continental Casualty Companies was \$10.6 billion.

Definition of Reported Segments

- **Specialty** provides management and professional liability and other coverages through property and casualty products and services using a network of brokers, independent agencies and managing general underwriters.
- **Commercial** works with a network of brokers and independent agents to market a broad range of property and casualty insurance products to all types of insureds targeting small business, construction, middle markets and other commercial customers.
- **International** underwrites property and casualty coverages on a global basis through a branch operation in Canada, a European business consisting of insurance companies based in the U.K and Luxembourg and Hardy, our Lloyd's Syndicate.
- **Life & Group** primarily includes the results of the individual and group long term care businesses that are in run off.
- **Corporate & Other** primarily includes certain corporate expenses, including interest on corporate debt, and the results of certain property and casualty business in run-off, including CNA Re, asbestos and environmental pollution (A&EP), excess workers' compensation (EWC) and legacy mass tort.

Financial Measures

Management utilizes the following metrics in their evaluation of the Property & Casualty Operations. These ratios are calculated using financial results prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

- **Loss ratio** is the percentage of net incurred claim and claim adjustment expenses to net earned premiums.
- **Underlying loss ratio** represents the loss ratio excluding catastrophe losses and net prior year loss reserve and premium development.
- **Expense ratio** is the percentage of insurance underwriting and acquisition expenses, including the amortization of deferred acquisition costs, to net earned premiums.
- **Dividend ratio** is the ratio of policyholders' dividends incurred to net earned premiums.
- **Combined ratio** is the sum of the loss, expense and dividend ratios.
- **Underlying combined ratio** is the sum of the underlying loss, expense and dividend ratios.
- **Renewal premium change** represents the estimated change in average premium on policies that renew, including rate and exposure changes.
- **Rate** represents the average change in price on policies that renew excluding exposure change. For certain products within Small Business, where quantifiable, rate includes the influence of new business as well.
- **Retention** represents the percentage of premium dollars renewed, excluding rate and exposure changes, in comparison to the expiring premium dollars from policies available to renew.
- **New business** represents premiums from policies written with new customers and additional policies written with existing customers.

Gross written premiums ex. 3rd party captives represents gross written premiums excluding business which is ceded to third party captives, including business related to large warranty programs.

Underwriting results represent net earned premiums less total insurance expenses, which includes insurance claims and policyholders' benefits, amortization of deferred acquisition costs and other insurance related expenses, pre-tax.

Statutory capital and surplus represents the excess of an insurance company's admitted assets over its liabilities, including loss reserves, as determined in accordance with statutory accounting practices. Statutory capital and surplus as of the current period is preliminary.

The Company's investment portfolio is monitored by management through analysis of various factors including unrealized gains and losses on securities, portfolio duration and exposure to market and credit risk.

To the extent that unrealized gains on fixed income securities supporting long term care reserves would result in a premium deficiency if realized, a related increase in Insurance reserves is recorded, net of tax, as a reduction of net unrealized gains (losses), through Other comprehensive income (loss). To the extent that unrealized gains or losses on fixed income securities supporting structured settlements not funded by annuities would impact the reserve balance if realized, a related increase or decrease in Insurance reserves is recorded, net of tax, as a reduction or increase of net unrealized gains (losses), through Other comprehensive income (**Shadow Adjustments**).

Reconciliation of GAAP Measures to Non-GAAP Measures

This press release also contains financial measures that are not in accordance with GAAP. Management utilizes these financial measures to monitor the Company's insurance operations and investment portfolio. The Company believes the presentation of these measures provides investors with a better understanding of the significant factors that comprise the Company's operating performance. Reconciliations of these measures to the most comparable GAAP measures follow below.

Reconciliation of Net Income (Loss) to Core Income (Loss)

Core income (loss) is calculated by excluding from net income (loss) the after-tax effects of net investment gains or losses and any cumulative effects of changes in accounting guidance. The calculation of core income (loss) excludes net investment gains or losses because net investment gains or losses are generally driven by economic factors that are not necessarily reflective of our primary operations. Management monitors core income (loss) for each business segment to assess segment performance. Presentation of consolidated core income (loss) is deemed to be a non-GAAP financial measure.

Reconciliation of Net Income (Loss) per Diluted Share to Core Income (Loss) per Diluted Share

Core income (loss) per diluted share provides management and investors with a valuable measure of the Company's operating performance for the same reasons applicable to its underlying measure, core income (loss). Core income (loss) per diluted share is core income (loss) on a per diluted share basis.

Core income per diluted share	<u>\$ 1.01</u>	<u>\$ 0.97</u>	<u>\$ 3.84</u>	<u>\$ 4.06</u>

Reconciliation of Book Value per Share to Book Value per Share Excluding AOCI

Book value per share excluding AOCI allows management and investors to analyze the amount of the Company's net worth primarily attributable to the Company's business operations. The Company believes this measurement is useful as it reduces the effect of items that can fluctuate significantly from period to period, primarily based on changes in interest rates.

	December 31, 2022	December 31, 2021
Book value per share	\$ 32.58	\$ 47.20
Less: Per share impact of AOCI	(13.13)	1.18
Book value per share excluding AOCI	<u>\$ 45.71</u>	<u>\$ 46.02</u>

Calculation of Return on Equity and Core Return on Equity

Core return on equity provides management and investors with a measure of how effectively the Company is investing the portion of the Company's net worth that is primarily attributable to its business operations.
