PPG to Showcase Innovative Aerospace Products, Services at Singapore Airshow

02/03/2020

New industry offerings include lightweight, sustainable aircraft products

SINGAPORE--(BUSINESS WIRE)-- PPG (NYSE:PPG) today announced that it will highlight its full range of aerospace products and services at the Singapore Airshow at Changi Exhibition Centre in Singapore, Feb. 11-16, 2020.

The PPG booth (D79) will showcase an array of innovative industry offerings, including coatings, sealants, transparencies, packaging and application systems, engineered materials and transparent armor, as well as chemical management and other services.

In addition to its broad range of lightweight and sustainable products, the company will feature its PPG SOLARON BLUE PROTECTION™ UV+ blocking technology for aircraft windows. This recent technology helps protect aircrews, passengers and aircraft interiors from solar radiation.

Held biannually at Changi Exhibition Centre in Singapore, the Singapore Airshow is Asia's largest aerospace and defense event.

PPG is investing in a new 38,750-square-foot (3,600-square-meter) application support center (ASC) at Seletar Aerospace Park near the Seletar Airport in Singapore. The project is the company's largest investment to date in Southeast Asia, at approximately \$15 million.

Scheduled for completion in mid-2020, the ASC will accommodate increased demand for aerospace sealants, adhesives, coatings, transparencies, chemical management services and the packaging of third-party products.
